Winslow® Resources section at the back, page 255 to be exact!

Who are Rompa® and Winslow®?

Our aim is to improve the quality of life of people of all ages and all abilities. ROMPA® offers sensory tools for choice, empowerment, enjoyment, inclusion, meaningful occupation and comfort for everyone - individuals, families, institutions and businesses - here in the UK and globally. Created over 30 years ago, ROMPA® has become the globally-recognised market-leader it is today.

ROMPA® acquired Winslow Resources® 20 years ago. Winslow® offers a wide range of therapeutic and educational materials such as activities such as books, games, software, photo cards, specialist therapeutic interventions and assessment tools. These complement the ROMPA® range perfectly.

Together we provide

- Carefully selected and unique products
- Professionally designed bespoke and meticulously installed environments
- Excellent customer service

More products, discounts and offers are available online:

www.rompa.com www.winslowresources.com www.olderadults.co.uk

Our Snoezelen® Trademark and what it means

In the late 1970s pioneer therapists Jan Hulsegge and Ad Verheul experimented with a sensory tent at the DeHartenburg Institute. The term Snoezelen® was coined soon after, contracting the Dutch words "snuffelen" (to seek and explore) and "doezelen" (to relax). Through years of experience Rompa® has developed a range of products and created bespoke environments based on the principles of Snoezelen®, becoming the leading UK provider before developing key partners around the world. Rompa® also owns the trademark for the name Snoezelen® when applied to products. You know you are buying quality when you buy a Rompa® Snoezelen® product.

As Snoezelen® continues to grow, the principles and benefits of Snoezelen® remain hugely significant to individuals with a range of needs all over the world.

Snoezelen® continues to:

- Provide meaningful multi-sensory spaces and activities
- Reduce anxiety and offer calming solutions
- Build self-esteem
- Focus on the individual with a person-centred approach
- Respect each person's choices, needs, pace and preferences

How We Work

Mail Order Service

You can purchase products from ROMPA® and Winslow Resources® easily in several ways.

There is an order form at the end of this catalogue for you to complete.

You may wish to photocopy the form beforehand so you always have a spare for later purchases. Further copies of this form are also available on our website.

Please ensure that all the necessary information is included. Missing or incorrect information may lead to delays in processing.

This can be e-mailed to us at : sales@rompa.com

Or

Sent to us (FREEPOST Rompa)

Please remember to include payment details or cheque with your order.

ROMPA®, Goyt Side Road, Chesterfield, S40 2PH.

You can also phone our friendly Customer Services team to place an order. Please have your credit card to hand.

Our experienced and helpful Customer Services team will gladly answer your queries and advise regarding product features and benefits. As you know the needs of those you are buying for better than anyone else, we are unable to make recommendations regarding which products are especially suitable for your client's requirements. We will provide as much help as we can to enable you to make those decisions.

You are very welcome to arrange a time to visit our showrooms to see and experience our products first hand.

Website

Our websites provide additional information and downloads such as

- further product photographs, details and instructions to help you make the right purchases for you
- research papers and articles to learn more about multi-sensory approaches

You can buy on-line from our websites

You can visit our websites to purchase any of the products in this catalogue plus hundreds of online exclusives. Take advantage of our easy-to-use search facility to quickly find the products you require. Ordering is quick, easy and secure. Our websites are:

www.rompa.com www.winslowresources.com www.olderadults.co.uk

Design and Installation Service

If you require a whole bespoke environment rather than a few individual products, we can help you make the most of your available space and budget.

As a proud British manufacturer we can make products to your specification in a large range of colours, sizes and materials.

We offer a free of charge design service!

Our team of in-house designers will provide a room design to fit your specific requirements and budget. Our design visuals are extremely detailed and in some cases offer a full 3D visual of exactly how the real life room will look.

See the page opposite for details of how this popular and personalised service can work

Fundraising

Getting the funds together to bring your sensory room project to life can be a challenge. To help you get started we have put together a list of charities and funding organisations. This list is available on our website.

A Rompa[®] 3D room design will allow you to share your vision in a visually impactful way and may help you to secure funding for your sensory room.

www.rompa.com/fund-raising

Rompa® can supply a VR "walk through" visual for that added impact!

Contact us for further information.

To view our bespoke design in 360 VR Pano you will need our Rompa® VR Goggles and your mobile phone, then access our URL through the web browser in your mobile phone and slot the phone into the front of the goggles

"Occupational Therapy at Help for Heroes has the advantage of a well-resourced sensory room supplied by ROMPA®, in our Tedworth House Recovery Centre. It is used to support our wounded, injured and sick Armed Forces veterans who have been injured as a result of their military service. The sensory room is a calm, relaxing space to deliver individualised sensory experiences and encourage relaxation. Sleep disturbances are a substantial issue for our ex-service men and women and the positive impact the sensory room can have on our veterans' ability to switch off is significant. Without the sensory room we wouldn't be able to deliver such an individualised approach and the feedback we get from the beneficiaries is universally positive!"

Alexandra Lovett, Occupational Therapist, Help for Heroes

Important information: Please see our Returns policy at the back of our Index. Contact us for further information.

Designing and installing a Snoezelen® Multi-Sensory Environment doesn't have to be difficult.

Using our 30 plus years of experience, Rompa® will manage the project for you to ensure that your experience is stress free!

1. Contact Us

Call us with your requirements or brief and we will arrange help and a visit if required.

2. We'll Meet to Discuss

An experienced Sales Advisor will visit you at an agreed date and time to take measurements of the room and find out more about your needs.

3. We'll Design For You

Based on the meeting with our sales advisor we will create a bespoke design taking into account all of your needs.

4. We Quote

We will create an itemised quotation for your project so you can understand where your investment is being placed and make amendments if required.

5. We Listen

When you are happy with your design and quotation (changes can be made if needed) we agree on the project and you place an order with us.

6. If Required We Perform a Site Survey

Our trained installation team will visit the room/area we will be installing into and perform a site survey taking accurate measurements of the area so we can manufacture to the correct specification.

8. We Install

We agree a time and date convenient for you - our highly skilled installation team will visit and install your brand new environment.

10. We Maintain

Maintenance packages are available and can be tailored to your needs. We will discuss these options with you.

7. We Manufacture

Based on the site survey our manufacturing team will produce the items and equipment for your project. The lead time for this is typically 6 weeks. Need it quicker? Contact us to find out if we can produce it sooner.

9. We Train

Where possible we will train you immediately after installation. We want to leave you with an environment that you know how to use and maintain.

Through our in-house manufacturing expertise we are happy to meet these.

Like the product, but want to change it? We can adapt many of our products accordingly. For example, we can ...

 Put handles on our Floor Mats so you can move these

handles for ease of manouverability

- Attach pockets for shoes to the side of a ballpool
- Add a harness to a chair such as our Rocker

Want a new product altogether?

If you have your own vision for a product, such as a piece of furniture, a tactile panel or a Soft Play item, talk to us!

Let us create your dream

We are proud to be British manufacturers. This enables us to offer you bespoke solutions.

See our wide range of colours &

fabrics on pages 335 &

336

Many of the products in the Snoezelen®, Soft Play and Furniture sections are made by ROMPA® at our Chesterfield premises.

These items can be made in a variety of sizes as well as fabrics and colours. Look out for this symbol throughout the catalogue that indicates that a colour choice is available.

Once you have selected your products, our order form can be found at the end of this catalogue.

Where indicated, you will be asked to choose your required fabric and colour. Details of fabrics and colours can be found at the end of this catalogue.

Why not contact us today with your ideas and together we can realise your dream area...

Snoezelen $^{\circ}$ Colour Command Centre $^{\mathsf{TM}}$ by ROMPA $^{\circ}$

Rompa $^{\circ}$'s largest interactive wireless controller. Rewarding and responsive; empowering and engaging. Navigate through a spectrum of colours, patterns and levels of brightness on the large Colour Command Centre. Be amazed as the room transforms as other Rompa $^{\circ}$ wireless products change colour to match. Change the colour and the brightness of the large display as well as that of other ROMPA $^{\circ}$ products in your room. Unique, in that this is both a ROMPA $^{\circ}$ Wi Fi controller and a Wi Fi controllable product.

- 2 modes of operation passive and interactive
- Different effects such as solid colours, colour fading in and out, lights looping around the display
- Multiple illuminated push buttons at the base and within the display
- \bullet Use the panel buttons to select a base colour; then press the onscreen buttons to adjust the hues and brightness of that colour
- Sockets for your own switches
- \bullet Can be use with a microphone for a sound to light effect to encourage vocalisation Size: 115H x 67W x 10cm

2 BUBBLE CHAMBERS IN 1!

Snoezelen® Double Bubble Bonanza™ by ROMPA®

Combines two Snoezelen® favourites – bubble tubes and wall panels. Bubbles and colour can be individually controlled in each of the two chambers. Be amazed as the bubbles dissipate in one chamber only to burst into life in the other. The panel is packed with sound effects and music which makes for a truly exciting multi-sensory experience. The stunning effects stimulate, empower and engage. Perfect for co-operative play, turntaking and follow-my-lead activities. Features include:

- With 42 unique effects
- \bullet With two bubble chambers the bubbles and colour of each can be controlled independently
- Great for pair work and co-operative activity
- Can be used by one person to promote bilateral movement
- Encourages choice and control
- 3 modes of operation interactive, creative and music
- With gentle vibration for tactile input
- Accessible and illuminated push buttons to control bubbles and colour
- Can be use with a microphone for a sound to light effect to encourage vocalisation

Two people will be required to wall-mount this panel. Not compatible with Porter 22879. Pump 20601-DBL to be purchased separately.

Super Switch - Deluxe 8 Colour Wirefree Controller

The king of switches! Wireless and wonderful! Controls 8 colours!

- \bullet With pre-recorded multi-lingual words and sounds (colours, numbers, fun sounds and a musical scale so you can play tunes)
- Wirelessly change the colours of products
- ullet Timer facility to adjust the length of time a colour is activated
- Rechargeable includes charger which doubles up as a plug if you forget to charge it
- Customisable with a USB port so you can add your own
- Sounds can be removed altogether to avoid sensory overload and to aid individuals who sensory avoid to grade up their tolerance
- With 9 large, raised buttons to interactively operate multiple products
- With 9 external 3.5mm jack sockets to add your own switches
- Can be used with Sensory Magic®, Midi and Maxi Bubble Tubes, Light Source, ROMPA® Wall Panels, Wi Fi Spotlight, Wi Fi Mood Lighting, Wi Fi Colour Controller and more

- Additional controls on the underside including LCD display with pre-programmed functions
- For all ages and abilities

Integral rechargeable battery included.

Size: $37cm\ diameter\ x\ 12cmH$

"Clever piece of technology... We liked the fact it is wi fi ... We also like the fact it turns off bubbles too and you can use it like a mini piano. All in all a really clever little piece of kit!"

Dawne, Verified Buyer, Bridport

"Amazing product ... love it ... would recommend it to anyone who's looking to buy one."

Perianne W., Verified Buyer, Southport

"Even better than expected. This controller is fab! I really like the fact it's 'oversized' ... my daughter absolutely loves being able to change the colours herself, but loves more the setting for funny noises ... it's great ... Very pleased with this item and definitely recommend it."

Lisa R., Verified Buyer, Bicester

ROMPA® Wi Fi Microphone

Sound-responsive, wireless control of your Snoezelen® favourites. Change the intensity of a colour by making a sound into the microphone, or change its colour altogether. Great for encouraging vocalisation and for encouraging interactivity for those with physical disabilities who cannot access touch-responsive switches. Compatible with ROMPA® bubble tubes, light sources, wall panels and many more ROMPA® products. Rechargeable, a universal charger is included. The same size as a standard microphone, this could be used with a microphone stand (to be purchased separately). With integral sensitivity and mode indicators. Light weight (175g).

Size: 17.5L x 5.4cm diameter (2.4 to 3.6cm diameter at the handle)

ROMPA® Wi Fi Microphone

"This is used to interact with a number of pieces of equipment ... It is easy to set up and use and allows the children to play without wires getting in the way."

See page 14 for the Colour Command Centre™ - a Deluxe Wall Panel and a wirefree controller in one!

Wi Fi Override Transmitter

A discrete controller to allow carers, teachers and supervisors to override our other Wi Fi controllers. Designed for situations where a client has almost activated one of our Wi Fi controllers but has not exerted enough pressure on a switch button, or has missed the button. Intended to make sure a client receives a reward for their efforts, and so keep clients motivated and encouraged. Allows the carer to change and maintain the colour of Wi Fi products when they are with clients and so avoids the need to move, disturb or distract the client when they are focused on the activity. Includes the infra-red handset (with 1 CR2025 button cell battery included), controller interface and universal power supply. Requires a Wi Fi Controller (e.g. Deluxe 8 Colour Wirefree Controller) and Wi Fi responsive products such as bubble tubes, light sources etc.

Size: handset 8.5L x 5.1 x 0.7cm

Talking Cube by ROMPA®

- A highly popular product in our Wi Fi range
- Can change Bubble Tube, Panel, Wi Fi LED Spotlight, Wi Fi Colour Wall Controller, Wi Fi Mood Lighting and Fibre Optic colours
- No PC or programming required
- Audible and visual!
- Easily personalised with your own recordings and images This wireless talking soft play cube is multi-purpose and has endless educational applications. It enables the user to control the colours of the sensory environment - throw or drop the cube and change the room colours. Each of the 6 brightly coloured sides has a transparent pocket into which you can add your own pictures, symbols, words or photographs. You can easily customise each cube face with your own pre-recorded message, with your voice! To promote colour recognition, simply roll the cube and listen as the name of the uppermost colour is heard. Make the cube land on the colour blue and be rewarded with the sound "blue!" Throw a green and hear the word "green!" and so on. Ideal for developing the understanding of cause and effect, colour recognition, picture recognition, reminiscence, developing listening and motor skills, put dots in the pockets for use as a die ... the possibilities are endless!

Includes cube, speaker and 9V battery. This product has a zip for manufacturing purposes only.

Size: Approximately 30x30x30cm.

Bubble Tubes... the heart of most sensory rooms

"A flood of air bubbles, a series of colourful, glittering little balls ... the visual stimulus predominates and the tactile comes later ... the tactile sensation is especially valuable for blind visitors ... there is also auditory stimulus. The stream of bubbles makes a gurgling sound and there is the hum of the air pump."

Snoezelen Another World book

"Absolutely STUNNING

We couldn't be more pleased. We have only had cheap tubes before this one and the difference is astounding. When we first turned it on we all took a gasp it was so beautiful. It's so bright and vibrant. The actual bubbles are huge. The gurgling and vibration are very soothing. It's extremely sturdy and well built and shouts high quality product. Fantastic product, highly recommended." Alexandra, Verified Buyer

Rompa® Bubble Tubes

All exclusive!

- Huge range
- Multi-sensory
- Multi-purpose
- For all ages and abilities
- Easy to use, fill, empty and maintain
- Waterless options available where infection control is essential

We believe ours are the best – your continued loyalty suggests you, our customers agree!

Uses of ROMPA® Bubble Tubes

- 5. To provide tactile input (hold/cuddle the cool and firm tube to feel the vibration through the whole body and access deep pressure)
- 6. To provide auditory input (soothing humming of the pump)
- 7. For meaningful communication and learning (the right level of activity), with switches and controllers, such as colour recognition, social skills (turn-taking) and understanding cause and effect (and for supervisors to learn more about users' sensory preferences and needs)
- 8. To allow choice and control and so empower users (fundamental aims of Snoezelen®) through a variety of controllers, including a microphone
- 9. To practice motor skills pressing buttons on switches, throwing cubes, reaching up and around the tube ...
- 10. To maximise space bubble tubes can be tall and have compact bases. Combined with slim acrylic mirrors, a bubble tube corner provide a striking and vibrant focal point in sensory rooms, bedrooms and more

Cushioned Platform by ROMPA®

A foam padded wooden frame designed to encase the bases of up to three Bubble Tubes. Allows access to the base of the Bubble Tube for maintenance. When ordering, please state the number of bubble tubes to be accommodated and the position of platform. Tube hole is 30cm away from the wall edge as standard. Vinyl - please specify colour when ordering (see page 335). Customised options available - We can manufacture these in sizes and shapes to suit you at very reasonable prices. This product has a zip for manufacturing purposes only. Bubble tube(s) and mirrors to be purchased separately.

"Great product. Another great item built to last - Perfect finishing touch to my son's sensory room."

Terri R., Verified Buyer

R011201 VAT Relief

ROMPA® can manufacture Cushioned Platforms to suit your space exactly. You tell us the dimensions and shape it needs to be be, how many bubble tubes it's for and if 'mouse holes' are required for fibre optics. We will gladly then prepare a quotation for you. We can of course also supply mirrors in almost any size to compliment your bespoke platform.

One little box, many possibilities

The Snoezelen® Light Source by ROMPA®

- The power house behind fibre optic strands, mats, cloths and curtains
- Wirelessly controllable
- Gentle and continuously fading through colours
- Maintenance-free
- ROMPA® exclusive

10 good reasons...

Uses of ROMPA® Fibre Optics

- 1. To provide visual stimulation and facilitate safe access to light, including amongst visually-impaired users and those with PMLD – the fibres can be safely held.
- 2. For learning opportunities e.g. colour recognition (the colour changes dynamically) as well as colour matching and understanding cause/effect when used with controllers.
- 3. To provide tactile stimulation the soothing weight of a harness across the lap or stroking the tips across the hands, arms etc. like a brush. Some fibres are textured, such as our Bamboo Fibre Optics.
- 4. To provide sensory input to immobile and bed-bound users through ceiling-mounted Clouds, Panels, Circles and Chandeliers. Using a fan near suspended strands to make these move gently can increase the visual effect.
- 5. To separate off areas and visibly create zones within a space using Combs and Curtains. Users can feel immersed and safely enclosed in these areas.
- 6. To maximise space fibre optics can be threaded into carpets we have options for floors, walls and ceilings.
- 7. To calm, soothe and encourage relaxation through softly changing colours and by providing a distraction from anxieties and discomfort.
- 8. To help individuals on the Autism spectrum to concentrate and improve attention.
- 9. To allow choice and control and so empower users (fundamental aims of Snoezelen®) through use with a variety of controllers, including a microphone. Individual strands can be used or whole harnesses, again facilitating choice and a person-centred approach.
- 10. To encourage motor skills and exploration strands can be fanned out, threaded through loosely-knitted items, draped over the body, wrapped around the body and fingers can be passed through the tails.

Fibre Optics provide light you can touch, hold, capture and feel! Ideal for those with sensory avoidance and difficulty enjoying the normal range of lighting effects. Fibre optics stimulate and hold attention. They are safe to touch, phthalate-, glass- and latex-free. Fibre Optics from ROMPA® are three-strand and so are considerably more effective than cheaper single strand options. Our wonderful light sources complement these safe fibre optics perfectly - they are quiet, cool, very compact and also wirelessly interactive. Fibre optics are safe to handle but should never be mouthed.

Light Source by ROMPA®

With LED technology, this Wi Fi light source is cool-running and maintenance-free. Compatible with Sensory Magic® and an interactive device such as Snoezelen® Colour Command Centre™ wall panel, Wi Fi Microphone, Talking Cubes or 8 Colour Wirefree Controller. Ideal for sensory stimulation, colour recognition, and developing the understanding of cause and effect. Compact and can be wall-mounted.

Light that you can touch, hold and feel!

Compatible with our wireless controllers!

use with a Rompa® cushioned platform

Deluxe 8 Colour Wirefree Switch

Super Safe Fibre Optics, Light Source and 8 Colour Wirefree Controller

"The package of items work well together, producing clear bright light effects which change instantly when different buttons are pressed. The fibre optics are very effective for our sight limited children and for those with autistic spectrum conditions and PMLD, the children love to wrap the fibres around themselves and run their fingers through the fibres as the colours change, they also love to change the colour of the room when all the fibre optic are in use. The items are all well made and easy to use."

Caroline Jones, Grant Co-ordinator, Gloucestershire

Super Safe Plastic Fibre Optics

The ultimate in fibre optic safety!

These plastic tails are the safest fibre optic option available. Use of all fibre optic products should be supervised. Fibre optics should never be mouthed. Requires light source 19210 or 21452 for 2 harnesses.

Customers

Rompa® Fibre Optics

Now plastic for improved safety!

Sparkling, captivating, stunning and now glowing too! Fibres twinkle like your usual fibre optics, but there's more! Double their effectiveness and use them under UV light for glow-in-the-dark strands and extra visual appeal. With crimped ends.

Requires light source 19210 or 21452 for 2 harnesses.

"A valuable resource for customers using our service at Goscote Centre. It provides multiple benefits where our customers can explore the sensory environment via the use of interactive beams. Uploading photographs personal to the individual using the system creates a unique experience which can be comforting, whilst enhancing learning and play. The sessions are tailored and personalised to meet individual need which is an objective we aim to achieve throughout our day to day service delivery. We use our system in many ways e.g. to develop interactive skills within small groups to encourage the users to take turns to activate the beams. For customers who benefit from visual stimulation seeing images that change as a result of their actions develops their understanding of cause and effect".

Emma Partridge, Senior Reablement Officer, Day Opportunities & Employment Adult Social Care

"The system has been a very accessible and exciting for our pupils. It is very responsive to the smallest movement so even our more physical disabled pupils have been able to produce sound and contribute to a greater sound installation, for example, our iPad Orchestra. Pupils were very keen to give it a go and experiment with the sound effects".

Ellen Croft, PMLD Curriculum Leader, Leicester

"Excellent for immediate engagement in a huge range of activities that can cover pretty much any area of the curriculum. For first-time musicians it can be used as an errorless method to explore an instrument or for those struggling to engage in maths, it can be subtly woven into numeracy-

based activities... Easy to use which enables all the staff, regardless of their IT capabilities ... One of the greatest features is that it can be completely customised to suit the needs of a wide variety of learner profiles... Our learners have loved using the Optimusic system and are also realising the health benefits as 'Chase the Beam' has become enormously popular".

