WELCOME TO YOUR 2024 ROMPA® CATALOGUE

With over 35 years' experience and history as the world leaders in sensory solutions, Rompa® continues to offer "Life Changing Sensory Solutions for All". Our innovative designs and technology provides our customers with sensory tools for choice, empowerment, enjoyment, inclusion, meaningful occupation and comfort.

Snoezelen® Multi-Sensory Environments are created with insight from our trusted advisors and customer feedback. We are constantly developing new products and ways to do things, to meet various needs. The products in this edition have been chosen to reflect this ethos.

Rompa® acquired Winslow Resources® over 20 years ago to provide the best range of products possible on the market. Winslow Resources® offers a wide range of therapeutic and educational materials such as books, games, software, photo cards, specialist therapeutic interventions and assessment tools. All of which perfectly complement the Rompa® range.

We also have a separate Older Adults catalogue due for release early this year. Older Adults is the new name for 'Meaningful Activities for Older Adults', a brand for our reminiscence range, rehabilitation, and making life a little bit easier for people in residential care facilities, and at home. See page 222 for more information about our Older Adults range.

Our range of installation services include, but are not limited to:

Snoezelen® Multi-Sensory Environments

Snoezelen® Multi-Sensory Environments are, by nature, relaxing spaces that help to reduce agitation and anxiety, but can also engage and delight the user, stimulating reactions and encouraging communication. These environments utilise Snoezelen® products to tailor sensory rooms to the needs of the individuals seeking out the sensory experiences that they enjoy and find beneficial.

De-escalation Rooms

In response to requests from our valued customers, Rompa® has developed de-escalation rooms. Designed for demanding environments such as schools with BESD (EBD) students, offenders' institutes and prisons, these custom-made and fully-installed facilities offer a safe environment for those with challenging behaviours and aggressive tendencies.

Soft Play Environments

A Soft Play Environment is specifically designed for children and adults with special needs to have fun, explore their physical boundaries and to release energy in a safe environment. Softplay can; improve fine and gross motor skills, enhance emotional development and improve quality of sleep.

Sensory Integration

A form of Occupational Therapy utilising sensory experiences from movement, touch, light and sound to strengthen the user's ability to deal with everyday life. Sensory Integration is effective in addressing challenges associated with autism, dyspraxia and behavioural difficulties in children and adults.

Haley's Joy is a range of frames, swings, harnesses and accessories for Sensory Integration Therapy and is perfect for the mobile Sensory Integration practitioner who finds themselves in a range of therapeutic settings.

Older Adults and Reminiscence Rooms

Snoezelen® Multi-Sensory Environments and products bring huge benefits to older adults and people with Dementia. After spending time in a Snoezelen® Sensory Room, residents in the later stages of Dementia show positive changes in mood and behaviour, and also an increase in attention to their surroundings. Staff feel that these improvements help with their relationship with the residents and their daily work. Reminiscing is an enjoyable pastime and useful therapy for older adults and people with Dementia. Reminiscence rooms can provide a flexible space in which to encourage social interaction and offer many other meaningful activities.

What We Do

Our history is in the design and installation of bespoke Snoezelen® Multi-Sensory Environments and Soft Play Environments. However, our capabilities do not end there. Over the years we have developed a wide range of services as research and therapies have become more popular.

Our Snoezelen® Trademark and what it means

The Beginning

During the late 1970s, two Dutch therapists; Jan Hulsegge and Ad Verheul experimented with a sensory tent at the DeHartenburg Institute. The goal was to increase enjoyment and sensory experience for those with intellectual disabilities.

The result of a one-weekend fair was overwhelmingly positive for both verbal and non-verbal patients. Its modern interpretation has evolved to signify 'to seek and explore' and 'to relax.'

Through years of experience, Rompa® has developed a range of products and created bespoke environments based on the principles of Snoezelen®, becoming the leading UK provider before developing key partners around the world. Rompa® also owns the trademark for the name Snoezelen® when applied to products. You know you are buying quality when you buy a Rompa® Snoezelen® product.

As Snoezelen® continues to grow, the principles and benefits of Snoezelen® remain hugely significant to individuals with a range of needs all over the world. For more information on the benefits of Snoezelen®, visit page 223.

snoezelen®

The official registered trademark of Rompa® Ltd

www.snoezelen.info

Benefits & Applications

Snoezelen® is for All Ages and Abilities

Snoezelen® Multi-Sensory Environments offer a relaxed atmosphere with pleasant surroundings, soothing sounds, captivating aromas, tactile experiences, massage and vibration, vibrosonic sensations, and gentle movement. Interesting light effects and comfortable seating allow your client to self-regulate by choosing sensations. Further, the Snoezelen® environment provides opportunities for interaction and engagement.

Snoezelen® for Early Years

Snoezelen® Multi-Sensory environments support children and toddlers in fully developing their senses, fostering key areas of learning and development within the Early Years Foundation Stage (EYFS). This approach enhances visual, auditory, and tactile processing, along with refining fine and gross motor skills, enabling them to build their interpretation of the world from an early age.

Snoezelen® for Autism

Snoezelen® Multi-Sensory Environments provide the tools for a suitable, gradable, and safe environment in which Health and Social Care professionals can carry out assessments and interventions. Treatment and care should take into account individual needs and preferences but also be flexible enough to respond to changing needs as the individual matures or responds to treatment.

Snoezelen® for Challenging Behaviour

When people experience life changes and find it difficult to cope, negative thoughts can build, and emotion can be displayed/expressed in ways that society finds hard to cope with and understand. There are many difficult behaviours that services encounter including chewing and eating non-food items, spitting, screaming and shouting, hitting, and swearing.

Snoezelen® and Occupational Therapy

Occupational Therapy is a profession that concentrates on enabling people to carry out the things that they want to do, or need to do, in their lives. Assessing cognitive ability and physical functioning level, as well as identifying methods of engagement pertinent to the individual, is an essential element of clinicians planning and providing effective care provision.

Snoezelen® for Learning Disabilities

This area of support can be extremely complex. Clients may have a diverse range of needs and different diagnoses that impact how they experience life, the challenges they face, and the level of support that they require. The combination of these very unique needs can affect cognition and/or physical functioning.

Dr Lesley Collier

Snoezelen® Multi-Sensory Environments for people with Dementia:

Lesley has a long standing relationship with Rompa® and Winslow Resources®. She has advised us in many areas of the effectivity of using Snoezelen® Multi-Sensory interventions for people with Dementia and cognitive impairments.

“The right level of sensory stimulation helps to relieve stress and boredom; to engage in activity also involves an act of communication that enhances the feeling of comfort and well-being.”

Dr Lesley Collier, Professor at the University of Winchester

Snoezelen® for Mental Health

Things change around us, both positively and negatively, and we aren't always responsible or in control of what happens. These things can have a tremendous impact on how we live and feel. Experiencing illness, sudden or prolonged trauma, loss of loved ones, can impact deeply on thinking patterns, emotions and our behaviour may alter as we try to deal with the new situation. Snoezelen sensory rooms helps us process thoughts and emotions more easily.

Snoezelen® for Brain Injury

Acquired brain injury and other neurological conditions can be devastating to the individual concerned and their families, friends, and loved ones, particularly if it is the result of a sudden event. Multi-Sensory Environments, perhaps not initially a very obvious choice for clinical interventions, can be designed to include equipment that can help a person on their journey of physical and/or cognitive rehabilitation.

Snoezelen® for the Elderly

The term 'dementia' describes progressive disorders affecting the brain such as Alzheimer's disease, vascular dementia, and dementia with Lewy bodies. These conditions present problems with thinking, mood, behaviour, and the ability to take part in everyday activity and leisure. If no suitable activities are provided and people living with dementia have nothing to do, they might become increasingly isolated, frustrated, bored, and unhappy.

Snoezelen® continues to:

- Provide meaningful Multi-Sensory spaces and activities
- Reduce anxiety and offer calming solutions
- Build self-esteem
- Focus on the individual with a person-centred approach
- Respect each person's choices, needs, pace, and preferences

Snoezelen® Multi-Sensory Environments are, by nature, relaxing spaces that help reduce agitation and anxiety. However they can also engage and delight the user, stimulate reactions and encourage communication.

The Snoezelen® Multi-Sensory Environment has many benefits and can be used in a variety of ways to provide a range of benefits including:

Stimulation

Snoezelen® Multi-Sensory Environments and products can be used to stimulate users by providing exciting visuals, high tempo music and sounds, invigorating smells and textures to explore.

Relaxation

Snoezelen® Multi-Sensory products and environments can be used to calm and reduce agitation through the use of gentle light, soothing sound, relaxing smell and touch.

Therapy

We have been providing Occupational Therapists and health professionals with a Snoezelen® Multi-Sensory tool-kit to provide therapy for over 30 years. From portable resources to bespoke multi-sensory environments, we have solutions that can help.

Development

Snoezelen® can be used as a learning and developmental tool. It can be used for colour matching, understanding of cause and effect, and creating themed environments for teaching.

Who can they help?

People of all ages and abilities can get benefits from Snoezelen® Multi-Sensory Environments and products.

Where would I find a Snoezele® Environment?

Due to their versatility you will find Snoezelen® Environments in a wide range of settings; some will be surprising.

Visit rompa.com to find out where.

Snoezelen® Senses

The world is full of sensory stimuli. Some individuals are not able to organise and respond appropriately to this stimuli, others have lost skills due to accident or illness, and some others lack the ability or freedom to make choices to balance their sensory lives. For these individuals the world may be a confusing and frightening place, full of over- or under-stimulation. They may behave inappropriately and act or respond in ways others do not understand.

A Snoezelen® Multi-Sensory Environment may be used to educate, stimulate, relax, calm, or energise, as a multi-sensory experience or single sensory focus, simply by adapting the lighting, atmosphere, sounds, and textures to the needs of the client at the time of use. These environments transcend populations with its extraordinary flexibility, wide application, and positive outcomes. A Snoezelen® Multi-Sensory Environment offers a highly motivating environment for users to enjoy sensory activities that are meaningful and appropriate, facilitated and shared by a therapist, teacher, or caregiver.

Five senses we are most familiar with:

Vision (Visual)

Provides us with details about what we see and helps us to define boundaries as our brain processes colour, contrast, shape, and movement.

