Welcome to Rompa®

Great British Manufacturing with over 30 years experience
About Rompa®

We are experts in the design and installation of bespoke sensory rooms and have been providing life changing sensory solutions for over 30 years now. Our mission is to enhance the quality of life for all people and we work closely with you to achieve this.

The History of Rompa® and Snoezelen®

During the late 1970s pioneer therapists Jan Hulsegge and Ad Verheul experimented with a sensory tent at the DeHartenburg Institute. The term Snoezelen® was coined soon after, which is a contraction of the Dutch verbs “snuffelen” (to seek and explore) and “doezelen” (to relax).

Through years of experience Rompa® has developed a range of products and created bespoke environments based on the principles of Snoezelen®. As the popularity of Snoezelen® grew so did Rompa®, quickly becoming the leading UK provider before developing key partners around the world. Rompa® also owns the trademark for the name Snoezelen® when applied to products. You know you are buying quality when you buy a Rompa® Snoezelen® product.

As Snoezelen® continues to grow, the principles and benefits of Snoezelen® remain hugely significant to individuals with a range of needs all over the world.

Snoezelen® continues to:

■ Provide meaningful multi-sensory spaces and activities
■ Reduce anxiety and offer calming solutions
■ Build self-esteem
■ Focus on the individual with a person-centred approach
■ Respect each person’s choices, needs, pace and preferences

snoezelen®

The official registered trademark of Rompa® Ltd
Rompa®
Improving lives for over 30 years!
What We Do

Our history is in the design and installation of bespoke Snoezelen® Multi-Sensory Environments and Soft Play Environments.

However our capabilities do not end there. Over the years we have developed a wide range of services as research and therapies have become more popular.

Our range of installation services include:

- Snoezelen® Multi-Sensory Environments
- Soft Play
- Environments for Older Adults
- Sensory Integration
- Sensory Gardens
- Calm Rooms / 4R
- Reminiscence Rooms
- Hydrotherapy / Sensory Bathrooms

Our customers typically include the NHS, care homes, schools and community centres just to name a few. Our mission is to make as many places as possible inclusive for all, therefore we have recently worked with the following:
Find out how we can help you. Call us today!

What We Do
Why Rompa®?

Great British Manufacturing
Rompa® is extremely proud to be a British manufacturer. A large amount of our product offering is made on site at our Chesterfield premises by our wood, sewing, cutting, assembly, electronics and finishing departments. By producing our own products we ensure that we can guarantee consistent quality and durability. We know that the materials used have been carefully sourced, and that the items we are supplying to our customers have been produced to the highest standards.

Free Design and Installation Service
Our team of in-house designers will provide a room design to fit your specific requirements and budget. Our design visuals are extremely detailed and in some cases offer a full 3D visual of exactly how the real life room will look.

Mobile VR Technology to bring your design to life
Due to the nature of our products, seeing really is believing. That’s why for large scale installations we provide a FREE branded ‘Mobile VR Headset’ with your design and quotation. This enables you to easily visualise exactly how your finished room will look right through to the finest of detail, as if you were stood right in the middle of it, helping us deliver a truly breath-taking, bespoke design.

Mobile Sensory Unit
Our Snoezelen® multi-sensory vehicle delivers Snoezelen® to your doorstep. If you’re unsure of what we can offer or which products would best benefit your users then our mobile unit could be the perfect solution to help you choose. We can arrange to visit you in order for you to demo the environment before committing to a room.

Over 30 years experience
For over 30 years we have helped to improve the lives of people around the world and have built a brand that you can trust. We are a market leader in our field and with that we bring a wealth of experience and knowledge.

ISO Quality Management System Compliant

Meet The Team

Our Team
Our team of over 60 people includes Researchers, an Occupational Therapist, Product Developers, Purchasers, Craftsmen, Sales Advisors, Designers and Installers. These skilled professionals ensure we remain at the forefront of an evolving sensory marketplace.