Chris Buckley, Head of Education, School in Seaford

"We use our Opti-music in all our themes created within our Curriculum Sensory Space.

These have included themed sessions such as the circus where students had the opportunity to sit or lay in a sensory swing and move around with batons or stick on pads to break the beams making various circus themed noises whilst pretending to be Acrobats.

On the Farm - students had great fun taking turns to guess what animal would appear on the screen and what noise they could hear when breaking the hears

In our Native Americans theme the students had the opportunity to make up tunes using the drum programme and each took turns breaking a beam matching colour symbols to colour beam to create a drum beat for a pretend Pow Wow.

The Opti-music has become a valuable piece of equipment in our Curriculum Sensory Space and has given our students the opportunities to develop both fine and gross motor skills, concentration skills, social skills and most importantly independence by being able to explore and create to their own level of abilities".

Clare Coombs (HLTA), School, Bracknell

Environments

Combine an interactive floor with an interactive wall or choose 360° interaction for a truly immersive environment ...

Gesture-based, users move to create dynamic effects on the surfaces around them. Make waves in the ocean, escape to a countryside dawn, explore outer space – it's up to you where you can go and what you can do!

Using highly responsive hardware, the latest motion-tracking technology and inviting, easy-to-use software with pre-loaded and editable themes, these systems offer endless opportunities for education, leisure and therapy. These environments bring learning to life and help to engage and include individuals of all abilities, as well as facilitating virtual experiences that may otherwise be

With edge blend technology your immersive room can feature content that can seamlessly wrap around corners, use curved projection or produce large panoramic landscapes. Projectors can also operate individually for multiple and independent activities in one area. What's more, customers can customise the imagery and sounds to suit personal need, adding their own photos, videos or music to tailor the environment to their requirements.

As each room is different and hardware is available in a range of specifications, please contact us for a quotation.

Our younger children and babies like the fish, within days of installation we saw how the fish swimming around and reacting to the children by swimming away made a child sit unaided for the first time in his efforts to reach the fish and then laugh for the first time when it swam away. Our older children like the poppies and leaves whereby a wave of the hand can clear away leaves or poppies showing part of another picture below, we use this to teach the children turn taking and waiting, they take turns to clear the leaves away and then all wait while the leaves reappear before all clearing them together. Although expensive this piece of equipment is worth every penny.'

Caroline Jones, Grant Co-ordinator, Gloucestershire

Although expensive this piece of equipment is worth every penny."

Sand Box

Wonderful for therapy, education and entertainment for children, adults and older

Combines the responsiveness and activity opportunities of interactive projection with the palpable experience of sand for a highly multi-sensory experience. Interactive augmented reality allows users to transform sand into the earth's surface with lakes, mountains, volcanoes and valleys; to dig up dinosaur fossils; to play 'football' and much, much more. Loose materials such as sand allow imaginative play and creative activity whilst providing tactile sensations that promote fine motor skills, tactile perception and hand-eye coordination. White frame as standard - other colours available upon request.

- Table frame with metal reservoir for sand, laminated board top (to turn this into an interactive table), additional legs (to adjust the height) and projector arm
- Projector with 3D depth sensor, USB and HDMI cables
- Marble sand (recommended by therapists for motor skills development as especially mouldable)
- 94 wooden sensor objects for the Interactive table games
- Wireless keyboard
- Software featuring activities for sand and table

Assembly and set up required on receipt - 2 people required. Telescopic legs are available separately for the Large option for wheelchair users - contact us for more information.

Wi Fi LED Spotlight

Compact, cool-running and maintenance-free spotlight. Choose one colour light all the time (6 options and white), from several colour changing programs or use interactively with a ROMPA® Wi Fi controller and Sensory Magic®. Visual effect is easily adjusted using DIP switches underneath, as is speed of colour change. No need for a colour wheel or lamp changes. With integral, angle-adjustable bracket. For indoor use only.

Weight: 0.8kg Size: 18 x 12 x 10.5cm

"Really good and better with Wi Fi switch."

<u>Tina</u> B., Verified Buyer, Gosport

R020878 **£ 165.00**

Portable Mini Spotlight

Perfect for highlighting smaller areas with colour. With a removable bracket for suspension from a ceiling. Considerably cooler-running than traditional spotlights. Compact and safe. Pre-programmed, including sound- responsive effect. Not especially suited to use with mirror balls. Rechargeable, or use the included 12V adapter as a power supply. With a remote control.

Size: 12cm diameter x 9cmH

R022969 £ **59.95**

Mirror Ball

When a Spotlight is shone onto the Mirror Ball, reflections of light are cast all around the room creating a magical atmosphere. The mirror ball is attached to a drive unit (motor) - not included - which rotates the ball. The drive unit needs to be fixed to the ceiling or overhead support and connected to a 240v mains supply. Typically with glass facets. Locate out of reach (not intended to be handled).

20cm diameter	_	15.	 ٠.
 30cm diameter		27	

Motor

Our recommended means of revolving a mirror ball. Requires ceiling-mounting.

Relaxing and visually appealing mood light with 5 neon jellyfish inside. Colour phasing or single colour modes. Mains powered - low voltage adapter included. For decorative purposes only – not intended to be handled. For 14 years and over.

Size: approx. 35 x 20 x 8cm

£ 69.95 R022831

Remote Control 'Candles' - Set of 2

With LEDs for safe atmospheric lighting. Realistic-looking, the 'flame' flickers and the outside is made of wax. They smell lovely too! Ideal for those who enjoy the ambiance of candles, but who may forget to extinguish them, or who could easily burn themselves on the real thing. Includes remote control (ON/OFF, with CR2025 battery). Requires 3 AAA batteries per candle (to be purchased separately).

Size: 15H x 7.5cm diameter

£ 11.95 R022267

R019912 £ 12.95

Cosmic Effect Net

Decorative lighting to enhance your Snoezelen® room. To be used on a ceiling or out of reach on a wall. Includes controller for choice of eight different light sequences. With LED bulbs. Colours may vary (lights and net), as may size subject to availability. Size: $440 \times 150 \text{cmW}$

R016217 £ 92.95

Light Diffraction Panels - Set of 10

The silver faced card panels have etched patterns which reflect light at differing angles. When illuminated by a spotlight with colour wheel, an animated effect is created. Place beside bubble tubes etc. to create an attractive display.

Size: each 43 x 43cm

R014053 VAT Relief

£ 39.95

LED Ceiling Panels - Set of 4

Transform an uninspiring or dark space into an inviting, cozy environment. The ultrathin LED panels replace the desired number existing ceiling tiles. The high-quality image helps create an atmosphere and provide an illusion of daylight, as if it were a real window. Consists of 60x60 cm LED panels, graphic photo, adapter and white aluminium lifter.

Several different sets and designs are available, including Clouds Air Balloon; Clouds Oak Leaf; Clouds Pink Blossom; Clouds Sun; Fish and Balloons. Please contact us for further information.

- \bullet Large and bright visual display visible from a distance, for visually impaired users, multiple users
- \bullet A set so looks more realistic than a single panel
- \bullet Simple to install standard ceiling panel sizes
- Suitable for all ages and abilities
- Can be enjoyed regardless of ability does not require any intellectual reasoning or prediction
- Realistic artwork looks real
- Static so won't cause dizziness motionless unlike Projectors and Effect Wheels
- Colourful and clever optical illusion implies access to the outside in rooms that have no natural light
- Great for individuals who are bed-bound, who spend hours looking at a ceiling and who are otherwise unable to access outside spaces
- Cheerful and bright could help lift mood soothing, universally-liked motifs
- Distracting in medical treatment areas and dentists
- Makes maximum use of minimal space good for small rooms with larger budgets
- Could be used to generate a theme e.g. with outdoor aromas, aquatic bubble tubes etc

R021491 £ 995.00

Sensory Profile Packs

Contents may vary subject to availability

Originally designed by the highly respected Senior Lecturer Lesley Collier of Brunel University London to manage set patterns of behaviour that may be a result of sensory processing difficulties. These difficulties may be experienced by all generations from those with no clinical problems through to those with diagnoses such as Autism, Anxiety, Learning Disabilities, Alzheimer's disease, Schizophrenia and Stroke, amongst others. Based around the Model of Sensory Processing (Dunn, 2001. To identify which sensory type you fall within the Sensory Profile will need to be completed. Each pack includes products that will provide a more appropriate level of stimulation to each of the senses, including movement (proprioceptive and vestibular stimulation). The Home Packs are intended for use by families.

This person seeks out sensory experiences in everyday life and has a high sensory threshold, meaning they require lots of stimulation or a more intense sensory stimulus in order to respond. In order to achieve this they will actively seek out sensory experiences, e.g. people who like theme park rides. Typically includes flashing, tactile and sound balls; Infinity Light Wand; Twirly Whirly Rainmaker; Tactodiscs; Bag of Feelies; Massage Tube; MohDoh™; Rainbow Slinky; Water Wiggly; Musical Mat and Space Blanket.

R021174 **£ 195.00**

Sensory Seeking Home Pack

Typically includes Infinity Light Wand; Flashing Rainbow Knot Ball; Space Blanket; Diddy Rainboshaker; Massage Tube; Hedgehog Ball; MohDoh™; Rainbow Slinky and Water Wiggly.

R021201 £ 50.00

Sensory Sensitive

This person readily notices sensory stimuli and may be uncomfortable or distracted by them. He or she has a low sensory threshold, meaning they do not need much sensory stimulation in order to respond. However, rather than manage this level of stimulation they are easily distracted by it, e.g. being distracted by an untidy room. Typically includes Fibre Optic Lamp; Colour Changing Egg; Animal Sound Tin; Rhythm Pals; Dolphin; Aroma Mouse; Aromatherapy Kit; Aroma Huggabuddy (animal may vary); Chiffon Squares; Jumbo Kaleidoscope and Jungle Bowling.

R021175 £ **195.00**

Sensory Sensitive Home Pack

Typically includes Colour Changing Egg; Glostars; Animal Sound Tin; Aroma Huggabuddy and Chiffon Squares.

R021203 £ **55.00**

Low Registration

This person does not notice or misses sensory events in everyday life that others readily notice or is slow to respond to sensory stimulation. He or she has a high sensory threshold, meaning they require lots of stimulation or a more intense sensory stimulus in order to respond. However, despite this need they do not actively seeking sensory stimulation out, e.g. not noticing someone entering the room. Typically includes Spiral Glitter Wands; Spotty Spinner Ball; Shape Shakers; Foot Massage Rolls; Aroma Diffuser; Aromatherapy Kit; Name That Smell; Gymnastic Ribbon; Critters Bean Bag Set and Koosh Balls.

R020937 £ **195.00**

Low Registration Home Pack

Typically includes Spiral Glitter Wand; Infinity Light Wands; Shape Shakers; Hedgehog Ball; Aroma Oil; Gymnastic Ribbon and Koosh Ball

R021202 £ **50.00**

Sensory Avoider

This person deliberately acts to reduce or prevent exposure to sensory stimuli. This individual has a low sensory threshold, meaning they do not need much sensory stimulation in order to respond. As a result, they actively find ways to avoid too much sensory input during the day, e.g. only eating familiar food when in a foreign country. Typically includes; Bird Mobile; music CD; Rain Tube; Sensory Squares; Vibrating Neck Cushion; Sparkly Play Foam; Aroma Mouse; Aroma Oil; Aroma Huggabuddy; Eggsercizers and Bowling Set.

R021176 **£ 195.00**

Sensory Avoider Home Pack

Typically includes Bird Mobile; Music CD; Sparkly Play Foam; Aroma Huggabuddy and Eggsercizer.

R021204 £ **55.00**

Cost-Conscious options

We believe that multi-sensory resources should be accessible and affordable.

That is why our range continuously grows to include budget-friendly options as well as deluxe and highly interactive offerings. These options tend to have less functionality than some of our other products, but are nonetheless valuable for providing multi-sensory input. These products may be of special interest to families who have experienced the benefits of multi-sensory environments in schools, hospitals, clinics or other large settings and who wish to replicate these benefits at home on a more modest scale.

Look out for this logo that indicates cost-conscious options throughout this catalogue

Our best-selling Cost-Conscious options include:

Also look out for our Saver Packs, kits which are more economical than purchasing the components individually. Our Snoezelen® Sensory Corner Kit remains a firm favourite with families – see page 71.

Snoezelen® Storage Sets Tower

There are lots of products throughout this catalogue that are useful for baby sensory activities. Look out for this logo

Making Music with Mummy - Baby Sensory Saver Pack

A variety of sounds and instruments to grab baby's attention as well as encourage tot's movement, co-ordination and listening skills. Exposure to music helps children differentiate and identify sound patterns, learn through repetition and provides the foundation skills for literacy and numeracy. Contents may vary but typically include rainsticks, shakers, Pull & Play Xylophone, PipSquigz, Rhythm Pals - Set of 4 and a CD.

R023397 £ 70.95

Moving with Mummy - Baby Sensory Saver Pack

Get babies and tots grabbing and gripping, throwing and turning, sorting and spinning – encourage a variety of motor skills to help in later childhood with imaginative and social play, as well as activities of daily living, such as holding pencils and cutlery. Contents may vary but typically include Jungle Bowling, Spin and Feed Shape Sorter, Oibo cubes, Mini Top and set of 6 tactile balls.

R023398 £ 90.95

See and Stimulate - Baby Sensory Saver Pack

As baby grows and his/her vision develops, these resources can be used to encourage focus, visual tracking (following objects with the eyes), colour and depth perception, object recognition, social awareness (looking at own reflection) and hand-eye co-ordination. This pack provides opportunities for play (essential for learning) as well as opportunities for identifying any sight/ developmental problems. Contents may vary but typically include Mystery Sensory Balls (for sound as well as reflection), Flip Fish (for colour as well as tactile stimulation), Crab Mirror (for bathtime play), Oibo cubes (for motor skills) and a Parachute (useful for supervised family/group activity such as lifting and lowering the parachute over a lying tot to create a soft breeze).

R023399 £ 85.95

Sensory Play Pony

Explore, pat, hug or ride this precious pony. With rattles, textured tabs, a shatterproof mirror, a photo frame, crinkle fabric flap, zipped pocket and fringe to capture attention and encourage interaction and early learning. Squeeze his ear to play trotting and neighing sounds. Soft, multi-sensory and intended to nurture baby's growing developmental skills – physical, cognitive and social. Use under supervision to encourage fine motor skills, dexterity, hand-eye co-ordination, listening and later imaginative play, language, counting and colour recognition. Non-slip bottom helps prevent slipping. Requires 2 AAA batteries (not included). For 9 months and over.

Size: 56cmL (71cmL including the feet) x 23W x 40.5H (to top of head)

R023370 **£ 79.95**

Interactive sensory environments that use sensory input to help students concentrate, learn and develop. Helpful for calming anxiety, providing stimulation so learners can focus, whilst their individual needs are met. These spaces provide opportunities for students to move, jump, bounce, rock and fidget ... working minds and muscles, burning off energy and strengthening motor skills. Equally importantly, these areas allow users the chance to calm down and rest.

School Sensory Spaces

School Sensory Spaces Saver Pack

Tactodiscs

A collection of carefully selected products to use in a classroom, gym or corridor. Especially effective when purchased in multiples to accommodate a group of learners. The components can be used in a variety of ways e.g. Multi-Purpose Ball can be sat on in the Ball Stand or rolled over prone students to provide deep pressure input; The Tactile Multi-Purpose Cushions can be sat on or used as part of trail for balance, core strength, spatial awareness and co-ordination. As many of the products have multiple uses, these can energise and stimulate users or be used to calm and relax learners. More economical than purchasing parts separately. Contents may vary, but set typically includes:

- Large Balance Dome
 - Bumpy Multi-Purpose Ball
- Ball Stand
- Tactile Multi-Purpose Cushion (one 32cm and one 39cm)
 - Sensory Circles Set
- Jumping Seat • Hilltops - Set of 5

 TeeterPopper™ • 6 Sensarings

£ 395.00 R023210

As swings very much complement this Pack, we recommend the Haley's Joy® Swings and accessories. These are not included as three sizes are available and some schools may prefer more permanently fixed suspension options. Your space, your way ... mix and match resources from this catalogue for a bespoke

solution and for multiples of your most popular resources. See our Sensory Circuits Saver Pack on page 143 for another accessible and

multi-purpose option

A comprehensive set based upon the growing popularity of Sensory Gyms in Australia and America. Provides a range of movement opportunities for users with additional needs (e.g. ASD), making gyms and leisure centres more inclusive and accessible to the whole family. More economical than purchasing parts separately. Contents may vary, but typically includes:

- Balanza® Seesaw
- Hip Hop Jumping Cushion
- 3 Concertina Mats Giant Saucer Floppy Island Rocker 'n' Roll
- Low Wedge
- Low Steps Colours as shown (cannot be specified)

• Perfect for those without the space

Grandfather Glow Clock

Classically styled with surprisingly contemporary benefits. With a large, traditional-looking and working clock for orientation. The column is attractively illuminated to provide relaxing and gentle light that softly changes colour and bathes the surrounding area in subtle hues. Purposefully designed to exclude the weight, bulk and noisy chiming of the real thing, this stunning alternative intentionally includes soothing sensory features to captivate and comfort. Mainspowered. Clock requires 1 AA battery.

Weight: approx. 18kg Size: 58L x 60W x 200cmH

R022793

£ 625.00

Faux Flame 'Fireplace'

A focal point for any room. Far safer and more practical than a real fire, this visually appealing centrepiece implies warmth but does not heat up, avoiding the risk of injury and discomfort. Adds character and sensory comfort to rooms that have central or underfloor heating. The mood lit area changes colour slowly to attract and keep attention whilst the retro styling is reminiscent of household styles of yesteryear. Mains-powered.

Size: 104L x 45W x 129cmH

R022792

£ 755.00

Multi-Purpose Television

With all the definition, reliability and quality of a modern TV with the reassuring and nostalgic appearance of early models. The old-style exterior deceptively houses an up-to-date television, allowing viewing of favourite programmes. Also includes a DVD Player as well as HTMI and VGA ports at the back for use as a projector for our Sensory Magic® system (see www.olderadults.co.uk). With an integral shelf for storage. Mains-powered.

Weight: 25kg

Size: 74L x 40W x 77cmH

R022794

£875.00

Illuminated Book Case

Perfectly displays treasured trinkets, prized possessions and beloved belongings. Spacious shelving allows books, nostalgic items, reminiscence resources, activities and comforting objects to be stored in a tidy and accessible way. No ordinary book case, this sturdy ROMPA® unit has built-in LEDs to better show items placed on it and to provide subtle and colour-changing lighting.

Weight: 36kg

Size: 95W x 28D x 129cmH

R022795

£ 455.95

Retro Rocking Chair

£ 459.95

£ 665.00

Allows repetitive rocking movements which are soothing and calming. The comfortable cushions to the seat and back are available in hardwearing and easy to clean faux leather. With arm rests and a sloped back to encourage a restful seated position. Prefer a static chair? No problem! Simply unscrew the curved bases from the legs using an Allen key. Please specify cushion colour required when ordering: Amber, Aubergine, Light Green, Chestnut, Zinc or Azure (see pages 335 - 336).

Size: 88L x 62W x 90cmH; Seat 49W x 47cmH

R022789

Infinity Table

A generously-sized table with a beautiful and engaging visual effect. Safely enclosed lights give the illusion of continuing deep within the spacious table. These maintenance-free LEDs automatically change colour in a gentle cycle to provide soothing mood lighting and to maintain interest. With an integral shelf for additional storage of books, magazines and so on. Mains-powered.

Weight: approximately 23kg Size: 110L x 65W x 40cmH

Fibre Optic Table

R022791

Large enough to keep necessities to hand with the added benefit of sensory activity. When not being used to hold drinks, reading glasses etc. on the top, the 100 fibre optic strands can be placed over the user's lap to provide soothing mood lighting that can be safely held, touched and explored. The strands can be stroked, whilst their weight over the knees is in itself calming. The strands change colour softly in sequence to maintain interest. With an integral shelf for additional storage of books, magazines and so on. Mains-powered.

Weight: 12kg

At Home Family Saver Pack by ROMPA®

Carefully chosen products designed to bring Snoezelen® magic into your home. Offering you a saving compared with individual purchases, this pack is perfect for domestic bedrooms, hospices, respite centres etc. Avoids the typically gender-associated colours and may suit shorter-term accommodation and rooms that will be used by several people at different times. Includes: White Mini Bean Bag, Space Projector, Midi Bubble Tube, Mint Hedgehog Balls, Vibration Pillow, Aroma Diffuser and Aromatherapy Kit, Glostars, Mirror with Cushioned Frame and Fibre Optic UFO. Contents may vary subject to availability. Please obtain guidance from your professional advisor as to the suitability of this package for your client.

For 3 years and over. This pack may contain some small parts. Some of these products will require batteries.

£ 795.00 R019567

Well-Being At Work Saver Pack

A pack of sensory solutions for use in the workplace. Small changes that make a large impact on self-esteem and company morale. Intended to help individuals with 'hidden disabilities' (e.g. Asperger's) to discreetly manage anxiety from the additional challenges they face in the workplace. These non-intrusive and age-appropriate resources can help with focus, stress and communication. Equally valuable for neuro typical employees during working life. Helps create a supportive and inclusive work environment, to the benefit of these individuals, their colleagues and the economy in general as people with additional needs find access employment easier. Contents may vary, but typically include fidgets and stress balls, aromatherapy tools, chews, air cushion, ear defenders, communication fans, book and storage bag. See our website for a full contents list and more packs like this

Sick and tired of being sick and tired?

...ZZZZ

Inadequate sleep affects mood and productivity as well as increasing the risk of weight gain, Alzheimer's, stroke, absenteeism, accidents and errors. With busy lifestyles, large workloads and increased travel we are more likely to experience stress-related insomnia. These resources provide safe and pleasant alternatives to potentially addictive and harmful medication.