Touch (Tactile)

Keeps us in contact with our surroundings. Touch is vital to our survival and is one of our modes of communication. From head to toe, our skin helps us feel temperature, light touch, deep pressure, vibration, pain, and so much more.

Smell (Olfactory)

We use the sense of smell all the time. Flowery, pungent, musty, acrid, and putrid - we identify many things by their smells. Strong memories can also be tied to smells.

Hearing (Auditory)

Provides us with details about the sounds we hear such as volume, pitch, rhythm, tone, and sequence.

Taste (Gustatory)

Gives us feedback on the different types of tastes: sweet or sour, spicy, salty, bitter, etc.

Two senses we may not be as familiar with:

Vestibular

This sense puts balance into our lives. It provides information about movement, gravity, and changing head positions. It tells whether we're moving or still, as well as the direction and speed of our movement. We may even tell whether we are vertically or horizontally positioned—even with our eyes closed.

Proprioception

This sense processes information from our muscles, joints, and other body parts to provide us with an unconscious awareness of the position of our body parts in relation to each other and their relation to other people and objects.

NHS – Rompa® is on the NHS Supply Chain Network for Multi-Sensory

The NHS Supply Chain was designed to help the NHS deliver clinically assured, quality products at the best value, through a range of specialist buying functions.

Framework reference: 2020/S252-638069

Save time and money

Avoid individual trust tendering costs, by using the framework, as we complete the tender process for you, releasing more time for core clinical activities.

Discounts available for NHS and public sector customers

We offer discount bandings on e-direct lines up to 10 units of issue and further discounts can be found on the direct route for units above 10.

Peace of mind

Products are guaranteed - The framework agreement incorporates all latest required standards and procedures including British Standards (BS), European Standards (EN), International Standards (ISO) Furniture Industry Research Association (FIRA), the leading furniture research and testing agency in the UK, to ensure all products supplied under this contract adhere to the very latest BS/EN/ISO standards as well as specific national legislation and NHS-specific procedures/policies.

Wonkey Donkey

Rompa® are proud to work in partnership with the Wonkey Donkey Visitors Centre.

They not only provide sanctuary for donkeys but recognise the role that these beautiful animals can play for people aiding rehabilitation for illness and support those with disabilities.

If you are in the area why not pay them a visit...

www.wonkey-donkey.co.uk

01977 219 924

The Wonkey Donkey Visitors Centre, Little Oakes Farm, Cobcroft Lane, Cridling Stubbs, Knottingley, WF11 0AZ

The Children's Hospital Charity

We are proud to have become a sponsor of The Children's Hospital Charity in 2023 through a snowflake.

They use the money raised through donations and sponsorships to buy life-saving equipment, fund vital research, and treat thousands of children from across the work to help create a comfortable & engaging environment for the patients at Sheffield Children's Hospital.

Please help support them:

www.tchc.org.uk

0114 321 2474

HC-ONE

Older Adults is the preferred supplier for HC-ONE.

With more than 300 care homes, HC-ONE ("The Kind Care Company") offers professional and personalised residential, nursing and specialist dementia care for more than fourteen thousand residents nationally.

Rompa® is the home of Snoezelen® and the market leader in the provision of sensory products and environments. Combined with an extensive range of indoor and outdoor games, puzzles, activities and reminiscence products well-suited to care homes, Rompa® products not only benefit residents every day, but can be life-changing. Rompa® is proud to play a part in providing relaxation, stimulation and happiness to HC-ONE care home residents.

Support Dogs

Rompa® are proud sponsors of Support Dogs a national charity which specialises in training dogs to ensure the safety, independence and wellbeing of people living with epilepsy, autism or disabilities.

With our support for the next two years a puppy will be reared for life-saving and independence inspiring skills before being matched with a human owner to provide a lifetime of assistance. This not only improves the quality of life for the individual and their family, but also for the wider health economy that is prescribing drugs or struggling to keep up with NHS health appointment demands.

SupportDogs rely entirely on voluntary donations and need your support, so they can help more people.

Please help support by donating:

<https://www.supportdogs.org.uk>

EACH CUSTOMER HAS THEIR OWN UNIQUE NEEDS AND SPECIFIC REQUIREMENTS

Through our in-house manufacturing expertise we are happy to meet these.

Like the product, but want to change it?

We can adapt many of our products accordingly.

For example, we can

- Put handles on our Floor Mats so you can move these.
- Attach pockets for shoes to the side of a ballpool.

Want a new product altogether?

If you have your own vision for a product, such as a piece of furniture, a tactile panel or a Soft Play item, talk to us! Let us create your dream, we are proud to be British manufacturers and this enables us to offer you bespoke solutions.

Many of the products in the Snoezelen®, Soft Play and Furniture sections are made by Rompa® at our Chesterfield premises.

These items can be made in a variety of sizes as well as fabrics and colours.

Look out for this symbol throughout the catalogue that indicates that a colour choice is available.

Once you have selected your products, you can either email sales@rompa.com or call us on 01246 211 777. Where indicated, you will be asked to choose your required fabric and colour. Details of fabrics and colours can be found on pages 12 and 13.

Rompa® manufactures matting, furniture and soft play in a large range of fabrics and colours

PVC (Vinyl)

The most durable, and popular, of all our fabrics. Extremely hard-wearing, PVC is easy to clean, water-resistant and treated with fungicide. Latex- and phthalate-free, this strong fabric has a polymer coating on both sides, making it rigid and helping products to maintain their shape. Our PVC has a 'Cape' or subtly textured and fungicidal finish, and is available in a huge spectrum of colours and tones. This extensive choice lends itself well to two-tone finishes, such as purple with lilac accents, or sky blue and light blue combinations.

Did you know?

You can order swatches of PVC, Polyester, Polytran and Faux Suede from our website!

Ideal for:

- Wall and Floor Mats Page 85 - 86
- Soft Play Product Page 84 - 96
- Ballpools and Wedges Page 87 - 91
- Water Beds and Furniture Page 72 - 83

Polytran

Extremely pleasant to the touch, this soft, matt-finish fabric is perfect for products used for long periods of time. Latex- and -phthalate-free, as well as flexible, this fabric is a knitted polyester with a polyurethane coating. This fabric has been specially selected for our Pos-Pod™ Modular Multi-System.

Products typically made in Polytran include wedges, rolls and cushions intended for positioning. (Page 110)

Polyester

Slightly warmer to the touch than PVC, and more flexible. This makes Polyester best-suited to products which allow clients to sink into them and which mould to the user's shape.

Ideal for:

- Splodges Page 78
- Squashy Seating Page 77-79
- Floppy Island Page 78

Rompa® Fabrics and Colours

Fabrics used by Rompa® have been selected for their high quality, reliability, durability and suitability for our marketplace. Our fabrics are complimented by the use of high quality fillings such as bead and foams of various densities to allow us to manufacture an extensive range of soft and pliable or firm and supportive products. All our fabrics (and the products made from these and our fillings) meet appropriate fire-retardancy standards.

Our attention to detail is second to none – from our high quality non-slip fabric to the colour-matched threads that are used to hand-finish our products, Rompa® has earned its reputation for consistently excellent standards.

This applies to our standard products, as well as to any bespoke solution requested by our customers.

Contact us for a fabric swatch to help you make your fabric and colour choices.

Faux Suede

Arguably the softest of our fabrics, and is similar in texture to suede. More akin to fabrics used in domestic furniture, this supple fabric is water-resistant, extremely comfortable, stain-resistant and antibacterial. Available in subtler shades of colour than PVC and Polyester, this fabric may be more age-appropriate for older adults. Although durable, this fabric has a short pile and is less hard-wearing than PVC. As such, it should not be chosen for areas of heavy use such as step treads or floor cushioning.

Ideal for:

- Positioner Page 81
- Supa Squashy Sofa Page 78

Faux Leather Fabric

Available in striking modern colours, this subtly-textured fabric is as hard wearing as it is stylish. Vibrant yet tasteful, this strong fabric is a combination of PVC, Cotton, Polyester and PU. Fire-retardant (Crib 5), phthalate-free, anti-microbial and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching.

Faux Leather Fabric can be found in the Chatsworth Furniture range. Whole pieces of Chatsworth furniture can be made in up to two colours of Faux Leather, or one colour can be selected with one colour of Textured Fabric on the sides.

Ideal for:

- Chatsworth Furniture Page 69 - 71

Ask us for a fabric swatch to help you make your fabric and colour choices.

Textured Fabric

Contemporary yet classy colours with a blend of texture and softness to suit every indoor environment. Beautiful, tactile and practical. Fire-retardant, stain-resistant, phthalate-free and REACH compliant.

The fabric itself is waterproof, although seams are not due to the nature of stitching. All the colour options are anti-microbial.

Textured fabric can be found in the Chatsworth furniture range, the sides of these products can be made in textured fabric. Whilst the remainder (e.g. seats & cushions) are typically in faux leather:

Creating your space:

An experienced Sales Advisor will visit you at an agreed date and time to take measurements of the room and find out more about your needs.

Based on the meeting with our Sales Advisor we will create a bespoke design brief.

We will create an itemised quotation for your project so you can understand where your investment is being placed and make amendments if required.

When you are happy with your design and quotation (changes can be made if needed) we agree on the project and you place an order with us.

Our designers will create a 3D Visual for you to envision your room - just like these!

Stoney Lane Centre

Stoney Lane Centre had an existing sensory room that was installed some years ago and are now looking to upgrade to a Snoezelen® room.

"Rompa has provided us with a versatile room that will meet the sensory needs of people with disabilities. It has given people choice and control of how they want to use the space"

Let's Verbalise S&L Therapy Practice

Let's Verbalise, a company specialising in speech and language therapy approached us for the installation of a Snoezelen® sensory room to be used for relaxation and motivational communication opportunities.

"The new installation has maximised functional communication opportunities for our clients within their sessions. Clients are highly motivated to engage with all the equipment so we can focus on incorporating therapy targets into the interactions."

Hardingstone Academy

Hardingstone Academy wanted to welcome their first Key Stage 2 ASD Provision students in January 2023 with a valuable resource at their new academy.

"The entire design process was made easy due to the knowledge and expertise of the Rompa team; they provided sound advice and suggestions for the room's equipment and understood the needs of the children."

