## Important information

### Care of your products

We want you to be happy with your purchases from this catalogue. To help you to buy products that are suitable, appropriate and that meet the needs of your clients, we aim to include as much product information in this catalogue as possible. This includes safety age guidelines (e.g. 'For 3 years and over') and practical information such as dimensions (e.g. 'Small parts') and material information (e.g. fur with long fibres, glass). For further information, please visit our website and refer to the product descriptions there, along with the instructions for those products (where applicable).

All of our products are intended to be used appropriately, under the supervision of a responsible adult. Some products, such as those intended for Sensory Integration therapy, should be used by suitably trained professionals only.

Always install and use products safely, seeking advice from suitably qualified professionals as necessary.

### Always supervise the use of all of our products.

Whilst we make every effort to provide products that are sturdy and appropriate, it is your responsibility to check their suitability for your clients, and to use them appropriately. For example, not all our products are suitable for those who mouth, or for those with challenging behaviours. Some products are intended for decorative purposes rather than for handling. Some are intended for indoor use only, and some will require specific on-going checks and maintenance.

Our products are selected for their robustness and durability. However, they will not withstand misuse or abuse. Please use our products with care, following the care and maintenance advice provided.

### How to Order

**Phone: 01246 211 777**

### Returns Policy

As a consumer, as defined by the Consumer Rights Act 2015, you have the right to cancel and return items within 30 days of you receiving your order. Please note that some products are non-returnable and are marked in the catalogue. Please contact us for a return authorisation reference. Do not return a product without a return authorisation reference.

Please take extra care when viewing your products as goods must be returned in pristine condition, unused and in their original, undamaged packaging. Where goods are received back in an unsatisfactory condition an amount may be deducted from the refund to reflect the amount by which the value of the product has been reduced. If you are not a consumer, Rompa reserves the right to apply a 15% re-stocking fee. All postage costs are non-refundable unless the item is faulty. We do not offer a pre-paid return service. We recommend that you return your products on a signed for service - Rompa cannot be held responsible for any missing parcels sent by the customer.

If you have received an incorrect, faulty or damaged product, please contact us on 01246 211777.

**ROMPA® manufactures cushioning, furniture and soft play in a large range of fabrics and colours.**

### PVC (Vinyl)

The most durable, and popular, of all our fabrics. Extremely hard-wearing, PVC is easy to clean, water-resistant and treated with fungicide. Latex- and phthalate-free, this strong fabric has a polymer coating on both sides, making it rigid and helping products to maintain their shape. Our PVC has a 'Cape' or subtly textured and fungicidal finish, and is available in a huge spectrum of colours and tones. This extensive choice lends itself well to two-tone finishes, such as purple with lilac accents, or sky blue and light blue combinations. We can also print a range of motifs onto PVC, including your own imagery for bespoke solutions.

**Ideal For:**

- ✓ Wall & Floor Cushions
- ✓ Ballpools & Wedges
- ✓ Soft Play Products
- ✓ Water Beds & Furniture

**NEW COLOUR  
TURQUOISE**

## ROMPA® Fabrics and Colours

Fabrics used by ROMPA® have been selected for their high quality, reliability, durability and suitability for our marketplace. Our fabrics are complimented by the use of high quality fillings such as bead and foams of various densities to allow us to manufacture an extensive range of soft and pliable or firm and supportive products. All our fabrics (and the products made from these and our fillings) meet appropriate fire-retardancy standards, and we can manufacture to Crib 5 and Crib 7 requirements by special order.

Our attention to detail is second to none – from our high quality non-slip fabric to the colour-matched threads that are used to hand-finish our products, ROMPA® has earned its reputation for consistently excellent standards.

This applies to our standard products, as well as to any bespoke solution requested by our customers. The colours shown here are from our standard range but we will gladly accommodate special requests for further colour options. Contact us for a fabric swatch to help you make your fabric and colour choices.

### Faux Suede

Arguably the softest of our fabrics, and is similar in texture to suede. More akin to fabrics used in domestic furniture, this supple fabric is water-resistant, extremely comfortable, stain-resistant and antibacterial. Available in subtler shades of colour than PVC and Polyester, this fabric may be more age-appropriate for older adults. Although durable, this fabric has a short pile and is less hard-wearing than PVC. As such, it should not be chosen for areas of heavy use such as step treads or floor cushioning.

**Ideal For:**

- ✓ Sensations E Chair
- ✓ Supa Squashy Sofa
- ✓ Positioner

## Faux Leather Fabric

Available in striking modern colours, this subtly-textured fabric is as hard wearing as it is stylish. Vibrant yet tasteful, this strong fabric is a combination of PVC, Cotton, Polyester and PU. Fire-retardant (Crib 5), phthalate-free, anti-microbial and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching.

Faux Leather Fabric can be found in the Chatsworth Furniture range. Whole pieces of Chatsworth furniture can be made in up to two colours of Faux Leather, or one colour can be selected with one colour of Textured Fabric on the sides.

**For the full range of Chatsworth Furniture see pages 84 - 87**

**Ideal For:**

- ✓ Chatsworth Furniture

## Textured Fabric

Contemporary yet classy colours with a blend of texture and softness to suit every indoor environment. Beautiful, tactile and practical. Fire-retardant (Crib 5), stain-resistant, phthalate-free and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching. All the colour options are anti-microbial, with the exception of Slate.

Textured Fabric can be found in the Chatsworth Furniture range. The sides of these products can be made in Textured Fabric, whilst the remainder (e.g. seat and cushions) is typically in Faux Leather.

## Polyester

Slightly warmer to the touch than PVC, and more flexible. This makes Polyester best-suited to products which allow clients to sink into them and which mould to the user's shape.

**Ideal For:**

- ✓ Mini Floppy Islands
- ✓ Squashy Seating
- ✓ Sensory Cuddles
- ✓ Splodges

# Snoezelen® and Rompa®

over  
**30**  
years

**ROMPA**®

**snoezelen**®

It is now over 30 years since Jan Hulsegge and Ad Verheul championed the Snoezelen® concept in their book *Snoezelen Another World*.

The book explained Snoezelen® and detailed the authors' experiences in Holland working with profoundly disabled individuals in order to answer the questions raised by Snoezelen®'s growing popularity.

