Care of your products

We want you to be happy with your purchases from this catalogue. To help you to buy products that are suitable, appropriate and that meet the needs of your clients, we aim to include as much product information in this catalogue as possible. This includes safety age guidelines (e.g. ‘For 3 years and over’) and practical information such as dimensions (e.g. ‘Small parts’) and material information (e.g. fur with long fibres, glass). For further information, please visit our website and refer to the product descriptions there, along with the instructions for those products (where applicable).

All of our products are intended to be used appropriately, under the supervision of a responsible adult. Some products, such as those intended for Sensory Integration therapy, should be used by suitably trained professionals only.

Always install and use products safely, seeking advice from suitably qualified professionals as necessary.

Always supervise the use of all of our products.

Whilst we make every effort to provide products that are sturdy and appropriate, it is your responsibility to check their suitability for your clients, and to use them appropriately. For example, not all our products are suitable for those who mouth, or for those with challenging behaviours. Some products are intended for decorative purposes rather than for handling. Some are intended for indoor use only, and some will require specific on-going checks and maintenance.

Our products are selected for their robustness and durability. However, they will not withstand misuse or abuse. Please use our products with care, following the care and maintenance advice provided.

A wonderous multi-purpose space that can be used to calm or engage and delight its user!

Snoezelen® Multi-Sensory Environments are, by nature, relaxing spaces that help reduce agitation and anxiety. However they can also engage and delight the user, stimulate reactions and encourage communication.
• 1) Advisor Visit
The journey begins with a visit from a sales advisor to gain an understanding of your needs and what you are trying to achieve.

• 2) Planning/Design
From the information provided by the sales advisor the designer will begin to create your bespoke space.

• 3) Visual
The plans are then enhanced and a visual is created. This enables you to experience the space as if you were stood in the room.

• 4) Reality
The journey ends with your fabulous new room! Our installers will provide comprehensive onsite training on products and show you how to get the best use out of your room.

Finally, our after sales support are always on hand to give you help and advice on your new installation.

**Fabrics and Colours**

**PVC (Vinyl)**

The most durable, and popular, of all our fabrics. Extremely hard-wearing, PVC is easy to clean, water-resistant and treated with fungicide. Latex- and phthalate-free, this strong fabric has a polymer coating on both sides, making it rigid and helping products to maintain their shape. Our PVC has a ‘Cape’ or subtly textured and fungicidal finish, and is available in a huge spectrum of colours and tones. This extensive choice lends itself well to two-tone finishes, such as purple with lilac, or sky blue and ice blue. We can also print a range of motifs onto PVC, including your own imagery for bespoke solutions.

**NEW COLOUR**

**Turquoise**

**Faux Suede**

Arguably the softest of our fabrics, and is similar in texture to suede. More akin to fabrics used in domestic furniture, this supple fabric is water-resistant, extremely comfortable, stain-resistant and antibacterial. Available in subtler shades of colour than PVC and Polyester, this fabric may be more age-appropriate for older adults. Although durable, this fabric has a short pile and is less hard-wearing than PVC. As such, it should not be chosen for areas of heavy use such as step treads or floor cushioning.

**Ideal For:**
- Sensations E Chair
- Supa Squasy Sofa
- Positioner

**ROMPA®**

**Fabrics and Colours**

Fabrics used by ROMPA® have been selected for their high quality, reliability, durability and suitability for our marketplace. Our fabrics are complimented by the use of high quality fillings such as bead and foams of various densities to allow us to manufacture an extensive range of soft and pliable or firm and supportive products. All our fabrics (and the products made from these and our fillings) meet appropriate fire-retardancy standards, and we can manufacture to Crib 5 and Crib 7 requirements by special order.

Our attention to detail is second to none – from our high quality non-slip fabric to the colour-matched threads that are used to hand-finish our products, ROMPA® has earned its reputation for consistently excellent standards.

This applies to our standard products, as well as to any bespoke solution requested by our customers. The colours shown here are from our standard range but we will gladly accommodate special requests for further colour options.
POLYESTER
Slightly warmer to the touch than PVC, and more flexible. This makes Polyester best-suited to products which allow clients to sink into them and which mould to the user’s shape.

Ideal For:
- Mini Floppy Islands
- Squasy Seating
- Sensory Cuddles
- Splodges

ROMPA® manufactures cushioning, furniture and soft play in a large range of fabrics and colours.

NEW

Fabrics and Colours

FAUX LEATHER
Available in striking modern colours, this subtly-textured fabric is as hard wearing as it is stylish. Vibrant yet tasteful, this strong fabric is a combination of PVC, Cotton, Polyester and PU. Fire-retardant (Crib 5), phthalate-free, anti-microbial and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching.

Faux Leather Fabric can be found in the new Chatsworth Furniture range. Whole pieces of Chatsworth furniture can be made in up to two colours of Faux Leather, or one colour can be selected with one colour of Textured Fabric on the sides.

Textured Fabric
Contemporary yet classy colours with a blend of texture and softness to suit every indoor environment. Beautiful, tactile and practical. Fire-retardant (Crib 5), stain-resistant, phthalate-free and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching. All the colour options are anti-microbial.

Textured Fabric can be used in the new Chatsworth Furniture range. The sides of these products can be made in Textured Fabric, whilst the remainder (e.g. seat and cushions) is typically in Faux Leather.

Ask us for a fabric swatch to help you make your fabric and colour choices.

For the full range of Chatsworth Furniture see pages 88-91
Snoezelen® and Rompa® - the Evolution

During the late 1970s pioneer therapists Jan Hulsegge and Ad Verheul experimented with a sensory tent at the DeHartenburg Institute. The term Snoezelen® was coined soon after, which is a contraction of the Dutch verbs “snuffelen” (to seek and explore) and “doezelen” (to relax).

It is now over 30 years since Rompa® brought the concept of Snoezelen® to the UK and have developed a range of products and created bespoke environments based on its principles.

As the popularity of Snoezelen® grew so did Rompa®, quickly becoming the leading UK provider before developing key partners around the world. Rompa® also owns the trademark for the name Snoezelen® when applied to products. You know you are buying quality when you buy a Rompa® Snoezelen® product.

30 years on, as Snoezelen® continues to grow, the principles and benefits of Snoezelen® remain hugely significant to individuals with a range of needs all over the world. Snoezelen® continues to:

- provide meaningful multi-sensory spaces and activities
- reduce anxiety and offer calming solutions
- build self-esteem
- focus on the individual with a person-centred approach
- respect each person’s choices, needs, pace and preferences

Back in 1980s Jan Hulsegge and Ad Verheul wrote of the carers’ own experiences and emotions also being affected by Snoezelen, as well as that of the cared for individual. They documented how Snoezelen® could also be a meaningful occupation for other target groups including older people with Dementia and psychiatric patients, as well as for those without disabling conditions.

It is now widely accepted and anyone and everyone can benefit from Snoezelen®.
Not surprisingly over the last few decades, Snoezelen® has evolved enormously, as have the needs of the individuals benefitting from it. Snoezelen® has a rich history in health settings and schools for people of all ages and abilities. In recent years, as the awareness of conditions such as Autism and Mental Health problems grows, demand for Snoezelen® environments has grown. We have made Snoezelen® accessible in airports, football stadia, shopping centres and even a donkey sanctuary!

From the outset, the evolution and growth of Snoezelen® has been intrinsically linked to ROMPA®. We have a wealth of experience and expertise, and a strong desire to provide you with the best possible sensory solution.

We believe ours are the best – your continued loyalty suggests you, our customers agree!

“A flood of air bubbles, a series of colourful, glittering little balls ... the visual stimulus predominates and the tactile comes later ... the tactile sensation is especially valuable for blind visitors ... there is also auditory stimulus. The stream of bubbles makes a gurgling sound and there is the hum of the air pump.”