See page 99 for our Standard Mattress

Sleep Tight™ Weighted Blanket

Helps clients to become calm and comfortable to encourage restful sleep. Suitable for clients weighing over 9kg (20 lbs) who have difficulty calming down to get to sleep. With a curved neck cut-out to help prevent the blanket from bunching around the face. Designed by an Occupational Therapist with over 25 years of experience. Triple-stitched for robustness and so the filling is safely contained. The hygienic filling is BPA-free, phthalate-free, and lead-free. As a general guideline, blanket weight should be from 15-25% of client body weight, although we recommend that you seek professional advice as to the suitability of these products for your particular client. Colours may vary.

£ 25.95

Sleep Robot

For relaxation to naturally induce a good night's sleep. Cuddle this portable and awardwinning device when resting, reading or at bedtime to improve well-being. Promotes good sleep hygiene and helps regulate breathing. Calming and soothing, with preprogrammed sounds (scientifically proven white noise, nature sounds and lullabies) and soft coloured lighting. Personalisable – upload your own sounds such as audiobooks. With iOS Android compatibility and Bluetooth connectivity. Its shape encourages nestling whilst the removable and washable sleeve (60°C) feels soft and comfortable. Includes charger. For 8 years and over. Size: 45.5L x 20W x 13cmH

£ 549.00 R023389

Bedside Lighting Tablet

A sleek, ergonomic, high-quality, table-top light for the home. A cost-effective and nonpharmacological aid for the self-management of sleep problems. Keeping on ordinary lamps prevents quality sleep which can lead to ill-temper and impacts on health. Switching on ordinary lamps suddenly can be startling and discomforting. Particularly valuable for older adults as it reduces anxiety, provides peace of mind and a sense of security, helps spatial awareness and can help reduce falls by avoiding the need to fumble for a light switch in the dark. Especially useful for bedrooms as a nightlight because it provides a low-level glow which allows un-interrupted, quality sleep. On waking at night this provides a focus in a room, allowing items such as spectacles, water, phone and other essential personal items to be easily identified without switching the main light on. With LCD backlight technology to produce an even distribution of light. Controlled by a touch panel - switch on anywhere along the main edge. The brightness can be altered by touching two small 'bright' and 'dim' zones. When switched off, it remembers its previous light setting. Coolrunning and with low power consumption. With non-slip feet and resistance to spills.

Size: 40L x 40W x 2.5cmH

£ 114.95

Water offers a change from the normal environment. It provides pleasure and can have enormous therapeutic value, assisting in relaxation, improving circulation and restoring mobility. Add SNOEZELEN® with water in the bathroom, spa pool or Jacuzzi and add another dimension to sensory stimulation. Create atmosphere using fibre optics, aromatherapy and music. Dim the lights and take sensory experiences to a different dimension.

ROMPA® can provide your Water Snoezelen® environment - from a modest bathroom to larger pools. Please contact us for further information.

Snoezelen® in the Bathroom

- Transforms bathing into a multi-sensory activity through pleasant aromas, sounds, lighting and tactile experiences
- Alleviates stress and agitation and provides a calming environment
- Encourages choice, individual preferences and promotes person-centred care
- Provides distraction and stimulation to reduce feelings of anxiety and embarrassment for both the client and the care-provider
- When introducing equipment designed for either battery or mains use into a Water Snoezelen® environment, obtain professional advice on equipment suitability and installation.
- Under no circumstances should people in the water handle electrical equipment, including items such as speakers and lighting.

Spa Lights - Set of 2

Size: 9cm diameter

R022301 £ 17.95

Aqua Mood Light

Create a relaxing atmosphere in your bath with this colour-changing, waterproof LED light. The soft lighting can be decorative and soothing as the colours fade in gentle rotation, or stimulating when set to jump between colours, or to a fixed colour. Includes a remote control with CR2025 battery and an 8-10m range approximately. Also suitable for use in vases, water features and ponds. Requires 3 AAA batteries for the light unit. Not for use in water deeper than 1m. For 6 years and over.

Size: 7cm diameter x 2.5cmH

R022487 £ 12.95

Large Colour Changing Lights

Following the popularity of the Large Colour Changing Egg, we've added two more mood lights!

Equally large, light and lovely. Great for encouraging movement and exploration. Hollow yet strong. Includes a small remote control to select one of sixteen colours, or to fade through different shades. Rechargeable. Once charged for 6 hours, it can be taken off the base station to provide 10 hours of light. For use indoors or out. Water-resistant with an IP65 rating. Tested up to 80kg of load. Each.

22269 Ball - Winner of the 2018 Teach Early Years Awards, SEND category
"The children loved the ball — they all wanted to look at it, roll it and lay on it.
The practitioners were fascinated too, and felt it offered good value for money."

£ 945.00

Sleeper Table & Benches

For outdoor lessons, socialising, eating al fresco or unstructured play. These can be concreted into a fixed position or free-standing. Large and heavy (approximately 250kg) – two people are required to unload this product on receipt. Basket shown for illustration purposes only (not included).

Size: 120cmL; table 40H x 60cmW; benches 30H x 20cmW

R022840 **£ 950.00**

Mushroom Table & Chairs

Lovely for imaginative play, socialising, conversation and role-play. This delightful Red Cedar seating facilitates easy and enjoyable communication to support learning as well as social and emotional development. Includes 1 table and 3 seats. Can be free-standing or concreted into position. Large and heavy (table approximately 45kg) – two people are required to unload this product on receipt.

Size: table 56W x 43cmH; chairs 30W x 36cmH

R022842 £ **850.00**

Duo

Cleverly designed outdoor instrument for a pair of performers. The notes are securely attached to the resonators for maximum vibration with incredible tones and resonance. Half the notes are aluminium; half are GRP (glass reinforced plastic) – each material gives a distinct sound when played (aluminium produces a bright, clear tone when struck; GRP is fast and punchy). The curved shape makes it easier for individuals with limited range of movement, or players in wheelchairs, to reach all of the notes. Designed to be inclusive, to allow two people to interact and make music together without the need to look directly at each other, allowing them to concentrate entirely on the auditory process, comfortably and in their own space (especially helpful for those on the Autism Spectrum).

Size: 110L x 85W x 85cmH

R023317	Ground Fix		2,395.00
R023318	Surface Fix	£	2,495.00

Cavatina

A colourful, strong and weather-resistant instrument, similar to a xylophone with low to high notes from left to right. Securely and individually attached to black resonators for maximum vibration and resonance, the vibrant anodised notes have no wires or strings. Incredible tones and melodies can be achieved, including by those with minimal musical ability. Colour-coded notes allow you to create your own music sheets so that users can play by colour. For supervised use, outdoors.

Size: 75L x 55W (x 84cmH)

R023159	Surface Fix	£ 1,725.00

Tubular Bells – Set of 7

Big, bold and beautiful, bringing lovely sounds, an amazing auditory experience, vibrations and an architectural feature to your outdoor space. With outstanding resonance, the aluminium bells produce deep tones which can be felt as well as heard. Pentatonically-tuned ranging from A3 to C5. Durable, the central post is strengthened and the outer tubes are fixed using stainless steel security screws at the top and bottom. Each bell is capped to prevent debris falling inside the bell and dampening the sound. The bells can be arranged in multiple ways, although a horseshoe formation is recommended to create a surround-sound effect and noticeable vibrations for anyone standing in the middle of this shape. Also includes 2 metal posts with a beater attached by steel cables. Made to order – please allow up to 6 weeks for manufacture. Individual bells can also be purchased – please contact us for information.

Size: 10cm diameter x 160 to 220cmH

R022501 £ 12.95

Encourages movement and sensory activity in the garden at home to help support Sensory Integration therapy interventions by a trained professional. Air-filled seat for comfort. Made of synthetic materials for weather-resistance. Colours may vary. Maximum weight supported: 70kg. For 3 years and over.

Size: approx. 175cmL x 28cm diameter

R022496 £ 12.95

All of these products encourage appropriate physical activity outdoors to enhance the Sensory Integration therapeutic interventions carried out by trained therapists indoors. These robust resources provide valuable and inclusive components for sensory circuits in schools as well as fun and engaging activities for the home garden.

All of these accessibly-priced swings are intended to provide play and sensory activities at home to support, not replace, the interventions of trained professionals. These simple swings are not intended as substitutes for our TheraGym® swings which have been designed for professional and long-term use, and which have multiple features, functions and benefits.

Rope Ladder

Great for motor skills, strength-building and imaginative play. Maximum weight supported: approx. 75kg. For 3 years and over.

Size: approx. 200H x 30W x 2cmD

R022498

£ 12.95

Rope Ladder Frame

A 3-D version of the Rope Ladder for more climbing and holding possibilities.

Maximum weight supported: 120kg. For 3 years and over. Size: approx. 180H x 58W x 58cmD

R022499

£ 35.95

Nest Swing

Sit or lie (prone or on your back) to enjoy this fun swing. Metal ring with a strong yet soft plastic cover. Includes ropes and metal suspension rings. Maximum weight supported: 100kg. For 3 years and over.

Size: approx. 150cmH x 60cm diameter

R022497

£ 52.95

Bullseye!

Encourage motor skills, gentle exercise, hand-eye co-ordination, turn-taking and competitive activity. Use with groups or individuals. Also encourages maths skills and provides learning opportunities outdoors. To be wall-mounted.

Size: 100 x 120cm

£ 600.00 R023361

Arched Bridge

Adds interest, height/incline whilst the decking board surface provides a textural variation to pathways. Can be enjoyed by walking and seated users (wheelchairs/trikes). A handrail on each side offers support for children. Especially effective when used as part of a sensory path with other textures and tactile input. Ready-assembled and free-standing. Large and heavy (approx. 70kg) – two people are required to unload this product on receipt.

Size: 100L x 120W x 100cmH (at highest point)

£ 900.00 R022851

Intended to encourage movement, exploration and play amongst early years children (3 years and over). Free-standing and so installation-free. Heavy and sturdy enough to remain in position during use, but could still be moved by several adults as required. Safety surface is not required for use on well-maintained grass. Made to order – please allow up to 4 weeks for manufacture.

R023362 Climb and Clamber Logs on one side; hand holds on the other. Requires a minimum space of 477 x 450cm Size: 177L x 150W x 100cmH **£ 900.00**

Scale and Scramble Logs on one side; rope 'net' on the other. Requires a

£ 1,000.00 minimum space of 474 x 450cm Size: 174L x 150W x 100cmH

Archway

A stylish structure to separate different areas of the outdoor space. An aesthetically attractive meeting place too. Decorate with fabric, ribbons or tie on messages to give the arch symbolic meaning, such as transitioning to a new situation. To be concreted in place. Minimal assembly required. Large and heavy (approx. 50kg) - two people are required to unload this product on receipt.

Chatsworth range

R022584 With high back and vibration

Circ. 100W v 00D v 7FcmU

This ever-popular range is now better than ever

- Ergonomically designed
- With a higher cushion for additional back support
- Solid foam with separate cushions but without a rigid wooden
- Stitched not nailed
- Multi-sensory, with eye-catching and tactile fabric options
- Contemporary and aesthetically pleasing for a multitude of environments, including homes and waiting areas
- Softer, slimmer and more curvaceous styling
- Supportive without compromising on comfort
- High back versions have 56.5cm deep seats

Available in a huge choice of colours. Choose from our standard PVC or 2-tone options - Faux Leather combined with Tactile Fabric. As these products have seams, they are not completely waterproof. Where there is the occasional risk of incontinence amongst furniture users, we recommend that PVC is chosen.

L/H refers to the left hand side from the perspective of the seated user, not from the view of someone looking at the settee in front of

Chatsworth Scatter Cushion (3)

A lovely finishing touch to complement your Chatsworth furniture. Provides additional comfort and visual appeal. Choose the same colours and fabrics as your chair/settee or choose contrasting shades and fabrics for extra visual and textural interest. Please specify a maximum of two colours per cushion when ordering.

Size: 35 x 35cm

R022864	PVC	£ 32.50
R022865	Faux Leather	£ 35.00
	Textured Fabric	£ 35.00

The Chatsworth range includes individual pieces of furniture as well as settees and corner units that can be placed together to maximise the space available. These modular pieces can be used in a variety of combinations and are perfect for waiting areas. For example, team a 3 Seat settee that has a single arm with a Corner Unit to fill a whole wall. A second settee with the opposite single arm could be added to the other side of the Corner Unit to fill 2 adjacent right-angled walls. With so many colours, sizes and sensory options to choose from, it's up to you!

To make the furniture even more comfortable and inviting-looking, why not add some scatter cushions? Choose matching colours or contrasting shades for visual stimulation.

Remember, L/H refers to the left hand side from the perspective of the seated user, not from the view of someone looking at the settee in front of them.

Vibrating Floor by ROMPA®

This cushioned wooden floor vibrates automatically or in response to music or vocal stimuli. It is particularly suitable for those with mild or total sight/hearing loss as it provides valuable tactile stimulation. Also used for those with autism.

- Provides three methods of vibratory stimulation:
- Built in oscillator to vary frequency and extent of vibrations.
- Musical stimulation.
- Amplifier and leads supplied for ease of connection to any music centre or radio.

Used with the microphone provided it can help to stimulate vocalisation.

Vinyl - please specify colour required when ordering (see page 335).

Size: 2m x 1m x 42.5cmH

R014925 £ 1,195.00 VAT Relief

by ROMPA® (B)

Fine vibrations of rhythm, tone and beat can be produced through your music system, which connects to the bed. These are picked up through the skin as tactile stimulations. The bed adapts to the body shape giving warmth, comfort and muffled noise, possibly similar to foetal experiences in the womb. The bed has a wooden base and is mounted on a giant loud speaker cabinet. The bed can also be used for interactive stimulation by means of the included microphone to create your own sounds. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. PVC - please specify colour choice when ordering (see page 335).

Musical Water Bed

"The bed was easy to set up with good instructions on its set up and use. The bed is a valuable asset in our sensory room serving to support, relax and stimulate children at different times. The musical aspect of the bed is especially useful for autistic children and those with PMLD who appreciate the sensory feelings coming through the mattress from the speakers below. The bed base and mattress are very well made and the speaker fitted into the bed base and amplifier and microphone supplied are of good quality and work well."

Caroline Jones, Grant Co-ordinator, Gloucestershire

Water Mattress by Rompa® (A)

A heated water mattress which moulds itself to the shape of the body giving total unrestricted support without any pressure points. The gentle support by water allows even the slightest movement to be felt. The special double isolated heater pad with variable heat control maintains the mattress at a comfortable temperature. The water mattress is designed to be used on the floor or a suitable strong support capable of taking the total weight when filled - the double bed weight is half a ton. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. The cover is made from strong, reinforced durable vinyl which can be wiped clean and is available in a range of colours. Includes heater pad, fill kit, 17m (50ft) hose pipe, water conditioner and instructions. Platforms for the Water Mattress can be made to your specifications by special order. Vinyl - please specify colour when ordering (see page 335). This product contains wood.

SEATING, POSITIONING & FURNITURE I Bean Bags & Larger Cushions

Chunkies by ROMPA®

Chunkies are versatile wedge cushions filled with polystyrene beans which mould to the body, creating a firm yet movable support. Useful for positioning, therapy and play. The Small Chunky could be used for positioning on α bed, side-lying or with the user on their tummy with it underneath their top half. The Large Chunky could be used for lying on the floor with the user's back on the slope; a taller person could lean on it with their tummy on it; for providing relief from being in a wheelchair; for prone extension (strengthens the back and neck muscles and encourages the head to be held up); neck extension; help with sitting balance as you are building trunk support and for behind the knees (for those who don't like lying flat). To try to improve trunk control, start with support from a firm Wedge and then reduce support with a different sized Wedge or Chunkies. Other sizes are available by special request e.g. to fit in your own chairs. Covered in heavyweight durable vinyl. Moisture proof and easy to clean. Please state the colour combination required.

110111055	Small	Size: 58W x 48D x 28cmH	£ 69.00
R014036	Large	Size: 56W x 84D x 54cmH	£ 109.00

Foam Wedges by ROMPA®

A firm foam filled wedge covered in easy to clean heavyweight durable vinyl. Foam Wedges are ideal for use on chairs with the pointed edge to the back. For someone with increased tone and spasticity, the wedge puts someone in a more flexed position at the hips. Also used for raising the feet for foot care; on a bed under pillows to raise the head; during baby massage. Please state the colour required. Special sizes can be made to order.

R014037	Small	Size: 38W x 46D x 18cmH	£ 57.00
R014038	Large	Size: 50W x 50D x 23cmH	£ 69.00

Far more comfortable than sitting on a hard chair, carpet or grass. As the child is snug and therefore less likely to fidget, he/she can concentrate and participate fully on the activity in the Snoezelen® room, classroom or outside area. Soft, bright and inviting. Water-resistant. To be stored indoors. Sky Blue, Lime Green or Purple – please specify colour choice when ordering. Woven polyester. Most effective when used in multiples. Each. Size: 70 x 70cm

De-escalation Rooms

ROMPA® can design and install calming spaces for demanding environments such as schools with students with Behavioural Emotional and Social Difficulties (EBD), offenders' institutes and prisons. These installed facilities provide a robust and safe environment where individuals with challenging behaviours and aggressive tendencies have an opportunity to calm down and be encouraged to manage their own behaviours. Intended to reduce risk and potential injury, these low stimulation rooms are designed to foster the safety of the individual, peers and supervisors alike.

These spaces should only be used as part of a wider structured plan following good practice guidelines and appropriate legislation. Use of these environments should always be for a carefully monitored and minimal time, with the best interest of the individual at its heart.

Contact ROMPA® for further information

cushioning to meet those needs. With the appearance and comfort of standard furniture, these products have additional features:

- •Light with no hard corners
- •Durable, moisture repellent covers to withstand robust use
- •Hand finished seams which replace zip fasteners
- •Additional sealing of seams for improved hygiene
- •Chairs that support body weight when seated which will collapse when stood on.

ROMPA® furniture is manufactured from fire retardant materials (ROMPA® is a member of the Furniture Industry Research Association (FIRA))

Call ROMPA® for advice on the most appropriate furniture for your needs.

From consultation with carers and medical staff at high risk units such as Rampton Hospital, ROMPA® have developed Seclusion Furniture. With great attention to detail, this thoughtfully conceived range promotes staff and patient/inmate safety. Durable, and easy to clean, this furniture meets all relevant safety and fire retardancy standards.

Seclusion Furniture by ROMPA®

Specifically designed for use by clients with severe behavioural problems and unpredictable tendencies. Features:

- no inner wood or metal frame, therefore no hard surfaces
- no zips, cords nor sharp edges
- client cannot hide objects in the chair
- client's hands are visible
- low position and sloping armrests mean client cannot get up hurriedly
- available in Polyester or PVC please specify when ordering (see pages 335)

R023402 Approximately 750 pale turquoise 7.5cm ballpool balls

Solid Structure Ballpools for all applications

Some people want to release energy whilst others wish to sink back and relax. Whatever your preference ballpools offer an inviting opportunity for a major change in environment.

They provide safety and support for limbs and body. They allow movement whilst providing touch contact all over the skin area.

Use ballpools as an adventure, pulling and pushing, lifting and falling. They offer a chance to turn the journey into a shared experience.

Ballpools can be made to any size - 2, 3 or 4 sided. When ordering, please state the external dimensions.

Ballpools are built around a wooden frame, and are cushioned with high quality, latex-free foam.

Contact ROMPA® NOW for advice on measuring or a price quotation for your tailor-made ballpool.

NUMBER OF BALLS REQUIRED FOR BALLPOOL

This table shows the number of boxes of balls required for standard sized freestanding ballpools.

For non-standard ballpools, phone ROMPA® for advice before ordering balls.

7.5cm Diameter Balls

These larger balls provide less points of contact with the body, and are popular with active users. Recommended for situations where there is any risk of ballpool balls being

1 box of approximately 500 balls.

PVC - please specify colour when ordering.

Size: 72.5cmH x 145cm walls

"Fantastic Item for where space is an issue. We ordered this product back in 2006 for our daughter ... and it's still going strong! Really durable, tough vinyl ... and not a rip or tear in it 9 years on! I cannot praise highly enough how sturdy the walls are once fixed ... many a time 'perched' on by us when supervising daughter ... and no dents from our weight!! It's a fantastic design that can fix into any corner, utilising your existing walls for the rear 2 sides ... It was easy to fix with the wooden brackets attached, and has stayed put all these years with no problems at all! The inner floor mat is also tough ... made from heavy duty vinyl, which velcros on to the sides to fix. All in all, this ball pool scores highly with me 11/10 ... definitely a quality item that is well made and lasts many years, as mine has proven!"

Relaxer™ Travel Size Weighted Blanket

Helpful for calming during the day and to aid relaxation during daily activities that could otherwise become stressful situations. Take it almost anywhere for convenience and reassurance e.g. in the car, on the plane, at the dentist's or hairdresser's. Suitable for children and adults. Affordable and portable. Designed by an Occupational Therapist with over 25 years of experience. Triple-stitched for robustness and so the filling is safely contained. The hygienic filling is BPA-free, phthalate-free, and lead-free. Cotton outer for comfort and durability, even after repeated machine washes. Pattern-free to avoid distraction and visual over-stimulation. With a scoop neck for comfort to avoid discomfort around the face and neck. Colours may vary.

All the weight of the Relaxer $^{\text{\tiny{M}}}$ Travel Blanket is on the person therefore the Travel Blanket can weigh less than a weighted blanket used for sleeping.

"A great portable weighted blanket. My daughter has used this a number of times. It really does help reduce her agitation in stressful situations".

Weighted Pencil Set

An innovative writing tool recommended for individuals with sensory processing issues and/or fine motor skills. The weight and textured surface provide increased sensory input and proprioceptive feedback to the hand whilst writing, which helps to increase focus, hand-strength and dexterity; normalise writing speed; and/or decrease the grip force used to hold a pen/pencil. Includes 1 aluminium hand-piece, 1 weighted tip, 1 pencil adapter tip, 6 pencils and 1 pencil sharpener. Weight: approx 60g (2 oz).