30 years on, as Snoezelen® continues to grow, the principles and benefits of Snoezelen® remain hugely significant to individuals with a range of needs all over the world. Snoezelen® continues to:

- P** rovide meaningful multi-sensory spaces and activities
- R** educe anxiety and offer calming solutions
- B** uild self-esteem
- F** ocus on the individual with a person centred approach
- R** espect each person's choices, needs, pace and preferences

Back in 1980s Jan Hulsegge and Ad Verheul wrote of the carers' own experiences and emotions also being affected by Snoezelen, as well as that of the cared for individual. They documented how Snoezelen® could also be a meaningful occupation for other target groups including older people with Dementia and psychiatric patients, as well as for those without disabling conditions.

It is now widely accepted and anyone and everyone can benefit from Snoezelen®.

## OLDER ADULTS

# Snoezelen® Today

Not surprisingly over the last few decades, Snoezelen® has evolved enormously, as have the needs of the individuals benefitting from it. Snoezelen® has a rich history in health settings and schools for people of all ages and abilities. In recent years, as the awareness of conditions such as Autism and Mental Health problems grows, demand for Snoezelen® environments has grown. We have made Snoezelen® accessible in airports, football stadia, shopping centres and even a donkey sanctuary!

From the outset, the evolution and growth of Snoezelen® has been intrinsically linked to ROMPA®. We have a wealth of experience and expertise, and a strong desire to provide you with the best possible sensory solution.

- *Not all Multi-Sensory Environments (MSEs) are Snoezelen®.*
- *Not all MSEs are the same.*
- *Not all MSE users' needs are the same.*
- *Not all MSE providers are the same.*

Look out for the Snoezelen® logo throughout this catalogue. This highlights products that are key Snoezelen® components, and helps you identify ROMPA® exclusives.

# Customer Reviews

Don't just take our word for it. Below are just a few reviews from our satisfied customers.

## Deluxe 8 Colour Wirefree Controller

"Clever piece of technology... We liked the fact it is wi fi ... We also like the fact it turns off bubbles too and you can use it like a mini piano. All in all a really clever little piece of kit!"

*Dawne, Verified Buyer, Bridport*

"Amazing product ... love it ... would recommend it to anyone who's looking to buy one."

*Perianne W., Verified Buyer, Southport*

"Even better than expected. This controller is fab! I really like the fact it's 'oversized' ... my daughter absolutely loves being able to change the colours herself, but loves more the setting for funny noises ... it's great ... Very pleased with this item and definitely recommend it."

*Lisa R., Verified Buyer, Bicester*

## Giant Maxi Bubble Tube by ROMPA®

"Brilliant product. Amazing bubble tube. Perfect in my child's sensory room. Brilliant quality again by ROMPA®. Won't shop anywhere else."

*Terri, Verified Buyer, Hull*

## Ceiling-Mounted Interactive Floor Projection

"A wonderful piece of equipment offering activities for all our children whatever their ability. The ordering process was easy and the visit from a Rompa technician to measure the room for the interactive floor was well organised and equally quick. We opted to install the unit ourselves and the full instructions sent meant our electrician did this relatively easily. Once installed the unit was easy to set up for use and is easy to use, we are able to adapt games for specific children and some games have become firm favourites with different groups.

Our younger children and babies like the fish, within days of installation we saw how the fish swimming around and reacting to the children by swimming away made a child sit unaided for the first time in his efforts to reach the fish and then laugh for the first time when it swam away. Our older children like the poppies and leaves whereby a wave of the hand can clear away leaves or poppies showing part of another picture below, we use this to teach the children turn taking and waiting, they take turns to clear the leaves away and then all wait while the leaves reappear before all clearing them together.

Although expensive this piece of equipment is worth every penny."

*Caroline Jones, Grant Co-ordinator, Gloucestershire*

## Colour Catch Combo™

"Provides visual and auditory rewards to every user. Could be suitable for people with visual perception disorders, such as strokes and brain injury."

“A flood of air bubbles, a series of colourful, glittering little balls ... the visual stimulus predominates and the tactile comes later ... the tactile sensation is especially valuable for blind visitors ... there is also auditory stimulus. The stream of bubbles makes a gurgling sound and there is the hum of the air pump.”  
Snoezelen Another World book

**“Absolutely STUNNING**  
We couldn't be more pleased. We have only had cheap tubes before this one and the difference is astounding. When we first turned it on we all took a gasp it was so beautiful. It's so bright and vibrant. The actual bubbles are huge. The gurgling and vibration are very soothing. It's extremely sturdy and well built and shouts high quality product. Fantastic product, highly recommended.”

### Uses of ROMPA® Bubble Tubes

1. To draw attention, encourage focus or to distract – colour, lights and bubbles are visually engaging
2. To lift mood (provide enjoyment)
3. To calm, encourage relaxation and reduce anxiety (which has physical and psychological well-being benefits)
4. For visual tracking opportunities e.g. with fish, balls, cubes ... (which has implications for many activities of daily living such as reading and writing)
5. To provide tactile input (hold/cuddle the cool and firm tube to feel the vibration through the whole body and access deep pressure)
6. To provide auditory input (soothing humming of the pump)
7. For meaningful communication and learning (the right level of activity), with switches and controllers, such as colour recognition, social skills (turn-taking) and understanding cause and effect (and for supervisors to learn more about users' sensory preferences and needs)
8. To allow choice and control and so empower users (fundamental aims of Snoezelen®) through a variety of controllers, including a microphone
9. To practice motor skills – pressing buttons on switches, throwing cubes, reaching up and around the tube ...
10. To maximise space – bubble tubes can be tall and have compact bases. Combined with slim acrylic mirrors, a bubble tube corner provide a striking and vibrant focal point in sensory rooms, bedrooms and more

10 good reasons...

### Light Source by ROMPA®

With LED technology, this Wi Fi light source is cool-running and maintenance-free. Compatible with Sensory Magic® and an interactive device such as Colour Changing Panel, Wi Fi Microphone, Talking Cubes or 8 Colour Wirefree Controller. Ideal for sensory stimulation, colour recognition, and developing the understanding of cause and effect. Compact and can be wall-mounted.