Snoezelen Another World book

“Absolutely STUNNING
We couldn’t be more pleased. We have only had cheap tubes before this one and the difference is astounding. When we first turned it on we all took a gasp it was so beautiful. It’s so bright and vibrant. The actual bubbles are huge. The gurgling and vibration are very soothing. It’s extremely sturdy and well built and shouts high quality product. Fantastic product, highly recommended.”

“My son loves this and so do we, he is much more calm after using the roller board!”
Liza M., Verified Buyer, Stirling

**Corner Ballpool by ROMPA®** - See page 113

“Fantastic item for where space is an issue. We ordered this product back in 2006 for our daughter … and it’s still going strong! Really durable, tough vinyl … and not a rip or tear in it 9 years on! I cannot praise highly enough how sturdy the walls are once fixed … many a time ‘perched’ on by us when supervising daughter … and no dents from our weight!! It’s a fantastic design that can fit into any corner, utilising your existing walls for the rear 2 sides … It was easy to fix with the wooden brackets attached, and has stayed put all these years with no problems at all! The inner floor mat is also tough … made from heavy duty vinyl, which velcros on to the sides to fix. All in all, this ball pool scores highly with me 11/10 … definitely a quality item that is well made and lasts many years, as mine has proven!”
Lisa, Verified Buyer

**4R** - See page 98

“Rest, Recovery and Re-Orientation Rooms can help by:
- Reducing the need to physically intervene
- Reducing the need for holding for long periods
- Reducing the need for staff involvement and numbers required
- Reducing potential injuries to the Young Person, others and staff
- Reducing inappropriate physical contact and possible allegations of staff abuse”
Tony Ryall, Trainer and Consultant

**LED Projector for Water Environments** - Page 75

“The transformation of the bathroom is magical. The projected image covers a large wall and makes the bathroom a much more relaxing place. Being able to change the effect wheel when I want to means that it’s very quick to change the image. Perfect!”
Kate, parent

- Wireless for seamless and instantaneous control of individual products as well as whole rooms

This versatile system includes a touch screen, software, wireless keyboard and mouse, digital projector and stereo speakers. For safety, it can be locked when not in operation. By using Sensory Magic® with the wide range of compatible Multi-Sensory products made exclusively by ROMPA®, users can create unique immersive environments and experiences like never before; and control them. Both the fixed and portable systems require, but do not include, ROMPA® Wi-Fi multi-sensory products and internet access for remote support - see www.rompa.com for compatible products.

Meeting all appropriate CE and FCC standards, this cleverly conceived package is compact and simplicity itself to use. Please contact us for further information.

Wi Fi Interactive Mat Switch Set by ROMPA®

Nine tactile floor mats to allow control of ROMPA® bubble tube, light source (carpets and fibre optics), wall panel and Wi Fi lighting colours.

Walk on the green mat to turn your Snoezelen® Wi Fi product green... step onto purple to turn it purple... and so on! Each mat has its own texture – and colour, matching those of our 8 Colour Wirefree Controller. Black carpet turns the colour off. Large surface area is perfect for those without the finer motor skills to operate smaller switches and allows several users to play together and take turns. Mats can be placed on the floor or wall-mounted. Please contact us for ever-increasing list of compatible products. Requires a PP3 9V battery (to be purchased separately).

Size: each mat approx 40 x 32 cm

Wi Fi Overrider Transmitter

A discrete controller to allow carers, teachers and supervisors to override our other Wi Fi controllers. Designed for situations where a client has almost activated one of our Wi Fi controllers but has not exerted enough pressure on a switch button, or has missed the button. Intended to make sure a client receives a reward for their efforts, and so keep clients motivated and encouraged. Allows the carer to change and maintain the colour of Wi Fi products when they are with clients and so avoids the need to move, disturb or distract the client when they are focused on the activity. Includes the infra-red handset (with 1 CR2025 button cell battery included), controller interface and universal power supply. Requires a Wi Fi Controller (e.g. Deluxe 8 Colour Wirefree Controller) and Wi Fi responsive products such as bubble tubes, light sources etc.

Size: handset 8.5L x 5.1 x 0.7 cm

Talking Cube by ROMPA®
- A highly popular product in our Wi Fi range
- Can change Bubble Tube, Panel, Wi Fi LED Spotlight, Wi Fi Colour Wall Controller, Wi Fi Mood Lighting and Fibre Optic colours
- No PC or programming required
- Audible and visual!
- Easily personalised with your own recordings and images

This wireless talking soft play cube is multi-purpose and has endless educational applications. It enables the user to control the colours of the sensory environment - throw or drop the cube and change the room colours. Each of the 6 brightly coloured sides has a transparent pocket into which you can add your own pictures, symbols, words or photographs. You can easily customise each cube face with your own pre-recorded message, with your voice! To promote colour recognition, simply roll the cube and listen as the name of the uppermost colour is heard. Make the cube land on the colour blue and be rewarded with the sound “blue!” Throw a green and hear the word “green” and so on. Ideal for developing the understanding of cause and effect, colour recognition, picture recognition, reminiscence, developing listening and motor skills, put dots in the pockets for use as a die... the possibilities are endless!

Includes cube, speaker and 9V battery. This product has a zip for manufacturing purposes only.

Size: Approximately 30x30x30cm.

**Bubble Tube Accessories**

**Bubble Tube Balls - Set of 15**
Spare balls for your Ball-Bubble Tubes.

R815203 £32.95

**White Bubble Tube Balls - Set of 10**
More subtle than the brightly coloured balls 15203, watching the repetitive movements of these white alternatives can be calming.

R821799 £25.00

**NEW! Translucent Beads – Set of 50**
Adds colour and additional visual interest to your bubble tube, as well as subtle noise as these tap against your bubble tube. Assorted colours. Small parts, these are intended to be inaccessible (within the bubble tube). Especially effective in Midi Bubble Tubes. For larger Maxi bubble tubes, we suggest you purchase multiple packs.

Size: 2cm diameter

R822806 £4.00

**Fish & Sea Creatures - Set of 8**
Colourful and visually appealing. Fish and creatures may be found at different levels of the bubble tube. Typically includes 6 fish, a seahorse and a jellyfish but contents may vary according to availability. These are intended for use in bubble tubes. These are not intended to be handled and are not toys.

R821193 £20.00

**Cubes – Set of 20**
A simple but very effective way to add colour and additional visual interest to your bubble tube. Assorted colours. Small parts, these are intended to be inaccessible (within the bubble tube). Especially effective in Midi Bubble Tubes. For larger Maxi bubble tubes, we suggest you purchase multiple packs.

For Maxi Bubble Tubes.

R821005 £42.00

**Bubble Tube Filling Pump**
Enables your Maxi Bubble Tube to be filled from the base, rather than via the top of the tube. Includes pump, tubing and power cable to connect to the Maxi Bubble Tube's power supply.

R820908 £45.00

To counteract the risk of bacterial growth in the bubble tube water the following procedures are suggested:

* Monthly changing of the water using an appropriate pump
* Monthly addition of BCB Fluid

This information is given without prejudice and in good faith and infers no liability on ROMPA®'s part.

**BCB Water Treatment Fluid**
Add monthly to the water in your Bubble Tube to help prevent bacteria, smell and algae. Organic biocide that will not cloud or damage the acrylic tube. Simple and safe to use. A single bottle can treat a 1m tube for up to 2 years. Long shelf life – lasts up to 4 years. 500ml.

Custom-Made Cushioned Platforms

ROMPA® can manufacture Cushioned Platforms to suit your space exactly. You tell us the dimensions and shape it needs to be, how many bubble tubes it's for and if 'mouse holes' are required for fibre optics. We will gladly then prepare a quotation for you. We can of course also supply mirrors in almost any size to compliment your bespoke platform.

