It is up to you which aromas you choose to use with the bags. You may find the following suggestions helpful. These are suggestions only, and must be carefully adapted to suit the needs and preferences of your clients.

Apply a couple of drops of essential oil to cotton wool and place the cotton wool inside the bag. ROMPA® offers the following Aromatherapy Kits which contain a good selection of oils: see codes 14032, 52084 at www.rompa.com

For the Newborns Lily and Elias, you may wish to apply a little baby oil to the cotton wool to achieve a smell associated with babies.

You could use a small bar of soap or pot-pourri, or spray a little perfume onto cotton wool.

You may wish to choose naturally occurring substances to create an aroma e.g. herbs, lavender, star anise, cardamom pods, cinnamon bark etc.

The bags have two cords sewn to them, towards their opening – these can be tied to keep the aroma inside the bags.

Take care to enclose the aroma inside cotton wool or a tissue to help keep the bags clean.