Size: approx 13cmL

R021589 £ 36.95

Cozy Caterpillar™ Compression Tube

Made from stretchable fabric to provide a unique proprioceptive and deep pressure touch experience. Provides a gentle and comforting hug for a feeling of calmness. Very effective for improved focus and calm for adults and children with anxiety, stress, ADHD, Autism Spectrum Disorders, Sensory Processing Dysfunction. To be worn around the shoulders and over the knees whilst sitting. The user's head (and feet) remain free so he/she can still see what is going on around them. Open at both ends for convenience and safety. Made from triple-stitched Spandex for durability. Royal blue only.

Round shape means

- Each fits nicely in the hand without the tension caused by gripping a dumbbell
- Ball can be rolled by a therapist to a client, or by the client along a line of tape on the floor
- Less risk of injury that with a dumbbell if dropped

ILL CE

Weighted Ball (Medicine Ball)

Created for use by physiotherapists as a rehabilitation tool, this ball is invaluable for exercise and controlled movement under professional supervision. Great for heavy work to help those with sensory processing difficulties to feel centred. Helps build muscle and develop strength, as well as improving balance, coordination, posture and proprioception. Also excellent for exploration as its liquid centre (distilled water) offers a unique tactile experience. The soft elastic rubber layer provides a quiet rebound and a pleasant feel. Supplied inflated. Two sizes/weights allow grading up or down.

R019317	Size: 16cm diameter Weight: 2kg	£ 19.95

Weighted Sensory Cushion

NEW LOWED DDICE

Curious and calming. The tactile and visual objects enclosed invite exploration whilst the weight of the cushion may offer a sense of security. Large enough to place across the lap or on a table for a shared activity. Large size and objects to suit the visually impaired and those with limited fine motor skills. Objects selected are appropriate for all ages. With double-stitched seams and thick PVC fabric for extra safety. The cushion is quite rigid and so is not especially suitable for the frail.

Size: approx 6	55L x 40cmW		NEW LOWER PRICE

Weighted Vest

Made from soft, breathable, non-flammable material, these vests slip over the head with ease and close at the shoulders and sides with Velcro® for easy adjustment and a snug fit. Weight packs are inserted into the eight concealed pockets (four at the front, four at the rear) of the vest. Each pocket has Velcro® to keep the weight packs in place. The length of the vest can be adjusted by folding up the lower part and securing using the Velcro® strip on the inside. Machine washable (remove the weights beforehand). Available in five sizes, each at an affordable price so you can choose the next size up as your child grows. Length is from the top of shoulder to bottom of vest; width is the circumference, measurement around the waist.

"A good vest. My son has been wearing it with no fuss, which is a good sign. I particularly like the side Velcro which allows you to adjust the vest, and make it snug, just the way my son likes it."

Binni-Sofa™

Multi-purpose, this wearable beanbag provides a unique and inviting solution for those with sensory processing challenges. Intentionally snug to get into, but once on, it provides comfort and soft pressure like a hug as well as stimulation and activity as need arises. Offers deep proprioceptive input for those on the Autism Spectrum (some sensory sensitive individuals sometimes crave deeper pressure). Designed to reduce children's anxiety about movement and potential falls, as well as improving body awreness. Cleverly conceived with everyday use by both therapists and parents in mind. Practical, the removable and stretchy zipped cover allows one or both inner cushions to be used and facilitates machine-washing and -drying. The bead filling in the inner cushions gives a pleasant sound element, especially when moved against the floor. One size (designed for children 3-12 years but will fit a slim teenager/adult). Each. Colours may vary. For 3 years and over. Size: 40L x 42D x 24cmH

R023311 £ 139.95

Squease Vest

CE

Inflate to make the air tubing in the vest tighter to apply firm pressure to the trunk and back, and so induce safe and secure feelings. For those with sensory processing difficulties, this deep pressure on muscles and joints can be regulating, help improve sensory integration and restore a balanced emotional state (e.g. reducing stress or anxiety). Soothing for the over-stimulated and disorganised nervous system, as well as increasing alertness and focus in an under-stimulated nervous system. May help encourage self-regulation as the user controls the amount of pressure exerted. Wear over a thin top, with other garments over the vest. With Velcro® side and shoulder straps, zip at front, ventilation holes and hand pump with quick release valve. Includes advice manual. Hand-wash and air-dry. Nylon with a thermoplastic polyurethane coating. Contains rubber. XXS and XS sizes are typically for 4-10 tears; S, M and L sizes are typically for teenagers and adults. Approximate guide below - see size chart on our website for further information. Extension straps available – contact us for more information.

'At school, I am now able to carry out tasks that I would otherwise not have dared to do, and I can complete them successfully! The vest makes me feel less stressed when doing schoolwork.'

Chris

The deep pressure helps to relieve my anxiety. I have worn the garment whilst driving my car (always a very stressful activity), which resulted in me being very relaxed. I inflate the vest a couple of times per day for around 20 minutes at the time. After 10 minutes, I start to calm down and enjoy wearing the vest for just a little longer.'

Marije

'I love it – I feel like there's a force field around me. I'm 'living' in my Squease and really enjoying its benefits. In a shopping centre or going for a plane – anything where there's lots of noise or chaos, I really value the Squease.'

R022086	Elastic Straps for Body Roller - Set of 2	£ 20.00
R022087	Wooden Elastic Anchor Points for Body Roller - Set of 2	£ 20.00

Provides deep pressure for additional sensory input. In a similar way to babies being calmed by swaddling and being wrapped tightly in a blanket, deep pressure can be soothing and relaxing. Deep pressure is especially beneficial for children with ASD and ADHD, and can help reduce tactile defensiveness in those who cannot tolerate being touched (hypersensitivity or over sensitivity to touch). Providing appropriate sensory input through a product like this Squeezer may reduce self-stimulation and self-harming amongst children craving deep pressure. Moving through the rollers can help with motor planning, and can be used as part of imaginative play. Tension and pressure are easily adjusted to each user's specific needs – you can choose the appropriate level of proprioceptive feedback for your child. Masterfully crafted with a Baltic birch wood frame. Cushioned foam rollers are covered in an easy-care polyurethane vinyl and they squeeze and release pressure evenly and consistently. With hand holds for portability. Colours may vary. Weight limit: 45kg (100 lbs)

Size: 85L x 60W x 38cmH

A clever system created originally just for Haley and now available just from ROMPA®!

Haley was a little girl who experienced challenges centering herself and focusing. Her family searched for ways to help her development and found Floortime therapy. The first challenge her parents encountered was gaining Haley's interest and attention during these interventions. With great delight they discovered that Haley's first experience on a vestibular swing proved to be exactly what she needed, and it became her most beneficial tool.

Haley's grandfather, an engineer by trade, designed and built her a portable vestibular swing, one which could be moved to any room, and used to engage Haley in therapy and developmental activities, such as puzzles and reading.

For her family, the swing provided a practical solution. For Haley, the swing provided pure joy.

Portable, practical and perfect for the Occupational Therapist on the go.

Ideal for use in schools and domestic settings where a permanent frame is not viable

Modular, with many accessories. Visit www.rompa.com to see the full range

BENEFITS

One side is textured, the other is smooth

Easy to connect pieces

Haley's Joy® Interlocking Foam Padding Squares

Tested for heavy usage, this lightweight and durable foam padding will add cushion and comfort underneath the On the Go Swing's blue mat. This EVA foam is closed cell, so it's completely waterproof, non-toxic, lead-free, and easily wiped clean with mild soap and water or a damp cloth. One side of the padding has a herringbone texture, to provide grip. Comes with edges.

"Rolling Ridge Riding, Inc. (a therapy based horse riding centre in Rockingham Co, NC) has used an "On the Go" swing from Haley's Joy for the past several years outside of our riding ring. Children can work on the swing to receive sensory/vestibular input prior to their therapy ride or afterwards. The swing allows linear and rotational motion. The therapists volunteering with us and kids we serve absolutely LOVE it! The swing is light weight making it easy to bring out to the preriding area. It is a snap to assemble and to take down and store as well! Rolling Ridge Riding's kids have received so much help from our smaller model swing, that we were excited (to the moon and back!) to get a second bigger swing that will allow our larger children to benefit from it as well! Additionally, the swings are light weight and so easily transported in their storage bags that our therapists are able to use them in different geographic locations as they serve our special needs children in the community! Haley's Joy swings are AMAZING!"

Kathryn Davis, Paediatric PT, Rolling Ridge Equestrian Therapy Inc, US

"Our On the Go Swings have become the cornerstone of two sensorymotor rooms that our therapy team established in 2 of the school districts we serve. The swings are very easy to set up and perfect for the variety of students we serve with both vestibular and core strengthening needs. The ease of set-up and take down allows us to not only transport the swings but to reconfigure the room as we add equipment and make changes to meet the needs of our students. Both of our swings have the centre rotational device allowing us to use a variety of swings that require either a single point attachment or 2 point attachment for linear movement. The safety and versatility of these swings have made them the perfect choice for our students."

Mary Kay Eastman, PT, MS, Therapy Coordinator, Athens-Meigs Educational Service Center

Athens, Ohio

The Sling Swing provides stimulation in a prone or seated position with its versatile aerial hammock suspension and quality construction. Safe for everyone from children to adults. Includes one safety snap. Weight capacity: 136kg (300 lbs)

Size: 124.5cmL x 76cmW

"This can be hung from one suspension point, or two, and so both linear and rotational vestibular input can be achieved. A fantastic swing to help develop tonic extension and integrate retained primitive reflexes. This also makes it very able to achieve supine positions. We also use this swing in Sensory Attachment Interventions as it can provide a nurturing feedback when slowly rocked, and can cocoon the person."

Annie Doubleday, Emma Jerman, Occupational Therapists

R021580 VAT Relief £ 165.00

TheraGym® Therapy **Net Deluxe Swing**

Provides linear and rotational movements to enhance development and motor control. Whilst some children seek the comfortable and soft enclosure of a fabric swing like the TheraGym® Tear Drop Swing, others prefer the more open and visible space provided by a net swing. Our Therapy Net Deluxe Swing helps a child feel secure whilst their vestibular system is stimulated. This also provides a safe haven for activities such as reading and studying. A heavy-duty nylon cord unit is suspended from welded steel rings. Includes one safety snap. Vinyl-covered birch board (58cm diameter) is optional. Working load: 225kg (500 lbs)

Size: 122cmH

£ 450.00 R020530

Sensory Integration is a therapy that should be carried out by suitably trained and qualified people. These swings are intended for controlled movements they are not toys.

"Our new therapy is filled to the brim with Rompa® equipment and resources but the most popular Rompa® equipment that the children have just loved, has been the Beano Swing ... One recent task was to use the Beano Swing to knock down a tower made from the Soft Play, aiding a child seeking 'crash and bump' sensation and then also using the Beano Swing to drop down into the up-turned barrel helping motor planning and body awareness."

Dominic Simpson, jigsaw Occupational Therapy Ltd

"The children love it and have given it many different names, such as the 'zip wire' and 'thunder bolt'! The Beano Swing requires good core stability and tonic flexion as well as strength in the arms and legs to hold on. The swing is a challenge to master and we grade the activities to build up the child's strength. We place a large beanbag underneath until they are able to independently hold on. This swing allows for accelerating linear movements that the child creates himself or the swing is used for rotational movements. The Beano Swing is an essential piece of equipment in our

Annie Doubleday, Emma Jerman, Occupational Therapists

Beano Swing

Improved design – softer rope for extra comfort to little hands!

A robust, waterproof polyester bag filled with polystyrene beans. Swing on the Beano by gripping the swing between your thighs, resting on the bean bag seat.

Working load 90kg (200 lbs). Colours may vary. Includes a built-in plastic reinforced tear-shaped loop at the top of the rope to be hung from your suspension system. The length of this rope makes this swing unsuitable for use with the Suspension System 17687. This product has a zip for manufacturing purposes only.

Love...

TheraGym® Square Platform Swing

Provides many multi-sensory opportunities with extra stabilizing features: a hanging disk to keep the swing moving uniformly and a carpeted platform to keep clients in place. With one suspension point to allow the child to go in different planes of movement which increases the vestibular input and challenge. This hardy swing has a solid Baltic Birch wood base with a smooth edge for safety, and a soft removable carpet pad. Safety snap included. Weight capacity: 360kg (800 lbs)

Size: 72 x 72cm

"The platform swing is an essential swing in our S. I. clinic, as it allows for the child to work in different positions such as sitting, laying on their tummy or back. It is very versatile and allows for the task to be graded. We love to use the Tube Swing inside the platform to provide more postural support with gentle vestibular input. As the child improves their posture through the use of S. I., the challenges can increase and the child can lie or sit in different positions. The swing has ropes that the child can hold on to for support and we encourage the child to start to self-propel and move the swing themselves, as this is an excellent bilateral timing and coordination task, and provides proprioceptive input."

Annie Doubleday, Emma Jerman, Occupational Therapists

R021549 VAT Relief

£ 325.00

TheraGym® Rectangle **Platform Swing**

Allows the child to sit or lie down. Large enough for the child to be seated and still have space for activities on the swing such as building blocks, or beanbags to throw at a target. Billowing Cushion by ROMPA®

A foam base with air cushion creates an exciting Billowing Cushion. Offers a number of therapy opportunities for those with mobility and sensory issues. Lying or sitting on the cushion provides vestibular stimulation which can be controlled by the user or another person. Also provides proprioceptive and deep touch pressure input. Rolling on and off the cushion is posturally-demanding, strengthening the core and trunk, whilst working on antigravity flexion and righting reactions. Moving around the cushion facilitates gross motor patterns and joint compression. Helps facilitate balance and promotes stability. Useful in Snoezelen® and Sensory Integration environments, it is a safe depth and is great for crashing on. When used with foam-filled Floor Mats, the movement of this product provides a contrasting sensation. With other ROMPA® products, additional engaging activities can be created around this cushion such as seeking out bean bags placed round about or using in conjunction with a swing. The surface can be easily wiped clean. Please state colour choice when ordering. Vinyl.

Slide and Hide

An all-in-one indoor unit to encourage a range of movements and motor skills for children under 3 years. Useful for climbing, crawling, balancing and sliding, as well as turn-taking and co-operative play. MDF with a maple finish. Flat pack – simple assembly required. Weight: 39kg

Size: 85.5L x 139W x 59cmH

"A great little unit. It was very easy to assemble, even on my own (despite the recommendation being for 2 people to build it!). The instructions were clear and it was very straight forward to put together. I was a little worried about how strong it would be as we have several big, rather boisterous children, but I tested it first and it easily takes my weight on it, never mind the children jumping on it. A few of our bigger children have to squeeze to get into the hide underneath but it encouraged their problem solving and they find a way. We're going to experiment with different light up toys/glow in the dark toys & stickers to put underneath next to inspire some curiosity and exploration. The stairs are solid and are a good size (nice and deep but not too high) ..."

Sensory Circuits Saver Pack

Everything you need to help you create a sensory circuit. Perfect for schools to energise and settle students at the start of the day or after lunch in readiness for learning. Encourages concentration and focus as well as improving sensory processing skills. Motivating and engaging, sensory circuits can help improve self-esteem, alertness, spatial awareness and physical well-being. Includes activities for alerting (stimulation to prepare the brain for learning e.g. spinning, bouncing, jumping), organising (using motor sensory processing and timing skills for multi-tasking in the correct order e.g. balancing, co-ordination activities) and calming (last of all to avoid hyperactivity e.g. deep pressure and rocking). Especially effective when purchased in multiples for more students to enjoy. Contents may vary but pack typically includes:

- Concertina Mat
- Sand Snake
- 2 PVC Hoops
- Gymnastics RibbonMulti-Purpose Ball
- Hop Ball
 Spinning Con
- Spinning Cone Tactodiscs
- Mini Rocking Board
- Weight & Balance Cushions.

£ 48.95

Trains weight transfer and dynamic balance, as well as providing proprioceptive stimulation. Can help improve muscle coordination, controlled movement, body awareness, rhythm and regulation of force in the legs. Move the board by transferring weight from side to side – it rotates when the weight is on four of the wheels on one side, and locks when the load is centred over the four central wheels. Allows rotation in a circular movement of up to 360°. With practice, an experienced user can get the board spinning and do tricks with it. Engaging design to appeal to children of all ages, including teenagers. For users 4 years and over.

 $\label{eq:maximum load: 75kg.} \mbox{Weight: 1.25kg} \qquad \mbox{Size: } 50\mbox{L} \ x \ 16.5\mbox{W} \ x \ 8.5\mbox{cmH}$

Reflective Balls - Set of 4

Visually stimulating, these silver-coloured balls offer a distorted reflection that is fascinating and amusing. Great for imaginative play. Hard-wearing stainless steel that is smooth and cold to the touch. Use indoors or out. Enjoy passively as beautiful decorations in your garden, or explore these for comparative concepts, early science as well as for social and emotional development (self-awareness and confidence). From birth onwards. To be used under supervision – not suitable for those with behavioural problems. For 3 years and over.

Size: 6cm, 8cm, 10cm, 15cm diameter

Winner of the 2015 Highly Commended Nursery World Award for Equipment & Resources Birth to Fives category AND the 2015 PPS Bronze Award for Toys & Games, 0-3 Years category

"Suitable from birth, the Silver Sensory Reflective Balls provide a rich array of opportunities for babies and young children to experience multi-sensory play and engage in creative exploratory play and thinking. As children roll and move the mirrored spheres, they observe different effects, encouraging them to question and seek explanation for what they see. Made from hard wearing stainless steel, the balls range from 60 to 150mm in diameter and can be used inside and out. Teaching assistant Steph Virgo from Weald Community Primary School in Kent says they first used the balls on a sunny day outside and the children were fascinated by their reflective qualities, which lead to discussion about reflection and properties of light."

Splats

Colourful acrylic pieces to explore, compare, contrast, talk about or use for decorative purposes. Especially effective when used on our LED Light Panel 18663 or Colour Changing Table 22259 to observe and investigate pattern, colour mixing, light, shadow for early science. Inviting, these encourage motor skills and conversation (e.g. descriptive language). Each piece has a small hole and so could be suspended with clear nylon to make a delightful mobile, especially in an area where arts and crafts take place. Includes transparent pieces (1 red, 1 orange, 1 yellow, 1 blue, 1 purple, 1 no colour, 1 green) and opaque pieces (1 double-sided mirror, 1 black, 1 white). For 3 years and over.

Size: approx. 12cm diameter

"An absolutely amazing product and was used all the time. The 'splats' themselves are a brilliant size for small fingers to hold, helping to encourage fine motor skills. They make learning colours great fun. The splats were used to explore the world around us in different colours by holding it up to the child's eye; this was great to give different perspectives and made learning fun. They are brilliant if used with a light box as the colours are very vibrant. They kept the children engaged and focused so they were unaware that they were learning. They feel great quality and clean well."

Jane, Mum and active member of a local special needs group

ROMPA® Tactile Panels have many uses including:

- exploration of the textures for enjoyment, not as part of a goalorientated activity so there is no pressure to achieve
- tracing lines and visual tracking
- stimulating conversation and an awareness of preferences e.g. the different sounds can encourage discussion about musical likes and dislikes, the different fabrics can facilitate an understanding of clothing needs
- musical or imaginative play touch the corresponding texture or instrument as it is mentioned in a story ...
- for orientation as tactile signposting along corridors for those with visual impairments

(Also see page 177)

each side. Items include rotating mirror, bell roller and in-built carrying handle.

Offers a range of gentle sounds to encourage concentration. Latex free.

"I keep two Senseez in my office as I see clients who range in age from 7 through 20 who present with ADHD or a higher-verbal autism spectrum diagnosis. The sensory input provided by vibration has truly helps my clients be able to focus while we're working on social and self-regulation skills. Some clients enjoy squeezing it while others enjoy resting it upon their back. I appreciate the fact that each Senseez is visually appealing and blends into my office environment."

Ryan Wexelblatt, Director, Center for ADHD

Vibrating Neck Cushion

A comfortable crescent-shaped massager for the neck and shoulders. Bead-filled, this vibrating cushion massages the neck from three sides. Particularly effective when used lying on the back. Simple Music Player

Many individuals with Dementia want to listen to music but are unable to use conventional music players because they find these too complicated to operate. This version is designed to overcome these problems as it helps to provide people with Dementia with music they remember in a way they can independently access themselves. Operated by lifting the lid, which automatically switches the unit on and plays a tune. If a new tune is desired, a single large button allows the individual to skip to the next track. Family, carers or friends set the volume (which is intentionally not easy to change by accident), as well as downloading tunes onto the player (easily via a USB link from a Windows, Apple or Linux PC).

Size: 30 x 19 x 11cm

R022113 Walnut £ 125.00 VAT Relief

Retro-style analogue radio that offers an easy way to listen to your favourite stations without the need to retune and change the volume. Perfect for those who enjoy the same station all day, every day, or for those who find multiple controls difficult or confusing. Great for individuals with memory problems or Dementia, dexterity problems or visual impairments. Includes 2 main control dials - volume and frequency. Once easily tuned to your required AM/FM station and the volume chosen, you can turn the radio on and off by pressing the large button on the top. The control knobs can be removed and placed in the rear compartment of the radio for safe storage and the magnetic panel covers the buttons to keep your settings in the right place. Mains or battery powered (6 x C batteries to be purchased separately).

Size: 33L x 15W x 19cmH

10 Reasons to choose ROMPA®'s Aromatherapy Kit

This comprehensive kit includes 12 different aromas, from Grapefruit and Bergamot, to Tea Tree and Lavender

2. Longevity

As you only need to use a couple of drops each time, this kit typically lasts for 2 to 3 years, if not longer. Oils are bottled just before they are despatched to us

3. Natural

The oils are essential oils – high quality, natural oils - not synthetic, water-based alternatives

4. Ethical

The oils are ethically sourced from all over the world – our supplier has established strong relationships with producers for many years, often through travelling to sites to maintain these links

The oils are tested for quality and a MSDS is available on our website

6. Multi-purpose

Useful for stimulating memories, encouraging appetite, massage, bathing, freshening rooms and masking less pleasant odours ... these oils can be used in many different ways. Using an oil in a fan-operated diffuser is both simple and safe.