Size: 18L x 8W x 5cmH

### Uses of ROMPA® Fibre Optics

1. To provide visual stimulation and facilitate safe access to light, including amongst visually-impaired users and those with PMLD – the fibres can be safely held
2. For learning opportunities e.g. colour recognition (the colour changes dynamically) as well as colour matching and understanding cause/effect when used with controllers.
3. To provide tactile stimulation – the soothing weight of a harness across the lap or stroking the tips across the hands, arms etc. like a brush. Some fibres are textured, such as our Bamboo Fibre Optics
4. To provide sensory input to immobile and bed-bound users through ceiling-mounted Clouds, Panels, Circles and Chandeliers. Using a fan near suspended strands to make these move gently can increase the visual effect.
5. To separate off areas and visibly create zones within a space using Combs and Curtains. Users can feel immersed and safely enclosed in these areas
6. To maximise space – fibre optics can be threaded into carpets – we have options for floors, walls and ceilings
7. To calm, soothe and encourage relaxation – through softly changing colours and by providing a distraction from anxieties and discomfort
8. To help individuals on the Autism spectrum to concentrate and improve attention
9. To allow choice and control and so empower users (fundamental aims of Snoezelen®) through use with a variety of controllers, including a microphone. Individual strands can be used or whole harnesses, again facilitating choice and a person-centred approach.
10. To encourage motor skills and exploration – strands can be fanned out, threaded through loosely-knitted items, draped over the body, wrapped around the body and fingers can be passed through the tails

Fibre Optics provide light you can touch, hold, capture and feel! Ideal for those with sensory avoidance and difficulty enjoying the normal range of lighting effects. Fibre optics stimulate and hold attention. They are safe to touch, phthalate-, glass- and latex-free. Fibre Optics from ROMPA® are three-strand and so are considerably more effective than cheaper single strand options. Our wonderful light sources complement these safe fibre optics perfectly - they are quiet, cool, very compact and also wirelessly interactive. Fibre optics are safe to handle but should never be mouthed.

"A valuable resource for customers using our service at Goscote Centre. It provides multiple benefits where our customers can explore the sensory environment via the use of interactive beams. Uploading photographs personal to the individual using the system creates a unique experience which can be comforting, whilst enhancing learning and play. The sessions are tailored and personalised to meet individual need which is an objective we aim to achieve throughout our day to day service delivery. We use our system in many ways e.g. to develop interactive skills within small groups to encourage the users to take turns to activate the beams. For customers who benefit from visual stimulation seeing images that change as a result of their actions develops their understanding of cause and effect".

*Emma Partridge, Senior Reablement Officer, Day Opportunities & Employment Adult Social Care*

"The system has been a very accessible and exciting for our pupils. It is very responsive to the smallest movement so even our more physical disabled pupils have been able to produce sound and contribute to a greater sound installation, for example, our iPad Orchestra. Pupils were very keen to give it a go and experiment with the sound effects".

*Ellen Croft, PMLD Curriculum Leader, Leicester*

"Excellent for immediate engagement in a huge range of activities that can cover pretty much any area of the curriculum. For first-time musicians it can be used as an errorless method to explore an instrument or for those struggling to engage in maths, it can be subtly woven into numeracy-based activities... Easy to use which enables all the staff, regardless of their IT capabilities ... One of the greatest features is that it can be completely customised to suit the needs of a wide variety of learner profiles... Our learners have loved using the Optimusic system and are also realising the health benefits as 'Chase the Beam' has become enormously popular".

*Chris Buckley, Head of Education, School in Seaford*

"We use our Opti-music in all our themes created within our Curriculum Sensory Space.

These have included themed sessions such as the circus where students had the opportunity to sit or lay in a sensory swing and move around with batons or stick on pads to break the beams making various circus themed noises whilst pretending to be Acrobats.

On the Farm - students had great fun taking turns to guess what animal would appear on the screen and what noise they could hear when breaking the beams.

In our Native Americans theme the students had the opportunity to make up tunes using the drum programme and each took turns breaking a beam matching colour symbols to colour beam to create a drum beat for a pretend Pow Wow.

The Opti-music has become a valuable piece of equipment in our Curriculum Sensory Space and has given our students the opportunities to develop both fine and gross motor skills, concentration skills, social skills and most importantly independence by being able to explore and create to their own level of abilities".

*Clare Coombs (HLTA), School, Bracknell*

Our younger children and babies like the fish, within days of installation we saw how the fish swimming around and reacting to the children by swimming away made a child sit unaided for the first time in his efforts to reach the fish and then laugh for the first time when it swam away. Our older children like the poppies and leaves whereby a wave of the hand can clear away leaves or poppies showing part of another picture below, we use this to teach the children turn taking and waiting, they take turns to clear the leaves away and then all wait while the leaves reappear before all clearing them together. Although expensive this piece of equipment is worth every penny."

**Create Your Own Effect Wheel**

Use this clear wheel to create your own effects. Use pens, clear materials and photographic transparencies to create effects that meet your needs. Especially effective with the ROMPA® Rainbow Wi Fi Projector as this projects coloured light, so by simply using a black marker pen with the clear wheel you can create your own bespoke and personalised beautiful effects.

**LED Ceiling Panels - Set of 4**

Transform an uninspiring or dark space into an inviting, cozy environment. The ultra-thin LED panels replace the desired number existing ceiling tiles. The high-quality image helps create an atmosphere and provide an illusion of daylight, as if it were a real window. Consists of 60x60 cm LED panels, graphic photo, adapter and white aluminium lifter.

Several different sets and designs are available, including Clouds Air Balloon; Clouds Oak Leaf; Clouds Pink Blossom; Clouds Sun; Fish and Balloons. Please contact us for further information.

