School Sensory Space

Interactive sensory environments that use sensory input to help students concentrate, learn and develop. Helpful for calming anxiety, providing stimulation so learners can focus, whilst their individual needs are met. These spaces provide opportunities for students to move, jump, bounce, rock and fidget … working minds and muscles, burning off energy and strengthening motor skills. Equally importantly, these areas allow users the chance to calm down and rest.

School Sensory Spaces Saver Pack

A collection of carefully selected products to use in a classroom, gym or corridor. Especially effective when purchased in multiples to accommodate a group of learners. The components can be used in a variety of ways e.g. Multi-Purpose Ball can be sat on in the Ball Stand or rolled over prone students to provide deep pressure input; The Tactile Multi-Purpose Cushions can be sat on or used as part of trail for balance, core strength, spatial awareness and co-ordination. As many of the products have multiple uses, these can energise and stimulate users or be used to calm and relax learners. More economical than purchasing parts separately.

Contents may vary, but set typically includes:

- Large Balance Dome
- Bumpy Multi-Purpose Ball
- Ball Stand
- Tactile Multi-Purpose Cushion
  (one 32cm and one 39cm)
- Jumping Seat
- TeeterPopper™

R923210

Your space, your way ... mix and match resources from this catalogue for a bespoke solution and for multiples of your most popular resources.

See our Sensory Circuits Saver Pack on page 153 for another accessible and multi-purpose option.
Sensory Gym Saver Pack