7. Sensory

Despite having the guickest and most direct route to the brain of all the senses, our sense of smell is often over-looked as many of us use our sense of sight as our primary sense. In order for Multi-Sensory Environments to be truly multi-sensory, aroma should be considered with the other senses, including the vestibular and proprioceptive senses

8. Comforting

Our sense of smell is not only very sensitive and powerful, it is connected to mood, emotions and feelings. Aromas can transport us to our childhood and stimulate memories of loved ones and happy times. Aromas can also be used to distract during treatment and to help maintain connections with individuals when incorporated into massage.

9. Alternative

Akin to the values of Snoezelen®, aromatherapy can be used effectively as an alternative to medication. For example, essential oils such as Lavender and Vetiver can be used to help encourage sleep – safe avenues to explore before resorting to sedatives

10. On trend

Aromatherapy is coming back into vogue, notably in the USA, but also in the UK. Some perfume houses are consciously choosing to use more essential oils in their perfumes to avoid the use of preservatives.

Aromatherapy Kit by ROMPA®

An easy to use compact kit with its own attractive, wooden case that allows the user to store the 12 oils upright. Suitable for a wide range of uses - with the Interactive Aroma Panel, an aroma diffuser, in massage blends or in the bath. Note: it is recommended that this kit be used by someone who has attended an aromatherapy course (such as ISPA or IFA) and has sufficient knowledge for its safe application.

Box - 15L x 11.5W x 9cmH

introducing aromatherapy to our sensory room."

 R020330
 Lilly, Girl
 £ 54.95

 R020331
 Elias, Boy
 £ 54.95

Lilly "We initially purchased one of the dolls for a Lady living with Dementia in the home who was always talking about 'the babies'. Her reaction to the doll was overwhelming, her communication skills improved as she would sit and converse with the doll and also sing Nursery rhymes. Something that she may not have done or that we would have thought she was able to do. Subsequently we purchased a further 3 and they have had a really positive impact for our Ladies and Gentlemen living in the home, giving them the opportunity to still be able to nurture and create a sense of comfort and well-being. We also purchased a beautiful Silver Cross pram for the dolls and this encouraged people to go outside for walks in the fresh air. They are really soft and durable but also they are the weight of an average baby. Clothes are interchangeable and this helps people keep occupied with looking after them."

Ruth Abbs, Registered Home Manager, Birmingham

Lilly "Maureen really enjoyed the Newborns and interacted well. She was talking and singing to them, especially to the girl Lilly. Maureen was initially agitated, but saw these dolls and immediately took to them and seemed happier." Helen Longdon, Service Day Worker, Chesterfield

Tom "Perfect doll. Much appreciated by the lady we gave it to - a real hit!" Eleanor D., Verified Buyer

Heart

A relaxing rhythm of approximately 60 beats a minute. The gentle vibration and subtle sound adds further sensory interest. Requires 2 x LR44 batteries (not included).

Menu Book

An essential tool that helps bridge the gap between carers and residents. This easy to understand book helps reduce frustration and misunderstanding by removing language as a barrier, letting the pictures do the talking. Colourful images of commonly eaten dishes provide an effective way of expressing menu choices at a time when communication can often be difficult. Each selection contains pictures of everyday meals, drinks and snacks. By pointing at the dishes on the menu choices are clear, giving people control over their menu selections. This book also includes three wipe-clean boards to write your own messages and menu choices. 21 pages. Ring-hound

Positive Play Support Programme Saver Pack

The Positive Play Support Programme is a unique early intervention programme designed to raise the self-esteem and emotional wellbeing of shy, timid, disaffected and challenging children and young people. This Saver Pack enables you to create a "Magic Corner" - essential when supporting children and young people on the Programme in a one to one session. Contents may vary but typically include Portable CD Player, 2 CDs (CD632 Mozart for Mother and Baby; CD633 Pure Relaxation; CD270 Music for Children are recommended), Aroma Mouse and aromatherapy oils, Mr Face, Mirror Frame, Soft Light & Bright Ball, Fibre Optic UFO, Glostars, Cosmic Effect Net, Mini Spectacular Rainstick and a selection of sensory balls.

"There is statistically supported evidence that positive behaviour change occurs in children who have participated specifically in the Positive Play Support Intervention".

Evaluation study by Sheffield Hallam University

Z-Vibe® & Z-Grabber™

Tools for therapists for professional use (these are not chews)

Most people are either auditory or visual learners, but sometimes these senses are not enough and we need to consider the sense of touch. Speech and Language Therapists have been trained to use tactile input to teach clients how to lateralise their tongue, elevate their tongue tip, make a tongue bowl, close their lips, learn a rotary chew, position the articulators for sound production and other oral motor skills. Vibration provides a new level of sensory stimulation to increase awareness and to draw more acute attention to the articulators. Vibration can also be calming and organizing.

All these products are lead-, latex-, PVC-, BPA- and phthalate-free, and are for supervised use under the guidance of a therapist or trained carer. Change the Tips for work on speech and feeding skills. All Tips require a Z-Vibe® or Z-Grabber™. The Soft options are made from a softer, more resilient material

for those with a bite reflex and/or sensory issues.

Z-Vibe®

A sensory oral motor tool that vibrates. Intended for oral motor exercises and sensory stimulation. Use it to provide input to the lips, tongue, cheeks and jaw. This tactile input may help increase oral awareness and tone, decrease oral defensiveness, encourage texture acceptance and improve a variety of speech, feeding and sensory skills. The lightweight handle has gentle bumps for a non-slip grip. Battery and a Probe Tip included. Size: approx 16.5L x 1cmW

CE

£ 5.95

Mini Tip

A smaller version of the Probe Tip for babies and toddlers up to 2½ years (depending on the size of the oral cavity). The rectangular shape has 3 different surfaces: bumpy, striated and smooth. It provides a varied sensory experience when stroking and applying gentle pressure to the gums, palate, cheeks, tongue and lips. This may increase oral awareness for individuals with hyposensitivities, or may decrease oral defensiveness and food aversions for those with hypersensitivities. Can be used to provide targeted tactile cues during oral motor therapy. Each.

Size: approx 1 x 1 x 6cm

R021311 VAT Relief **£ 5.95**

.

Y-Chew - Set of 4

To exercise the lips, tongue, cheeks and especially the jaw, allowing the mouth to learn and grow strong through oral motor exploration. Also useful as oral fidgets for sensory seekers, to decrease thumb/finger/knuckle sucking and to decrease oral sensitivities, oral defensiveness and food aversions. The blue and yellow chews are soft and chewy. The orange and turquoise are chewy and resilient, but extra tough and firmer for those who exert more jaw pressure. Use as a sampler pack to assess the suitability of each, or to grade these to gradually build oral strength. Lead–, latex–, PVC–, BPA– and phthalate-free, and are for supervised use under the guidance of a therapist or trained carer. Replace once worn.

R021316 VAT Relief **£ 32.50**

Oral Motor Skills Kit

Acquiring and developing oral motor movements, strength and control are considered important for speech and for feeding skills. This kit includes a variety of engaging tools to help the therapist to encourage sucking, chewing, oral motor awareness and so on. Contents may vary but typically include blowing musical instruments, feathers, straws, drinking bottle and chewing resources.

R021326 £ 99.95

Innovative oral motor device designed to provide a resilient, non-food, chewable surface for practising biting and chewing skills. Originally designed to be used with the Jaw Rehabilitation Program. Safe, non-toxic, latex- and lead-free. The little bumps on the surface of the Green Knobbly Chewy Tube provide tactile stimulation for the mouth. Red Chewy Tubes offer a slightly larger stem than the yellow, providing greater resistance. The Blue Chewy Tube provides the greatest resistance. Available in sets of 2 and 6.

Size: 8L x 6cmW

Tri Chew

With ridges and bumps to provide sensory input for the lips, gums and tongue and increase oral awareness whilst providing a safe object to bite down upon and chew. Jaw movement and pressure is experienced through the varied textures of the ends, which enable grading for individual need. Soft – may provide comfort for teething tots. Triangular shape is easy to hold. Not recommended for aggressive chewing.

Size: approximately 13 x 14 x 1.5cm

.

R021028 £ 7.95

Chewstixx® Flavoured Chewable Fidget

Tactile and designed by therapists for those who crave sensory input. The textures simulate the constantly changing feel of food to assist those who have sensory issues when certain textures are in their mouth. Not a toy - supervise use at all times. Replace at first signs of wear. BP-, latex- and phthalate-free material. Dishwasher safe.

Standard Fibre Optic Lamp on page 40

Switch-Adapted Fibre Optic Lamp

Very visual and appealing to all ages. Momentary operation — whilst your switch is activated, so is the beautiful light. Base lights up, as do the tips of the fibres. Can also be used without a switch. Requires 3 AAA batteries.

Size: base 8.5H x 8cm diameter; overall height 31cm

R020709 £ 20.00

An excellent flexible massager which makes vibration fun to explore. Lightweight and fully portable, the 115cm long massager may also give soothing and penetrating relief to aching muscles. A special Velcro® fastener is included for hands-free massaging. Switch adapted. Requires 2xC size batteries and a switch (both to be purchased separately). Made of synthetic rubber and PVC. Contains latex. Each.

R019221 £ 30.00

Standard Massage Tube on page 191

More switch adapted products available at www.rompa.com

All these switch adapted items should be used under close supervision. These are intended for learning and are not toys. Most have long cables which could be a hazard if used inappropriately.

Switch-Activated Spinner

Encourage people of all ages and differing abilities to enjoy interactive games together. Great for inclusion, this is large scale and accessible. Perfect for those who are unable to hold and throw traditional dice, and for those with visual impairments who cannot see the dots on a standard die face. Either press the red button on the front, or connect and activate your own switch to make the central arrow spin. Use in turn-taking to select random numbers instead of shaking one or two dice. Also excellent for early maths skills – add, subtract or multiply the numbers from both dice together, work out probabilities and use in matching games. Especially valuable in small groups as the spinner can be stood up on a table (using the integral fold-down legs) for everyone to see at once. For the less able, activation helps understanding of choice as well as of cause and effect as well as providing a multi-sensory reward – the spin is audible and produces a pleasant visual effect. Requires 2 AA batteries and a switch (both to be purchased separately). For 3 years and over.

Size: $34 \times 34 \times 6$ cmD (16cmD with the legs extended); display 29.5cm diameter; red button 3.4cm diameter

R021413 £ **155.00**

Singing Elephant

Activate your first switch to make this gorgeous elephant play peek-a-boo and use a second switch to hear the song "Do Your Ears Hang Low" in a cute child's voice. Latched operation (activate your switch once to start the effect and a second time to stop it). Functions with only one switch connected, but most meaningful if two are used as this encourages listening skills, choice, co-operative play and turn-taking. Audible, visual and tactile, with ears that flap. Requires 3 AA batteries and up to two switches (to be purchased separately). Can also be activated by pressing the feet.

Size: 30L x 29W x 28cmH

.

A fun way to develop fine motor skills and build the muscles required for cutting with scissors. With easy to grip handles, transparent scoops and a storage tub. The scoops have holes in them to help release the chosen contents e.g. sand.

Size: 15cmL

£ 17.95 R021384

Scissors

The learning of scissor skills plays an important role in the development of manual dexterity which in turn ultimately benefits handwriting, dressing skills and confidence. ROMPA® offers a comprehensive range of scissors,

for both left- and right-handed users (blue = right hand; green = left).

Table Top Scissors

A strong, self-opening pair of scissors fixed to a plastic non-slip base for greater stability. Suitable for children and adults who have very limited strength and control or with only one functional hand. Simply push the paper along the base and cut by depressing the large 'T' shaped handle. A hidden spring automatically reopens the scissors ready for the net cut. Useful for those with a weak grip/ strength, poor hand control, tremors and/or one-handed users. Includes a zipped transparent storage case.

£ 24.95 R013307 VAT Relief

Long-Loop Scissors

A good design which enables the user to use the strength of the whole hand to operate the scissors, rather than finger and thumb only. The extended loop of these scissors allows the middle, ring and little finger to be used, giving increased strength and control for the cutting action, whilst the index finger is placed outside the long loop to provide guidance and additional control. Assists children with weak grip/strength, tremors and/ or poor motor control, including those with Dyspraxia.

Twist Trail

The smallest Tube Trail and one of the easiest to track. Can be held or rested on a lap. Includes three balls. Compact design allows the user to get closer to the tube and so see, feel and hear the movement of the balls more easily.

Size: 30L x 28H x 20cmD (balls 6cm diameter)

R019738		£ 57.95
R017550	Set of 3 spare balls	£ 3.00

Tube Trails

Place the balls in the colourful rings and watch them disappear down the tube and emerge at the bottom. Visual and audible. Encourages anticipation, motor skills and turn-taking. Perfect for tracking – and lots of fun! Inviting and engaging. Several options available – there's one to suit everybody!

A free-standing alternative to the Wall Mountable Tube Trail. Includes ten balls and $\boldsymbol{\alpha}$ wooden tray. Great for taking turns and races!

Size: 75cmH; tray 32W x 45D x 7cmH (balls 6cm diameter)

R019737		£ 225.00
R017550	Set of 3 spare balls	£ 3.00

Threading Rings

Designed for threading the rings onto the bar either in a horizontal position for lateral movement - right or left hand, or in a vertical position for up and down movement. Good for concentration and hand-eye co-ordination.

Size: 30 x 27 x 20cm

£ 59.95 R013189 VAT Relief

Sequencing Game

Test concentration, fine motor skills and hand-eye co-ordination as well as memory and communication skills. Try to put the beads in a particular order, or match colours and shapes. Includes storage box, 10 wooden playing cards, threading string and rods, 72 beads, die and instructions. Made from natural wood with non-toxic varnish. For 1-6 players, 3 years and over.

Size: 33 x 33cm

R017541 £ 42.00

Threading Fruits - Set of 24

Includes 24 fruits and 3 laces. Each lace has a toggle on one end (to avoid the frustration of fruits sliding off the bottom) and a 'needle' on the other. Some fruits have flat sides to help keep them steady when threading. Well made from wood from sustained sources. Lovely attention to detail. For 3 years and over.

Size: lace 145cmL including 'needle'; fruits 4-5cmH (bananas 12.5cmL)

£ 35.95 R019570

The needle encourages grip and manual dexterity. The beads are attractive and comfortable to hold.

Approximate sixes: Needle: 7cm; Shapes: 3.5cm

R020021	Farm	£ 10.45

"This puzzle was a great size. It was brilliantly made and felt nice in the hands. The vibrant colours made it attractive to the children and helped to encourage them to engage with it. The pieces were good sizes for children who struggle with dexterity to hold onto, which made them excellent for helping encourage independent playing. The sounds were fantastic and incredibly engaging and educational. One child who played with it had behavioural problems and a short attention span; at the age of 5 he had never completed a puzzle in his life. Due to the puzzle giving auditory feedback he was able to sit on his own and matched every single picture, this reduced his mother to tears as she never believed he would be able to complete a puzzle. This was a truly incredible moment for the child and the caregiver.'

Jane, Mum and active member of a local special needs group

Creative Magnetic Scene

Place the magnetic pieces wherever you wish on the board. Great for adults who struggle to pick up jigsaw pieces and place them correctly as their dementia progresses. Removing Barriers Game

WHAT IS THE AIM OF THE GAME?

The challenges faced by disabled people in everyday life with differing needs are often overlooked simply because service providers and staff do not realise they exist. Once awareness is raised, action can be taken to improve difficulties and remove the barriers. This is a valuable tool for Disability Equality and Disability Confident training.

"I found it fun, enjoyable, very informative, thought provoking and an excellent way to generate discussion around the subject of equality for disabled people. "

Andy Hendry, Project Manager, DDPA

WHAT ARE THE KEY MESSAGES?

- Disabled people should receive the same levels of service and access as anyone else
- If you're providing a service it should be as inclusive and accessible as possible
- Training is key to helping organisations and staff understand the challenges faced by disabled people
- Recognising barriers is the key to improving access to services and facilities

WHO SHOULD PLAY THE GAME?

Anyone offering services and resources to the public including health and social care, education, leisure, as well as private organisations such as retail, transport, banking and hospitality.

WHAT WILL PLAYERS LEARN?

- The challenges, issues and barriers faced by individuals with different impairments
- The practicalities of accessing services and facilities
- Simple ways to remove barriers

CREATED IN ASSOCIATION WITH:

Toyah Wordsworth, Equal Equality, Ataxia UK

• 2-12 players • 45-60 mins

• No specialist facilitator required

W057275 £ 80.00 *

Improve patient care, safety & well-being by increasing staff knowledge.

Communication Game

WHAT IS THE AIM OF THE GAME?

To ensure all frontline health and social care staff have the same level of awareness, knowledge, skills to confidently and effectively support people with diverse communication needs. To champion inclusivity and improve the quality of service delivery.

"Very good idea to stimulate discussion about communication."

> Head of Medical Education. London Teaching Hospital

WHAT ARE THE KEY MESSAGES?

- Communication is key to delivering safe, effective, person-centred services
- Everyone has the right to express their views and be heard, regardless of how they
- To provide an inclusive service, professionals need the skills and knowledge to do so
- Service users, carers and families should be supported to communicate in the way they prefer
- Small changes to behaviour helps to create an environment where many people can communicate effectively

WHO SHOULD PLAY THE GAME?

Anyone working in health and social care services, no matter the level, including nurses, doctors, AHP's, support workers, carers, volunteers, receptionists, social care and council staff.

WHAT WILL PLAYERS LEARN?

- To understand the variety of differing communication support needs
- To identify and address communication barriers
- Techniques and practical ways to improve skills for application in daily practice
- How to support service users, carers and their families to communicate in the way they prefer
- To identify and address communication barriers
- Techniques to improve communication skills of one-self in daily practice and overall service

CREATED IN CONJUNCTION WITH:

Talking Mats & NHS Education for Scotland

- 45-60 mins 4-12 players
- Can be played by single or multi-disciplinary teams
- No specialist facilitator required

£ 60.00 * W057223

Safeguarding Game

WHAT IS THE AIM OF THE GAME?

Safeguarding is everybody's responsibility. Anyone who works with the public has a duty to help safeguard children and adults who are at risk. This resource provides a foundation-level overview of safeguarding children, young people and adults at risk. It is designed to give anyone who has contact with at-risk individuals the knowledge and confidence to identify safeguarding issues and escalate them appropriately.

"A perfect learning aid. It sparks discussion, guashes myths, clarifies positions and emphasises the need for team working in safeguarding."

Specialist in Corporate Safeguarding, Betsi Cadwaladr University Health Board.

WHAT ARE THE KEY MESSAGES?

The following key topics are explored:

- What is safeguarding?
- Who is at risk?
- Types of child and adult abuse (domestic, sexual, physical, financial etc)
- The impact of abuse
- Warning signs to look out for
- Raising a safeguarding concern

WHO SHOULD PLAY THE GAME?

Anyone dealing with the public or who may interact with children or adults at risk in

- Council/local authority
- Health and social care
- Retail, hospitality and leisure
- Public transport
- Youth or sports club leaders

WHAT WILL PLAYERS LEARN?

Specific children and adults' safequarding issues covered in the game include:

- Trafficking & modern slavery
- Child Sexual Exploitation
- Radicalisation
- Honour Based Violence Hate Crimes
- Female Genital Mutilation (FGM) Online abuse
- DEVELOPED IN PARTNERSHIP WITH:

Surrey County Council

- 2-12 players
- 45-60 mins
- No specialist facilitator required, but an individual with knowledge of safeguarding may be able to provide context and answer queries raised.

W057222 £ 60.00 *

Developed with NHS Trusts, government services and other relevant organisations.

Harm Free Game

WHAT IS THE AIM OF THE GAME?

This purposeful and engaging board game helps individuals and teams understand their role and responsibilities in reducing patient harm. Maintaining good record-keeping and communication is a underpinning message throughout the game. The end goal is to improve patient care and careplanning. It tests and improves players' risk assessment capabilities across a range of care settings and supports the NHS Harm Free Care programme.

This game supports the NHS Harm-Free programme! Patient Safety Awards 2013 Finalist

Objectives: Staff clearly understand their role in assessing and preventing patient harm. Reduced incidence of avoidable harms

WHAT ARE THE KEY MESSAGES?

- We should all aim for 'harm-free' care for service users.
- Make every contact count
- Every health professional, regardless of their speciality, is responsible for each service
- Service users are also responsible for their own health and well being where appropriate. The use of patient information leaflets and conversations are vital to the

WHO SHOULD PLAY THE GAME?

It's suitable for all frontline clinical and support staff in acute, community or social care.

WHAT WILL PLAYERS LEARN?

Players will learn to minimise risks for the following patient harms:

- Falls
- Catheter infections
- Pressure ulcers
- Venous thromboembolism
- Medication errors
- Nutrition & hydration

DEVELOPED IN PARTNERSHIP WITH:

Derbyshire Community Healthcare Services NHS Foundation Trust

- 45-60 minutes
- Requires a facilitator with knowledge of harm-free care

W057255 £ 95.00 *

Stop The Pressure Game

WHAT IS THE AIM OF THE GAME?

To help your organisation improve patient safety and eliminate avoidable pressure ulcers. It helps health and social care professionals understand, recognise and minimise the risk of pressure ulcer formation.

"It's a fun way to learn about prevention of pressure ulcers and improving nursing quality."

"It's suitable for all care settings."

WHAT ARE THE KEY MESSAGES?

- 95% of pressure ulcers are preventable!
- Changing what we do and how we do it can reduce or eliminate pressure ulcer
- Actions, or lack of action can have a massive impact on patient wellbeing and longterm or short-term care

WHO SHOULD PLAY THE GAME?

All therapeutic, health and social care professionals working in acute, rehabilitation or community-based settings.

WHAT WILL PLAYERS LEARN?

- The causes, reasons and risk factors for pressure ulcers
- Preventative interventions including SSKIN
- Pressure ulcer management

DEVELOPED IN PARTNERSHIP WITH:

NHS England for their Stop the Pressure initiative

- 2-12 players
- 45-60 minutes
- No specialist facilitator required

W057256 £ 60.00 *

Train many people together, wherever & whenever you want.....