Our Installation Service

1. Contact Us

Call 01246 211777 or email installation@rompa.com with your requirements or brief and we will arrange help and a visit if required.

2. We'll Provide a Free Consultation

An experienced Sales Advisor will visit you at an agreed date and time to take measurements of the room and find out more about your needs.

3. We'll Provide a Free Design Service

Based on the meeting with our Sales Advisor we will create a bespoke design brief.

4. We'll Quote

We will create an itemised quotation for your project so you can understand where your investment is being placed and make amendments if required.

5. We'll Listen

When you are happy with your design and quotation (changes can be made if needed) we agree on the project and you place an order with us.

6. We'll Carry Out a Site Survey, If Required

Our trained installation team will visit the dedicated room/area and carry out a site survey taking accurate measurements of the area so we can manufacture to the correct specification.

7. We'll Manufacture

Based on the site survey our manufacturing team will produce the items and equipment for your project. The lead time for this is typically 6 weeks. Need it quicker? Contact us to find out if we can produce it sooner.

8. We'll Install

We agree a time and date convenient for you - our highly skilled installation team will visit and install your brand new environment.

9. We'll Train

Where possible we will train you immediately after installation. We want to leave you with an environment that you know how to use and maintain.

10. We'll Maintain

Maintenance packages are available we will discuss these options with you.

How to Order:

- Phone **01246 211777** - For customers wishing to pay by credit/debit card.
- Website: **www.rompa.com**.
- Purchase order - For account holders. Email to sales@rompa.com.
- Please read our terms and conditions of sale which are on our website.

VAT Relief:

Relief from VAT is only available on certain products and is granted subject to the following conditions:

- The goods are being purchased by an eligible body, or charity for donation to an eligible body.
- The goods are supplied or made available to persons with a disability.
- We are bound by the laws of HM Revenue and Customs and have a legal obligation to charge VAT on certain products.
- A VAT Relief form is available on our website, along with more information regarding VAT Relief.

Pricing:

- Prices are in GBP and are subject to change without prior notice.
- Prices exclude VAT, handling and delivery charge. VAT will be added to all invoices where applicable unless a VAT relief form is received with the order. Please see our website for the latest prices.
- Products which are Zero rated are indicated with 'This product does not incur VAT'
- Products eligible for VAT Relief have "VAT Relief" by the price.

Delivery:

- Rompa® aims to despatch most orders within 48 hours of receipt. However certain products are made to order and may take up to 28 days.
- There is a delivery charge applicable to all orders, please see our website for details.
- There is an additional £35 per item delivery charge for large and/or heavy items.
- All deliveries are to the kerb side only. However an enhanced delivery is available on certain products, contact us for further details.
- Damaged products must be reported within 48 hours of receipt.
- Missing items must be reported within 7 days from the date on your invoice.

Returns:

- As a Consumer, as defined by the Consumer Rights Act 2015, you have the right to cancel and return items within 30 days of you receiving your order.
- Please note that some products are non-returnable and are marked with this icon in the catalogue; 
- Please contact us for a return authorisation reference. Do not return a product without a return authorisation reference.
- If you are not a Consumer, Rompa® reserves the right to apply a 15% re-stocking fee.

Visit our website for more information:

www.rompa.com

Snoezelen® Multifinity Explorer™ by Rompa®

Create visually stunning infinity effects by selecting from a number of shapes, colours, patterns and speeds. The panel is packed with sound effects and music which makes for a truly exciting multi-sensory experience. With a huge range of effects to choose from! Allows supervisors to match activity to need. Encourages interaction, visual tracking, hand-eye co-ordination and an understanding of cause and effect. Features include:

- Over 1500 unique and easily selected pattern combinations
- Select from 8 shapes, 11 colours, 6 patterns and 3 speeds
- With circles, squares, triangles and more for early maths concepts
- Facilitates choice and control
- 3 modes of operation – passive, interactive and music
- Accessible and illuminated push buttons
- Sockets for your own switches

Please specify your colour when ordering.

R424513 115H x 67W x 10D cm VAT Relief **£1220.00**

Passive

Sit back and relax whilst watching these mesmerising light shows as patterns change every minute with or without music. An effective way to calm or distract people from anxious situations.

Interactive

Control the colour, shape, speed and pattern of the panel using the illuminated push buttons.

Music

Control the panel using the illuminated push buttons and watch as sound effects and music co-ordinate with the on-screen patterns.

Mirror

The Multifinity Explorer™ is packed with sound effects and music which makes for a truly exciting multi-sensory experience. With a huge range of effects to choose from, the Multifinity Explorer™ also allows you to match the activity to the need, it also acts as a mirror when not in use.

Customer Review

snoezelen®

Snoezelen® Fireworks Extravaganza™ by Rompa®

Visual, vivid and vibrant. A cracker of a wall feature for all year round! Create visually, vivid and vibrant displays by selecting from a number of patterns, colours and speeds each paired to sound effects. Rompa® appreciates that for some users Fireworks could be associated with being 'too loud and/or, over stimulating' for some users. This panel offers a number of different sound effect themes for a more relaxing or varied sensory experience, for example, water or carnival sounds.

- With 825 unique and easy to use pattern combinations
- Offers 11 colours, 5 sound effects and 3 speed options
- 5 stunning fireworks effects including Catherine Wheel, Falling Stars, Radiating, Comet and Strobe
- Use passively or interactively
- Accessible and illuminated push buttons
- Facilitates choice and control
- Sockets for your own switches
- Can be used with a microphone for a sound to light effect to encourage vocalisation
- Sound effects and visual effects are closely linked for easier understanding

Please specify your colour panel when ordering.

115H x 67W 10D cm

VAT Relief

£1222.00

Key Features

- 5 Fireworks Effects - Catherine Wheel, Radiating, Falling Stars, Strobe & Comet!
- 5 Sound Effects
- 825 Pattern Combinations
- 11 Colours & 3 Speeds

Visuals that relate to sound

A key addition to the Fireworks Extravaganza™ is how sound effects and visual effects are closely linked for easier understanding and more fun! LEDs light up and move like rockets to the centre of the panel with a whistling sound and explode with a bang.

The Fireworks Extravaganza™ has evolved from a very simple panel to a real fun and engaging entertainment centre giving you the flexibility to tailor the activity to different needs and preferences.

Customer Review

"Fantastic product! My daughter is visually impaired and is very responsive to this, she loves all the different light shows. Would highly recommend."

Key Features

- Memory Match
- Colour Snap
- Colour Fill
- Basic Colour Match
- Range of Difficulty Levels

Lose yourself in a fun and engaging activity!

With its competitive fill the screen mode, children and adults will enjoy making as much noise as possible to fill the panel with light in this light hearted contest.

Easily adjusted difficulty levels

Make the Colour Catch Combo™ accessible to all levels. This gradeability also allows for development of understanding and prolongs use.

Customer Review

"Ideal to stimulate the understanding of cause and effect. This item was purchased for my 13 year old Son who has profound learning difficulties. He is stimulated by cause and effect and this item is perfect for this."

"It has several settings that can help him to understand cause and effect and the bright colours help keep his attention. We purchased the cube along with this item, which works as a switch to control the colours on the display. I would recommend this item for anyone who is learning cause and effect."

Andrew C, Verified Buyer

Snoezelen® Sound to Sight Showtime™ by Rompa®

Sounds are turned into a dazzling show of light, colour and movement. The panel responds to both changes in pitch and volume to create an ever changing sensory experience. Engaging, interactive and rewarding. Encourages learning, exploration and fosters a feeling of choice and empowerment. Why not try clapping, whistling or humming? Features include:

- With 66 unique and easy to use pattern combinations
- Offers 6 patterns and 11 colours, including a stunning graphic equaliser effect
- 3 modes of operation
- Responds to pitch (frequency) and volume
- To encourage vocalisation, use with one microphone or with two microphones (included) for follow my lead activities, turn-taking and pair-work
- Use for team-work or competitively
- Great for therapy and teaching
- With a sound effect button allowing non-verbal users to interact alongside their peers
- Accessible and illuminated push buttons
- Sockets for your own switches
- Includes 2 microphones

Please specify your colour panel when ordering.

R424512 115H x 67W x 10D cm

VAT Relief **£1215.00**

Encourage learning and exploration of sound

The Sound to Sight Showtime™ panel responds to both changes in pitch and volume to create an ever changing, fun sensory experience. Watch music or sound effects come to life as you play them through the panel or try different noises either through shouting, clapping or playing an instrument.

Two microphones for turn-taking or follow my lead activities

Learning to make noise is often about mimicking, using both microphone ports provided the Sound to Sight Showtime™ becomes a valuable tool to develop the understanding of sound and vocals.

Key Features

- Bring Sound To Life
- Great For Teaching
- Use Alone Or Together
- Fun - Fill The Panel With A Competitive Mode

Sounds are transformed into a dazzling show of light, colour and movement!

Lose yourself in a fun and engaging activity!

With its competitive fill the screen mode, children and adults will enjoy making as much noise as possible to fill the panel with light in this light-hearted contest.

snoezelen®

Snoezelen® Double Bubble Bonanza™ by Rompa®

Combines two Snoezelen® favourites – bubble tubes and wall panels. Bubbles and colour can be individually controlled in each of the two chambers. Be amazed as the bubbles dissipate in one chamber only to burst into life in the other. The panel is packed with sound effects and music which makes for a truly exciting multi-sensory experience. The stunning effects stimulate, empower and engage. Perfect for co-operative play, turn-taking and follow-my-lead activities. Features include:

- With 42 unique effects
- With two bubble chambers – the bubbles and colour of each can be controlled independently
- Great for pair work and co-operative activity
- Can be used by one person to promote bilateral movement
- Encourages choice and control
- 3 modes of operation – interactive, creative and music
- With gentle vibration for tactile input
- Accessible and illuminated push buttons to control bubbles and colour
- Can be used with a microphone for a sound to light effect to encourage vocalisation

Two people will be required to wall-mount this panel. Not compatible with Porter 22879. Pump 20601-SPECIAL to be purchased separately.

Weight: approx. 30kg when full

Please specify your colour panel when ordering.

To Note:

* This product requires a Rapid Water Change Pump (20601-SPECIAL) available on page 40

It can only be installed on a solid wall.