Cushioned Platform by ROMPA®

A foam padded wooden frame designed to encase the bases of up to three Bubble Tubes. Allows access to the base of the Bubble Tube for maintenance. When ordering, please state the number of bubble tubes to be accommodated and the position of platform. Customised options available - We can manufacture these in sizes and shapes to suit you at very reasonable prices. This product has a zip for manufacturing purposes only. Additional cushioning shown for illustration purposes.

SNOEZEL® MULTI-SENSORY ENVIRONMENTS | Fibre Optics

Fibre Optics provide light you can touch, hold, capture and feel. Ideal for those with sensory avoidance and difficulty enjoying the normal range of lighting effects. Fibre optics stimulate and hold attention. They are safe to touch, phthalate-, glass- and latex-free. Fibre Optics from ROMPA® are three-strand and so are considerably more effective than cheaper single strand options. Our wonderful light sources complement these safe fibre optics perfectly - they are quiet, cool, very compact and also wirelessly interactive. Fibre optics are safe to handle but should never be mouthed.

Ultra Violet Fibre Optics
Now plastic for improved safety!
Sparkling, captivating, stunning and now glowing too! Fibres twinkle like your usual fibre optics, but there's more! Double their effectiveness and use them under UV light for glow-in-the-dark strands and extra visual appeal. With crimped ends.
Requires light source 19210 or 21452 for 2 harnesses.

Fibre Optic Torch by ROMPA®
A compact and portable light source with a mini multi-texture fibre optic harness. As this does not need plugging into the mains, this can be easily moved from room to room, and is light-weight enough for many clients to be able to hold safely to enjoy light comfortably. With different colour, step and fade modes of operation. Includes 3 AAA batteries. Accommodates our other fibre optic harnesses although larger options are not recommended for use with this torch. Not compatible with ROMPA® Wi Fi controllers or Wi Fi responsive products. 3W (our Light Source 19210 is 15W).

Jumbo ‘Bamboo’ Fibre Optics
Visually appealing as you would expect of fibre optics – and highly tactile too! Chunky strands encase the polymer fibre optics for further safety. Requires light source 19210 or 21452 for 2 harnesses. Easy to grip. With crimped ends. Phthalate-free. Translucent.

Light Source by ROMPA®
With LED technology, this Wi Fi light source is cool-running and maintenance-free. Compatible with Sensory Magic® and an interactive device such as Colour Changing Panel, Wi Fi Microphone, Talking Cubes or 8 Colour Wirefree Controller. Ideal for sensory stimulation, colour recognition, and developing the understanding of cause and effect. Compact and can be wall-mounted.

“A valuable resource for customers using our service at Goscote Centre. It provides multiple benefits where our customers can explore the sensory environment via the use of interactive beams. Uploading photographs personal to the individual using the system creates a unique experience which can be comforting, whilst enhancing learning and play. The sessions are tailored and personalised to meet individual need which is an objective we aim to achieve throughout our day to day service delivery. We use our system in many ways e.g. to develop interactive skills within small groups to encourage the users to take turns to activate the beams. For customers who benefit from visual stimulation seeing images that change as a result of their actions develops their understanding of cause and effect”.

Emma Partridge, Senior Reablement Officer, Day Opportunities & Employment Adult Social Care

“The system has been a very accessible and exciting for our pupils. It is very responsive to the smallest movement so even our more physical disabled pupils have been able to produce sound and contribute to a greater sound installation, for example, our iPad Orchestra. Pupils were very keen to give it a go and experiment with the sound effects”.

Ellen Croft, PMLD Curriculum Leader, Leicester

“Excellent for immediate engagement in a huge range of activities that can cover pretty much any area of the curriculum. For first-time musicians it can be used as an errorless method to explore an instrument or for those struggling to engage in maths, it can be subtly woven into numeracy-based activities... Easy to use which enables all the staff, regardless of their IT capabilities... One of the greatest features is that it can be completely customised to suit the needs of a wide variety of learner profiles... Our learners have loved using the Optimusic system and are also realising the health benefits of ‘Chase the Beam’ has become enormously popular”.

Chris Buckley, Head of Education, School in Seaford

“We use our Opti-music in all our themes created within our Curriculum Sensory Space. These have included themed sessions such as the circus where students had the opportunity to sit or lay in a sensory swing and move around with batons or stick on pads to break the beams making various circus themed noises whilst pretending to be Acrobats.

On the Farm - students had great fun taking turns to guess what animal would appear on the screen and what noise they could hear when breaking the beams.

In our Native Americans theme the students had the opportunity to make up tunes using the drum programme and each took turns breaking a beam matching colour symbols to colour beam to create a drum beat for a pretend Pow Wow.

The Opti-music has become a valuable piece of equipment in our Curriculum Sensory Space and has given our students the opportunities to develop both fine and gross motor skills, concentration skills, social skills and most importantly independence by being able to explore and create to their own level of abilities”.

Clare Coombs (HLTA), School, Bracknell
The systems offered here by ROMPA® have been specifically developed for the special needs market. Created on the foundations of a sound understanding of disabilities, these are purposeful first and foremost, and not simply adaptations of audio-visual products for able-bodied users. Ask us for a demonstration of the Mobile Interactive Floor and you’ll be in no doubt why this is the best system available.

- R822355 Strong Colours, Magnetic VAT Relief £49.95

Wireless Magnetic Wheel Rotator
Required to turn the Effect Wheel in the LED100 Projector 22612 and LED Projector 22611. Operates automatically once placed in these Projectors, without the need for any cables to connect this to the projector. 1 revolution in 2 minutes.

Size: approximately 12H x 8.5W x 5cmD

- R822614 VAT Relief £47.95

Panoramic Rotator
The Panoramic Rotator projects the central image of the effect and at the same time sends the same image orbiting around the room. It attaches to the lens of the Projector.

- R822636 £95.00

Clip-on Prism
Reproduces the original effect four times and gives the illusion of movement. The Spring, Summer, Autumn and Winter Effect Wheels are especially effective when used with this 4-facet prism.

- R819934 £65.00

Magnetic Adapter
Turn your own existing Standard Wheel Rotator with a spindle into a Magnetic Wheel Rotator so that you can use Magnetic Effect Wheels and Magnetic Liquid Wheels too. An inexpensive alternative to buying a separate Magnetic Wheel Rotator.

- R822394 VAT Relief £8.45

White Projection Umbrella
Portable and quickly set up projection surface. Perfect where space is limited and walls are too ‘busy’ or too dark to project onto. Ideal for getting small projected images close to a viewer’s face. Inexpensive and practical resource for projector activities. Great for those without a permanent dedicated sensory room. Can be used in a tripod. For reflection only - not intended for handling or play.

Size: 110cm diameter

- R818882 £32.95

Create Your Own Effect Wheel
Use this clear wheel to create your own effects. Use pens, clear materials and photographic transparencies to create effects that meet your needs. Especially effective with the ROMPA® Rainbow Wi Fi Projector as this projects coloured light, so by simply using a black marker pen with the clear wheel you can create your own bespoke and personalised beautiful effects.

Sensory Profile Packs

Designed by the highly respected Lesley Collier of the University of Southampton to manage set patterns of behaviour that may be a result of sensory processing difficulties. These difficulties may be experienced by all generations from those with no clinical problems through to those with diagnoses such as Autistic Spectrum Disorder, Anxiety, Learning Disabilities, Alzheimer’s disease, Schizophrenia and Stroke, amongst others. These packs are based around the Model of Sensory Processing (Dunn, 2001). In order to identify which sensory type you fall within the Sensory Profile or the Adult Sensory Profile will need to be completed. Each pack will include equipment that will provide a more appropriate level of stimulation to each of the senses; touch, sight, sound and movement (proprioceptive and vestibular stimulation). Our Home Packs are intended for families to use to help provide appropriate stimulation at home. Contents may vary subject to availability. For 3 years and over. This pack may contain some small parts. Some of these products will require batteries.