- Large and bright visual display – visible from a distance, for visually impaired users, multiple users
- A set so looks more realistic than a single panel
- Simple to install – standard ceiling panel sizes
- Suitable for all ages and abilities
- Can be enjoyed regardless of ability – does not require any intellectual reasoning or prediction
- Realistic artwork – looks real
- Static so won't cause dizziness – motionless unlike Projectors and Effect Wheels
- Colourful and clever optical illusion – implies access to the outside in rooms that have no natural light
- Great for individuals who are bed-bound, who spend hours looking at a ceiling and who are otherwise unable to access outside spaces
- Cheerful and bright – could help lift mood – soothing, universally-liked motifs
- Distracting in medical treatment areas and dentists
- Makes maximum use of minimal space – good for small rooms with larger budgets
- Could be used to generate a theme e.g. with outdoor aromas, aquatic bubble tubes etc

# Sensory Profile Packs

Designed by the highly respected **Lesley Collier** of the University of Southampton to manage set patterns of behaviour that may be a result of sensory processing difficulties. These difficulties may be experienced by all generations from those with no clinical problems through to those with diagnoses such as Autistic Spectrum Disorder, Anxiety, Learning Disabilities, Alzheimer's disease, Schizophrenia and Stroke, amongst

others. These packs are based around the Model of Sensory Processing (Dunn, 2001). In order to identify which sensory type you fall within the Sensory Profile or the Adult Sensory Profile will need to be completed. Each pack will include equipment that will provide a more appropriate level of stimulation to each of the senses; touch, sight, sound, smell and movement (proprioceptive and vestibular stimulation). Our Home Packs are intended for families to use to help provide appropriate stimulation at home. Contents may vary subject to availability. For 3 years and over. This pack may contain some small parts. Some of these products will require batteries.

R921201 **£ 50.00**

## Low Registration

## Low Registration

This person does not notice or misses sensory events in everyday life that others readily notice or is slow to respond to sensory stimulation. He or she has a high sensory threshold, meaning they require lots of stimulation or a more intense sensory stimulus in order to respond. However, despite this need they do not actively seeking sensory stimulation out, e.g. not noticing someone entering the room. Typically includes Spiral Glitter Wands; Infinity Light Wands; Spotty Spinner Ball; Shape Shakers; Foot Massage Rolls; Aroma Diffuser; Aromatherapy Kit; Name That Smell; Gymnastic Ribbon; Critters Bean Bag Set and Koosh Balls.

## Sensory Sensitive

## Sensory Sensitive

This person readily notices sensory stimuli and may be uncomfortable or distracted by them. He or she has a low sensory threshold, meaning they do not need much sensory stimulation in order to respond. However, rather than manage this level of stimulation they are easily distracted by it, e.g. being distracted by an untidy room. Typically includes Fibre Optic Lamp; Colour Changing Egg; Animal Sound Tin; Rhythm Pals; Dolphin; Aroma Mouse; Aromatherapy Kit; Aroma Huggabuddy (animal may vary); Chiffon Squares; Spiral Glitter Wands and Jungle Bowling.

R921203 **£ 55.00**

## Sensory Avoider

## Sensory Avoider

This person deliberately acts to reduce or prevent exposure to sensory stimuli. This individual has a low sensory threshold, meaning they do not need much sensory stimulation in order to respond. As a result, they actively find ways to avoid too much sensory input during the day, e.g. only eating familiar food when in a foreign country. Typically includes Mood Cushion; Bird Mobile; Boing Ball; music CD; Rain Tube; Sensory Squares; Vibrating Neck Cushion; Sparkly Play Foam; Aroma Mouse; Aroma Oil; Aroma Huggabuddy; Eggsercizers and Bowling Set.

# School Sensory Space

Interactive sensory environments that use sensory input to help students concentrate, learn and develop. Helpful for calming anxiety, providing stimulation so learners can focus, whilst their individual needs are met. These spaces provide opportunities for students to move, jump, bounce, rock and fidget ... working minds and muscles, burning off energy and strengthening motor skills. Equally importantly, these areas allow users the chance to calm down and rest.

## School Sensory Spaces Saver Pack

A collection of carefully selected products to use in a classroom, gym or corridor. Especially effective when purchased in multiples to accommodate a group of learners. The components can be used in a variety of ways e.g. Multi-Purpose Ball can be sat on in the Ball Stand or rolled over prone students to provide deep pressure input; The Tactile Multi-Purpose Cushions can be sat on or used as part of trail for balance, core strength, spatial awareness and co-ordination. As many of the products have multiple uses, these can energise and stimulate users or be used to calm and relax learners. More economical than purchasing parts separately. Contents may vary, but set typically includes:

- Large Balance Dome
- Bumpy Multi-Purpose Ball
- Ball Stand
- Tactile Multi-Purpose Cushion (one 32cm and one 39cm)
- Jumping Seat
- TeeterPopper™
- Tactodiscs
- Sensory Circles Set
- Hilltops - Set of 5
- 6 Sensarings

# The Complete Snoezelen® Water Resource

Water offers a change from the normal environment. It provides pleasure and can have enormous therapeutic value, assisting in relaxation, improving circulation and restoring mobility. Add SNOEZELEN® with water in the bathroom, spa pool or Jacuzzi and add another dimension to sensory stimulation. Create atmosphere using fibre optics, aromatherapy and music. Dim the lights and take sensory experiences to a different dimension.

ROMPA® can provide your Water Snoezelen® environment - from a modest bathroom to larger pools. Please contact us for further information.

## Snoezelen® in the Bathroom

### Benefits

- Transforms bathing into a multi-sensory activity through pleasant aromas, sounds, lighting and tactile experiences
- Alleviates stress and agitation and provides a calming environment
- Encourages choice, individual preferences and promotes person-centred care
- Provides distraction and stimulation to reduce feelings of anxiety and embarrassment for both the client and the care-provider
- When introducing equipment designed for either battery or mains use into a Water Snoezelen® environment, obtain professional advice on equipment suitability and installation.
- Under no circumstances should people in the water handle electrical equipment, including items such as speakers and lighting.

### Super Safe Plastic Fibre Optics for Water Environments

Provides the same effect as our Super Safe Plastic Fibre Optics but these are specially treated for use in water environments such as bathrooms and pools. Requires light source 19210 or 21452 for 2 harnesses. Please seek advice from a suitably qualified electrician regarding the safe installation of the light source.

### Aqua Mood Light

Create a relaxing atmosphere in your bath with this colour-changing, waterproof LED light. The soft lighting can be decorative and soothing as the colours fade in gentle rotation, or stimulating when set to jump between colours, or to a fixed colour. Includes a remote control with CR2025 battery and an 8-10m range approximately. Also suitable for use in vases, water features and ponds. Requires 3 AAA batteries for the light unit. Not for use in water deeper than 1m. For 6 years and over.