Fun and interactive or peaceful and relaxing

Another key benefit of having a Double Bubble Bonanza™ is its flexibility. It can be a really fun, engaging, social and interactive panel or it can be relaxing with a constant visual effect, slowly fading colours and gentle sounds mimicking rain, waterfalls or babbling brooks.

Bringing people together

Two independent bubble chambers are perfect for co-operative play, turn taking and follow my lead activities.

Control the bubbles like never before

This is one of the most interactive bubble products on the market. Control each chamber's colours, patterns and bubble flow using accessible large push buttons.

Key Features

- 42 Unique Effects
- Bubble Control via Buttons
- Absorbing / Distracting to Help Calm
- Patterns Control Bubbles & Colour

Stunning visual effects

- Slow Fade
- Independent Fade
- Alternating

Double the bubble, double the fun!
Two bubble chambers in one!

What is the Sensory Magic® Experience?

Educate

As Sensory Magic® provides the user the capability to create their own themes, the potential uses in educational settings are limitless. Teach using sound, imagery (still and moving) and colour to create word and colour association.

Create Personalised Themes

Teach the curriculum in a new and exciting way using this immersive technology. Reflect the users interests with media and colour- this could be trains or a popstar it is really versatile.

Stimulate

As the Sensory Magic® experience can be customised to suit individual needs, sensory sensitivity can be provided for.

Images can be selected to be visually stimulating, including different levels of pattern and motion, or on the flipside the experience could be visually plain and static. Sounds and music can be chosen according to individual tastes, and the volume adjusted to please even the most sensitive of ears. Lighting levels can be strictly controlled, and smells introduced gradually, as required, as tolerance grows.

Relax / Reduce Anxiety

Sensory Magic® offers the individual a safe sensory environment which is structured and predictable. The sensory room can be set according to each individual's needs and preferences, so that each and every time the experience is identical, providing continuity and stability. In this way, anxiety levels are kept to a minimum. The MSE can be subtly and slowly altered over time to introduce new colours, images and sounds at the individual's own pace.

A key function of Sensory Magic® is its potential to alter an individual's mood through the use of colour, light, sound, and stimulating visual images. Individuals can be immersed in a virtual reality experience honed to their own needs and preferences. Individuals can be calmed by images and sounds from nature, relaxing classical or meditation style music, or distracted by humorous videos of swimming goldfish or apparently pondering pigeons – with the ability to create your own themes, the possibilities and choices are infinite.

Key benefits of Sensory Magic®

- Stimulates the senses in a selective, structured and well-balanced way.
- Immersive themes and environments.
- Huge opportunities for interaction, learning, choice, control and empowerment.
- Compatible with a large range of Rompa® multi-sensory products.
- Allows otherwise unattainable experiences.
- Customisable and continually updatable.

The Software

A unique feature to Sensory Magic® is the ability to record, track and adapt your sessions and equipment in a structured and therapeutic manner. Dependent on user likes and dislikes, Sensory Magic® can be customised to adapt to their needs. For instance, if a particular colour is disliked, Sensory Magic® can be programmed with one touch to remove the colour from the session.

In addition to the base Sensory Magic® Software, there are several add on packages that are ideal for certain uses, age groups and environments.

Care™ (Caring Approach to a Reminiscence Experience)

Specifically developed for those individuals experiencing symptoms of dementia, Care™ helps improve care giver and user relationships, aids reminiscence, promotes social activities, communication and stimulates brain activity in a fun and engaging way through various games and activities.

Profiling Assessment Tool for Sensory Development

Developed in conjunction with University of Southampton, the assessment tool allows therapists and carers to understand the users' sensory preferences in regards to a Multi-Sensory Environment. This simple to use tool provides an invaluable insight ahead of working with them, allowing positive behaviours to be encouraged.

Portable Sensory Magic®

Includes touchscreen all-in-one PC with keyboard and mouse. Pre-loaded with the same software as the wall-mounted version. Compatible with the same Rompa® products as the wall-mounted version.

Sensory Magic®

Exclusively developed by Rompa®, the large Sensory Magic® Touch Screen system allows easy control of your Snoezelen® environment and features software that can be specifically tailored to each customer's needs. Features include:

- Accessible environmental control
- Inclusive - suitable for all ages
- Empowers users through interactivity, control and choice
- Operates Snoezelen® products such as bubble tubes, wall panels, projectors, lights and fibre optics – these can be switched on or off at one point
- Plays music (e.g. mp3/4, CD, wav, iPod and more)
- Plays various media (e.g. pictures, photos, movies, internet)
- Set timed mood lighting that is compatible with Rompa® Wireless controllers
- Fully customisable, immersive themes and environments through imagery, sound, colours and aroma (e.g. underwater scapes)
- Assessment tool incorporated for outcome measures - monitor user progress
- 'Bolt on' more Rompa® products at a later date - compatible with many Rompa® products, including the Rompa® Interactive Lighting System
- User friendly – easy to operate touch-screen with a simple, intuitive navigation system
- Client-friendly – choose from our extensive range of Wi Fi products (e.g. our Deluxe 8 Colour Wirefree Controller)
- Sleek, modern and robust
- Wireless for seamless and instantaneous control of individual products as well as whole rooms

This versatile system includes a touch screen, software, wireless keyboard and mouse, digital projector and stereo speakers. For safety, it can be locked when not in operation. By using Sensory Magic® with the wide range of compatible Multi-Sensory products made exclusively by Rompa®, users can create unique immersive environments and experiences like never before; and control them. Both the fixed and portable systems require, but do not include, Rompa® Wireless multi-sensory products and internet access for remote support - see www.rompa.com for compatible products.

Meeting all appropriate CE and FCC standards, this cleverly conceived package is compact and simplicity itself to use.

Rompa® wireless controllers

Rompa® wireless connectivity means many elements of your sensory room can change in harmony with each other.

Switches open a world of interaction to individuals who experience restricted movement, help to improve motor skills and help relay information about cause and effect. These devices can be very empowering, allowing the user to control many aspects of their environment at the flick of a switch.

Sensory Room Switches come in a variety of shapes, sizes and types, some even look like soft toys. Whether you need a Sensory Room Switch that reacts to sound, movement or touch, you'll find a switching solution that meets your needs below.

"Respect for the person's own choice and his own pace are a matter of course."

Super Switch - Deluxe 8 Colour Wirefree Controller

The king of switches! Wireless and wonderful! Controls 8 colours!

- With pre-recorded multi-lingual words and sounds (colours, numbers, fun sounds and a musical scale so you can play tunes)
- Wirelessly change the colours of products
- Timer facility to adjust the length of time a colour is activated
- Rechargeable – includes charger which doubles up as a plug if you forget to charge it
- Customisable - with a USB port so you can add your own sounds
- Sounds can be removed altogether to avoid sensory overload and to aid individuals who sensory avoid to grade up their tolerance
- With 9 large, raised buttons to interactively operate multiple products
- With 9 external 3.5mm jack sockets to add your own switches
- Can be used with Sensory Magic®, Midi and Maxi Bubble Tubes, Light Source, Rompa® Wall Panels, Wireless Spotlight, Wireless Mood Lighting, Wireless Colour Controller and more
- Additional controls on the underside including LCD display with pre-programmed functions
- For all ages and abilities

Snoezelen® Sensory Trolley

Multi-purpose and mobile. On high quality castors with brakes to allow the unit to be moved from room to room. With an integrated tactile panel on one large side and several colourful storage trays on the other. Trays have a built-in stop mechanism and so can't be accidentally removed.

The tactile panel houses speakers which are safe to touch and can be used to provide auditory input. One short side has a shelf for your music system (not included) whilst the other has cut-outs for fibre optics. The flat top could be used for further sensory resources such as a projector. With a 6-gang extension lead inside. Requires just one mains socket. Supplied without additional sensory products so that you can select the components most suitable for your clients' needs. Not compatible with our 21986 Hi-Fi Audio System.

Stimulating, multi-functional, interactive and practical. With sensory elements on all sides to make maximum use of available space. Birch ply with a lacquered finish as standard to help protect the ply whilst it is wiped clean.

Weight: approx. 130kg

MULTI SENSORY ENVIRONMENTS - BUBBLE TUBES

Uses of Rompa® Bubble Tubes

- To draw attention, encourage focus or to distract – colour, lights and bubbles are visually engaging
- To lift mood (provide enjoyment)
- To calm, encourage relaxation and reduce anxiety (which has physical and psychological well-being benefits)
- For visual tracking opportunities e.g. with fish, balls, cubes (which has implications for many activities of daily living such as reading and writing)
- To provide tactile input (hold/cuddle the cool and firm tube to feel the vibration through the whole body and access deep pressure)
- To provide auditory input (soothing humming of the pump)
- For meaningful communication and learning (the right level of activity), with switches and controllers, such as colour recognition, social skills (turn-taking) and understanding cause and effect (and for supervisors to learn more about users' sensory preferences and needs)
- To allow choice and control and so empower users (fundamental aims of Snoezelen®) through a variety of controllers, including a microphone
- To practice motor skills – pressing buttons on switches, throwing cubes, reaching up and around the tube
- To maximise space – bubble tubes can be tall and have compact bases. Combined with slim acrylic mirrors, a bubble tube corner provide a striking and vibrant focal point in sensory rooms, bedrooms and more

MULTI SENSORY ENVIRONMENTS - BUBBLE TUBES

Key Features

Bubble tubes are an essential component of a Snoezelen® Multi-sensory Environment, these bubble tubes are a complimentary focal tool for sensory regulatory activities or used interactively.

- Multi-sensory - audible, tactile, temperature and visual sensory input
- Suitable for individuals of all ages (use under close supervision)
- Attracts attention, concentration and engagement
- Encourages visual tracking, physical movement and hand-eye co-ordination
- 8 colours provide a calming, relaxing ambience, also promoting colour recognition and visual perception
- Smooth surface and cooler temperature of the tube provides tactile contrast and feedback

Reliable and Safe

Designed with reliability and safety as a priority, these bubble tubes give years of service, continuing to bring relaxation and stimulation to any multi-sensory environment.

