

**1. Product Name**

Roller Tunnel by ROMPA®

**2. Product Code**

12021

**3. Colour**

As shown above. Customer can choose from a range of colours, please contact ROMPA® for colour choices

**4. Brief Description**

This Soft Tunnel has internal fibre board reinforcements to prevent collapse. It is great fun to crawl through, climb on and roll on.

**5. Contents**

- 1 x Roller Tunnel

**6. Snoezelen® Stimulations**

- Sight
- Vestibular

## 7. Best Use

Position this Roller Tunnel in an area that is safe for play. To use the Roller Tunnel away from its base, a larger area will be required than if it is used in a static manner to crawl through.

## 8. Compatible ROMPA® Products

ROMPA® offers an extensive range of soft play items and wall/floor cushioning. Visit [www.rompa.com](http://www.rompa.com) for more information.

## 9. Starting Up

- Choose a suitable location indoors where there is enough room to use it safely.

## 10. Detailed Description

This Soft Tunnel has internal fibre board reinforcements to prevent collapse. It is great fun to crawl through, climb on and roll on. The tunnel section can be used on or off the base which itself provides a nice soft shape to lie on. This unit creates endless opportunities for imaginative play.

## 11. Safety

Please read all the following safety information before each use

### **ALWAYS SUPERVISE THE USE OF THIS PRODUCT**

- Use indoors, in dry environments.
- Remove all packaging and either store this in a safe place out of reach of clients or dispose of this responsibly. Plastic bags and wrapping can be hazardous to children and vulnerable people.
- Should any seams become damaged, contact ROMPA® immediately to arrange repair or replacement. Should the product require re-filling, contact ROMPA® immediately to discuss this.
- Do not place near sources of heat or fire that may damage the surface (radiators, fires, underfloor heating, hot central heating pipes etc.)

- Some of our products contain zips for manufacturing purposes only. Do not attempt to open these or to access the interior part of these products. Never allow children or vulnerable people to access the interior part of this product.

## **12. Technical Specification**

Size:               72cm outside diameter  
                      55cm internal diameter  
                      145cm long  
                      145 x 72.5cm base

## **13. Installation**

Place product on a flat surface in an area that is suitable and located away from thoroughfares, access areas, doors and fixed obstacles.

## **14. Care and Maintenance**

- Organise a regular cleaning schedule.
- Vinyl will crack, tear and rub off if subjected to sharp objects or continual rubbing by hard objects. Remove shoes, and avoid buckles, zips or sharp/hard/pointed objects coming into contact with the surface.
- Check seams regularly to ensure that these are not worn or split and the interior filling cannot be accessed.
- Wipe off accidental marks/liquids at the time they occur or are noticed.
- From time to time, if possible, lift floor cushion or move furniture to clean all surfaces and the floor underneath.
- Furniture and cushioning is intended to provide comfort and relaxation. Avoid eating and drinking whilst using these products.
- If the material for your furniture can be steam cleaned, please exercise great caution for the simple reason that when creating furniture, seams and stitching are necessary which create tiny holes where it is possible for liquid to get through into the inner foam. Should a lot of steam/water be accidentally used, there is potential for the inner foam to get saturated and be detrimental to your furniture.
- Direct contact with bright sunlight may affect material over time.
- Do not saturate the material with lots of water.

### **PVC (Vinyl) Care**

- Use a soft brush remove all loose dust/dirt
- Clean with a mild detergent (such as Lux soap flakes in luke-warm solution) applied to a sponge or damp cloth.
- This may be sanitised using a weak solution of Milton fluid.
- Do not use excessive amounts of water and always ensure the PVC is dry after cleaning.
- Do not use an abrasive cleaning pad.

- Do not use boiling/very hot water, washing up liquid / aggressive detergent or solvent based cleaner as this will cause the coating to discolour and go hard.
- Steam cleaning is not advised.

## 15. Troubleshooting

Not applicable