Rompa® National Sales Advisors
Our experienced team of Sales Advisors are available to meet with you and to discuss your requirements in more detail. They are there to listen to your needs and make suggestions to help you to achieve your goal rather than to simply sell you products. Our advisors have vast amounts of knowledge and are backed by a support team who bring even more expertise.

The Rompa® Design Team
Our design team have many years of experience in the creation of bespoke environments from small to large scale projects. A member of our creative design team will manage the design of your project from beginning to completion. Working with your ideas and feedback from our advisor the designer will create an environment that is just right for your needs.

Lots of companies will attach a charge to their design service, Rompa® don’t. We want you to choose our design, not because you have paid for it, but because it’s the best.

Installations Admin Team
The Installations Admin Team will support you to manage your project from plan to reality. They are the team behind the scenes that will answer your every question and help you to complete your project.

Our Installation Team
Rompa® has a team of qualified installation engineers. Each installation engineer holds the relevant qualifications to enable them to work without issue on site.

These include:
- ECS/CSCS
- 18th Edition Qualified Electricians
- PAT Testing
- Working at Height
- Manual Handling
- First Aid

Rompa® is also CHAS accredited which means that we work to all relevant health and safety guidelines, both during installations, in the work that we do and the procedures that we follow in our manufacturing facility.

The expertise of the Rompa® Installation Engineers and our management of the entire project (not relying on sub-contractors) means that we can always be confident that we are leaving our customers with a high quality result.
FREE design and consultation service!
Specialist Advisors

Rompa® works closely with a fantastic team of specialists, occupational therapists, universities, parents and caregivers to ensure that any Snoezelen® equipment we provide meets the highest standards required for the needs of the users.

This group of specialists and institutions work independently from Rompa® but have a fantastic amount of knowledge and experience in the field of Snoezelen® equipment and its use. Many run training courses to attend or are more than willing to talk of their own experiences of Snoezelen® and discuss how it could assist you, your life, your work or place of recreation.

Dr. Lesley Collier
Senior Lecturer at the University of Southampton

Lesley’s research portfolio includes sensory processing in people with cognitive impairment and the use of multi-sensory stimulation to improve occupational performance.

Jo Throp
Neurological OT and Partner of Krysalis Consultancy

Jo has an in-depth knowledge of a variety of treatment approaches that can be used to maximise the independence of individuals with physical, cognitive, sensory and behavioural problems.

Annie Doubleday / Emma Jerman
OTs and Owners of senSI

Annie and Emma both studied BSc Occupational Therapy (hons) degree at the University of East Anglia and are Directors of senSI Limited, based in Norwich. They advise us on products and environments that involve Sensory Integration Therapy.
Our specialist advisors help us to help you!
How We Work

Designing and installing a Snoezelen® Multi-Sensory Environment doesn’t have to be difficult.

Using our 30 plus years of experience, Rompa® will manage the project for you to ensure that your experience is stress free!

**Contact Us**
Call us with your requirements or brief and we will arrange help and a visit if required.

**We’ll Meet to Discuss**
An experienced Sales Advisor will visit you at an agreed date and time to take measurements of the room and find out more about your needs.

**We’ll Design For You**
Based on the meeting with our sales advisor we will create a bespoke design taking into account all of your needs.

**We Quote**
We will create an itemised quotation for your project so you can understand where your investment is being placed and make amendments if required.

**We Listen**
When you are happy with your design and quotation (changes can be made if needed) we agree on the project and you place an order with us.

**If Required We Perform a Site Survey**
Our trained installation team will visit the room/area we will be installing into and perform a site survey taking accurate measurements of the area so we can manufacture to the correct specification.

**We Manufacture**
Based on the site survey our manufacturing team will produce the items and equipment for your project. The lead time for this is typically 6 weeks. Need it quicker? Contact us to find out if we can produce it sooner.

**We Install**
We agree a time and date convenient for you - our highly skilled installation team will visit and install your brand new environment.

**We Train**
Where possible we will train you immediately after installation. We want to leave you with an environment that you know how to use and maintain.