Size: 7cm diameter x 2.5cmH	
R922487	<b>£ 12.95</b>

### Spa Lights - Set of 2

Float on the water surface and project six different light displays across the bottom of the bath – fade, flash, alternate, static etc. Alternatively, stand on a flat surface and project beautiful colour changing light displays on nearby surfaces. Requires 3 AAA batteries (to be purchased separately). Inexpensive and really effective.

Size: 9cm diameter

All of these accessibly-priced swings are intended to provide play and sensory activities at home to support, not replace, the interventions of trained professionals. These simple swings are not intended as substitutes for our TheraGym® swings which have been designed for professional and long-term use, and which have multiple features, functions and benefits.

All of these products encourage appropriate physical activity outdoors to enhance the Sensory Integration therapeutic interventions carried out by trained therapists indoors. These robust resources provide valuable and inclusive components for sensory circuits in schools as well as fun and engaging activities for the home garden.

#### Musical Water Bed by ROMPA® (A)

Fine vibrations of rhythm, tone and beat can be produced through your music system, which connects to the bed. These are picked up through the skin as tactile stimulations. The bed adapts to the body shape giving warmth, comfort and muffled noise, possibly similar to foetal experiences in the womb. The bed has a wooden base and is mounted on a giant loud speaker cabinet. The bed can also be used for interactive stimulation by means of the included microphone to create your own sounds. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. PVC - please specify colour choice when ordering (see page 6).

"The bed was easy to set up with good instructions on its set up and use. The bed is a valuable asset in our sensory room serving to support, relax and stimulate children at different times. The musical aspect of the bed is especially useful for autistic children and those with PMLD who appreciate the sensory feelings coming through the mattress from the speakers below. The bed base and mattress are very well made and the speaker fitted into the bed base and amplifier and microphone supplied are of good quality and work well."

Caroline Jones, Grant Co-ordinator, Gloucestershire

#### Vibrating Floor by ROMPA®

This cushioned wooden floor vibrates automatically or in response to music or vocal stimuli. It is particularly suitable for those with mild or total sight/hearing loss as it provides valuable tactile stimulation. Also used for those with autism.

- Provides three methods of vibratory stimulation:
  - Built in oscillator to vary frequency and extent of vibrations.
  - Musical stimulation.
  - Amplifier and leads supplied for ease of connection to any music centre or radio.
- Used with the microphone provided it can help to stimulate vocalisation.

Vinyl - please specify colour required when ordering (see page 6).

#### Water Mattress by Rompa®

A heated water mattress which moulds itself to the shape of the body giving total unrestricted support without any pressure points. The gentle support by water allows even the slightest movement to be felt. The special double isolated heater pad with variable heat control maintains the mattress at a comfortable temperature. The water mattress is designed to be used on the floor or a suitable strong support capable of taking the total weight when filled - the double bed weight is half a ton. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. The cover is made from strong, reinforced durable vinyl which can be wiped clean and is available in a range of colours. Includes heater pad, fill kit, 17m (50ft) hose pipe, water conditioner and instructions. Platforms for the Water Mattress can be made to your specifications by special order. Vinyl - please specify colour when ordering (see page 6). This product contains wood.

*This ever-popular range is now better than ever*

- Ergonomically designed
- With a higher cushion for additional back support
- Solid foam without a rigid wooden frame
- Multi-sensory, with eye-catching and tactile fabric options
- Contemporary and aesthetically pleasing for a multitude of environments, including homes and waiting areas
- Softer, slimmer and more curvaceous styling
- Supportive without compromising on comfort

Available in a huge choice of colours. Choose from our standard PVC or 2-tone options - Faux Leather combined with Tactile Fabric. As these products have seams, they are not completely waterproof. Where there is the occasional risk of incontinence amongst furniture users, we recommend that PVC is chosen.

**Chatsworth L/H & R/H 2 Seat Settees & Corner Unit**

Please specify Colour choice (see pages 6 & 7 for PVC)

The Chatsworth range includes individual pieces of furniture as well as settees and corner units that can be placed together to maximise the space available. These modular pieces can be used in a variety of combinations and are perfect for waiting areas. For example, team a 3 Seat settee that has a single arm with a Corner Unit to fill a whole wall. A second settee with the opposite single arm could be added to the other side of the Corner Unit to fill 2 adjacent right-angled walls. With so many colours, sizes and sensory options to choose from, it's up to you!

To make the furniture even more comfortable and inviting-looking, why not add some scatter cushions? Choose matching colours or contrasting shades for visual stimulation.

Remember, L/H refers to the left hand side from the perspective of the seated user, not from the view of someone looking at the settee in front of them.

## Rest, Recovery & Re-Orientation - a joint initiative by ROMPA® and Ryall

In response to requests from our valued customers, ROMPA® has developed the Rest, Recovery & Re-Orientation Rooms, or '4R' environments.

Designed for demanding environments such as schools with BESD (EBD) students, offenders' institutes and prisons, these custom-made and fully-installed facilities offer a safe environment for those with challenging behaviours and aggressive tendencies. Carefully developed in conjunction with Tony Ryall, an expert in this field, the value of these rooms is becoming increasingly apparent. In the 4R environment, clients have the opportunity to calm down, rest, recuperate and recover in a secure, robust, damage-resistant environment for a carefully monitored minimal time. Most importantly, these environments encourage 're-orientation', such as the re-introduction of the person back into their usual environment.

To be used in conjunction with positive handling and appropriate physical management practice, these facilities offer a comfortable and calming area, which can be continually viewed by teachers, supervisors or competent staff from outside the room - without putting staff resources under increasing strain. In some cases, by replacing external factors (such as staff imposing control), these rooms can help develop internal mechanisms for calming and foster understanding of rights and responsibilities - not least clients are encouraged to manage their own behaviour. This is an extension of existing interventions for a whole range of needs, and operates with the best interests of the person as its principle to safeguard people and respect the 'Duty of Care'. The initiative encourages the safety of the disruptive person, his peers and supervisors alike.

Whilst risk can never be eliminated, these environments aim to significantly reduce risk, the number of potential injuries, exclusions, holding and numbers of staff required. Children on the Autistic Spectrum may need the room as part of their Time Out Plan.