• sales@rompa.com • 01246 211 777 • www.rompa.com

Attracts attention and enables concentration and engagement

Rompa® Bubble Tubes

Rompa® Bubble Tubes

Interactive and with LED lights - they are easier to maintain than ever before with their fill and empty from the bottom feature! Beware of poor quality imitations!

Designed with reliability and safety as a priority, these products will give years of service, bringing relaxation and stimulation to any sensory room or multi sensory environment.

Key Features

- Cycle through the full spectrum of colours, every colour in the rainbow and all the shades in between!
- Wireless compatibility
- Facility to be easily programmed to the users requirements

Compatible Products

- Mirror panels provide further sensory input, creating the illusion of more bubble tubes. (product code 11160)
- Give your user choice and control of the sensory stimuli level. This could potentially aid assessment of preferences/likes/dislikes, assist with teaching and learning skills (using compatible switches such as the Super Interactive Switch Box (product code 17274)
- 8 Colour Wirefree Controller (product code 19847) or Talking Cube (product codes 18870 and 20402).
- A bubble tube collar is recommended to secure the bubble tube to a wall (15192 - 20cm) or (14694 - 15cm)

Custom-Made Cushioned Platforms

Rompa® can manufacture cushioned platforms to suit your space exactly. You tell us the dimensions and shape it needs to be, how many bubble tubes it's for and if 'mouse holes' are required for fibre optics. We will gladly then prepare a quotation for you.

We can of course also supply mirrors in almost any size to compliment your bespoke platform.

Cushioned Platform by Rompa®

A foam padded wooden frame designed to encase the bases of up to three Bubble Tubes. Allows access to the base of the Bubble Tube for maintenance. When ordering, please state the number of bubble tubes to be accommodated and the position of platform. Tube hole is 30cm away from the wall edge as standard. Vinyl - please specify colour when ordering. Customised options available - We can manufacture these in sizes and shapes to suit you at very reasonable prices. This product has a zip for manufacturing purposes only. Bubble tube(s) and mirrors to be purchased separately.

£325.00

USES OF ROMPA® FIBRE OPTICS

1. To provide visual stimulation and facilitate safe access to light, including amongst visually-impaired users and those with PMLD – the fibres can be safely held.
2. To provide tactile stimulation – the soothing weight of a harness across the lap or stroking the tips across the hands, arms etc. like a brush. Some fibres are textured, such as our Bamboo Fibre Optics.
3. To separate off areas and visibly create zones within a space using Combs and Curtains. Users can feel immersed and safely enclosed in these areas.
4. To calm, soothe and encourage relaxation – through softly changing colours and by providing a distraction from anxieties and discomfort.
5. To allow choice and control and so empower users (fundamental aims of Snoezelen®) through use with a variety of controllers, including a microphone. Individual strands can be used or whole harnesses, again facilitating choice and a person-centred approach.
6. For learning opportunities e.g. colour recognition (the colour changes dynamically) as well as colour matching and understanding cause/effect when used with controllers.
7. To provide sensory input to immobile and bed-bound users through ceiling-mounted Clouds, Panels, Circles and Chandeliers. Using a fan near suspended strands, moving these gently can increase the visual effect.
8. To maximise space – fibre optics can be threaded into carpets – we have options for floors, walls and ceilings.
9. To help individuals on the Autism spectrum to concentrate and improve attention.
10. To encourage motor skills and exploration – strands can be fanned out, threaded through loosely-knitted items, draped over the body, wrapped around the body and fingers can be passed through the tails.

Please note prices are subject to change, contact sales@rompa.com, 01246 211 777 or www.rompa.com for our latest prices and availability.

Customer Review; Super Safe Fibre Optics, Light Source and 8 Colour Wirefree Controller

"The package of items work well together, producing clear bright light effects which change instantly when different buttons are pressed. The fibre optics are very effective for our visually impaired children and for those with autistic spectrum conditions and PMLD, and the children like to run their fingers through the fibres as the colours change."

Caroline Jones., Grant Co-ordinator, Gloucestershire

Customer Review; Super Safe Plastic Fibre Optics

"Fab lights. My girl loves them in her sensory corner. I've tried other like this from elsewhere and these are the best ones we have had."

Sarah H., Verified Buyer

Customer Review; Super Safe Plastic Fibre Optics

"These are fantastic. Very long and loads of strands to them. Just brilliant and worth every penny!"

Amanda S., Verified Buyer

Fibre Optics with Light Source

**Light Source (White Light) with UV Fibre Optics**

Manufactured from durable ABS and supplied as standard in a white finish. This illuminator range utilises a white light LED array and is suitable for use with either glass or PMMA fibre. An inbuilt decorative wheel allows for the creation of a twinkling effect. Sparkling, captivating, stunning and now glowing too! Fibres twinkle like your usual fibre optics, but there's more! Double their effectiveness and use them under UV light for glow-in-the-dark strands and extra visual appeal. With crimped ends.

R424106 2m x 100 strands with light source

£375.95**Light Source (Colour) with Fibre Optics**

A remote control, colour change fibre optic illuminator for decorative or sensory use, manufactured from hard-wearing ABS. Powered by LED technology and controlled by an advanced RF remote control which features a multi-colour touch wheel allowing you to instantly switch to almost any colour imaginable. As well as choosing from an array of static colours, the remote control also gives the ability to start and stop colour cycling on any colour. Use of all fibre optic products should be supervised. Our plastic tail fibre optics are the safest on the market, even so, they should not be mouthed or chewed as doing so can expose sharp edges. Potential use: people with sensory avoidance/light sensitivity difficulties may find this particularly beneficial.

R424105 2m x 200 strands with light source

£488.95**Light Source (White) with Fibre Optics**

Manufactured from durable ABS and supplied as standard in a white finish. This illuminator range utilises a white light LED array and is suitable for use with either glass or PMMA fibre. An inbuilt decorative wheel allows for the creation of twinkling effect.

£395.95

Fibre Optics

Fibre optic lighting stimulates sensors, but it offers many sensory benefits outside of sight!

Fibre optic lighting strands can be touched, held or even draped around the user for a tactile feeling. Touching strands can be therapeutic, individual strands offer a more calming experience as it does not cause sensory overload.

Each strand rustles and has an audible sound as it drops against other strands which can give a calming and distracting feel.

Rompa® Interactive Lighting System

Music through movement! A whole new meaning to air-guitar and pretend drums! Interact with beams of coloured light by passing a hand, foot or reflective bat through them. Trigger sounds at the wave of an arm ... Activate chords at the sweep of a bat ... Play interactive music games whilst setting off images, videos and graphics...

This range is extensive and evolving. Contact us for information about further options.

R420127	8 beam system	VAT Relief	£6995.00
R420128	4 beam system	VAT Relief	£5220.00

Key Features:

- Numeracy play
- Timer Control
- New musical features

Even more to inspire and empower participants to influence their own environment and get couch and mouse-potatoes moving!

Includes:

- PC or Laptop
- Cool-running beams with long-life low voltage bulbs, all cables and accessories
- Control Box
- Software
- Reflective bats
- Reflective floor pads
- Manuals

Other options are available, including projectors and mobile systems with 2 or 4 beams.
Options also available for water environments.

Customer Review

"The system has been a very accessible and exciting for our pupils. It is very responsive to the smallest movement so even our more physical disabled pupils have been able to produce sound and contribute to a greater sound installation, for example, our iPad Orchestra. Pupils were very keen to give it a go and experiment with the sound effects."

Ellen Croft, PMLD Curriculum Leader, Leicester

Customer Review

"Excellent for immediate engagement in a huge range of activities that can cover pretty much any area of the curriculum. For first-time musicians it can be used as an errorless method to explore an instrument or for those struggling to engage in maths, it can be subtly woven into numeracy-based activities... Easy to use which enables all the staff, regardless of their IT capabilities ... One of the greatest features is that it can be completely customised to suit the needs of a wide variety of learner profiles... Our learners have loved using the Optimusic system and are also realising the health benefits as 'Chase the team' has become enormously popular."

Chris Buckley, Head of Education, Seaford

Customer Review

"A valuable resource for customers using our service at Goscote Centre. It provides multiple benefits where our customers can explore the sensory environment via the use of interactive beams. Uploading photographs personal to the individual using the system creates a unique experience which can be comforting,

Whilst enhancing learning and play. The sessions are tailored and personalised to meet individual need which is an objective we aim to achieve throughout our day to day service delivery. We use our system in many ways e.g. to develop interactive skills within small groups to encourage the users to take turns to activate the beams. For customers who benefit from visual stimulation seeing images that change as a result of their actions develops their understanding of cause and effect."

Emma Partridge, Senior Reablement Officer, Day Opportunities & Employment Adult Social Care

Interactive Wall Projection

Immersive and inclusive full-body interaction for learning, therapy and play!

EVERYBODY PLAYS

Helps to develop interaction and communication skills through creative multi-sensory game play. The software supports 6 players using full-body interaction with additional options for eye gaze, speech, switches, touch, game controllers, mouse and keyboard inputs

THE BODY IS THE CONTROLLER

Open up a fun new world of accessible interaction and bring your spaces to life with kinaesthetic game play!

Interaction Modes

1. Augmented Reality

See yourself reflected in a mirror video image with live camera mode displaying your real-time image and environment. Virtual objects and interactive content will appear around you augmenting the experience, interact to bring your surroundings to life.

2. Inset

Inset mode is the same concept as green screen, only here there is no need for a green screen. Inset mode removes the background environment and place users into virtual play environments. This is great for removing clutter and helping users focus on the content and activity.

3. Shadow

For those that do not like to see themselves in the videos image, Shadow mode helps to reduce anxiety by rendering the user image into the scene as a dark filled shadow. Shadow mode also removes the background environment and place users into a virtual play environment.

4. Avatar

Take control of on-screen avatars and watch the characters come to life with the movements you make. Open up a new world of Kinaesthetic fun in 3D space and explore spatial awareness, proprioception and enhance your ability to sense the position, location, orientation and movement of the body and its parts.

5. Facilitator Mode

When working with a single user it is possible to set it to only track one user. This means caregivers can appear in the scene to support a user without interacting with the content. All interaction will be attributable to the user.