**We Maintain**
Maintenance packages are available and can be tailored to your needs. We will discuss these options with you.
Call or email us to start your project now!

Installed Room
Frequently Asked Questions

Q: How much is an installation project likely to cost me?
A: We can work with any budget and have created small Snoezelen® sensory corners as well as large scale bespoke environments. As a guide we advise our customers that an installation project should start at around £5,000 - this is to ensure that you are getting the best value for your money.

Q: How involved do I need to be?
A: You can be as involved as you want to be! We have been installing these environments for over 30 years. We have the expertise in place to manage the project and to make your installation run smoothly.

Q: I’m not an electrician and have no technical knowledge, I don’t understand what you need from me?
A: Don’t worry – our experienced installation team can talk to someone within your business directly so you don’t need to do anything apart from give us their details.

Q: I don’t understand the benefits of the products and I need to provide evidence?
A: Our highly knowledgeable product team includes a qualified Occupational Therapist who can provide you with reasoning as to why the products have been selected.

Q: I’m fundraising, can you help?
A: Getting the funds together to bring your installation project to life can be a challenge. Follow this link to find a list of organisations that may be able to help and some other tips: www.rompa.com/fund-raising

Q: Is there a cost for this service?
A: Our design service is completely FREE of charge! We want you to choose Rompa® because it is the best option for you - not because you have paid for our service.
Snoezelen® Multi-Sensory Environments

Snoezelen® Multi-Sensory Environments are, by nature, relaxing spaces that help reduce agitation and anxiety. However they can also engage and delight the user, stimulate reactions and encourage communication.

The Snoezelen® Multi-Sensory Environment has many benefits and can be used in a variety of ways to provide a range of benefits including...

**Relaxation**
Snoezelen® Multi-Sensory products and environments can be used to calm and reduce agitation through the use of gentle light, soothing sound, relaxing smell and touch.

**Therapy**
We have been providing Occupational Therapists and health professionals with a Snoezelen® Multi-Sensory tool-kit to provide therapy for over 30 years. From portable resources to bespoke multi-sensory environments we have solutions that can help.

**Stimulation**
Snoezelen® Multi-Sensory Environments and products can be used to stimulate users by providing exciting visuals, high tempo music and sounds, invigorating smells and textures to explore.

**Development**
Snoezelen® can be used as a learning and developmental tool. It can be used for colour matching, understanding of cause and effect, and creating themed environments for teaching.

**Who can they help?**
People of all ages and abilities can get benefits from Snoezelen® Multi-Sensory Environments and products.

**Where would I find a Snoezelen® Environment?**
Due to their versatility you will find Snoezelen® Environments in a wide range of settings; some will be surprising.
FREE design and consultation service!
Soft Play Environments

A Soft Play environment is specifically designed for children and adults with special needs to have fun, explore their physical boundaries and to release energy in a safe environment.

Rompa®’s design team have over 30 years of experience in designing Soft Play environments that are appropriately challenging and fun for the intended users.

Unrivalled Quality and Service

■ Made in Great Britain at our on-site manufacturing department to the highest standards.

■ Built to be sturdy - larger products such as cabins, steps or wedges include a wooden frame for stability unlike low quality alternatives.

■ A choice of densities of the foam filling to meet individual needs.

■ Made from fire-retardant materials and phthalate and latex free vinyl.

■ Can be combined with Rompa® Snoezelen® Multi-Sensory and Sensory Integration products to create a multi-purpose space.

■ Over 30 years of design, manufacturing and installation experience.

■ Rompa Soft Play is built to last for years of use.

Personalising Your Soft Play Environment:

■ Individually designed and custom made options for person centred care.

■ Generous range of colours and fabrics available including ultra-violet reactive and printed options.

■ Can be themed to match the user’s preference from underwater worlds to autumnal landscapes.

■ Include lights, safety mirrors, textures and sounds for multi-sensory appeal.
Sensory Integration

A form of Occupational Therapy utilising sensory experiences from movement, touch, light and sound to strengthen the user’s ability to deal with everyday life.