Sensory Seeking
This person seeks out sensory experiences in everyday life and has a high sensory threshold, meaning they require lots of stimulation or a more intense sensory stimulus in order to respond. In order to achieve this they will actively seek out sensory experiences, e.g. people who like theme park rides. Typically includes flashing, tactile and sound balls; Infinity Light Wand; Twirly Whirly Rainmaker; Tactodiscs; Bag of Feelys; Massage Tube; Aroma Play Dough; Rainbow Slinky; Water Wiggly; Musical Mat and Space Blanket.

Low Registration
This person does not notice or misses sensory events in everyday life that others readily notice or is slow to respond to sensory stimulation. He or she has a high sensory threshold, meaning they require lots of stimulation or a more intense sensory stimulus in order to respond. However, despite this need they do not actively seeking sensory stimulation out, e.g. not noticing someone entering the room. Typically includes Spiral Glitter Wand; Jumbo Kaleidoscope; Spotty Spinner Ball; Shape Shakers; Foot Massage Rolls; Aroma Diffuser; Aromatherapy Kit; Name That Smell; Gymnastic Ribbon; Critters Bean Bag Set and Koosh Balls.

Sensory Sensitive
This person readily notices sensory stimuli and may be uncomfortable or distracted by them. He or she has a low sensory threshold, meaning they do not need much sensory stimulation in order to respond. However, rather than manage this level of stimulation they are easily distracted by it, e.g. being distracted by an untidy room. Typically includes Fibre Optic Lamp; Colour Changing Egg; Animal Sound Tin; Rhythm Pals; Dolphin; Aroma Mouse; Aromatherapy Kit; Aroma Huggabuddy (animal may vary); Chiffon Squares; Jumbo Kaleidoscope and Jungle Bowling.

Sensory Avoider
This person deliberately acts to reduce or prevent exposure to sensory stimuli. This individual has a low sensory threshold, meaning they do not need much sensory stimulation in order to respond. As a result, they actively find ways to avoid too much sensory input during the day, e.g. only eating familiar food when in a foreign country. Typically includes Mood Cushion; Bird Mobile; Boing Ball; music CD; Rain Tube; Snoezelen® Sensory Squares; Vibrating Neck Cushion; Sparkly Play Foam; Aroma Mouse; Aroma Oil; Aroma Huggabuddy; Eggserizers and Bowling Set.

**Snoezelen® in the Bathroom**

Water offers a change from the normal environment. It provides pleasure and can have enormous therapeutic value, assisting in relaxation, improving circulation and restoring mobility. Add SNOEZELEN® with water in the bathroom, spa pool or Jacuzzi and add another dimension to sensory stimulation. Create atmosphere using fibre optics, aromatherapy and music. Dim the lights and take sensory experiences to a different dimension.

ROMPA® can provide your Water Snoezelen® environment - from a modest bathroom to larger pools. Please contact us for further information.

**Benefits**

- Transforms bathing into a multi-sensory activity through pleasant aromas, sounds, lighting and tactile experiences
- Alleviates stress and agitation and provides a calming environment
- Encourages choice, individual preferences and promotes person-centred care
- Provides distraction and stimulation to reduce feelings of anxiety and embarrassment for both the client and the care-provider

- When introducing equipment designed for either battery or mains use into a Water Snoezelen® environment, obtain professional advice on equipment suitability and installation.
- Under no circumstances should people in the water handle electrical equipment, including items such as speakers and lighting.

---

**Spa Lights - Set of 2**

Float on the water surface and project six different light displays across the bottom of the bath – fade, flash, alternate, static etc. Alternatively, stand on a flat surface and project beautiful colour changing light displays on nearby surfaces. Requires 3 AAA batteries (to be purchased separately). Inexpensive and really effective.

Size: 9cm diameter

**£ 16.95**

---

**Aqua Mood Light**

Create a relaxing atmosphere in your bath with this colour-changing, waterproof LED light. The soft lighting can be decorative and soothing as the colours fade in gentle rotation, or stimulating when set to jump between colours, or to a fixed colour. Includes a remote control with CR2025 battery and an 8-10m range approximately. Also suitable for use in vases, water features and ponds. Requires 3 AAA batteries for the light unit. Not for use in water deeper than 1m. For 6 years and over.

Size: 7cm diameter x 2.5cmH

**£ 12.95**

**Water Mattress by Rompa®**

A heated water mattress which moulds itself to the shape of the body giving total unrestricted support without any pressure points. The gentle support by water allows even the slightest movement to be felt. The special double isolated heater pad with variable heat control maintains the mattress at a comfortable temperature. The water mattress is designed to be used on the floor or a suitable strong support capable of taking the total weight when filled - the double bed weight is half a ton. The cover is made from strong, reinforced durable vinyl which can be wiped clean and is available in a range of colours. Includes heater pad, fill kit, 17m (50ft) hose pipe, water conditioner and instructions. Platforms for the Water Mattress can be made to your specifications by special order. Please specify colour when ordering. This product contains wood.

**Musical Water Bed by Rompa®**

Fine vibrations of rhythm, tone and beat can be produced through your music system, which connects to the bed. These are picked up through the skin as tactile stimulations. The bed adapts to the body shape giving warmth, comfort and muffled noise, possibly similar to fetal experiences in the womb. The bed has a wooden base and is mounted on a giant loud speaker cabinet. The bed can also be used for interactive stimulation by means of the included microphone to create your own sounds. PVC - please specify colour choice when ordering.

SEATING, POSITIONING & FURNITURE | Chatsworth Range

This ever-popular range is now better than ever

Er gonomically designed
W ith a higher cushion for additional back support
Eo lid foam without a rigid wooden frame
M ulti -sensory, with eye-catching and tactile fabric options
E ntemporary and aesthetically pleasing for a multitude of environments, including homes and waiting areas
Eo fter, slimmer and more curvaceous styling
Up ortive without compromising on comfort

Available in a huge choice of colours. Choose from our standard PVC or 2-tone options - Faux Leather combined with Tactile Fabric. As these products have seams, they are not completely waterproof. Where there is the occasional risk of incontinence amongst furniture users, we recommend that PVC is chosen.

L/H refers to the left hand side from the perspective of the seated user, not from the view of someone looking at the settee in front of them

Textured Fabric

Contemporary yet classy colours with a blend of texture and softness to suit every indoor environment. Beautiful, tactile and practical. Fire-retardant (Crib 5), stain-resistant, phthalate-free and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching. All the colour options are anti-microbial.

The sides of these products can be made in Textured Fabric, whilst the remainder (e.g. seat and cushions) is typically in Faux Leather.

Lots more Chatsworth furniture options overleaf.
The Chatsworth range includes individual pieces of furniture as well as settees and corner units that can be placed together to maximise the space available. These modular pieces can be used in a variety of combinations and are perfect for waiting areas. For example, team a 3 Seat settee that has a single arm with a Corner Unit to fill a whole wall. A second settee with the opposite single arm could be added to the other side of the Corner Unit to fill 2 adjacent right-angled walls. With so many colours, sizes and sensory options to choose from, it's up to you!

To make the furniture even more comfortable and inviting-looking, why not add some scatter cushions? Choose matching colours or contrasting shades for visual stimulation.

Remember, L/H refers to the left hand side from the perspective of the seated user, not from the view of someone looking at the settee in front of them.