These rooms, typically 2m by 3m, are one part of a wider structured programme, that includes a support plan, an intervention plan and parental responsibility. Each installation is accompanied by detailed training to ensure the appropriate and safe use of the room. It is used in conjunction with all appropriate legislation and good practice policies. Please note: 4R rooms are not to be used as Snoezelen®, sensory or Seclusion rooms.

**ROMPA® believes that innovation and reliability go hand in hand - trust ROMPA® to deliver what we promise.**

## Furniture for demanding environments

 Please specify Colour choice (see pages 6-7)

Requests to include furniture in our range that would be appropriate for demanding environments encouraged ROMPA® to design furniture and cushioning to meet those needs. With the appearance and comfort of standard furniture, these products have additional features:

- Light with no hard corners
- Durable, moisture repellent covers to withstand robust use
- Hand finished seams which replace zip fasteners
- Additional sealing of seams for improved hygiene
- Chairs that support body weight when seated which will collapse when stood on.

ROMPA® furniture is manufactured from fire retardant materials (ROMPA® is a member of the Furniture Industry Research Association (FIRA))

Call ROMPA® for advice on the most appropriate furniture for your needs.

From consultation with carers and medical staff at high risk units such as Rampton Hospital, ROMPA® have developed Seclusion Furniture. With great attention to detail, this thoughtfully conceived range promotes staff and patient/inmate safety. Durable, and easy to clean, this furniture meets all relevant safety and fire retardancy standards.

**Solid Structure Ballpools for all applications**

Some people want to release energy whilst others wish to sink back and relax. Whatever your preference ballpools offer an inviting opportunity for a major change in environment.

They provide safety and support for limbs and body. They allow movement whilst providing touch contact all over the skin area.

Use ballpools as an adventure, pulling and pushing, lifting and falling. They offer a chance to turn the journey into a shared experience.

Ballpools can be made to any size - 2, 3 or 4 sided. When ordering, please state the external dimensions.

Ballpools are built around a wooden frame, and are cushioned with high quality, latex-free foam.

Contact ROMPA® NOW for advice on measuring or a price quotation for your tailor-made ballpool.

*“Fantastic Item for where space is an issue. We ordered this product back in 2006 for our daughter ... and it's still going strong! Really durable, tough vinyl ... and not a rip or tear in it 9 years on! I cannot praise highly enough how sturdy the walls are once fixed ... many a time 'perched' on by us when supervising daughter ... and no dents from our weight!! It's a fantastic design that can fix into any corner, utilising your existing walls for the rear 2 sides ... It was easy to fix with the wooden brackets attached, and has stayed put all these years with no problems at all! The inner floor mat is also tough ... made from heavy duty vinyl, which velcros on to the sides to fix. All in all, this ball pool scores highly with me 11/10 ... definitely a quality item that is well made and lasts many years, as mine has proven!”*

**Relaxer™ Travel Size Weighted Blanket**

Helpful for calming during the day and to aid relaxation during daily activities that could otherwise become stressful situations. Take it almost anywhere for convenience and reassurance e.g. in the car, on the plane, at the dentist's or hairdresser's. Suitable for children and adults. Affordable and portable. Designed by an Occupational Therapist with over 25 years of experience. Triple-stitched for robustness and so the filling is safely contained. The hygienic filling is BPA-free, phthalate-free, and lead-free. Cotton outer for comfort and durability, even after repeated machine washes. Pattern-free to avoid distraction and visual over-stimulation. With a scoop neck for comfort to avoid discomfort around the face and neck. Colours may vary.

All the weight of the Relaxer™ Travel Blanket is on the person therefore the Travel Blanket can weigh less than a weighted blanket used for sleeping.

**Adjustable Weighted Blanket**

With a unique and highly flexible design. Attach or detach the individual sections to adjust the size of this blanket according to need. Whole sections can be separated for day time and portable use (or for washing), and assembled again using the Velcro® for night time. Each section has several pockets so you can regulate the weight distribution as required. The weighted pouches contain balls and polyethylene granules. Helps individuals with sensory processing problems, anxiety, sleep deprivation, ADHD, hyperactivity, hypersensitivity and Autism to rest, and awaken feeling refreshed, energised, less irritable and with improved concentration. The blanket stimulates the body's nervous system by providing a deep, constant and predictable pressure on the whole body. Wrapping an individual in the blanket facilitates relaxation and helps improve well-being as well as bodily awareness. 100% cotton to maintain a comfortable temperature. Dark blue in colour to soothe.

Size: 117cm x 200cm (typically use up to 3 of the 50cm sections for children and 4 for adults)

**Body Roller**

Provides deep pressure as the child crawls between the rollers for additional sensory input. In a similar way to babies being calmed by swaddling and being wrapped tightly in a blanket, deep pressure can be soothing and relaxing. Deep pressure is especially beneficial for children with ASD and ADHD, and can help reduce tactile defensiveness in those who cannot tolerate being touched (hypersensitivity or over sensitivity to touch). Providing appropriate sensory input through a product like this Roller may reduce self-stimulation and self-harming amongst children craving deep pressure. Moving through the rollers can help with motor planning, and can be used as part of imaginative play. Tension and pressure are easily adjusted to each user's specific needs – you can choose the appropriate level of proprioceptive feedback for your child. The rolls are fully padded which helps the child to relax. Available in red, green and blue – please specify colour choice when ordering. User weight limit: 136kg (300 lbs).

ROMPA® is proud to be the exclusive European provider of therapeutic products from TheraGym®, a leading developer of the highest quality therapy solutions.

“This can be hung from one suspension point, or two, and so both linear and rotational vestibular input can be achieved. A fantastic swing to help develop tonic extension and integrate retained primitive reflexes. This also makes it very able to achieve supine positions. We also use this swing in Sensory Attachment Interventions as it can provide a nurturing feedback when slowly rocked, and can cocoon the person.”

**TheraGym® Therapy Net Deluxe Swing**

Provides linear and rotational movements to enhance core development and motor control. Whilst some children seek the comfortable and soft enclosure of a fabric swing like the TheraGym® Tear Drop Swing, others prefer the more open and visible space provided by a net swing. Our Therapy Net Deluxe Swing helps a child feel secure whilst their vestibular system is stimulated. This also provides a safe haven for activities such as reading and studying. A heavy-duty nylon cord unit is suspended from welded steel rings. Includes one safety snap. Vinyl-covered birch board (58cm diameter) is optional. Working load: 225kg (500 lbs)

Sensory Integration is a therapy that should be carried out by suitably trained and qualified people. These swings are intended for controlled movements - they are not toys.