Support the development of movement and coordination with fun interactive play

- Everyone Interacts
- Support Physiotherapy
- Environmental Control
- Learning Content
- Communication
- Self Awareness

Key Features

100s of Apps

Comes with a wide range of fun and engaging content designed to stimulate and promote inclusive interaction using any of the supported access methods. Play with movement, eyes, touch, speech, switch and more.

Playlists / Schedules

Create playlists and have the interactive wall play them to schedules you set. This means the system can auto play scheduled playlists without the need for a facilitator. Particularly useful in hospital and waiting room settings.

Favourites

Home screen shows all of your favourite apps so you can run them easily without navigating. Simply star an app for it to appear on your home screen.

Collections

Group apps into your own custom collections and make it easy to retrieve personal favourites or apps designed for lessons or therapy sessions.

Access Menu

Useful off-screen access menu that enables switch and eye gaze settings to be changed while the games are running. This menu can also be controlled by speech.

Remote Control

Conveniently control all aspects of Magic Mirror™ remotely from our control app. Includes ability to shutdown the system.

Bring surfaces to life and create an inclusive play environment for people of all abilities!

INCLUSIVE PLAY

Interactive Wall is an award-winning interactive projection system that displays motion responsive games and activities. It offers a wide variety of stimulating content that is suitable for multi-sensory exploration, play, learning, therapy and relaxation.

NATURAL USER INTERFACE

Interactive Wall removes many barriers people face interacting in mixed ability groups by offering a universally accessible interaction platform. Enabling everyone to participate on equal terms, to create an inclusive play environment.

Immersion & Interaction

1. Responsivity

The slightest movement over the projected image will cause an audiovisual effect response. User interaction creates real-time communication feedback with the content and allows games and activities to be responsive to body movement.

2. Interaction

Allows multiple users to interact at the same time using a variety of different inputs, opening up a world of collaborative exploration and play. Output the image to a second monitor to enable eye gaze users to interact with peers that use body movements.

3. Dynamics

Applications offer dynamic physics capabilities allowing movements to interact with virtual objects in a realistic way. Physics properties can be adapted so that small movements can be amplified to create a larger audiovisual effect.

4. Stimulation

Caters for a wide range of needs with applications designed for early stimulation, exploration and engagement. From simple coloured effects to realistic fish ponds, quizzes and games, provides variable stimulation levels for the needs of a wide range of people.

5. Kinaesthesia

Participants use their limbs and body to interact with the content, helping to enhance their sense of movement while shifting position, orientation and reaching out to interact with game objects. It is designed to get people moving and exploring their environment in a safe way.

Interactive Wall Projection

Imagine looking into a mirror and seeing yourself playing drums, splatting critters or tapping stars to change their colour and to make sounds. A movement of the hand or a flick of a finger can trigger any number of audio-visual events around you. Truly immersive, responsive, and rewarding. For individuals and groups. Fully customisable.

Size: Projection 1.5m to 2m wide; optimum distance projector to wall 35cm - 45cm

R423172 Mobile Wall 75W x 55D x 63H cm VAT Relief **£7995.00**

Product Features

Inputs

Setup eye-gaze input, assign switches, game controllers, speech commands, and keyboard inputs to deliver accessible interactive gameplay for all.

Body Control Points

Set collider points on any one of the 25 available body parts and allow users to interact using the body as a controller.

Game Objects

Add interactive images and animated gifs to appear in your activities and have them transform on interaction using easy to apply game logic.

Voice and Switch Objects

Call object images into the screen using voice commands and switches – say 'dog' and dog image appears in the screen – this is useful for aiding symbol and speech comprehension.

Object Effects

Add stunning particle effects, explosions and transitions to object interactions and keep people engaged with dynamic audio visual content.

Camera Effects

Enhance you activity designs with one of the stimulating full-screen camera effects like water ripple or a spooky film filter.

Backgrounds

Colours, images, videos, mask layers, live cameras and YouTube as background layers. Build up scenes with stunning graphics.

Media Library

Media Library with 100's of stunning images, videos and sounds to use in your activity designs. Includes PCS Core Symbols from Tobii Dynavox.

Record HD Videos

Record user interaction in HD with in-screen game video showing how users interacted. Keep track of your sessions and use to inform levels of engagement.

Immersive Projection Environments

Accessible multi-sensory communication environments for learning, therapy and play!

Combine an interactive floor with an interactive wall or choose 360° interaction for a truly immersive environment which allows users to explore communication, amplify capabilities and make environments more responsive.

An immersive room makes it possible for educators, health professionals, parents and caregivers to deliver accessible experiences designed for individual sensory, communication and access needs. It is designed to support individual interaction and communication needs and helps caregivers to access the world of the user!

Gesture-based, individuals use movement to create dynamic effects on the surfaces around them. Using highly responsive hardware, the latest motion-tracking technology and inviting, easy-to-use software with pre-loaded and editable themes, these systems offer endless opportunities for education, leisure and therapy.

These environments bring learning to life and help to engage and include individuals of all abilities, as well as facilitating virtual experiences that may otherwise be inaccessible.

With edge blend technology your immersive room can feature content that can seamlessly wrap around corners, use curved projection or produce large panoramic landscapes. Projectors can also operate individually for multiple and independent activities in one area.

What's more, customers can customise the imagery and sounds to suit personal need, adding their own photos, videos or music to tailor the environment to their requirements.

Each room is different and hardware is available in a range of specifications.

Please contact us for a quotation

Supporting individuals with complex needs

Everyone Plays

Provides an inclusive play experience for people of all ages and abilities and supports a wide range of inputs and controls!

Versatile

The breadth of content makes suitable for education, therapy and play. Great for schools, hospitals, care settings, day services, play centres and more!

Multi-Sensory

Interact with variable stimuli, visuals and sounds that respond when you move. The system also responds to objects, so you can use tactile objects to enhance the experience.

Why get an immersive room?

Create meaningful and engaging experiences for people of all abilities

Create Accessible Lessons

With an Immersive Room you can design how your lesson is delivered, what content is needed to meet the needs of pupils and how they will access it. An Immersive Room frees you from the PC and allows you to control things from anywhere so you can elaborate on subjects, without moving away from a pupil. The scope for designing things to meet individual needs is as wide as the creativity of the educator.

Explore Communication Scenarios

Design accessible communication scenarios and allow people to develop their skills using AAC devices and a wide variety of assistive access tools. Since all access methods and devices work together you can make scenarios that work for all and enable people using different devices to communicate together.

Support Therapy Goals

Develop speech and vocalisation skills, promote AAC usage with enjoyable and collaborative communication scenarios that allows AAC users to communicate with their peers, develop switching and access skills, fine and gross motor skills and more. The therapeutic applications and benefits are wide ranging, whether working on responses to multi-sensory stimuli or isolating and focusing on sound, light, touch, vibration at any time. No complex setup.

Interactive Sensory Stories

A sensory story is a highly engaging way to deliver accessible experiences. These are even more engaging when there is a dimension of multi-sensory feedback and interaction. Immersive Rooms allows for use objects as controllers - grab a bunch of story items and have people use them to make stuff happen in the story! Say the name of a character and it can come to life. When you have a good story you can tell it in lots of ways because Magic Room is non-linear so you can jump to any part. No story ever need be told the same way. This is also true for leaning content and lesson delivery!

Engaging Multisensory Themes

Immersive Rooms has the potential to support a wide variety of sensory and learning needs and is designed to offer variable levels of output intensity so that stimuli can be increased and decreased to meet an individual's changing needs. Magic Room has a wide range of pre-designed experiences to get you started and offer masses of potential for you to create too!

Make Accessible, Inclusive Music

Turn your environment into an inclusive musical instrument and performance space and use any input device to play accessible music. Add your own sounds and make your own instruments, use objects to trigger sounds and phrases. Say and play Happy Birthday to peers using any input device!

Accessible Format

Turns any surface into an engaging interactive experience. Project on to floors, tables, beds, wheelchair trays and more.

Creativity

Unleash your creativity. Input your own images, artwork, music and photos to create highly personalised activities for education, therapy and play!

Hygienic and Safe

In hospitals and environments where minimising infection risks is essential, is the perfect inclusive play solution that helps to keep communal play spaces safe and clean.

Snoezelen® SurfPro™ Mobile Interactive Floor Projector by Rompa®

Why choose this Mobile Interactive Floor Projector?

Everyone Plays - providing an inclusive play experience for people of all ages and abilities.

Adjustable projection height - the system unit height can be adjusted to create a larger or smaller active play projection area which also allows the projection to be displaced onto table top surfaces.

Versatile - The breadth of content makes it suitable for schools, hospitals, care settings, day services, play centres & more!

Multi-Sensory - The system also responds to objects, so you can use tactile objects to enhance the experience.

Accessible Format - Turns any surface into an engaging interactive experience. Project on to floors, tables, beds, wheelchair trays and more.

Creativity - Unleash your creativity. Input your own images, artwork, music and photos to create highly personalised activities for education, therapy and play!

Hygienic & Safe - In hospitals and environments where minimising infection risks is essential, it is the perfect inclusive play solution that helps to keep communal play spaces safe and clean.

What are the software features?

- 35 Templates - Create your own content.
- Media Library - Over 5000 royalty-free media assets.
- Collections - Favourites or apps designed for lessons or therapy sessions.
- Categories - Make it easy for users to find applications for specific user requirements.
- Playlists / Schedules - Run and launch apps without the need for an operator.
- Favourites - Simply star an app for it to appear on your home screen.

Image size: 1.3mW - 3.6mW (dependent on height of frame)

Projection mat sold separately - see rompa.com for details.

Snoezelen® SurfPro™ is a super portable, interactive floor projection system that brings surfaces to life which fosters an inclusive play environment for people of all ages and abilities.

The interactive projection system displays motion responsive games and activities on to floors, offering a wide variety of stimulating content that is suitable for multi-sensory exploration, play, learning, therapy and relaxation. Complete with a natural user Interface that removes many of the barriers people face when interacting in mixed ability groups by offering a universally accessible interaction platform and enables everyone to participate on equal terms and helps to create an inclusive play environment.

Responsivity

The slightest movement over the projected image will cause an audiovisual effect response.

Interaction

Allows multiple users to interact at the same time using a variety of different inputs, opening up a world of collaborative exploration and play.

Dynamics

The Projector's applications offer dynamic physics capabilities allowing movements to interact with virtual objects in a realistic way.