Hydration Game

WHAT IS THE AIM OF THE GAME?

To empower all clinical, therapeutic and support staff in health and social care settings to fully understand the difficulties and risks surrounding dehydration. Choose to play the main game which focuses on improving the hydration of patients/residents/service users or the staff game, which highlights the importance of ensuring all staff remember to manage their own hydration too when looking after everyone else!

"It is increasingly difficult for providers to release staff for training, but the game enables us to give targeted training at a time and location to suit them."

> Quality and Patient Safety Co-ordinator, Clinical Comissioning Group

WHAT ARE THE KEY MESSAGES?

- Dehydration has serious consequences
- Increasing fluid intake contributes to improved patient safety and staff well-being
- All health and social care staff are responsible for supporting patients, residents to be well hydrated (and themselves too!)
- Practical changes and creative solutions can be easily made in workplaces to improve

WHO SHOULD PLAY THE GAME?

Suitable for all frontline clinical and support staff in acute, residential and domiciliary health and social care settings, especially those working with the elderly.

WHAT WILL PLAYERS LEARN?

- To recognise dehydration, what is it and how does it happen?
- To identify when people may be at risk of becoming dehydrated
- To have the confidence and knowledge to know what and how to take action
- To understand the impact and consequences
- To encourage and support increased fluid intake
- To increase knowledge and confidence around hydration prevention
- To implement creative approaches to improving hydration

DEVELOPED IN PARTNERSHIP WITH:

NHS England for their Stop the Pressure initiative

 4-12 players • 45-60 minutes • No specialist facilitator required

W057254 £ 60.00 *

Dysphagia Game

WHAT IS THE AIM OF THE GAME?

To introduce key facts and practical advice to help health and social care professionals recognise and manage dysphagia safely and more effectively in line with current best practice guidelines. Includes training on the IDDSI (International Dysphagia Diet Standardisation Initiative) framework.

"Engaging busy and distracted frontline health and social care staff can be difficult. The Dysphagia Game helps us to deliver training to frontline staff in a way that is both effective and enjoyable."

Tim Jones, Senior Brand Manager at Nutricia

WHAT ARE THE KEY MESSAGES?

- Dysphagia can cause patients to aspirate food and liquid into the lungs
- Risks include malnutrition, dehydration, choking, infection, depression, aspiration pneumonia and death
- Knowledge and understanding of dysphagia management is essential to ensure patient safety
- Foods and liquids must be prepared properly (includes training on the IDDSI)

WHO SHOULD PLAY THE GAME?

Any member of health and social care staff working in acute, community or social care settings.

WHAT WILL PLAYERS LEARN?

- The prevalence, causes and impact of dysphagia
- The signs and symptoms of dysphagia
- How to reduce patient risk
- Strategies to improve care management and patient safety
- Includes hands-on activities to teach participants how to prepare food and liquids according to the IDDSI framework
- Strategies to improve care management and patient safety

DEVELOPED IN PARTNERSHIP WITH:

NHS England, Nutricia, The Association of UK Dieticians and the Royal College of Speech and Language Therapists.

- 2-12 players
- 45-60 minutes
- No specialist facilitator required

W057253 £ 80.00 *

...then re-use as a refresher, CPD activity and with new team members.

Stroke Game

WHAT IS THE AIM OF THE GAME?

To help frontline health and social care professionals understand how stroke patients are managed throughout the whole stroke pathway which they themselves are not directly involved in. Tests and builds knowledge to improve patient care and supports implemention of best practice standards.

Suitable for any staff working with stroke patients.

Objectives: Improved outcomes for stroke patients as a result of increased awareness. Staff understand how their role fits into the overall journey for a stroke patient.

WHAT ARE THE KEY MESSAGES?

- Increased staff knowledge will improve stroke patient care and improve patient safety
- It is beneficial for staff to understand the 4 key stroke journey stages: emergency, acute, rehabilitation and community
- Reflection, working together and sharing experiences improves care provision

WHO SHOULD PLAY THE GAME?

All clinical and support staff working with stroke patients in acute, social or community care settings. It is particularly useful when played with a multi disciplinary team who can share their experiences and knowledge from a different viewpoint.

WHAT WILL PLAYERS LEARN?

- Stroke prevention
- Emergency stroke treatment
- Acute care
- Rehabilitation
- Community care
- The multidisciplinary team (MDT) approach

DEVELOPED IN PARTNERSHIP WITH:

Chest, Heart & Stroke Scotland & NHS Lanarkshire

- 4-12 players
- 45-60 minutes
- No specialist facilitator required

W057257 £ 60.00*

Sleep Game

Developed by a health visitor and sleep specialist, this resource helps professionals improve their knowledge and confidence of healthy sleep behaviour and good sleep practices, which can then be passed on to parents and families for implementation at home. The resource can be used as a standalone learning activity, or as part of a wider sleep training workshop. Developed by a health visitor and sleep specialist.

"A fun way of learning new knowledge and skills for any professional working with children."

Ruth Silverman, RN, RM, RHV, BSc (Hons) Queens Nurse and Creator of The Sleep Game

WHAT ARE THE KEY MESSAGES?

- Getting a good night's sleep is vital to our health and wellbeing
- Poor sleep has negative effects on our emotional, physical and mental health, yet its importance is often overlooked
- For babies and children, getting a good night's sleep is essential it allows babies and children to grow and develop

WHO SHOULD PLAY THE GAME?

Suitable for all professionals working in health or educational settings with babies children and families such as health visitors, children and family centre staff, Children's and school nurses, student nurses and health visitors, nursery and early years staff, family support workers.

WHAT WILL PLAYERS LEARN?

- Why sleep is important
- Sleep patterns and stages of sleep
- Sleep recommendations

Highway to Health Game

WHAT IS THE AIM OF THE GAME?

This holistic educational resource aims to improve community health. It contains a wealth of information about mental health, physical health, food and nutrition and it is designed to increase knowledge and help children, adults and families make positive choices to improve their wellbeing.

WHAT ARE THE KEY MESSAGES?

- Making positive lifestyle and health choices is everyone's responsibility
- Learning facts regarding lifestyle choices can help everyone to make better decisions

WHO SHOULD PLAY THE GAME?

Everyone! It is suitable for children (age 5+) or adults and is a useful and engaging resource for clinical, health or educational professionals to use to teach or create interventions. Ideal for training activities and wellbeing events, or simply as a family activity to play at home.

WHAT WILL PLAYERS LEARN?

- Hundreds of facts about a healthy diet and nutrition
- The positive effects of vitamins/minerals
- The benefits of exercise
- How to managing stressful situations at school or at work
- The dangers of unhealthy lifestyle choices
- 5 Ways to Wellbeing: Connect, Be Active, Take Notice, Keep Learning, Give

Hanen Preschool Language and Literacy Calendar

Every year, The Hanen Centre® creates a new calendar full of research-based tips to help lay the foundations for school success. These are used by parents to support their young children at home while professionals use them simultaneously in their pre-school settings. This approach means that learning is structured and goal-orientated, with a seamless learning environment extended into every part of the day!

Each month highlights a key language and literacy-building strategy, including simple tips for how to apply the strategy to everyday routines and activities. The focus is always on creating powerful conversations, since we know this provides the best possible opportunities for children to learn, use language and to build early literacy skills. These are easy to follow, handy and cost-effective tools that really make a difference to language development!

It Takes Two To Talk®

This updated 5th edition guidebook is valuable for parents, SLT's and others who work with, or care for, young children with language delays. It shows via beautiful colour illustrations how to help children communicate and learn language throughout the day, at meal, bath and play times. Interventions are suitable for children still at the very earliest stages of communication as well as those who have begun to talk in short sentences. Includes easy-to-use checklists, practical guidelines for choosing communication goals and explains how to build a solid foundation for literacy. Supported by current research.

> This DVD is a very useful companion to the guidebook, demonstrating actual examples of how to use the It Takes Two to Talk strategies with children at each stage of communication development. It shows children having fun in everyday situations, while their parents purposefully use learned strategies to help them improve interaction, turn-taking and communication skills. 90mins.

Parent Workbook - A companion to the it Takes Two to Talk® Guidebook

How Does Your Parent Role Affect Your Child's Interact

Become a Hanen Member by visiting http://www.hanen.org/Programs/For-Parents.aspx and http://www.hanen.org/Programs/For-Educators.aspx

This easy-to-use interactive parent workbook is a member-only resource. It is designed for Hanen SLTs to combine Hanen strategies and Hanen's adult teaching structure into 1-1 parent intervention sessions, helping them to create personalised interventions for their child.

The workbook provides SLTs with trackable materials such as checklists, progress reports to give to the parents they are working with. It is a companion to the It Takes Two To Talk guidebook and intended for parents of children with intentional communication (i.e., Communicators, First Word Users and Combiners). To purchase this resource, simply provide us with your name. Hanen will then authorise us to release your workbook after confirming membership.

More than Words®

Children with Autism can find it difficult to interact meaninafully with others and the world around them. This programme is for parents of children under five who are on the spectrum. It helps them reach their potential by empowering their key supportive adults with knowledge and strategies to improve social communication, play and imitation skills. Everyday activities are opportunities to learn, communicate and develop skills! Evidencebased and incorporates current best practice. Requires dedication from parents, but is easy to understand and implement.

The DVD is an easy-to-use companion to the guidebook. Shows parents how to apply strategies to create structured, predictable environments where children learn to interact and develop conventional and spontaneous communication in everyday situations. Approx: 5 hours

Make Play R.O.C.K.™

Plan for People Play - Book

Book 1 focuses on learning how to create the best possible play situations, encourage participation, communication and develop social interaction skills in a purposeful supportive way - all based on current research on what helps children learn best. "People Games" rely on engagement with others instead of focusina

on toys and whilst playing, children learn the key social skills that create the foundations for building successful relationships with others.

W055711 £ 13.50

Take Out the Toys - Book

Book 2 focuses on "functional play" ability (early play involving conventional or expected actions using toys). These skills provide α foundation for the formulation of later skills so it is important to optimise these as early as possible. Play for children who have Autism or other developmental

challenges may not be as advanced as other children their age, but if these specific research-based techniques are used during everyday play activity, much can be done to build skill

W055712

NEW LOWER PRICE £ 13.50

Put Pretending into your Child's Play

Book 3 focuses on expanding pretend play skills during fun, everyday activities. Children with additional needs often find it difficult to pretend, a stage of development that lays the foundation for key social and learning skills. This resource provides

a context of how pretend play fosters language, social and emotional skills using research-based strategies. Identify each stage of pretend play, encourage imitation of new play actions, identify when to move to the next developmental stage and encourage use of new skills with a variety of toys, in different situations.

Course Beetle

Enrol in Hanen Workshops easily in the UK!

Winslow Resources met Course Beetle at NAPLIC a couple of years ago... and a gem of an idea formed. What if it was easier for UK SLTs and professionals to be Hanen trained? We introduced the idea to Hanen and Course Beetle and the rest is history! Course Beetle now act as UK hosts for a range of Hanen Workshops. Contact them on 01743 211346 or visit www.coursebeetle.co.uk to find out more. Training includes:

Learning Language and Loving It™

- An intensive 3-day workshop that develops the social, language and literacy skills of young children
- For SLTs and early childhood educational professionals who train and educate other professionals
- Certification means you can offer the evidence-based LLT programme to early childhood educators and pre-school teachers.

- A 3-day workshop providing a simple but powerful framework for coaching parents to play a primary role in their child's intervention – a framework that can be applied to a variety of clinical contexts including individual therapy and group training
- Completion certifies you to lead the ITTT programme for parents of children with language delays aged 5 and under

More than Words®

- A 3-day workshop for qualified SLTs offering a goal-based approach to family-centred early language intervention
- Certification enables you to offer the MTW programme to parents of young children who have social communication impairments including children with suspected or diagnosed ASD

Deliver evidence-based training to educators

You Make the Difference® Series

Parents of all young children will love this easy to read guidebook. It provides practical strategies for "tuning in" to a young child's communication ability and shows how to respond in ways to foster positive interactions and increase social, language and literacy development. Simple language and colourful, humorous illustrations make this resource particularly useful for parents who prefer simplified text or those whose first language is not English. Helps parents/carers enrich relationships with their child as well as build self-esteem and confidence as they learn evidence-based solid foundations for supporting their child's development.

The Hanen Centre®

The DVD is a great companion to the guidebook. It shows real mums and dads interacting and having fun with their children during everyday activities, whilst implementing "You Make the Difference" strategies to support language learning and development.

The New Reynell Developmental Language Scales (NRDLS) - 4th Edition RDIS icture Book 1 Manual

Picture Book 2

The most widely used assessment/diagnostic tool for identifying speech and language delays and impairments in very young children. It has been standardised on 1,200+ UK children. Content is in-line with the latest research and practice.

Essential information is provided about production and understanding of spoken language. It assesses communication skills on entry to nursery, identifying children who need immediate referral and support. Two scales are used:

Scale 1: Language production: explores understanding of vocabulary items and grammatical features

Scale 2: Comprehension: assesses the production of the same features of language

- Simple to administer with an easy to use, easel format
- Uses play-based activities and various stimulus material, featuring a Monkey, Teddy and Rabbit with full-colour illustrations
- An overview of language ability guides intervention and evaluates the effectiveness of interventions
- A multilingual toolkit, gives advice and guidance on adapting and use with ESOL pupils
- Admin time: 35-60 mins
- For 2-7yrs

W055654 Assessment Tool W056451 50 NRDS Record Forms £ 663.95 * £ 129.95 *

For SLTs only. To purchase these resources, please telephone our sales team who will request the name of the end user. There will be a short delay in processing whilst we check the SLT database to ensure that the person cited is qualified, or you can e-mail sales@winslowresources.com with proof of qualification.

Symbolic Play Test - 2nd Edition

Use structured observation of play to analyse the early skills required for language development. This tool provides an objective indication of a young child's level of early concept formation and symbolisation – abilities that precede and develop alongside expressive and receptive language.

Four object sets are presented in a specific order, in different situations, enabling facilitators to observe if a child relates to them appropriately. Items are purposefully chosen, lending themselves to a variety of interrelationships. The scoring system is based on the number of meaningful responses and connections they are able to make. Outcomes help plan future interventions.

Contents: manual, toys and 25 record forms. Admin time: 10-15 mins. For 1-3yrs.

Language for Thinking - Book

Help develop language from concrete to the abstract using 50 flexible picture and verbal scenarios. Question sheets are structured to develop inference, verbal reasoning and thinking skills. Three parallel assessments of spoken and written language assess starting levels and monitor progress. Score forms and worksheets for lessons are included - these are quick, practical and easy to use. Ideal for literacy, teaching or therapy 1-1 sessions or small groups. Photocopiable.

W056363 £ 43.95

British Picture Vocabulary Scale - (BPVS-3) - 3rd Edition

Speech & Language: Assessments

BPVS-3 is the leading assessment tool to assess the receptive vocabulary of children as young as 3, and up to 16 years old. It has a simple, appealing format with vivid full colour illustrations and black outlines to support those who may be colour blind. It identifies delays in vocabulary development, even before children are in full time education, informing intervention strategies to help extend vocabulary. It is suitable for non-readers and those with learning difficulties, Autism or CP etc. as no reading is required - responses can be given by pointing or gesture.

- Time efficient, can be used as a benchmarking and progress-checking assessment from pre-school to secondary school
- 1-1 session format the facilitator says a word and the pupil responds by selecting a picture from four options that best illustrate the word's meaning
- Carry-case
- Admin time: 10-15 mins
- For 3-16yrs
- For teachers, SENCOs and SLTs

Phonological Assessment Battery

PhAB: Developed by researchers and psychologists, led by University College London, this was created to identify children with significant phonological difficulties who need special help in processing sounds in spoken language. It can be used with bilingual or ESOL children and includes data on studies completed for those with dyslexia. Six standardised tests: Alliteration, Naming Speed, Rhyme, Spoonerisms, Fluency, Non-Word Reading. PhAB can

also be used to inform further teaching or intervention programmes to help with specific phonological difficulties. Covers 6-14yrs, but the newly updated primary edition makes this more suitable for 11-14yrs.

PhAB2: A comprehensive battery of tests to assess phonological awareness. An essential toolkit for SENCOs, specialist literacy teachers and educational psychologists it identifies phonological difficulties encountered in learning to read and enables appropriate intervention planning. It has appealing designs and illustrations and is an ideal followup assessment for those with low scores in phonics screening or literacy tests. Newly standardised (UK). Has the same tests as the PhAB with 4 extra: Blending, Phonological Working Memory, Phoneme Segmentation & Phoneme Deletion. Targeted testing for 5-6yrs and 7-11yrs, provides more sensitive tests and a greater understanding of strengths and weaknesses.

Who's Afraid of AAC? The UK Guide to Augmentative and Alternative Communication - Book

Complex Needs: Assessment & Intervention

The array of AAC symbols, signing systems, eye-gazes, apps and software is vast. This guide disseminates research evidence and translates recommendations into best practice providing a toolkit of ideas. It offers an overview of different communication types (no-tech, low-tech, light-tech, high-tech, alternative access and mounting), gives an analysis of best approaches and the tools needed to make informed, specific recommendations. Practical examples, templates and activities help implement AAC in all settings - with a baby, through school, further education and work settings, with consideration for changing circumstances with acquired conditions. Written by an SLT.

Alternative

W057195 £ 35.95

Augmentative & Alternative Communication Profile (AACP)

Assess the skills and communicative competence of AAC users, unspecific to disorder, severity or setting. This tool identifies areas of strength, where more input is required to develop long/ short term goals and monitors changing abilities to adapt interventions. Covers 4 skill areas:

- Operational: using the system, accessing and transmitting information (Orientation/Awareness, Manipulation, Focused Use, Navigation, Programming & Use)
- Linguistic: receptive/expressive language, knowledge/use of language code, ability to use both in conversation (Awareness, Using Specific Meanings, Combining Words, Using Syntax & Morphology & Refined Language)

• Strategic: knowledge of what can be communicated, how, and developing compensatory strategies (Pre-Intentional/Reflexive, Intentional, Programmed Message Use, Appropriate Message Selection, Use & Strategic Mastery) Includes: manual and 15 profile forms. For 2yrs-adult.

W056671 £ 75.00 *

The Source® for Augmentative Alternative Communication

This resource provides functional, useable facts and suggestions on AAC assessment and intervention procedures. It covers: the main issues facing clients; supporting new communicators as well as those have a system; key components of assessment; contributing to MDT; assessment reporting; working with agencies, family and school staff; handling funding, transport and behavioural issues; strategies for those with severe developmental delays, motor difficulties, Autism, mild motor involvement and acquired speech impairment. For 3yrs - adult.

W050976

£ 47.95

Early Functional Communication Profile Set (EFCP)

This assessment measures subtle, functional changes in non-verbal communication skills for children with severe/ moderate disabilities. It sets a baseline for intervention and monitoring progress. A hierarchy of prompts highlight the level of skills that can be performed. Responses are classified by: developmental level—skills (easiest to hardest); level of environmental prompt (tester or test items are positioned to the front, side or back of the child), with gestural prompts (passing object, pointing) or verbal cues, ("your turn", asking questions). Includes the level of physical or visual prompts, e.g. hand-over-hand, patting the chest or arm, waiting with hand reaching out, waiting expectantly, etc.

Subtests: Joint Attention-Requesting Objects/Receptive Language, Social Interaction-Turntaking, Communicative Intents—Requesting Continuation of Actions/Requesting Assistance/ Protesting, Social Interaction—Response to Greetings. Admin time: 30-45mins. For 2-10yrs.

Communication Assessment Profile (CASP) - 3rd Edition

This is the only UK standardised tool to assess the communication abilities of adults with severe to mild learning disabilities. It can also be used with children and young people with ASD and those with neurological disabilities as an outcome measure, to ascertain if communication skills have improved over time or as a research tool. It is comprehensive, using photos of functional and adultorientated objects and was designed as a three part multi-disciplinary assessment:

- The environment questionnaire ascertains the opportunities available for daily communication (complete with carer/keyworker)
- A photographic manual has subsections on hearing/auditory skills, understanding and using communication (complete with SLT)
- A record of strengths, percentile rank chart, communication environment rating scale all outline priorities for change (agreed by individual, SLT & carer/keyworker)

The National Institute for Adult Continuing Education (UK) recommends CASP as an appropriate assessment for adults with LD. Although not designed for people with Dementia, numerous SLTs report sections 3 and 7 are very useful for assessing vocabulary and communicative function and a small number of individuals participating in clinical trials had age-associated cognitive impairment. Revised 2017.

Language Activity Resource Kit (LARK-2) - 2nd Edition

A huge SLT toolkit to support adults who have moderate to severe language disorders. Ideal for therapy focused on addressing right hemisphere dysfunction and in speech production tasks aimed at improving intelligibility. Objects, tasks and materials are associated with specific actions and therefore help treat Aphasia and other neurological language deficiencies. Versatile materials enable therapists to use different approaches, methods and techniques. Includes: 25 manipulative objects (2 of each), 200 printed cards (action photos, phrase closure, questions), Workbook with activity/exercise sheets for hospital, clinic or rehab use and suggestions of how to integrate LARK in therapy. By purchasing this resource, you affirm you are a registered healthcare professional appropriately trained to carry out this intervention.

The Source® for Safety Cognitive Retraining for Independent Living - Book

Assess and provide interventions focused on patient safety from a cognitive perspective. Aids care-planning for adults in acute, rehab and long-term care settings, and addresses safety concerns at hospital, home or in the community.

The topics include: Room/Bedroom and Bathroom; Wheelchairs & Assistive Devices; Swallowing & Diet, Medications & Health, Floors & Stairs, Kitchen & Appliances, Home Safety, Community–Outside/Inside and General Precautions.

Clients consider challenging real-life situations, respond to questions, discuss situations and rehearse responses - all activities that stimulate convergent, divergent and evaluative thinking. Activities have two/three difficulty levels. Photocopiable evaluation forms are easy to administer, score and interpret. The results help describe and quantify a patient's cognitive awareness, problem-solving abilities and help with goal-setting, interventions and decision-making on discharge. Written by an OT/SLP team.