“Our new therapy is filled to the brim with Rompa® equipment and resources but the most popular Rompa® equipment that the children have just loved, has been the Beano Swing ... One recent task was to use the Beano Swing to knock down a tower made from the Soft Play, aiding a child seeking ‘crash and bump’ sensation and then also using the Beano Swing to drop down into the up-turned barrel helping motor planning and body awareness.”

Dominic Simpson, jigsaw Occupational Therapy Ltd

“The children love it and have given it many different names, such as the ‘zip wire’ and ‘thunder bolt’! The Beano Swing requires good core stability and tonic flexion as well as strength in the arms and legs to hold on. The swing is a challenge to master and we grade the activities to build up the child’s strength. We place a large beanbag underneath until they are able to independently hold on. This swing allows for accelerating linear movements that the child creates himself or the swing is used for rotational movements. The Beano Swing is an essential piece of equipment in our S. I. clinic.”

Annie Doubleday, Emma Jerman, Occupational Therapists

**Beano Swing**

Improved design – softer rope for extra comfort to little hands!

A robust, waterproof polyester bag filled with polystyrene beans. Swing on the Beano by gripping the swing between your thighs, resting on the bean bag seat.

Working load 90kg (200 lbs). Colours may vary. Includes a built-in plastic reinforced tear-shaped loop at the top of the rope to be hung from your suspension system. The length of this rope makes this swing unsuitable for use with the Suspension System 17687. This product has a zip for manufacturing purposes only.

“This swing instantly seems to attract attention from the younger child, some of whom seem drawn to this and want to feel cocooned. They love the sense of safety that this provides, and feel secure in the swing. With a smaller opening than other swings, this gives a better sense of separation and physical boundary. They have described it as their bubble. Our sessions consider therapeutic space, such as activities working in close proximity and tight space, and being able to push against flexible boundaries feeling like ‘womb space’. It has therefore been a valuable swing in our Sensory Attachment Interventions too.”

“The platform swing is an essential swing in our S. I. clinic, as it allows for the child to work in different positions such as sitting, laying on their tummy or back. It is very versatile and allows for the task to be graded. We love to use the Tube Swing inside the platform to provide more postural support with gentle vestibular input. As the child improves their posture through the use of S. I., the challenges can increase and the child can lie or sit in different positions. The swing has ropes that the child can hold on to for support and we encourage the child to start to self-propel and move the swing themselves, as this is an excellent bilateral timing and coordination task, and provides proprioceptive input.”

**Billowing Cushion by ROMPA®**

A foam base with air cushion creates an exciting Billowing Cushion. Offers a number of therapy opportunities for those with mobility and sensory issues. Lying or sitting on the cushion provides vestibular stimulation which can be controlled by the user or another person. Also provides proprioceptive and deep touch pressure input. Rolling on and off the cushion is posturally-demanding, strengthening the core and trunk, whilst working on antigravity flexion and righting reactions. Moving around the cushion facilitates gross motor patterns and joint compression. Helps facilitate balance and promotes stability. Useful in Snoezelen® and Sensory Integration environments, it is a safe depth and is great for crashing on. When used with foam-filled Floor Mats, the movement of this product provides a contrasting sensation. With other ROMPA® products, additional engaging activities can be created around this cushion such as seeking out bean bags placed round about or using in conjunction with a swing. The surface can be easily wiped clean. Please state colour choice when ordering. Vinyl.

**Simple Music Player**

Many individuals with Dementia want to listen to music but are unable to use conventional music players because they find these too complicated to operate. This version is designed to overcome these problems as it helps to provide people with Dementia with music they remember in a way they can independently access themselves. Operated by lifting the lid, which automatically switches the unit on and plays a tune. If a new tune is desired, a single large button allows the individual to skip to the next track. Family, carers or friends set the volume (which is intentionally not easy to change by accident), as well as downloading tunes onto the player (easily via a USB link from a Windows, Apple or Linux PC).

**Z-Vibe® & Z-Grabber™**

Most people are either auditory or visual learners, but sometimes these senses are not enough and we need to consider the sense of touch. Speech and Language Therapists have been trained to use tactile input to teach clients how to lateralise their tongue, elevate their tongue tip, make a tongue bowl, close their lips, learn a rotary chew, position the articulators for sound production and other oral motor skills. Vibration provides a new level of sensory stimulation to increase awareness and to draw more acute attention to the articulators. Vibration can also be calming and organizing.

All these products are lead-, latex-, PVC-, BPA- and phthalate-free, and are for supervised use under the guidance of a therapist or trained carer. Change the Tips for work on speech and feeding skills. All Tips require a Z-Vibe® or Z-Grabber™. The Soft options are made from a softer, more resilient material for those with a bite reflex and/or sensory issues.

**Z-Vibe®**

A sensory oral motor tool that vibrates. Intended for oral motor exercises and sensory stimulation. Use it to provide input to the lips, tongue, cheeks and jaw. This tactile input may help increase oral awareness and tone, decrease oral defensiveness, encourage texture acceptance and improve a variety of speech, feeding and sensory skills. The lightweight handle has gentle bumps for a non-slip grip. Battery and a Probe Tip included. Size: approx 16.5L x 1cmW

- R921307 Royal Blue VAT Relief **£ 39.95**
- R921308 Magenta VAT Relief **£ 39.95**
- R921318 Battery **£ 5.00**

**Z-Grabber™**

The Z-Vibe® with a chewable grab loop handle. For clients who crave the vibration and sensory stimulation of the Z-Vibe, use this to transition them into working on biting and chewing skills. Also valuable with the vibration switched off. Includes 1 Textured Bite-n-Chew Tip XL and 1 Switch Tip. Battery included

- R921315 VAT Relief **£ 39.95**
- R921318 Battery **£ 2.95**

**Probe Tip**

Use for oral motor assessment and development. Designed by a speech and language therapist. With a rectangular tip that is bumpy on one side, striated on the other, and smooth along the edges. These textured surfaces provide tactile input, awareness and sensation. Use to stimulate the gums, palate, cheek and tongue through stroking and by applying pressure. Each.