Sensory Integration is effective in addressing challenges associated with autism, dyspraxia and behavioural difficulties in children and adults.

Rompa®’s Sensory Integration range includes:

- Weighted Vests / Blankets
- Compression / Deep Pressure
- Slides / Scooters & Ramps
- Swings
- Spinning Products
- Bouncing Products
- Balance Boards

And many more...
Contact us to find out more.
Snoezelen® and Older Adults

Snoezelen® Multi-Sensory Environments and products bring huge benefits to older adults and people with Dementia.

After spending time in a Snoezelen® Sensory Room, residents in the later stages of Dementia show positive changes in mood and behaviour, and also an increase in attention to their surroundings. Staff feel that these improvements help with their relationship with the residents and their daily work.

Dr Lesley Collier
Snoezelen® Multi-Sensory for people with Dementia.

Lesley has a long standing relationship with Rompa® and Winslow®. She has advised us in many areas of the effective use of Snoezelen® Multi-Sensory Interventions for people with Dementia and cognitive impairments.

“The right level of sensory stimulation helps to relieve stress and boredom; to engage in activity also involves an act of communication that enhances the feeling of comfort and well-being.”

Dr Lesley Collier, Senior Lecturer at the University of Southampton.
Rompa® Reminiscence Rooms

Reminiscing is an enjoyable pastime and useful therapy for older adults and people with Dementia. Reminiscence rooms can provide a flexible space in which to encourage social interaction and offer many other meaningful activities.

Our team can help you to create an environment which feels like it is from another era, which can also be transformed into a fully functional sensory room!

We understand that as space can be at a premium in care homes and day centres, you may not always be able to have a Snoezelen® Multi-Sensory Environment and a reminiscence room. We have addressed this problem by combining traditional furniture with Snoezelen® multi-sensory products.

Surrounding people with items that they are both familiar and comfortable with is important to reduce agitation. We have designed and manufactured a completely unique range of furniture which conceals Snoezelen® Multi-Sensory equipment inside.

This gives you the option of providing sensory stimulation when appropriate, providing you with a truly multi-purpose space.

Meaningful Activities for Older Adults
Our new catalogue is packed full of activities, resources and Snoezelen® sensory solutions for adults of all ages and abilities.

Based around the activities of daily living (ADLs) the catalogue has solutions to help adults as well as age appropriate resources to provide enjoyment. It is perfect for Activity Co-ordinators, relatives and the adults themselves.
More great products in our older adults catalogue
In response to requests from our valued customers, Rompa® has developed the Rest, Recovery & Re-Orientation Rooms, or ‘4R’.

Designed for demanding environments such as schools with BESD (EBD) students, offenders’ institutes and prisons, these custom-made and fully-installed facilities offer a safe environment for those with challenging behaviours and aggressive tendencies. Carefully developed in conjunction with Tony Ryall, an expert in this field, the value of these rooms is becoming increasingly apparent.

In a 4R, clients have the opportunity to calm down, rest, recuperate and recover in a secure, robust, damage-resistant environment for a carefully monitored minimal time. Most importantly, these environments encourage ‘re-orientation’, such as the re-introduction of the person back into their usual environment.

Whilst risk can never be eliminated, these environments aim to significantly reduce risk, the number of potential injuries, exclusions, holding and numbers of staff required.

“Schools can adopt a policy which allows disruptive pupils to be placed in an area away from other pupils for a limited period, in what are often referred to as seclusion or isolation rooms.”

*Behaviour and Discipline in Schools - Advice for headteachers and school staff.*

*Department for Education - January 2016*
Find out more on: www.rompa.com/4R
Hydrotherapy Environments

Water offers a change from the normal environment. It provides pleasure and can have enormous therapeutic value, assisting in relaxation, improving circulation and restoring mobility.

Combine Snoezelen® with water in the bathroom, spa pool or Jacuzzi and add another dimension to sensory stimulation. Create atmosphere using fibre optics, aromatherapy and music. Dim the lights and take sensory experiences to a different dimension.