W056979 £ 47.95

The Brainwave-R Series: Cognitive Strategies and Techniques for Brain Injury Rehabilitation Complete Kit

Neuro: Planning Interventions

Huge, comprehensive, pen/paper based brain injury rehabilitation programme with five heirarchically graded modules: Attention, Visual Processing, Memory, Information Processing and Executive Functions. Each uses cognitive strategies and techniques with up to four weeks of interventions and 223 different exercises to optimise skills. Includes five large, comprehensive therapist and client workbooks, a user's guide and introduction to brain injury providing an overview of what it is, common terms and useful information about the practicalities of daily living - driving, alcohol consumption, sex, adjustment and common problems experienced post-trauma. Includes rating scales, clinical guidelines, family involvement suggestions, performance summary charts and more. Unlimited copies can be made of workbooks for clinical purposes. Appropriate for moderate or mild disabilities but can be adapted for use with those who have more complex needs.

W057014 £ 319.95

Brain Injury Workbook - 2nd Edition

£ 45.95

Rich, comprehensive and photocopiable workbook for professionals, carers and clients. 140 cognitive rehabilitation exercises tailored for memory, thinking skills, executive functions, awareness and insight and emotional adjustment. 40 information sheets on key problem areas, with questions for the reader are designed to educate, stimulate thinking and prompt discussion. Questionnaires can be completed by clients with or without help and quizzes evaluate and encourage information retention. For individuals or groups.

Stroke Touchpoint Cards

Objectives

Stroke patients feel more comfortable discussing their health & emotions. Difficult issues are not omitted from conversations simply because they are hard to talk about.

Talking about the health and emotional issues people face after a stroke can be difficult. Stroke Touchpoint Cards are designed to facilitate person-centred conversations between patients and healthcare professionals. The patient and the staff member both choose cards that represent issues they wish to discuss. These cards give 'permission' for those difficult issues to be discussed when they might otherwise be avoided. They help to make appointments more effective for both patient and healthcare professional. The cards help focus on the following broad issues:

Health
 Effects of Stroke
 Feelings
 Daily Living
 Suitable for healthcare professionals working with stroke patients; the cards

Suitable for healthcare professionals working with stroke patients; the cards can also be used to inform family members. 1-1 activity session requires a professional with knowledge of stroke aftercare. 20-30 mins.

W057258 £ 10.95

WALC™ Complete Set: 12 books

A complete set of the popular WALC[™] resources. The Source® for Apraxia Therapy

Help clients with acquired apraxia of speech, dysarthria, dysfluency and pronunciation difficulties regain their communication skills. Choose monosyllabic or paragraph length material from 3 Sections: Phonemic Groups - bilabials,

labio-dentals, lingua-dentals, lingua-alveolars, glottals, lingua-velars, lingua-palatals, blends, vowels. Articulation/ Fluency/Phrasing - multi-syllabic words, conversational sentences, paragraphs, similar word pairs, etc. Paralinguistic Drill - vary pitch, emphasise target words, convey emotions. Format: clinician reading/client imitating, client reading/client looking at word, clinician modelling/client imitating.

W052109 £ 47.95

The Source® for Aphasia Therapy - Book

Valuable therapeutic interventions for adults with aphasia. Three sections cover Receptive Language (imitating gestures to understanding complex paragraphs), Reading Comprehension (improving in

an continuum from letter matching to paragraph comprehension) and Expressive Language (tasks range from automatic utterances to conversational speech). Each has 41 functional activities arranged in hierarchy of difficulty with goals, clinician task instructions, grading strategies and adjusting for person-centred care.

W054076 £ 47.95

Brainstorming Solutions for Dementia Care - Game

This is an amazing board game for all care-giving individuals who support people with Dementia, but particularly useful for staff working in care, residential and community homes, hospitals and services. Participants will improve their knowledge about Dementia and develop effective ways to manage difficult situations faced by those living with Dementia, their families and supporting healthcare professionals.

Players select cards from five topics: Fact, Challenge, Activity, Wild, and Crisis which focus discussion on realistic scenarios, brainstorming crisis management solutions and formulating person-centred care interventions.

Includes laminated 60cm² board, instructions, 120 game cards, dice, timer and butterfly counters. US resource, but content is generic and culturally transferable - any differences are easily adaptable (e.g. president to Prime Minister). We have been advised by a UK clinician that it contributes to satisfying level 1 and 2 (Awareness/Basic Skills) of the National Dementia Standards Framework without having to organise training events – just get the game out and play!

W057200 £ 79.95 *

The Source® for Dysarthria - Book & CD

Outlines the interrelationships among respiration, phonation, resonance, articulation and prosody; the possible causes for observed symptoms; long-term goals of intelligibility, comprehensibility, efficiency and naturalness. It also explores the intricacies of dysarthria evaluation with guidelines for differential diagnoses covering: possible medical diagnoses; associated neurological symptoms/ reflexes; typical patient complaints; distinguish particular types of dysarthria; oral-motor exercises (what they do/don't do for improved speech intelligibility); instrumentation; measuring outcomes of intelligibility, comprehensibility/efficiency;

treatment activities for comprehensibility/efficiency; coding and billing for treatment; dysarthria in children. Includes: evaluation forms for adults/children, informal evaluation forms for respiration, phonation, resonance, articulation and prosody; case history form; 80 pages of word/sentence lists, reading passages, exercises and activities to develop respiration, phonation, resonance, articulation; prosody educational handouts; activities for improving intelligibility/comprehensibility. Birth-Adult.

Semantic Workbooks - Set of 6

Based on the cognitive neuropsychological model of language processing and designed for therapists working with Aphasic clients. The 6 workbooks cover specific aspects of semantics: Odd One Out; Semantic Circles; Semantic Verb Circles; Verbs; Spoken Word to Picture Matching; Word Association. These are high quality resources for daily use, filled with clear, captivating illustrations and interesting exercises graded in order of difficulty and presented in different formats, e.g. pictures only, written word only and pictures with words.

W051800 £ 99.95

Semantic and Naming Therapy – Book & CD

Evidence-based interventions to enhance naming and word-finding abilities for aphasic clients. Covers not just what to do, but why and how. Tasks strengthen links between the semantic system and the phonological output lexicon. Many task items are controlled for word frequency, image ability and length. Gives theoretical descriptions of how each task might be influencing the language processing system; detailed instructions about tasks and how to teach-on-error; structure for monitoring progress and moving clients to higher or lower treatment levels; and a means through which rate of presentation can be controlled and manipulated. Includes manual and CD with worksheets and computerised naming, oral reading and repetition to reinforce learning.

W055688 £ 46.95

The Brain Game: The Vocabulary and Word-Finding Game

This game is a fun way for children and adults of all abilities to improve their vocabulary and word-finding skills. It targets skills to help store and retrieve words more easily, based on the model of word finding. Challenges consist of sorting, identification and generation tasks covering Category, Function, Location, Attributes, Sorting, Identification and Generation relating to 12 categories: Clothes, Sports, Body Parts, Vehicles, Animals, Food, Furniture, Drinks, Toys, Jobs, Weather and Buildings. Use this as an informal assessment tool to identify if word-finding difficulties are present (and possible intervention areas), or as part of a therapy programme. Contents: game board, 3 challenge card sets, spinner, timer, counters and die. For 3yrs+, small parts - supervise use.

W055575 £ 46.95 *

Building Language: Word Meanings - Book

An accessible, clear and theoretically rigorous manual containing a large variety of therapeutic exercises for building understanding and recall of words by strengthening semantic processing. It contains 200+ pages of photocopiable worksheets for: picture meanings (odd picture out selection); spoken word - picture links (spoken word to picture matching); written word - picture links (written word to picture matching), words in groups (word decision between and in category).

W051212 £ 69.95

Building Language: Word Sounds - Book

Targets facilitation, strengthening and development of recognition and production of phonemes and graphemes in single words. Four major sections cover key learning strategies (e.g., lip shape cues) provided in the structure of the exercises: Hear the difference (recognising the difference between speech sounds); The shape of words (recognising the sound and shape of written words); Sounds & letters (matching sounds and their letters/strengthening phoneme grapheme correspondence); Spell the rhyme (recognising spelling and rhyming patterns). 200+ pages.

Frenchay Eye Transfer Frames & Eye-Com™ Boards

Communication & Choice

These low-tech, practical and effective tools aid those with communication difficulties but who have enough cognitive ability, controlled eye movements and basic spelling skills to indicate meaning, answers and intent. A conversation partner sits opposite and understands what is to be conveyed by following eye movements. Widely used on stroke wards, brain injury units etc and aids assessment of cognitive functioning. Both resources have a window so the sender and receiver can maintain direct eye contact and provides a "home" position for the sender to look to indicate he/she is either ready to begin or end a sentence which is very important during the communication process.

- The Frenchay Eye-Transfer Frame: The alphabet is grouped into corners. Each letter has a different colour and discs of these six colours are arranged around a central window. The user spells words to communicate with their partner. Includes polypropelene frame & A4 instructions in a wallet.
- Eye-Com™ Board: A clear acrylic board with a sturdy wooden base. Personalise by attaching images, illustrations, drawings, photos or letters/numbers etc directly onto the board. The non-speaking person indicates what they wish to say by looking towards specific pictures, photographs, words or letters mounted on the board.
- Eye-Com™ Transparent Overlays: These can be prepared before interventions and facilitate quick content changes, aiding communication flow and varying conversation topics. They enabling use of an infinite number of personalised card/image/text/language options to support activities, make choices and convey need, e.g. themed to activities such as washing/dressing to indicate choice of clothes, colours, etc. By having different overlays for each patient one tool can be personalised for many different clients/patients.

Designed for children who require structured, detailed repetition to master higher-level language comprehension skills with pictures to help visual learners. Includes: finding the main idea; separating story details; grasping subtle information; predicting outcomes; cause and effect; forming conclusions; explaining reasons why, etc. For 6-10yrs.

W053797 £ 26.95

Mastering Basic Concepts and Specific Words - Book

Help children understand the meaning of basic concepts and specific words. Unless these are fully understood they cannot be transferred to another context - e.g. a table might be identified as being the longest because it has been referred to repeatedly in that manner, but children may not be able to identify the "longest" pencil, shelf etc as the underpinning meaning hasn't been comprehended. 4 levels of difficulty. For 4-7yrs.

W056747 £ 26.95

Building Auditory Direction Skills - Book

Strengthen comprehension of auditory attention, improve auditory comprehension and enhance ability to follow auditory directions exactly and fully. Directions are presented in five different formats to help increase auditory attention. For: 3-7yrs.

W056750 £ 26.95

ColorCards®: Expressive Verbs & Familiar Verbs

Familiar Verbs - Images of frequently used and easily recognised verbs. Associated objects are in the pictures to give an idea of place and encourage expressive language. Actions shown include empty (bucket), pour (drink), spill (soup) etc.

Expressive Verbs - Images show verbs of varying frequency and syntactical complexity with the context of personal actions. Used for developing an understanding and use of gestural semantics, promote augmentative communication and consider social and cultural appropriateness and diversity. Includes: Fingers (tap, crossed fingers, thumbs up); Hand (shake hands, clap, stop); Body (hug, cuddle, shruq); Legs (tiptoe, stamp) etc.

Language Builder Block Activity Set: 40 Blocks & 120 Cards

Use the 40 colourful building blocks to build 3D structures in conjunction with a free app, bringing this activity to life! 100 picture cards show structures comprising of 1-40 blocks (for different abilities) and 20 "Pretend Play" picture cards depict fun structures made to look like other things (animals, food etc). The accompanying App was designed by professionals from the Harvard Graduate School of Education and offers hundreds of structures with a child-friendly timer for monitoring and improving skills.

New structures can be created and added to tailor sessions to individual needs. It has built-in multi-user reporting, regular new block designs are sent out and users can access a community for sharing ideas. Works on iPhone and iPad. Received the prestigious Mom's Choice Award.

W056950 £ 64.95 *

Teach Yourself Match-up: Verbs - 216 Cards

108 card pairs show photos of familiar action verbs and their associated describing words. An easy self-correcting colour pattern system on card edges enables answer self-checking. Targets recognition of actions and association with corresponding words and their spelling. This large set facilitates many language activities, e.g. improving vocabulary, verbal comprehension, constructing sentences, logical reasoning, visual and auditory memory, relating verbs with actions, pictures to

much more! Also improves fine motor skills via handling the cards. For 5yrs+. Robust card with plastic coating. $\mathbf{W057236}$ $\mathbf{£ 28.95}$ *

words, reading, writing and speaking activities, developing observational skills and

Whoosh® The Action Verb Game

A unique verb game with 2,880 sentences targeting singular and plural forms of 40 regular and 80 irregular verbs in six verb tenses: Present (Today, Lindsay dives into the swimming pool); Past (Yesterday, Lindsay dove into the swimming pool); Future (Tomorrow, Lindsay will dive into the swimming pool); Present Progressive (Now, Matt and Ben are drying the dishes); Past Progressive (Last night, Matt and Ben were drying the dishes); Past Perfect (Matt and Ben have dried the dishes). Children take turns reading sentences and filling in correct verb forms. When activities are complete, they spin the spinner and collect the shown number of tokens. The player with the most, wins. Contents: game board with spinner, answer book, 240 verb cards. 1-6 players.

W057229 £ 46.95*

Language Builder: Sequencing Cards - 116 Cards

This photographic flash card pack was designed for use by parents, professionals and teachers to teach key language and critical thinking concepts to pre-school learners, children and adults with Autism, speech and language disorders, developmental delays or those relearning skills. Content focuses on developing sequencing skills, with a structured increase in complexity of carrying out everyday activities. Includes: 2 Three-card; 5 four

card; 4 Five card; 6 Six Card; 1 Seven, Eight, Nine and Ten card sequences. Useful for understanding what happens next, storytelling, understanding verb tenses or as prompts for the self for doing daily activities in order. Size: 12x9cm approx.

W056941 £ 45.95 *

ColorCards[®]: Sequencing Packs - 48 Cards

Simple Sequences: Shows a range of familiar daily activities. Includes twelve 2-step sequences to establish the concept of actions in an activity taking place in a logical order and eight 3-step sequences to further

develop these skills. Includes: cleaning teeth; turning on a lamp; riding a bike; decorating a cake.

Basic Sequences:

18 three-step sequences. All situations depicted offer familiar and interesting situations which are designed to establish an understanding of order and direction, logical thought and expressive language skills.

4 Step Sequences:

12 four-step sequences of everyday domestic scenes. Designed to contain easyto-understand concepts and high frequency vocabulary. Includes: jigsaw puzzle; washing dishes; broken vase; making a book case; ill in bed; grandfather's birthday;

feeding the cat; time to get up; ready for a walk; family meal; fancy dress; chocolate pudding.

Safety - contains magnets & small parts, supervise use.

W057225 £ 59.95 *

ColorCards[®]: Prepositions - 2nd Edition - 48 Cards

These 48 A5 colour flashcards are arranged in eight sets of six, with each focusing on a specific preposition, visually illustrating awareness of space, position and movement in familiar settings with everyday objects. This resource can be used for different learning or therapeutic goals, e.g. to support prelanguage concepts, developing comprehension, expression and use of verbs etc. Useful for group or 1-1 activities.

W056816 £ 28.95 *

Understanding Left and Right Game

This activity introduces the concepts of left and right by showing a person seen from the front and from behind by having a range of different object cards that can be located on both sides of the character. Increases awareness of body positions (front/back), the existence of the midline, recognition of left/right in another person (e.g. my right coincides with your left when we are facing each other). Useful for groups of 1-4, under supervision of an adult or teacher, or independently with simple instructions. Contents: 4 bracelets, 24 pattern cards (11.5x8cm), 1 silhouetted card (22.5x12), 6 different sizes (11x10.5), 2 wooden bases (22.5x3x2). For 3yrs+ (section 1 of the activities) and 4yrs+ (2nd and 3rd sections).

£ 19.95 * W057233

ColorCards[®]: Time Sequencing – 36 Cards and CD

Unique resource for orientation, recognising and understanding the passing of time and seasonal changes. Cards vary in complexity and include "Times of the day", "Seasons", "Ageing", "Moon phases", "Plant life cycle", "Frog life cycle". Includes activity ideas booklet and a CD of worksheets.

W055684 £ 38.95 *

Understanding and Explaining Time in Sequential Stories - Book

These activities help present the concept of time, which can be difficult to grasp. Illustrative stories show participants choosing their favoured methods to record time (clocks, daily schedules, chart or calender) during the activity. Questions are then asked to assess learning. It covers how much time it takes to do things, long and short periods of time, passing of time and understanding that events have a specific order and must be recalled in this order to be accurate reflections of the event. Understanding time helps comprehension of daily routines, schedules and planning activities. Photocopiable. For 7-10yrs. W056743 £ 26.95

Teaching the Language of Time - Book

Help children fully understand and interpret the complex aspects of time. Different photocopiable activities are presented covering sequencing of events and experiences, time factors that influence events, time measurement, cycles, schedules, past/present, speed as well as personal time, age, timeline of one's life etc. Used by US professionals for over 20 years and easily adaptable.

W056856

Teach Yourself Match-up: Before and After - 70 Cards

£ 26.95

60 cards, plus 3 large triplicate master cards teach concepts of before and after, via a series of photos on white backgrounds. 30 before, during and after sets prompt discussion and learning about the logical and sequential association and functional relationships that unite them as well as spatial-temporal reasoning. Suggested for 3-8 years, but the images are suitable for use with adults developing or re-learning language. An easy colour pattern matching self-correcting system enables independant answer checking. Downloadable material is available - these can also be used for a range of additional language activities. Robust card.

W057235 £ 19.95 *

Sand Timers

These brightly coloured sand timers are perfect for timing all sorts of educational or therapeutic activities or to prompt discussion about time. Plastic moulded end caps and thick wall surrounds. Each time is identified by a specific colour. 16x7cm

Black/White Board Sand Tray

Practice fine motor control, mark-making and use for multi sensory interventions and imaginative play! This sand tray set has a simple, clever design with an upright blackboard (whiteboard to the reverse) that can be positioned in two places. A red base makes shapes in the sand easy to see. Includes sand, whiteboard marker, eraser, chalk, sand smoother. Size: 30x23x4cm. For 3yrs+, small parts, supervise use.

W057094 £ 23.95 *

Letter Formation App

Its easy to order! Provide an e-mail address and a usemanne and password will be sent to you.

Learning to form lowercase letters consistently and accurately is an important step to developing fluent cursive handwriting. This fun and innovative app is a super way to help children develop these skills. Choose a letter, hear its sound, watch a little creature draw it in the sand and also hear the letter name. Now try to draw the letter in its track, watching your trail form as you do so. Choose a new letter or select the tide to come in and sweep your attempt away and try again.

Make it tactile! Use with our sand tray (on previous page), or the Feels-Write Lowercase Letter Stones (available online)

Teacher options provide the facility to select what the user hears and what letters they can access for more focused work. Apps are available on iPad, tablet, and whiteboard, allowing for individual and group use.

Age: 3yrs+. Created by an OT.

W054058 £ 22.75 *

Tactile Letters – Set of 26

Practice letter recognition and formation by tracing the tactile path, starting at the dot and following the arrows. Trace the wrong way and the rough texture provides sensory input for self-checking. These terrific, sturdy plastic letters can also be used in messy play. Vowels and consonants are a different colour. For 3yrs+. Size: largest letter 10x7cm

W055722 £ 9.95 *

The Early Handwriting Toolkit: Activities for Developing Motor & Perceptual Skills - Book

This easy to follow work book ensures children master all of the stroke and perceptual skills needed for writing. Each session consists of 35 minute activities. Addresses body stability, fine motor control, hand control, sitting posture, paper position, sensory-motor control and pencil grips. Perfect for supporting children needing extra writing practice who may be reversing letters, holding pencils awkwardly, experiencing pain or refusing to write. Includes assessments (self-rating, adult-rating, 26 worksheets). For 4-7yrs.

W056758 £ 30.95

Supporting Pencil Grasp Development: Activities and Worksheets to Help Children Develop a Functional Pencil Grasp - Book

A super range of activities and worksheets to help children develop a functional pencil grasp. These can be used with individuals, small groups or with a whole class. 400 pencil control development worksheets are provided at different difficulty levels with clear descriptions supported by pictures and specific targets for different age groups.

Includes fine motor activities designed to help with finger isolation and control required to develop a functional pencil grasp and exercises to improve pencil grasp in as little as 5 minutes a day. Ideal for young children (3½ yrs) learning to hold a pencil and develop pencil grasp and control or children aged 4-8 years who have an awkward or immature pencil grasp or poor pencil control.

Downloadable worksheets, evaluation and record keeping forms, videos showing grasp development and warm-up song "Crocodile Snap". For therapist and parents. Written by an OT.

My main motivation for writing the book was to try to help more children. Over the last ten years I have seen cuts to the services that NHS occupational therapists area able to provide. I have also completed many school visits to see one child but noticed that two or three others in the classroom could also benefit from an occupational therapy support. My hope is that through the book I can share my knowledge with as many teachers and parents as possible, thereby, enabling them to support the most children as possible.

W057212 £ 13.95

Ark's Butter Grip Writing Aid - Set of 2

These tools have been designed to promote good finger positioning during writing and drawing activities. A correct grip encourages fine motor development and improves handwriting legibility, whilst the spherical shape is a tactile cue for fingers to grasp, hugging the grip and fingertips rest below on the pencil.

In this position, the web space is opened up, providing support to finger muscles, helping decrease hyperextension. For left or right handed use with standard pencils pencil crayons and pens. For 3yrs+, small parts. Supervise use. 2.5cm DIA.

W056620 £ 8.45 * VAT Relief

I Hate to Write! - Book

obstacles that can be encountered with a matching range of strategies to support this difficulty – e.g. language, organisation, sensory and motor skills. There can be many barriers to writing from knowing what to write, choosing topics, getting "stuck" or frustrated when writing, refusing to write or writing legibly, understanding

or hearing directions, spelling words and organising them, and much more. Contains worksheets, research and activities. Written by an SLT and an OT.