Rest, Recovery & Re-Orientation
- a joint initiative by ROMPA® and Ryall

In response to requests from our valued customers, ROMPA® has developed the Rest, Recovery & Re-Orientation Rooms, or ‘4R’ environments.

Designed for demanding environments such as schools with BESD (EBD) students, offenders’ institutes and prisons, these custom-made and fully-installed facilities offer a safe environment for those with challenging behaviours and aggressive tendencies. Carefully developed in conjunction with Tony Ryall, an expert in this field, the value of these rooms is becoming increasingly apparent. In the 4R environment, clients have the opportunity to calm down, rest, recuperate and recover in a secure, robust, damage-resistant environment for a carefully monitored minimal time. Most importantly, these environments encourage ‘re-orientation’, such as the re-introduction of the person back into their usual environment.

To be used in conjunction with positive handling and appropriate physical management practice, these facilities offer a comfortable and calming area, which can be continually viewed by teachers, supervisors or competent staff from outside the room - without putting staff resources under increasing strain. In some cases, by replacing external factors (such as staff imposing control), these rooms can help develop internal mechanisms for calming and foster understanding of rights and responsibilities - not least clients are encouraged to manage their own behaviour. This is an extension of existing interventions for a whole range of needs, and operates with the best interests of the person as its principle to safeguard people and respect the ‘Duty of Care’. The initiative encourages the safety of the disruptive person, his peers and supervisors alike.

Whilst risk can never be eliminated, these environments aim to significantly reduce risk, the number of potential injuries, exclusions, holding and numbers of staff required. Children on the Autistic Spectrum may need the room as part of their Time Out Plan.

These rooms, typically 2m by 3m, are one part of a wider structured programme, that includes a support plan, an intervention plan and parental responsibility. Each installation is accompanied by detailed training to ensure the appropriate and safe use of the room. It is used in conjunction with all appropriate legislation and good practice policies. Please note: 4R rooms are not to be used as Snoezelen®, sensory or Seclusion rooms.

ROMPA® believes that innovation and reliability go hand in hand - trust ROMPA® to deliver what we promise.
Furniture for demanding environments

Requests to include furniture in our range that would be appropriate for demanding environments encouraged ROMPA® to design furniture and cushioning to meet those needs. With the appearance and comfort of standard furniture, these products have additional features:

- Light with no hard corners
- Durable, moisture repellent covers to withstand robust use
- Hand finished seams which replace zip fasteners
- Additional sealing of seams for improved hygiene
- Chairs that support body weight when seated which will collapse when stood on.

ROMPA® furniture is manufactured from fire retardant materials (ROMPA® is a member of the Furniture Industry Research Association (FIRA))

Call ROMPA® for advice on the most appropriate furniture for your needs.

“From an OT and sensory perspective the Grasshopper® system provides my client an opportunity to experience upper limb programmes as set by the OT and sensory stimulation of the vestibular, proprioceptive, visual and auditory systems. The Grasshopper® system is an exceptional piece of equipment allowing the OT to implement a sensory programme and upper limb programme which could be provided by support workers for evenings, weekends and holiday periods and over seen by the OT”.

Don’t forget that our mats are ideal for Sensory Integration rooms too!

Floor Mats can be made with handles by special order. Should you need to regularly remove floor mats (to allow wheelchair access for example), ROMPA® can make easy-to-move floor mats to suit your requirements.

We can also manufacture mats using foam of different densities. Should you require firmer mats with less ‘give’, we can make mats with a choice of higher density foams.

Please contact us for further information.

**Retaining Walls by ROMPA®**

The Retaining Walls are fixed along the open sides of a ROMPA® MSE or Soft Play area to create a low walled island. They are high enough to stop people rolling off the area onto the floor, but low enough to give easy access. Wooden base is incorporated for stability.

Which Colour?

Our mats are available in a large spectrum of colours. Choose from bright, alerting bold colours to stimulate or white and pastel colours for calming. Paler colours are better suited to the use of projectors, which allow you to theme your room according to the effect wheels you choose.

Themed Fabrics

Bring your rooms to life with our fantastic fabric designs!

With all the qualities of standard ROMPA® fabrics, these exciting new picture fabric designs add a different dimension to your area. Available on wall mats and Cabin walls, these fabric designs offer several options for your room layout:

- picture mats to all walls as complete friezes
- one wall of picture mats to give a mural effect
- individual picture mats used in conjunction with our regular mats to create a vibrant feature

Further information available upon request

Maximum height and width available per Wall Mat: 145H x 145cmW Please note: each design is illustrated over three Wall Mats, repeating itself over 435cm.

Solid Structure Ballpools for all applications

Some people want to release energy whilst others wish to sink back and relax. Whatever your preference ballpools offer an inviting opportunity for a major change in environment. They provide safety and support for limbs and body. They allow movement whilst providing touch contact all over the skin area.

Use ballpools as an adventure, pulling and pushing, lifting and falling. They offer a chance to turn the journey into a shared experience.

Ballpools can be made to any size - 2, 3 or 4 sided. When ordering, please state the external dimensions. Ballpools are built around a wooden frame, and are cushioned with high quality, latex-free foam.

Contact ROMPA® NOW for advice on measuring or a price quotation for your tailor-made ballpool.

**Relaxer™ Travel Size Weighted Blanket**

Helpful for calming during the day and to aid relaxation during daily activities that could otherwise become stressful situations. Take it almost anywhere for convenience and reassurance e.g. in the car, on the plane, at the dentist’s or hairdresser’s. Suitable for children and adults. Affordable and portable. Designed by an Occupational Therapist with over 25 years of experience. Triple-stitched for robustness and so the filling is safely contained. The hygienic filling is BPA-free, phthalate-free, and lead-free. Cotton outer for comfort and durability, even after repeated machine washes. Pattern-free to avoid distraction and visual over-stimulation. With a scoop neck for comfort to avoid discomfort around the face and neck. Colours may vary.

All the weight of the Relaxer™ Travel Blanket is on the person therefore the Travel Blanket can weigh less than a weighted blanket used for sleeping.

**Sleep Tight™ Weighted Blanket**

Helps clients to become calm and comfortable to encourage restful sleep. Suitable for clients weighing over 9kg (20 lbs) who have difficulty calming down to get to sleep. With a curved neck cut-out to help prevent the blanket from bunching around the face. Designed by an Occupational Therapist with over 25 years of experience. Triple-stitched for robustness and so the filling is safely contained. The hygienic filling is BPA-free, phthalate-free, and lead-free. As a general guideline, blanket weight should be from 15-25% of client body weight, although we recommend that you seek professional advice as to the suitability of these products for your particular client. Colours may vary.

**Safe Use of Weighted Blankets**

- The weight of the blanket must proportionately match the child’s physique and weight
- Use only under an Occupational Therapist’s direct supervision
- Never allow the client’s head to be covered by the blanket
- Make sure the client can quickly get in or out quickly from under the blanket
- Vital signs must always be observable

**Adjustable Weighted Blanket**

With a unique and highly flexible design. Attach or detach the individual sections to adjust the size of this blanket according to need. Whole sections can be separated for day time and portable use (or for washing), and assembled again using the Velcro® for night time. Each section has several pockets so you can regulate the weight distribution as required. The weighted pouches contain balls and polyethylene granules. Helps individuals with sensory processing problems, anxiety, sleep deprivation, ADHD, hyperactivity, hypersensitivity and Autism to rest, and awaken feeling refreshed, energised, less irritable and with improved concentration. The blanket stimulates the body’s nervous system by providing a deep, constant and predictable pressure on the whole body. Wrapping an individual in the blanket facilitates relaxation and helps improve well-being as well as bodily awareness. 100% cotton to maintain a comfortable temperature. Dark blue in colour to soothe.