Rompa® can provide your Water Snoezelen® environment - from a modest bathroom to larger pools.

Benefits:

- Transforms bathing into a multi-sensory activity through pleasant aromas, sounds, lighting and tactile experiences
- Alleviates stress and agitation and provides a calming environment
- Encourages choice, individual preferences and promotes person-centred care
- Provides distraction and stimulation to reduce feelings of anxiety and embarrassment for both the client and the care-provider

Here are some guidelines:

- When introducing equipment designed for either battery or mains use into a Water Snoezelen® environment, obtain professional advice on equipment suitability and installation.
- Under no circumstances should people in the water handle electrical equipment, including items such as speakers and lighting.
Garden Environments

Rompa® working with PlayGarden

PlayGarden are about turning an ordinary outdoor environment into the extraordinary.

No space is too small, or too difficult. In fact this is where the expertise of working with our Landscape Architect really makes PlayGarden stand out from the majority of play equipment companies. A full perspective of the outdoor environment is taken, together with an in-depth understanding of what it is you are looking to achieve within the space and what play and learning opportunities you want to create.

PlayGarden find that the very best projects are those that are clear about what they want to achieve within their outdoor environment. This is where the specialist support from our Landscape Architect team will help you.

This could be to:

- Develop a design and costing to a current budget
- Develop a masterplan with a phased development
- Develop a phased approach that can be used for fundraising in stages
- Develop a plan, that allows your team, staff and pupils to help implement

Customer Service

We’re on hand to guide you through the installations process from start to finish.

Whatever you need, call 01246 211 777 or email installations@rompa.com to contact a friendly customer service advisor who will help you.

Additional Training

We understand that the people using your new environment could change over time, or that some of your team may not be available when the initial training session takes place. We do offer refresher courses and other training packages - speak to the sales advisor or call one of our customer services representatives to find out more.

Service Agreement

Service agreements on your installed environments are available. They are based on each individual environment to ensure best value for money. A quote for a service agreement will be sent out with your main quotation for the environment.

Warranty Information

We take pride in the manufacture of our products and believe we are the market leaders in regards to quality, price, durability and longevity. It is for these reasons that we are proud to offer a 2 year warranty on all Rompa® manufactured products.

Our experienced installers work to the highest possible standards; using our years of expertise and knowledge of the products, we can equip your room to the desired finish. Therefore installation works undertaken by Rompa® are covered by a 2 year warranty.
Speak to a sales advisor for more info!
Success Stories

Welholme Primary School, Grimsby

Just wanted to say how wonderful our room is. The children love it and the staff love it as well, it’s amazing!! The children are very keen to use it and children who are usually nonverbal or very quiet are more confident in the room and are speaking more. Also, the engineers that did the fitting were very efficient, knowledgeable and friendly, a credit to the company. Thanks again for as one child puts it ‘the beautiful room’!!

Kim Glasby

Knowsley Community Centre, Liverpool

We were approached by Knowsley Community College to create a sensory room that would make the college more accessible for all students, particularly those with disabilities.

From initially discussing the needs of our students and then engaging the professional services of Rompa® to design and install our sensory room the process has been seamless. The college had extremely tight timelines and a very specific criteria for the completion of the sensory room all of which was made much easier by the Rompa® team. I would have no hesitation in using Rompa® for future college projects or recommending their services to others.

Wayne Sullivan - Head of Environment, Knowsley College

Gatwick Airport, London

We worked closely with London Gatwick Airport to install a sensory room in their north terminal. The room is designed for customers with autism, dementia, cognitive impairment and other special needs in order to make the airport experience less overwhelming. Gatwick is the first UK airport to install a room of this kind. The free to use room is designed as not only be a chill out zone but also works as a separate interactive zone which stimulates the senses.

I cannot thank the whole team involved in this project enough for making it a reality. It is the most amazing Sensory Room I have ever seen.

Autism Ambassador for Gatwick, Maria Cook