Stimulation

It caters for a wide range of needs with applications designed for early stimulation, exploration and engagement. From simple coloured effects to realistic fish ponds, quizzes and games, the Projector provides variable stimulation levels for the needs of a wide range of people.

Kinaesthesia

Participants use their limbs and body to interact with the content, helping to enhance their sense of movement while shifting position, orientation and reaching out to interact with game objects. It is designed to get people moving and exploring their environment in a safe way.

Interactive Wall & Floor Projection

Compact Mobile Interactive Floor Projection

Our smallest system that was designed to make interactive projection accessible, affordable and easy at home, so families can replicate the benefits of the larger interactive systems their children access at school within the comfort of the home. Extremely portable and lightweight with no set up required. Includes themes, imagery, videos and sound effects for plug and play use, as well as click-together foam flooring and a full training manual. Roughly the size of a shoe box and weighing just 1.7kg, this allows parents to transform a bedroom or lounge floor into a fun and interactive environment. LED-based and low-voltage (one plug). 1000 lumens so the projected image is considerably less sharp than that of the other two mobile options. Wall-mountable. Optional trolley available for projecting onto a table top or wheelchair tray - contact us for more information. Image size: 1.2mW x 0.9mH.

R423386	12W x 15D x 19cmH	£3580.00
R423417	Wheeled Frame	£349.95

Ultra-portable

One of the smallest, most portable interactive projection units available. Lightweight and easy to move from room to room, offers instant 'plug and play' operation with no setup required. Ideally suited for use in a classroom, or at home, it creates bright, stimulating projections which interact with movement and touch.

Easy to Use

With the optional Trolley it can project onto a table allowing almost any surface, including wheelchair trays, to become interactive. Easy to install, this system transforms any floor, in a domestic or educational setting, into a fun, immersive and interactive environment. Being only 12cm wide, 23cm high and 15cm deep, it is truly compact.

Amazing Content

The software and high brightness projector create multiple themes and images which are combined with in-built speakers for audio effects. The range of stimulating interactive and colourful themes includes 'Splat the balloons', 'scatter the leaves' and the interactive fishpond. Comes with approx. 300 pre-made pieces of interactive content to get you started and the ability to add any image, video, or audio file to create your own interactive content.

Cost-Conscious Mobile Interactive Floor Projection

Portable sensory system combining high technology with simple design to provide a fully portable system for use in schools or at home. Lamp-based with 3500 lumens and so produces a much brighter and sharper image than the Compact version and a maximum projection size of 109 x 143cm..

Requires just one wall socket. Weight: 15kg. Size: 42W x 20D x 72cmH (out of frame); 59W x 43D x 72.5cmH (in frame); image size: 1.6mW x 1mH.

R423385 59W x 43D x 72.5cmH in frame **£4500.00**

SENse Flex Plus Projector

A mobile, portable interactive Sensory System capable of gesture wall projection, as well as floor and table projection all from the same unit.

The SENse Flex Plus combines new technology with a simple design to provide an affordable, fully portable system for use in schools or at home. The SENse Flex Plus creates colourful, engaging floor projections which respond and interact with body movement. Create a complete sensory zone by allowing even those with limited movement to alter many aspects of their immediate environment. The SENse Flex Plus is fully mobile with castors and electronically height adjustable at the touch of a button, allowing the projected surface to work equally well on the floor, table or bed.

Variable Projection size from 1.35m (W) x 1.03m (H) to 3.1m (W) to 2.24m (H).

The SENse Flex Plus has an in-built gesture camera, simply lay the SENse Flex Plus onto its back and it will project an image onto the wall and will allow you to interact with the theme on the wall via gesture. Within the software, the ability to use the webcam will allow you to see yourself while interacting with the projection.

- Cloud-based editor access is free for the first year.
- Optional subscription from year 1 allows continued access to the cloud editor and remote and telephone technical support.
- Pricing for the subscription is £495 + Vat per year.
- If you choose not to take out the subscription after year 1 then you will lose access to the cloud editor and no longer have the ability to create your activities or profiles, you will still have access to the originally supplied activities as well as anything you created in the first year.
- Remote support can still be accessed out of subscription but is charged on an hourly basis.

R424270 50H x 50D x 70W cm **£7995.00**

Project onto walls, floors and tabletops!

Home Projector Set

Compact but high quality. Projects a sharp image in a darkened environment. Suitable for small spaces and can be used a few metres from your wall. With a light output of over 500 lumens. Includes 16GB micro SD card with both still and moving images such as soothing flower fields, under water scenes, aquarium vistas, forest scapes and waterfalls. The SD card can be expanded or over-written with your own images if you prefer more person-centred content. An alternative to the revolving and repetitive imagery provided by the traditional Snoezelen® LED Projectors which project part of an image at any one time. Includes compact speakers and a table stand. Can be linked to a PC and HDMI cables (neither included). Model may vary subject to availability.

BENEFITS:

- Multi-sensory – visual and audible
- Takes up minimal space
- Excellent clarity of imagery and sound
- Includes remote control for easy operation
- Customisable content for person-centred care
- Economical as speakers, tripod, remote, storage bag and sound card all included

Create Your Own Effect Wheel

Use this clear wheel to create your own effects for the LED Projector, LED100 Projector and the Aura Projector. Use pens, clear materials and photographic transparencies to create effects that meet your needs. Create your own bespoke and personalised beautiful effects. Buy our Sticker Packs separately for use with this wheel at www.rompa.com.

R422336 15cm diameter VAT Relief **£24.95**

Mirror Ball

When a spotlight is shone onto the Mirror Ball, multiple reflections of moving lights cascade around the room creating a truly mesmerising experience. The mirror ball works at its best attached to a motor which rotates the ball. This is not included but can be purchased separately (product code 18524 or 18525). The drive unit needs to be fixed to the ceiling or overhead support and connected to a 240v mains supply. Ideally used with an LED Spotlight e.g. Wireless LED Spotlight (product code 20878). Typically with glass facets. Locate out of reach (not intended to be handled).

R424282 Mirror Ball - 30cm diameter **£49.95**

R418524 Motor 1 - 1½ RPM. Our recommended means of revolving a mirror ball.
Requires ceiling-mounting. **£32.95**

R418525 Motor 1/2 RPM. Our recommended means of revolving a mirror ball.
Requires ceiling-mounting. **£83.95**

Wireless LED Spotlight

Compact, cool-running and maintenance-free spotlight. Choose one colour light all the time (6 options and white), from several colour changing programs or use interactively with a Rompa® Wireless controller and Sensory Magic®. Visual effect is easily adjusted using DIP switches underneath, as is speed of colour change. No need for a colour wheel or lamp changes. With integral, angle-adjustable bracket. For indoor use only. Weight: 0.8kg.

R420878 18 x 12 x 10.5cm **£199.95**

Portable Mini Spotlight

Perfect for highlighting smaller areas with colour. With a removable bracket for suspension from a ceiling. Considerably cooler-running than traditional spotlights. Compact and safe. Pre-programmed, including sound-responsive effect. Not especially suited to use with mirror balls. Rechargeable, or use the included 12V adapter as a power supply. With a remote control.

R422969 12cm diameter x 9cmH **£68.95**

Wireless LED Strip Light System

Lighting that's as flexible as it is interactive. Perfect for edging, highlighting and bordering walls, stairs, ceilings, doorways or virtually wherever you want in your indoor area. Includes self-adhesive Wireless LED Light Strip and power supply. Compatible with our Wireless controllers and Sensory Magic® for remote control of colours. Not intended to be handled - install out of reach such as behind a short pelmet at ceiling height.

Lighting for Sensory Solutions

Creative lighting can help children with sensory processing needs, providing a sensory calming experience whilst simultaneously stimulating creativity and capturing the imagination. Lighting with colour and movement can aid with object tracking and visual development.

Mini Jellyfish Tank

The Jellyfish lamp is perfect as a nightlight, a mood light or just a conversation piece. Lose yourself watching the Jellyfish gracefully float about.

R424024

£16.95

Calming Pup

Practise mindfulness for kids with Pawz, The Calming Pup™, the light-up companion for children that's also a night light. Squeeze Pawz's foot and follow the lighting prompts that guide children through 3 breathing exercises for kids. Children inhale as Pawz gets brighter, and exhale as the light dims. Pawz has a built-in night light function that can be set for 5, 15, or 30 minutes. Ages 3+. Social emotional learning (SEL) is the process of developing self-awareness, self-control, and the interpersonal skills children need throughout their lives.

R424349

£21.95

Jellyfish Tank

Relaxing and visually appealing mood light with 5 neon jellyfish inside. Colour phasing or single colour modes. Mains powered - low voltage adapter included. For decorative purposes only – not intended to be handled. For 14 years and over.

R422831 35 x 20 x 8cm

£71.95

Moon Beam

Perfect for any budding astronaut, this awesome moonrock mood light is brought to you from outer space and makes the perfect night light! This light features a lunar faithfully replicated surface indented with craters and adds a warm and comforting glow of colour to any room – bringing a calm and relaxing atmosphere to your home. The LED light stands at 15cm tall and 15cm wide. Features: Wireless with USB Charging (cable included), 2 display modes: 2700k Warm White light, and 4000k neutral White Light, dim or brighten the light using tap touch controls, includes wooden desktop stand.

R424056

£15.95

Cosmic Effect Net

Decorative lighting to enhance your Snoezelen® room. To be used on a ceiling or out of reach on a wall. Includes controller for choice of eight different light sequences. With LED bulbs. Colours may vary (lights and net), as may size subject to availability.

R416217 440 x 150cmW

£113.95

Glitter Lamp

Colour changing liquid filled lamp creating a glitter display. Adds sparkle and glamour to any room. Requires 3 x AAA batteries or can also be mains operated USB cable included.

R424057 25.2 x 9 x 8.8 cm

£11.95

Glitter Lamp Bluetooth Speaker

The Glitter Lamp is an amazing sounding Bluetooth speaker that doubles as a colour-changing mood lamp. Pair this speaker to your Bluetooth-enabled devices and enjoy high-quality sound plus a multi-coloured glittering light show! Mains operated with USB lead supplied.

SEATING, POSITIONING & FURNITURE

Posture is an important aspect of daily life for able-bodied and disabled people alike. Posture habits are formed during the years of growth and development.