Deep Pressure & Weighted | SENSORY INTEGRATION & MOVEMENT

**Body Roller**
Provides deep pressure as the child crawls between the rollers for additional sensory input. In a similar way to babies being calmed by swaddling and being wrapped tightly in a blanket, deep pressure can be soothing and relaxing. Deep pressure is especially beneficial for children with ASD and ADHD, and can help reduce tactile defensiveness in those who cannot tolerate being touched (hypersensitivity or over sensitivity to touch). Providing appropriate sensory input through a product like this Roller may reduce self-stimulation and self-harming amongst children craving deep pressure. Moving through the rollers can help with motor planning, and can be used as part of imaginative play. Tension and pressure are easily adjusted to each user’s specific needs – you can choose the appropriate level of proprioceptive feedback for your child. The rolls are fully padded which helps the child to relax. Available in red, green and blue – please specify colour choice when ordering. User weight limit: 136kg (300 lbs).

“Our new therapy is filled to the brim with Rompa® equipment and resources but the most popular Rompa® equipment that the children have just loved, has been the Beano Swing... One recent task was to use the Beano Swing to knock down a tower made from the Soft Play, aiding a child seeking ‘crash and bump’ sensation and then also using the Beano Swing to drop down into the up-turned barrel helping motor planning and body awareness.”

Dominic Simpson, jigsaw Occupational Therapy Ltd

“The children love it and have given it many different names, such as the ‘zip wire’ and ‘thunder bolt’. The Beano Swing requires good core stability and tonic flexion as well as strength in the arms and legs to hold on. The swing is a challenge to master and we grade the activities to build up the child’s strength. We place a large beanbag underneath until they are able to independently hold on. This swing allows for accelerating linear movements that the child creates himself or the swing is used for rotational movements. The Beano Swing is an essential piece of equipment in our S.I. clinic.”

Annie Doubleday, Emma Jerman, Occupational Therapists
TheraGym® Tear Drop Swing
Provides a gentle swinging cocoon sensation. Features include a machine-washable nylon mesh swing and a Vertical Bouncer Kit (21567) to attach the swing to a secure point of suspension. With a high opening to increase the enclosed effect, please consider access into this swing e.g. Soft Play Steps. Working load: 90kg (200 lbs)
Size: 162.5cmL x 61cmW
£ 255.00

TheraGym® Time-In Swing
Offers several options for vestibular input. Its soft, supple and washable nylon mesh fabric construction is perfect for gentle swinging and relaxation. The stabilising bottom board acts as a solid flat floor for sitting or kneeling and can be easily removed to create a more snug sensation. Comes with an extra-strong safety snap. Weight capacity: 90kg (200 lbs)
Size: 162.5cmL x 61cmW
£ 365.00

Suspension Swing
Suitable for individuals with movement difficulties. The swing can also be set in motion using the hands on the ground. Games such as picking up bean bags, throwing at targets while swinging are also possible. Can be used in all body positions such as lying face down, on the back or sitting up. Even nervous users will soon gain confidence when using this swing. Height adjustable. Cover: brushed canvas (100% cotton).

Child
Suitable for a child 3 years and over, approximately 100-150cm tall
Maximum load: 100kg   Size: 98 x 75cm. Ropes 105cm long
£ 195.00

Adult
Suitable for an adult approximately 150-200cm tall
Maximum load: 200kg   Size: 153 x 79.5cm
£ 289.00

“This swing instantly seems to attract attention from the younger child, some of whom seem drawn to this and want to feel cocooned. They love the sense of safety that this provides, and feel secure in the swing. With a smaller opening than other swings, this gives a better sense of separation and physical boundary. They have described it as their bubble. Our sessions consider therapeutic space, such as activities working in close proximity and tight space, and being able to push against flexible boundaries feeling like ‘womb space’. It has therefore been a valuable swing in our Sensory Attachment Interventions too.”
Annie Doubteday, Emma Jerman, Occupational Therapists

TeeterPopper™
Fabulous rocker to encourage movement and to provide multi-sensory input and physical fun. The 14 suction cups on the underside make an awesome noise as they become unstuck for auditory stimulation, whilst the different textures on the top of the suction cups and at each end provide tactile input. Wonderful for children who crave intensive sensory input. With 2 integral handles at each end so the child can hold on and push down to rock. Stand or sit astride or inside the rocker. Made from rigid and easy to clean plastic.

Winner of the 2014 Best Toys for Kids ASTRA award. Colours may vary. For 3 years and over.

**RoBo-Board**
Trains weight transfer and dynamic balance, as well as providing proprioceptive stimulation. Can help improve muscle coordination, controlled movement, body awareness, rhythm and regulation of force in the legs. Move the board by transferring weight from side to side – it rotates when the weight is on four of the wheels on one side, and locks when the load is centred over the four central wheels. Allows rotation in a circular movement of up to 360°. With practice, an experienced user can get the board spinning and do tricks with it. Engaging design to appeal to children of all ages, including teenagers. For users 4 years and over. Maximum load: 75kg.

Bouncy Lily Pads
Many children with sensory processing disorders and ASD enjoy jumping and bouncing. These lily pads provide a safe place to bounce and an outlet for releasing energy appropriately. Both options provide proprioceptive input and vestibular activity that children with sensory processing problems can crave. These lily pads can help improve flexibility, spatial awareness, confidence and co-ordination. Particularly useful when combined with other balance products from ROMPA® to create a sensory circuit. With heavy duty springs distributed evenly between two layers of Baltic birch wood. Completely covered in easy to clean polyurethane vinyl to prevent hands and feet getting pinched. With a non-slip rubber base for added safety. Colours may vary.

**Mini Top**

Promotes motor skills control and development, balance and the vestibular sense. Invites younger children to teeter, swing and spin — at first with the help of an adult and then by themselves. Carefully designed shape and size so that user fits comfortably inside with head and fingers protected. The tilting motion gradually slows down and prevents the user from tipping over at the same time. For infants 0-4 years. Maximum load: 50kg.

- **Weight:** 1.6kg

**Size:** 70cm diameter

**£ 6.00**

### Spinning Cone
A versatile piece of equipment which can be used to generate balance, co-ordination and general mobility. Made of impact proof plastic and can be used for active general play or for therapeutic exercises. ‘Alerting’ activities involving spinning, bouncing, jumping and skipping can be used in sensory circuits at the start of the day to energise children in readiness for learning. Can be used by up to two children. For 1-10 years.

**Size:** 80cm diameter, 40cm D

**£ 53.95**

### Giant Saucer
Wow, wow woppa! Movement and balance on a BIG scale! Large enough for large adults or up to four children. Perfect for sharing activities to foster confidence and group work. Maximum weight supported: 150kg

**Size:** 140cm diameter x 40cm H

**£ 189.95**

### Sit and Spin
Useful for hand-eye co-ordination, gross motor skills and exercise. Provides vestibular input that some children with sensory processing problems can crave. Fun and practical, this may help children to self-regulate, manage their behaviours and improve their confidence. Compact enough to be portable, and could be used outdoors (then stored inside). Maximum weight supported: 45kg. For 3 years and over. Minimal assembly required.

**Size:** 55cm diameter x 30cm H

**£ 94.95**

### Sky Saucer
A sturdy saucer for swaying and balancing activities. The removable cover means it can be used in sitting or standing positions. Suitable for indoor and outdoor use. Supports up to 60kg.