W057213 £ 26.95

The Heavyweight Pencil & Pen

Ideal for individuals with Tremors, Arthritis, Carpal Tunnel, Parkinson's, lack of hand strength or have other fine motor difficulties. It reduces tremors and fatigue, improves handwriting legibility and increases muscle strength. Two features are combined; added weight and a patented ergonomic grip which positions fingers in the correct ergonomic position, reducing stress on the fingers and helping the hand relax as it writes. The

weight encourages support from larger arm muscles while reducing the burden on smaller, more sensitive hand muscles. The weight helps the pen effortlessly rest in the hand meaning there's no need to provide downward pressure to write.

- Developed by doctors
- For Adults and Children, Righties and Lefties
- Weighs approx 113g
- Pen takes a Schmidt Parker ink cartridge

Talkabout Relationships - Book

An illustrated, practical resource designed for teachers or therapists to develop self-esteem and relationship skills in group settings in a structured

Suitable for young adults and adults with LD or those presenting with social skills difficulties. Uses current literature and research.

W052828

Traffic Life Game

People with learning disabilities are often denied the opportunity to discuss relationships because it's assumed that they won't understand. This means they cannot learn about the grey areas in relationships or how to recognise potentially risky situations and keep themselves safe. This game enables health & social care professionals to discuss these sensitive issues with learning disabled adults. It offers the players a safe environment to talk about these important issues and encourages them to support each other.

The game uses a traffic light risk assessment system to help players understand how they should respond in certain situations. The original game was developed by the Lead Clinical Psychologist at Birmingham Community Healthcare NHS Trust to help staff manage these discussions and make the discussions more meaningful for the players.

What to do about Smearing: A Practical Guide for Parents and Caregivers of People with Autism, Developmental and Intellectual Disabilities - Book

With down-to-earth advice and tried-and-tested strategies, this guide addresses the often embarrassing issue of faecal smearing among children and adults in a positive way. Helpful picture narratives are included as well as examples of diary sheets for behaviour analysis and practical exercises that can be carried out at home. The book explains what to do if a person ingests and how to deal with persistent or recurring smearing. It covers what smearing is, the causes, how to manage it, eating faeces and recurrence of smearing and/or ingesting faeces, enabling the reader to understand and carry out appropriate, effective preventative interventions with confidence. Contributors include families, school staff and social workers. Written by a UK parent of children with Autism (one with developmental delays and intellectual disabilities) who was an NHS professional for 18 years.

W057211 £ 10.95

SmiLE Therapy: Functional Communication and Social Skills for Deaf Students and Students with Special Needs - Book

SmILE is designed to equip young people who have communication difficulties with the skills to independently and confidently interact in everyday mainstream community settings. Eight modules build a repertoire of strategies to cope with different

face-to-face social situations. These include: entering and leaving, (e.g. shop, office), requesting information or objects, what to do when things don't go to plan (e.g. given an incorrect item), clarifying/checking information, using different communication techniques and ways to manage environmental obstacles or barriers (e.g. poor lighting, noise etc). SmILE is a proven programme with clear outcome measures to share with parents, staff, education and health managers. A step-by-step guide explains how to prepare, deliver and evaluate sessions, with photocopiable resources. Case studies are provided for use in mainstream primary/secondary schools or college Special Needs departments. Ideal for educators and therapists or similar support staff.

W057194 £ 41.99

Getting the Picture - Book

A valuable visual learning and comprehension aid for people who find social situations challenging. This fully photocopiable resource has been specifically designed to improve inference, narrative and sequencing skills, correctly interpreting and responding behaviour. Packed full of thought provoking illustrations showing different people in different places accompanied by a series of questions designed to encourage prediction and inference skills. Participants are asked to consider everything from who the person in the picture is, what they might be doing, where they might be going, how they may be feeling and why.

Questions can be completed individually or brainstormed as a group, and there are three types of illustration to work with, single person, picture sequence or large scenes containing several interactions. The final section teaches sequencing skills by providing muddled picture narratives that need to be ordered. Useful tool for SLT's, OT's, teaching staff, parents and anybody else looking to help people to understand and connect with the world around them.

Functional Conversation Games - Book

Improve conversational flow! These games replicate natural conversational interactions. Participants have choice and freedom to select topics, create responses, determine the order of turns and the amount of time for each topic. Improves vocabulary, grammar, critical thinking and reasoning with social awareness, listener perspective and non-verbal language. Useful for people with expressive language and/or pragmatic (social) deficits, high-functioning autism (including Asperger's), behaviour difficulties requiring improved social skills, mild developmental delays and neurological impairment

£ 45.95

My New School: A Workbook to Help Students Transition to a New School - Book

Transition & Emotion

Preparing individuals for upcoming events is an effective way to plan successful transitions. This self-help resource guides a young person (with a supportive adult) to prepare for a changing event, such as moving school. It is focused and practical – helping to identify and address worries and concerns, learn new skills, make plans and carry them out. It incorporates best practice and practical solutions while addressing specific school-based issues such as schedules, lockers, lunchtimes

and friendships to build confidence and self-manage. Useful for parents or professionals. Written by a special education teacher with several years of working with children who have ASD.

"Wow, what a great workbook!! Melissa's experience of working with children on the autism spectrum disorders and transitions is written on every page...literally!! What a wonderful way to work through the difficult process of changing schools with our students! Very well organized, easy and fun for the student and teacher to follow."

Teri McGill, regional co-ordinator, Nebraska ASD Network.

Verbal Reasoning Activities - Book

Verbal Reasoning Activities

This valuable workbook provides numerous visual clues to assist children in expressing verbal reasoning. Seven types of questions are presented: What would happen if?; What happens when?; What would happen?; Why is this happening?; Why is this true?; Why or why not?; Why do you think?

W052359 £ 26.85

Fun Deck®: What Would You Do At School If ... - 56 Cards

Teach children to make good decisions and choices in and around school. Children learn how to solve problems, understand cause/effect relationships and practice good social skills. What would you do if... vou needed to go to the bathroom during a test? You missed the school bus because you were late to the bus stop? Game ideas are included.

W054948 £ 12.75 *

Problem Solving Activities - Book

A fun approach to teaching problemsolving which goes beyond just finding a solution to a problem. All the activities concentrate on the possible long-term outcomes that would result if a certain solution is chosen. This is a great resource to get children to think about predicting outcomes as well as an interestina expressive language activity. For 5-9yrs.

W051933 £ 29.95

ColorCards®: Cause & Effect - 48 Cards

These 2-step sequenced pairs illustrate how 'one thing leads to another'. Cards depict a variety of cause and effect situations with outcomes that are immediate, those that happen over time situations that are welcome or unwelcome, positive or negative events and more! A specific

situation is shown on the first card - the participant then predicts the possible outcome that may or may not be shown on the second card. Topics include: the boy plays with the ball indoors ...and knocks the flowers down; the girl leaves the bath water running ...and it overflows; the boy eats a lot of chocolate ...and feels ill etc. Helps develop logical, critical thinking, verbal reasoning and questioning skills.

W051235 £ 28.95 *

ColorCards[®]: Problem Solving - 48 Cards

Illustrates everyday problems and 2 ways of solving them. 3 cards in each sequence show: a problem; a possible solution; an alternative way to deal with it. Examples: man cannot sleep - has a hot drink/reads a book; car broken

down - tries to repair it/asks where to get help. The set visually demonstrates a logical approach to problems, shows how problems can influence later events, shows how solutions may not please everyone, illustrates how feelings influence choices we make. For clinic or classroom use.

W051932 £ 28.95 *

321

ColorCards®: Decisions & Personal Safety

These large-format cards show unpredictable major and minor everyday situations, objects and activities encountered that are, or could become dangerous if risks are not understood or considered. Some situations will be familiar and others present new challenges.

Thinking through these helps children to make responsible choices, develop independent thought, keep safe, understand differences between minor difficulties and emergencies, recognise when there is danger or potential danger, ask for help, take the initiative, walk away, find a balance between acting quickly and considering all aspects of situations, understand possible consequences and explore what might happen next. Ideal for creative role-play, story-telling or writing activities for group, classroom or 1-1 sessions. For all ages.

- Decisions: Events vary from minor problems upsetting daily routine (missing a bus), to major predicaments (finding a pan on fire in the kitchen)
- Decisions (Outdoor): bee swarm, pylon, mines, construction sites, using ladders, ice, fireworks etc.
- Decisions (Indoor): candles lit near curtains; owning large dog; sharp knives left on a counter etc.

Age appropriate for adolescents or adults. Wipe clean. Size approx: 10.5x14.5cm.

W056818 Draw on Your Emotions Workbook - 2nd Edition
W056924 Draw on your Relationships Workbook - 2nd Edition

£ 43.95 £ 43.95 The Blobs were created to enable and empower those who struggle with words, but want to share how they feel. They are clear and simple black and white line illustrations with no words, based on feelings and body language. These visual tools can be used to prompt discussion or simply pointed at to convey that these have struck a chord. Different from other emotional literacy tools, Blobs are neither male nor female, young nor old and devoid of culture. They don't guide on what should, shouldn't or ought to be done, or depict a problem to be solved or a message to be agreed, they just show how people may feel. Blobs have been used for over twenty years with small or large groups, in 1-1 sessions and individually, by different professions and are transferrable to learning and therapy settings.

Therapeutic Interventions: Life difficulties

Blob School - Book

47 Blob activities covering key aspects of pupil life. Topics include: assembly, bullying, changes, choir, classroom, working with computers, disco, exams, first day, friendships, groupwork, holidays, hometime, lessons, meals, parents evenings, playground, prayer, studying etc. These can be used in class, group or 1-1 sessions to explore feelings or potential problems that may require support or guidance. Photocopiable.

Robot Rage - Game

Teach anger management techniques in a fun way! In this Robot factory players avoid metal crushers, make choices and race to be dispatched first! Everyday events that may trigger anger are addressed and the game aims to help players understand what makes them angry, explore options in how they respond to anger, learn to identify triggers, develop coping strategies and communication skills as well as understand exacerbating factors and problem solve. For 1-1 work, small or class groups. Created by a Headteacher, Educational Consultant and Ofsted Inspector. Wipe-clean plastic foam-backed board: 42x29.5cm. For 2-4 players, 6-11yrs. Safety: 3yrs+, small parts.

Anger Management Programmes - Book & CD-ROM

These two comprehensive structured programmes teach anger management techniques and assertiveness to primary or secondary age children. Each has six progressive sessions with illustrated worksheets and activities designed to help children develop emotional intelligence, knowledge, skills and attitudes. They address understanding appropriate anger vocabulary, ranges of feelings, recognising triggers, changing angry behaviour, expressing feelings rather than acting them out, learning to empathise, developing new perspectives, having opportunities to deal with personal issues, self-monitoring techniques, etc. Written by an Ofsted Inspector, Headteacher and Education Consultant.

Behaviour Strategy Series

These are effective, complete anger management programmes. They link with emotional literacy development addressing self-awareness, impulse control, self-management, active listening, empathy, non-verbal cues, conflict resolution and mediation. In a pick-up-and-go format each 10 or 11 session programme has a plan with aims, required resources, methodology and time required for each element. Photocopiable worksheets.

Beyond Anger Management is a progressive expansion from volume 1, building and improving key skills. Moving on From Anger progresses even further, developing effective social skills, focusing on behaviour, communication and assertiveness. Written by a mental health and well-being specialist.

Shrinking the Smirch - Book

A unique workbook for anyone living with a long-term physical or psychological condition including MS, Parkinson's, brain injury, epilepsy, chronic fatigue, epilepsy, stroke, cancer, depression, eating disorders, trauma or anxiety. Invites the reader to think about symptoms as something external to them - a smirch, an annoying little imaginary creature who seeks to make humans sad and unhealthy. Includes 20 practical ways to shrink your smirch!

W055758 £ 19.95

Anger Management Games Series

Take a different approach! Use compassion and care to deal with situations of conflict and anger. In this resource, anger is viewed as a feeling, rather than being negative or difficult and is viewed a way of signifying that something important has happened that may need dealing with in some way. A range of feeling experiences are offered to understand and manage angry emotions, providing balanced opportunities to explore warmth, happiness, caring, compassion alongside anger, rage and irritation.

Primary: 38 Cards. Game pairs include: When I'm angry/When I'm happy, Hopping Mad/ Jumping Joy, A picture of anger/A picture of peace,, This is mine/This is ours, Excuses/ Good reasons, Anger associations/helping others etc. For 7-11yrs.

Secondary: 26 Cards. Game Pairs include: Symbols of anger/Symbols of love, Roaring rage/Hopping happiness, Chain of fury/chain of kindness, The evil eye/friendly eyes, this is mine/this is ours, etc. For 11-15yrs.

ORDER DIFFICULTIES

As a consumer, as defined by the Consumer Rights Act 2015, you have the right to cancel and return items within 30 days of you receiving your order. Please note that some products are non-returnable and are marked in the catalogue.

We hope that you happy with your order. If you find missing, incorrect, faulty or damaged items, let us know immediately and we will do our best to resolve any difficulties as speedily as possible.

•Damaged goods must be reported within 48 hours of receipt so we can take this up with the courier.

benefits, it will still attract VAT. We are bound by the laws of HM Customs and Excise.

- •Please let us know of any missing items within 7 days from the date of your invoice so we can rectify this for you.
- If you wish to return items, please contact us to obtain a Returns Authorisation Reference so we know to expect your package.

Do not return a product without a returns Authorisation Reference.

All postage costs are non-refundable unless the item is faulty. We do not offer a pre-paid return service. We recommend that you return your product on a signed for service - ROMPA® cannot be held responsible for any missing products sent by customers.

Returned items must be in pristine condition, unused and in their original undamaged packaging. If they are not, an amount may be deducted from the refund to reflect the value of the product has been reduced. If you are not an individual, ROMPA reserve the right to charge a 15% re-stocking fee. We regret that we do not offer a pre-paid returns service and recommend you choose a signed-for option – we are not responsible for missing parcels. Costs are non-refundable unless the item is faulty. You have the right to cancel and return items within 30 days of receiving your order. Some items, however, are non-returnable, for example if they are made especially for you, these are marked clearly in the catalogue.

Our products are not classified as medical equipment. We cannot, therefore accept declarations requesting exemption in this category.

We are proud to be British manufacturers. This enables us to offer you bespoke solutions.

Many of the products in the Snoezelen®, Soft Play and Furniture sections are made by ROMPA® at our Chesterfield premises. These items can be made in a variety of fabrics and colours. Look out for this symbol throughout the catalogue that indicates that a colour choice is available.

ROMPA® Fabrics and Colours

Fabrics used by ROMPA® have been selected for their high quality, reliability, durability and suitability for our marketplace. Our fabrics are complimented by the use of high quality fillings such as bead and foams of various densities to allow us to manufacture an extensive range of soft and pliable or firm and supportive products. All our fabrics (and the products made from these and our fillings) meet appropriate fire-retardancy standards.

Our attention to detail is second to none – from our high quality non-slip fabric to the colour-matched threads that are used to hand-finish our products, ROMPA^{\otimes} has earned its reputation for consistently excellent standards.

This applies to our standard products, as well as to any bespoke solution requested by our customers. The colours shown here are from our standard range but we will gladly accommodate special requests for further colour options. Contact us for a fabric swatch to help you make your fabric and colour choices.

ROMPA® manufactures matting, furniture and soft play in a large range of fabrics and colours. These include:

PVC (Vinyl

The most durable, and popular, of all our fabrics. Extremely hard-wearing, PVC is easy to clean, water-resistant and treated with fungicide. Latex- and phthalate-free, this strong fabric has a polymer coating on both sides, making it rigid and helping products to maintain their shape. Our PVC has a 'Cape' or subtly textured and fungicidal finish, and is available in a huge spectrum of colours and tones. This extensive choice lends itself well to two-tone finishes, such as purple with lilac accents, or sky blue and light blue combinations. We can also print a range of motifs onto PVC, including your own imagery for bespoke solutions.

Ideal For:

- Wall and Floor Mats Ballpools and Wedges Soft Play Products
- Water Beds and Furniture

Polytran

Extremely pleasant to the touch, this soft, matt-finish fabric is perfect for products used for long periods of time. Latex- and –phthalate-free, as well as flexible, this fabric is a knitted polyester with a polyurethane coating. This fabric has been specially selected for our Pos-Pod $^{\rm M}$ Modular Multi-System.

Products typically made in Polytran include wedges, rolls and cushions intended for positioning.

Please see page 336 for further colour & fabric choices.

FAUX SUEDE

FAUX SUEDE

POLYESTER

POLYESTER

Arguably the softest of our fabrics, and is similar in texture to suede. More akin to fabrics used in domestic furniture, this supple fabric is water-resistant, extremely comfortable, stain-resistant and antibacterial. Available in subtler shades of colour than PVC and Polyester, this fabric may be more age-appropriate for older adults. Although durable, this fabric has a short pile and is less hard-wearing than PVC. As such, it should not be chosen for areas of heavy use such as step treads or floor cushioning.

Ideal For:

• Sensations E Chair

• Supa Squashy Sofa

Positioner

Polyester

Slightly warmer to the touch than PVC, and more flexible. This makes Polyester bestsuited to products which allow clients to sink into them and which mould to the user's

• Mini Floppy Islands Ideal For:

• Squashy Seating

• Sensory Cuddles

FAUX LEATHER

BISCOTTI

TEXTURED FABRIC

Faux Leather Fabric

Available in striking modern colours, this subtly-textured fabric is as hard wearing as it is stylish. Vibrant yet tasteful, this strong fabric is a combination of PVC, Cotton, Polyester and PU. Fire-retardant, phthalate-free, anti-microbial and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching.

Faux Leather Fabric can be found in the Chatsworth Furniture range. Whole pieces of Chatsworth furniture can be made in up to two colours of Faux Leather, or one colour can be selected with one colour of Textured Fabric on the sides.

Ideal For: • Chatsworth Furniture

Textured Fabric

Contemporary yet classy colours with a blend of texture and softness to suit every indoor environment. Beautiful, tactile and practical. Fire-retardant, stain-resistant, phthalatefree and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching. All the colour options are anti-microbial.

Textured Fabric can be found in the Chatsworth Furniture range. The sides of these products can be made in Textured Fabric, whilst the remainder (e.g. seat and cushions) is typically in Faux Leather.

Please note: due to printing techniques colours may not show correctly on the pages, ask for a Fabric swatch for accurate colour choices

Care of your products

We want you to be happy with your purchases from this catalogue. To help you to buy products that are suitable, appropriate and that meet the needs of your clients, we aim to include as much product information in this catalogue as possible. This includes safety age guidelines (e.g. 'For 3 years and over') and practical information such as dimensions (e.g. 'Small parts') and material information (e.g. fur with long fibres, glass). For further information, please visit our website and refer to the product descriptions there, along with the instructions for those products (where applicable).

All of our products are intended to be used appropriately, under the supervision of a responsible adult. Some products, such as those intended for Sensory Integration therapy, should be used by suitably trained professionals only.

Always install and use products safely, seeking advice from suitably qualified professionals as necessary.

Always supervise the use of all of our products.

Whilst we make every effort to provide products that are sturdy and appropriate, it is your responsibility to check their suitability for your clients, and to use them appropriately. For example, not all our products are suitable for those who mouth, or for those with challenging behaviours. Some products are intended for decorative purposes rather than for handling. Some are intended for indoor use only, and some will require specific on-going checks and maintenance.

Our products are selected for their robustness and durability. However, they will not withstand misuse or abuse. Please use our products with care, following the care and maintenance advice provided.

Snoezelen® Multi-Sensory Vehicle

Our Rompa® Snoezelen® Multi-Sensory Vehicle was a huge hit last year and means that we can deliver Snoezelen® to your doorstep. If you are holding an event, fundraising for a Snoezelen® Multi-Sensory Environment or want to try Snoezelen® then our Snoezelen® Multi-Sensory Vehicle is the answer!

What's in it?

The vehicle contains all the typical components of a typical Rompa® multi-sensory room but this one is installed in a large vehicle that we can take to shows and events up and down the country.

We think this will prove a great way to bring the concept of Snoezelen® sensory environments to a wider audience and demonstrate the immersive quality of a Rompa® sensory room.

Our Snoezelen® Multi-Sensory Vehicle is available to book out and bring to your event.

A Sensory Room on

Wheels!

NHS ROMPA® is on the NHS Supply Chain Network for Multi-Sensory. Framework reference: 2016/S 041-066764.

Showroom & Reminiscence Room

Like what you see, but still not sure? Come and visit us, we'd be happy to see you. Bookings required.

Please contact us to visit our Snoezelen® or Reminiscence Showroom. Our Showrooms are based at our Head Office in Derbyshire.

Rompa®, Goyt Side Road, Chesterfield, Derbyshire, S40 2PH

Who we work with... At home

Our products and Snoezelen® rooms are for all ages and abilities, we supply to individuals, families, schools, hospitals, hospices, charities, airports, hotels, cruises, football clubs and many more. We not only distribute and install in the UK but internationally too.

Here are some of our customers:

- Gatwick Airport
- Notts County Football Club
- Help For Heroes
- Meadowhall
- Chesterfield Football Club
- Brunel University of London
- College of Occupational Therapists
- Parenting Additional Needs

- Kids in Sync
- NewLife

... As well as further afield

ROMPA® is at the heart of a global network of providers of multisensory environments. As well as serving our valued UK customers, we have partners and distributors in over 40 countries across the world. Through our international customers we have access to new ideas, developing therapies and a wide breath of experience.

Large enough to count but small enough to care

As a responsible supplier and manufacturer we have continuously updated ethical and environmental policies. As just one example, we review and report packaging and waste.

Wonkey Donkey

Rompa[®] are proud to work in partnership with the Wonkey Donkey Visitors Centre. They not only provide sanctuary for donkeys but recognise the role that these beautiful animals can play for people aiding rehabilitation for illness and support those with disabilities. If you are in the area why not pay them a visit...
