# SNOEZELLEN® FOR OLDER ADULTS

*Transform any space into a multi-sensory reminiscence area using our innovative, space saving furniture range.*

Space is often a premium in care homes and it may not always be possible to provide a dedicated Snoezelen® Multi-Sensory Environment and reminiscence room. Rompa® understands the challenge and has created a solution by combining traditional furniture with Snoezelen® multi-sensory products.

**Grandfather Glow Clock** - A modern twist on an old classic, the grandfather clock still works to provide the correct time however the central column is ambiantly illuminated to contribute to a relaxing environment.

**Infinity Table** - Safely enclosed lights give the illusion of continuing deep within the spacious table. The LEDs automatically change colour in a gentle cycle to provide soothing mood lighting and to maintain interest.

**Multi-Purpose Television** - All the definition, reliability and quality of a modern TV but with the reassuring and nostalgic appearance of early models. The old-style exterior deceptively houses an up-to-date television.

**Fibre Optic Table** - Large enough to keep necessities to hand with the added benefit of sensory activity. The fibre optic strands can be placed over the user's lap to provide soothing mood lighting that can be safely held and explored.

**Faux Flame 'Fireplace'** - Adds character and sensory comfort to rooms that have central or underfloor heating. The mood lit area changes colour slowly to whilst the retro styling is reminiscent of household styles of yesteryear.

**Rocking Chair** - A comfortable and wipe free version of this comfy classic.