- R921309 VAT Relief **£ 5.95**

**Fine Tips – Set of 2**

Intended to isolate a specific spot, the thin tip narrows to about the size of a pencil tip in diameter. Includes 1 Hard and 1 Soft Fine Tip (the softer option for those with a strong bite reflex). Colours may vary.

- R921313 VAT Relief **£ 9.95**

**Mini Tip**

A smaller version of the Probe Tip for babies and toddlers up to 2½ years (depending on the size of the oral cavity). The rectangular shape has 3 different surfaces: bumpy, striated and smooth. It provides a varied sensory experience when stroking and applying gentle pressure to the gums, palate, cheeks, tongue and lips. This may increase oral awareness for individuals with hyposensitivities, or may decrease oral defensiveness and food aversions for those with hypersensitivities. Can be used to provide targeted tactile cues during oral motor therapy. Each.

- Size: approx 1 x 1 x 6cm
- R921311 VAT Relief **£ 5.95**

**Animal Tips – Set of 3**

Friendly faces to engage, improve concentration and increase willingness to participate in therapy. Each tip has a variety of shapes and textures for oral stimulation and sensory input both within the oral cavity and around the lips and face. Use the textured ears as spoons to decrease texture aversion, or use the bite blocks on the back to practice jaw grading and stability. Useful to work on biting skills, coordination of movement, discrimination and play therapy. Includes 1 each of Cat, Mouse and Dog. Size: 4.5W x 8H x 3cmD (Cat); 7.5W x 7.5H x 3cmD (Mouse); 7W x 6H x 3.5cmD (Dog)

- R921319 Hard Tips VAT Relief **£ 34.00**

**Spoon Tips – Set of 4**

After using the Z-Vibe® and the Probe Tip to encourage children to eat solid foods, the next step is to use Spoon Tips. The size and shape allow for easy feeding and oral stimulation. Includes 1 each of: Hard Spoon Tip, Soft Spoon Tip, Hard Textured Spoon Tip and Soft Textured Spoon Tip. The Textured Spoon Tips have texture on the back to encourage acceptance of textured foods.

- R921312 VAT Relief **£ 25.95**

**Preefer Tip**

Similar to the Probe, and requested by therapists who wanted a round end instead of the rectangular end of the Probe. With long striations around the circumference of its tip that are useful when a 'rolling action' is required. Use to stimulate the gums, palate, cheek and tongue through stroking and by applying pressure. The textured surfaces provide tactile awareness and sensation. Each.

### Y-Chew – Set of 4

To exercise the lips, tongue, cheeks and especially the jaw, allowing the mouth to learn and grow strong through oral motor exploration. Also useful as oral fidgets for sensory seekers, to decrease thumb/finger/knuckle sucking and to decrease oral sensitivities, oral defensiveness and food aversions. The blue and yellow chews are soft and chewy. The orange and turquoise are chewy and resilient, but extra tough and firmer for those who exert more jaw pressure. Use as a sampler pack to assess the suitability of each, or to grade these to gradually build oral strength. Lead-, latex-, PVC-, BPA- and phthalate-free, and are for supervised use under the guidance of a therapist or trained carer. Replace once worn.

**Switch-Activated Spinner**

Encourage people of all ages and differing abilities to enjoy interactive games together. Great for inclusion, this is large scale and accessible. Perfect for those who are unable to hold and throw traditional dice, and for those with visual impairments who cannot see the dots on a standard die face. Either press the red button on the front, or connect and activate your own switch to make the central arrow spin. Use in turn-taking to select random numbers instead of shaking one or two dice. Also excellent for early maths skills – add, subtract or multiply the numbers from both dice together, work out probabilities and use in matching games. Especially valuable in small groups as the spinner can be stood up on a table (using the integral fold-down legs) for everyone to see at once. For the less able, activation helps understanding of choice as well as of cause and effect as well as providing a multi-sensory reward – the spin is audible and produces a pleasant visual effect. Requires 2 AA batteries and a switch (both to be purchased separately). For 3 years and over. Size: 34 x 34 x 6cmD (16cmD with the legs extended); display 29.5cm diameter; red button 3.4cm diameter

## Positive Play...

### Positively thriving

This unique scheme that helps children through play has developed from a relatively small Derbyshire based scheme into a significant UK wide programme supporting infants to young adults from all kinds of backgrounds, with all kinds of needs. From youngsters struggling with low self-esteem to older children coping with family break down and emotional turmoil, the Positive Play Support Programme has helped hundreds of families.

The facilities at the Centre of Excellence can be replicated in schools and settings wherever the Positive Play Support Programme staff are invited to establish the Programme. To make an appointment for a visit to the Centre or for further information about the Programme please contact Sharon Urben at the Base in Danesmoor, Chesterfield on 01246 862854

*NOTE: Although many of our products are helpful for people who have a range of additional/special needs/symptoms, not all qualify for VAT relief. To qualify, designer of a product must have specifically designed it for disabled people. If, however it was designed for everyone, despite its benefits, it will still attract VAT. We are bound by the laws of HM Customs and Excise.*

## ORDER DIFFICULTIES

We hope that you happy with your order. If you find missing, incorrect, faulty or damaged items, let us know immediately and we will do our best to resolve any difficulties as speedily as possible.

**•Damaged goods must be reported within 48 hours of receipt so we can take this up with the courier.**

•Please let us know of any missing items within 7 days from the date of your invoice so we can rectify this for you.

•If you wish to return items, please contact us to obtain a Returns Authorisation Reference so we know to expect your package.

Returned items must be in pristine condition, unused and in their original undamaged packaging. If they are not, an amount may be deducted from the refund to reflect the value of the product has been reduced. If you are not an individual, ROMPA reserve the right to charge a 15% re-stocking fee. We regret that we do not offer a pre-paid returns service and recommend you choose a signed-for option – we are not responsible for missing parcels. Costs are non-refundable unless the item is faulty. You have the right to cancel and return items within 30 days of receiving your order. Some items, however, are non-returnable, for example if they are made especially for you, these are marked clearly in the catalogue.

Our products are not classified as medical equipment. We cannot, therefore accept declarations requesting exemption in this category.