**Size:** 76cm dia x 14.5cm H

**£ 79.95**

### Carousel
Great for spinning, muscle-strengthening, balance and vestibular work. With a slightly angled seat to allow the user to propel the Carousel by shifting the body’s centre of gravity. Younger children can set the seat in motion by pushing off with their feet. The solid moulded plastic seat has a thick edge to make it easy to get a good grip and hold on when the Carousel is moving. Metal base with rubber feet. Maximum load: 50kg. Weight: 6kg

“Strike” the light pod as it illuminates as quickly as possible. Features different games and can be tailored to ability. A noise reward is sounded when “hit” and the light goes out. Use the palm of a hand, weighted balls, boxing gloves or throw balls at the targets - all provide opportunities to adjust according to need. Enables people to use different heavier/bigger/smaller objects grading up/down grips and weights to target need. Great for core/balance, the wall uses a range of muscle groups depending on use – it encourages standing, bending, reaching, stretching, gripping and throwing. CardioWall® records and displays current score to enable assessment and records of progress. Accessible to seated and standing users. Extremely robust to withstand vigorous and repetitive play. Smaller version has 5 light pods; the larger has 9. Please specify the orientation when ordering the Large wall – portrait or landscape.

ROMPA® Tactile Panels have many uses including:

- exploration of the textures for enjoyment, not as part of a goal-orientated activity so there is no pressure to achieve
- tracing lines and visual tracking
- stimulating conversation and an awareness of preferences e.g. the different sounds can encourage discussion about musical likes and dislikes, the different fabrics can facilitate an understanding of clothing needs
- musical or imaginative play - touch the corresponding texture or instrument as it is mentioned in a story ...
- for orientation - as tactile signposting along corridors for those with visual impairments

Simple Music Player

Many individuals with Dementia want to listen to music but are unable to use conventional music players because they find these too complicated to operate. This version is designed to overcome these problems as it helps to provide people with Dementia with music they remember in a way they can independently access themselves. Operated by lifting the lid, which automatically switches the unit on and plays a tune. If a new tune is desired, a single large button allows the individual to skip to the next track. Family, carers or friends set the volume (which is intentionally not easy to change by accident), as well as downloading tunes onto the player (easily via a USB link from a Windows, Apple or Linux PC).

• Can change Bubble Tube, Panel, Wi Fi LED Spotlight, Wi Fi Colour Wall Controller,
Wi Fi Mood Lighting and Fibre Optic colours

• No PC or programming required  • Audible and visual!

• Easily personalised with your own recordings and images

This wireless talking soft play cube is multi-purpose and has endless educational applications. It enables the user to control the colours of the sensory environment - throw or drop the cube and change the room colours. Each of the 6 brightly coloured sides has a transparent pocket into which you can add your own pictures, symbols, words or photographs. You can easily customise each cube face with your own pre-recorded message, with your voice! To promote colour recognition, simply roll the cube and listen as the name of the uppermost colour is heard. Make the cube land on the colour blue and be rewarded with the sound “blue!” Throw a green and hear the word “green!” and so on. Ideal for developing the understanding of cause and effect, colour recognition, picture recognition, reminiscence, developing listening and motor skills, put dots in the pockets for use as a die... the possibilities are endless!

Includes cube, speaker and 9V battery. This product has a zip for manufacturing purposes only.

Z-Vibe® & Z-Grabber™
Most people are either auditory or visual learners, but sometimes these senses are not enough and we need to consider the sense of touch. Speech and Language Therapists have been trained to use tactile input to teach clients how to lateralise their tongue, elevate their tongue tip, make a tongue bowl, close their lips, learn a rotary chew, position the articulators for sound production and other oral motor skills. Vibrations provides a new level of sensory stimulation to increase awareness and to draw more acute attention to the articulators. Vibrations can also be calming and organizing.

All these products are lead-, latex-, PVC-, BPA- and phthalate-free, and are for supervised use under the guidance of a therapist or trained carer. Change the Tips for work on speech and feeding skills. All Tips require a Z-Vibe® or Z-Grabber™. The Soft options are made from a softer, more resilient material for those with a bite reflex and/or sensory issues.

Animal Tips – Set of 3
Friendly faces to engage, improve concentration and increase willingness to participate in therapy. Each tip has a variety of shapes and textures for oral stimulation and sensory input both within the oral cavity and around the lips and face. Use the textured ears as spoons to decrease texture aversion, or use the bite blocks on the back to practice jaw grading and stability. Useful to work on biting skills, coordination of movement, discrimination and play therapy. Includes 1 each of Cat, Mouse and Dog.

Preefer Tip
Similar to the Probe, and requested by therapists who wanted a round end instead of the rectangular end of the Probe. With long striations around the circumference of its tip that are useful when a ‘rolling action’ is required. Use to stimulate the gums, palate, cheek and tongue through stroking and by applying pressure. The textured surfaces provide tactile awareness and sensation. Each.

Mini Tip
A smaller version of the Probe Tip for babies and toddlers up to 2½ years (depending on the size of the oral cavity). The rectangular shape has 3 different surfaces: bumpy, striated and smooth. It provides a varied sensory experience when stroking and applying gentle pressure to the gums, palate, cheeks, tongue and lips. This may increase oral awareness for individuals with hypersensitivities, or may decrease oral defensiveness and food aversions for those with hypersensitivities. Can be used to provide targeted tactile cues during oral motor therapy. Each.

"Excellent! He no longer chews on his wrist and hurts himself. When he goes to chew he takes it off and chews on it in his mouth. Hard wearing too he is a strong chewer and there are no dents in it at all!"

Rebecca G., Verified Buyer

Chewy Tubes

Innovative oral motor device designed to provide a resilient, non-food, chewable surface for practising biting and chewing skills. Originally designed to be used with the Jaw Rehabilitation Program. Safe, non-toxic, latex- and lead-free. The little bumps on the surface of the Green Knobbly Chewy Tube provide tactile stimulation for the mouth. Red Chewy Tubes offer a slightly larger stem than the yellow, providing greater resistance. The Blue Chewy Tube provides the greatest resistance. Available in sets of 2 and 6.

Y-Chew – Set of 4

To exercise the lips, tongue, cheek and especially the jaw, allowing the mouth to learn and grow strong through oral motor exploration. Also useful as oral fidgets for sensory seekers, to decrease thumb/lip/jaw sucking and to decrease oral sensitivities, oral defensiveness and food aversions. The blue and yellow chews are soft and chewy. The orange and turquoise are chewy and resilient, but extra tough and firmer for those who exert more jaw pressure. Use as a sampler pack to assess the suitability of each, or to grade these to gradually build oral strength. Lead-, latex-, PVC-, BPA- and phthalate-free, and are for supervised use under the guidance of a therapist or trained carer. Replace once worn.

Menu Book
An essential tool that helps bridge the gap between carers and residents. This easy to understand book helps reduce frustration and misunderstanding by removing language as a barrier, letting the pictures do the talking. Colourful images of commonly eaten dishes provide an effective way of expressing menu choices at a time when communication can often be difficult. Each selection contains pictures of everyday meals, drinks and snacks. By pointing at the dishes on the menu choices are clear, giving people control over their menu selections. This book also includes three wipe-clean boards to write your own messages and menu choices. 21 pages. Ring-bound.

REHABILITATION & LIFE SKILLS | Practical Support

The learning of scissor skills plays an important role in the development of manual dexterity which in turn ultimately benefits handwriting, dressing skills and confidence. ROMPA® offers a comprehensive range of scissors, for both left- and right-handed users (blue = right hand; green = left).

**Scissors**

**Table Top Scissors**
A strong, self-opening pair of scissors fixed to a plastic non-slip base for greater stability. Suitable for children and adults who have very limited strength and control or with only one functional hand. Simply push the paper along the base and cut by depressing the large ‘T’ shaped handle. A hidden spring automatically reopens the scissors ready for the next cut. Useful for those with a weak grip/strength, poor hand control, tremors and/or one-handed users. Includes a zipped transparent storage case.

R813307 VAT Relief £ 24.95

**Handy Scoopers – Set of 4**
A fun way to develop fine motor skills and build the muscles required for cutting with scissors. With easy to grip handles, transparent scoops and a storage tub. The scoops have holes in them to help release the chosen contents e.g. sand.

Size: 15cmL
R821384 £ 16.95

**Long-Loop Scissors**
A good design which enables the user to use the strength of the whole hand to operate the scissors, rather than finger and thumb only. The extended loop of these scissors allows the middle, ring and little finger to be used, giving increased strength and control for the cutting action, whilst the index finger is placed outside the long loop to provide guidance and additional control. Assists children with weak grip/strength, tremors and/or poor motor control, including those with Dyspraxia.

**Switch-Activated Spinner**
Encourage people of all ages and differing abilities to enjoy interactive games together. Great for inclusion, this is large scale and accessible. Perfect for those who are unable to hold and throw traditional dice, and for those with visual impairments who cannot see the dots on a standard die face. Either press the red button on the front, or connect and activate your own switch to make the central arrow spin. Use in turn-taking to select random numbers instead of shaking one or two dice. Also excellent for early maths skills – add, subtract or multiply the numbers from both dice together, work out probabilities and use in matching games. Especially valuable in small groups as the spinner can be stood up on a table (using the integral fold-down legs) for everyone to see at once. For the less able, activation helps understanding of choice as well as of cause and effect as well as providing a multi-sensory reward – the spin is audible and produces a pleasant visual effect. Requires 2 AA batteries and a switch (both to be purchased separately).
For 3 years and over.
Size: 34 x 34 x 6cmD (16cmD with the legs extended); display 29.5cm diameter; red button 3.4cm diameter

Animal Bingo
Designed for people in the early and later stages of Dementia, but equally valuable for all ages. Intended to help improve cognitive functions and social participation, this game is fun and inviting. Accessible and inclusive, people of all abilities can play – both by hearing and by sight. For younger players, this can encourage listening and matching skills, as well as concentration. Potentially easier to play than traditional bingo games, this is unique as it includes a large flip book that displays the animal to match the sound from the included CD. Beautifully illustrated and inviting. For up to 12 players. Includes 12 bingo cards, 1 CD, 1 Flip book, 128 counters (in a drawstring bag) and 1 bingo caller card. For 3 years and over (some small parts)
Size: box 26L x 27W x 7cm; counters 3.5cm diameter x 3cmH

Bingo Cage
Produces a random selection of numbers. One turn of the handle deposits a single ball in the chute. Includes 90 colourful bingo balls. The balls are small parts - use under supervision.
Size: approx 32cmH; base 33 x 33cm; balls approximately 2cm diameter

Bingo Tickets
Books of tickets identical to those found in a typical bingo hall. Each pack contains over 4,000 tickets – enough to keep even the keenest bingo players happy for months!

Family Bingo
A fun family game of bingo based on an original 1950s set. Includes all you need for a great family bingo evening or fun social gathering. For 5 years and over.
Box size: 10 x 16cm

Mosaic
Create wonderful patterns and imaginative pictures – again and again. Can be useful for understanding geometric shapes and reflections. Includes board and 350 squares in 12 colours. Plastic.
Size: board 39 x 39cm; squares 2.3 x 2.3cm

Maxi Mosaic
For the development of colour and shape recognition, matching and fine motor skills. Allows the not-so-artistic to successfully create simple mosaics. Place a design sheet under the transparent frame and replicate the design using the shapes supplied. Includes 18 design sheets, 2 transparent frames and 12 x 24 assorted shapes (3 shapes, 4 colours). Reusable. Enough for two people to use at once, with a variety of designs to maintain interest levels. For 3 years and over.
Size: frames 31.5 x 21.5cm; shapes 3cm

Aximo!
Slide the rolls into place to copy the patterns on the cards supplied or to create your own designs. Encourages fine motor skills, imagination and logical thinking. Equally effective from either side of the frame. Large scale pieces are extra safe and easy-to-handle. Aximo Frame requires Aximo rolls. For 4 years and over. Please note: multiple sets of Rolls have been used to create the pattern shown on both sides of the Frame.
Size: 39L x 10D x 42cmH

Magic Cloud
Multi-purpose, with educational, therapeutic and play value. Attach a tag to an object of your choice, then place the object onto the cloud to activate an image, sound (e.g. music, rhymes, spoken words) or video footage on your PC. Brings inanimate objects to life and encourages memory, concentration, object-recognition and association, attention, focus and orientation to task, understanding of cause and effect, learning through play, hand-eye co-ordination, repetition, matching and motor skills. Client-centred, it can be personalised to give meaning to activities. Can be used to grade activities up/down by varying the texture or temperature of objects “tagged” and used on the cloud to support therapeutic sensory sensitivity work or physically (e.g. altering the weight, size, shape) to encourage different grips, grip strengthening, improve muscle strength and so on. Has great reminiscence value if ‘tagged’ items are tailored to user’s past history. Simple to use yet very engaging for a huge range of ages and abilities. A library of media is included and can be easily added to your own files. Includes cloud, software CD and 30 ‘tags’ which can be easily attached to your cards, photos and everyday objects.

LEISURE | Balls

Safecatch
With its soft strong rope attached, this is no ordinary ball! The indented surface offers tactile interest. Rope facilitates a variety of activities not possible with many balls. Perfect for those who struggle to release balls - the other player can gently pull the ball at the same time. Supplied inflated. Non-toxic. Green. 800g.
Size: ball 20cm dia, rope 100cmL
R817396 £ 18.95

O-Ball
The ball for everyone! A great ball for all ages, playing indoors and outdoors. You can kick, press and throw the O-Ball but it keeps its original shape. Put a balloon inside the ball and blow it up and you have more uses still, including in the water. Made from flexible plastic. Colours may vary.
Size: 10cm diameter
R820074 £ 9.25

Giant Balloon
Non-threatening, lightweight, magic action balloon is very big and not like anything you have seen before! Lightweight, these are excellent for encouraging pushing and catching skills, hand / eye co-ordination, motor skills, body awareness and muscle control. Not to be used in robust ball games.
FREE Nozzle enabling re-use included. Inflate with Ball Pump/Electric Air Pump.
Size: 80cm diameter
R814605 £ 7.00

Slow Motion Ball
As its name suggests, the slower movement of this ball makes it easier to handle. Bright, lightweight and bouncable. Colours may vary. Supplied deflated, re-inflate with ball pump. Excellent value.
Size: 28cm diameter
R814851 £ 12.95

Multicolour Basketball
Add a burst of colour to your games and activities. Watch the colours blend as the ball is thrown or kicked. Long lasting rubber outer over 6-ply nylon windings. Supplied deflated.

VAT RELIEF

Relief from VAT is only available on certain goods.

Relief is granted subject to all the following conditions:

1. The goods are being purchased by an eligible body, or charity for donation to an eligible body.

2. Supplies to or for donation to an eligible body must be funded entirely from charitable or voluntary contributions.

3. The goods are supplied or made available to persons with a disability.

We must point out however, that many of our products which are of benefit to people with a specific disability may not qualify for relief as they are designed for wider use. That is to say, if the designer of a product did not specifically design the item for disabled people, then it is regarded as a product that has been designed for wider use and as such must be subject to VAT.

We are bound by the laws of HM Customs and Excise and have a legal obligation to charge VAT on certain products.

There is no blanket exemption from VAT for disabled persons or charities. Our products are not classified as medical equipment.

We cannot, therefore, accept declarations requesting exemption in this category.

FOR VAT, you should consult Notice 701/7 VAT reliefs for disabled people or contact the Customs and Excise National Advice Service on 0843 016 9000 before signing the declaration.

Please note there are penalties for making false declarations.