Our posture has an impact on, and is impacted by, the way we walk, sit and perform physical movements.

Our range of equipment and furniture will allow good postural positions to be adopted whilst providing a comfortable, safe and dignified seating or positioning option.

Available in a huge choice of colours. Choose from our standard PVC or 2-tone options - Faux Leather combined with Tactile Fabric. As these products have seams, they are not completely waterproof. Where there is the occasional risk of incontinence amongst furniture users, we recommend that PVC is chosen.

L/H refers to the left hand side from the perspective of the seated user, not from the view of someone looking at the settee in front of them.

The Chatsworth range includes individual pieces of furniture as well as settees and corner units that can be placed together to maximise the space available. These modular pieces can be used in a variety of combinations and are perfect for waiting areas.

For example, team a 3 Seat settee that has a single arm with a Corner Unit to fill a whole wall. A second settee with the opposite single arm could be added to the other side of the Corner Unit to fill 2 adjacent right-angled walls.

With so many colours, sizes and sensory options to choose from, it's up to you!

To make the furniture even more comfortable and inviting-looking, why not add some scatter cushions? Choose matching colours or contrasting shades for visual stimulation.

Deluxe Fabric:

Faux Leather Fabric

Available in striking modern colours, this subtly-textured fabric is as hard wearing as it is stylish. Vibrant yet tasteful, this strong fabric is a combination of PVC, Cotton, Polyester and PU. Fire-retardant (Crib 5), phthalate-free, anti-microbial and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching.

Whole pieces of Chatsworth furniture can be made in up to two colours of Faux Leather, or one colour can be selected with one colour of Textured Fabric on the sides.

Corner Unit

PVC - please specify colour when ordering.

R422535	Standard 90W x 90D x 75cmH	VAT Relief	£799.95

Chatsworth Scatter Cushion

A lovely finishing touch to complement your Chatsworth furniture. Provides additional comfort and visual appeal. Choose the same colours and fabrics as your chair/settee or choose contrasting shades and fabrics for extra visual and textural interest. Please specify a maximum of two colours per cushion when ordering.

R422864	PVC	35 x 35cm	£59.95
R422865	Faux Leather	35 x 35cm	£56.95
R422866	Textured Fabric	35 x 35cm	£56.95

Deluxe Fabric:

Textured Fabric

Contemporary yet classy colours with a blend of texture and softness to suit every indoor environment. Beautiful, tactile and practical. Fire-retardant (Crib 5), stain-resistant, phthalate-free and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching. All the colour options are anti-microbial.

The sides of these products can be made in Textured Fabric, whilst the remainder (e.g. seat and cushions) is typically in Faux Leather.

DE-ESCALATION ROOMS

Rompa® can design and install calming spaces for demanding environments such as schools with students with Behavioural, Emotional and Social Difficulties (EBD), offenders' institutes and prisons.

These installed facilities provide a robust and safe environment where individuals with challenging behaviours and aggressive tendencies have an opportunity to calm down and be encouraged to manage their own behaviours.

Intended to reduce risk and potential injury, these low stimulation rooms are designed to foster the safety of the individual, peers and supervisors alike. These spaces should only be used as part of a wider structured plan following good practice guidelines and appropriate legislation. Use of these environments should always be for a carefully monitored and minimal time, with the best interest of the individual at its heart.

Scan the QR code to learn more or contact us

Furniture for demanding environments

Requests to include furniture in our range that would be appropriate for demanding environments encouraged Rompa® to design furniture and cushioning to meet those needs.

With the appearance and comfort of standard furniture, these products have additional features:

- Light with no hard corners
- Durable, moisture repellent covers to withstand robust use
- Hand finished seams which replace zip fasteners
- Additional sealing of seams for improved hygiene
- Chairs that support body weight when seated which will collapse when stood on

From consultation with carers and medical staff at high risk units such as Rampton Hospital, Rompa® have developed Seclusion Furniture. With great attention to detail, this thoughtfully conceived range promotes staff and patient/inmate safety. Durable, and easy to clean, this furniture meets all relevant safety and fire retardancy standards.

Seclusion Furniture by Rompa®

Specifically designed for use by clients with severe behavioural problems and unpredictable tendencies. Features:

- No inner wood or metal frame, therefore no hard surfaces
- No zips, cords nor sharp edges
- Client cannot hide objects in the chair
- Client's hands are visible
- Low position and sloping armrests mean client cannot get up hurriedly
- Available in Polyester or PVC - please specify when ordering.

BABY Sensory

Foam Wedges by Rompa®

A firm foam filled wedge covered in easy to clean heavyweight durable vinyl. Foam Wedges are ideal for use on chairs with the pointed edge to the back. For someone with increased tone and spasticity, the wedge puts someone in a more flexed position at the hips. Also used for raising the feet for foot care; on a bed under pillows to raise the head; during baby massage. Please state the colour required. Special sizes can be made to order.

R414037	Small	Size: 38W x 46D x 18cmH	£69.00
R414038	Large	Size: 50W x 50D x 23cmH	£77.95

Chunkies by Rompa®

Chunkies are versatile wedge cushions filled with polystyrene beans which mould to the body, creating a firm yet movable support. Useful for positioning, therapy and play. The Large Chunky could be used for lying on the floor with the user's back on the slope; a taller person could lean on it with their tummy on it; for providing relief from being in a wheelchair; for prone extension (strengthens the back and neck muscles and encourages the head to be held up); neck extension; help with sitting balance as you are building trunk support and for behind the knees (for those who don't like lying flat). To try to improve trunk control, start with support from a firm Wedge and then reduce support with a different sized Wedge or Chunkies Covered in heavyweight durable vinyl. Moisture proof and easy to clean. Please state the colour combination required.

R414036	Large	Size: 56W x 84D x 54cmH	£169.00

Weight load up to 250 pounds/114 kgs.

R423540

£148.95

Musical Water Bed by Rompa®

Fine vibrations of rhythm, tone and beat can be produced through your music system, which connects to the bed. These are picked up through the skin as tactile stimulations. The bed adapts to the body shape giving warmth, comfort and muffled noise, possibly similar to foetal experiences in the womb. The bed has a wooden base and is mounted on a giant loud speaker cabinet. The bed can also be used for interactive stimulation by means of the included microphone to create your own sounds. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. PVC - please specify colour choice when ordering.

R420192	Double	140 x 200 x 45cm	VAT Relief	£2150.00
R420193	Queen	160 x 200 x 45cm	VAT Relief	£2250.00

Customer Review; Musical Water Bed

"The bed was easy to set up with good instructions on its set up and use. The bed is a valuable asset in our sensory room serving to support, relax and stimulate children at different times. The musical aspect of the bed is especially useful for autistic children and those with PMLD who appreciate the sensory feelings coming through the mattress from the speakers below. The bed base and mattress are very well made and the speaker fitted into the bed base and amplifier and microphone supplied are of good quality and work well."

Caroline Jones, Grant Co-ordinator, Gloucestershire

Water Mattress by Rompa®

A heated water mattress which moulds itself to the shape of the body giving total unrestricted support without any pressure points. The gentle support by water allows even the slightest movement to be felt. The special double isolated heater pad with variable heat control maintains the mattress at a comfortable temperature. The water mattress is designed to be used on the floor or a suitable strong support capable of taking the total weight when filled - the double bed weight is half a ton. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. The cover is made from strong, reinforced durable vinyl which can be wiped clean and is available in a range of colours. Includes heater pad, fill kit, 17m (50ft) hose pipe, water conditioner and instructions. Platforms for the Water Mattress can be made to your specifications by special order. Vinyl - please specify colour when ordering. This product contains wood. Please note: image contains platform which is not included in product purchase.

Key Points

- Our mats are ideal for Sensory Integration rooms too!
- Floor Mats can be made with handles by special order. Should you need to regularly remove floor mats (to allow wheelchair access for example), Rompa® can make easy-to-move floor mats to suit your requirements.
- We can also manufacture mats using foam of different densities. Should you require firmer mats with less 'give', we can make mats with a choice of higher density foams.
- All Rompa® soft play products meet appropriate fire-retardancy standards.

Fabric colours can be found on pages 12 & 13. Alternatively please order a swatch via:
<https://www.rompa.com/fabrics>

Wall Mats by Rompa®

Available in phthalate-free and latex-free vinyl, with either flat or wavy 'Deluxe' tops. Alternatively, wall mats can be made in Faux Suede or in Themed Fabric. Rompa® offers two standard heights – 115cm for small children and 145cm for older children and adults. These can be used together for particularly high walls. Don't forget our installations service – mats can be made to measure and installed for you. Remember, our wall mats are 10cm thick as standard for the ultimate in safety! This product contains wood. Phone our Installations team today on 01246 211 777 or see www.rompa.com for more information.

Made from a foam covered wooden frame with a fixed vinyl base. Walls are 20cm thick. Supplied in one piece. Balls to be purchased separately. Please specify colour when ordering.

R414140 145 x 145 x 50H cm **£849.00**

R414141 145 x 145 x 72.5H cm **£999.95**

NUMBER OF BALLS REQUIRED FOR BALLPOOL

This table shows the number of boxes of balls required for standard sized freestanding ballpools. For non-standard ballpools, phone ROMPA® for advice before ordering balls.

FREESTANDING BALLPOOLS

50cm walls

Ballpool 145cm ²	3 boxes
Ballpool 217cm ²	7 boxes
Ballpool 290cm ²	14 boxes

72 cm walls

Ballpool 145cm ²	4 boxes
Ballpool 217cm ²	11 boxes
Ballpool 290cm ²	22 boxes

90cm walls

Ballpool 145cm ²	5 boxes
Ballpool 217cm ²	14 boxes
Ballpool 290cm ²	29 boxes

7.5cm Diameter Balls

These larger balls provide less points of contact with the body, and are popular with active users. Recommended for situations where there is any risk of ballpool balls being mouthed. 1 box of approximately 500 balls.

R413674	Mixed colours	£119.95
R414346	Clear balls (one box)	£133.95

Solid Structure Ballpools for all applications

Some people want to release energy whilst others wish to sink back and relax. Whatever your preference, ballpools offer an inviting opportunity for a major change in environment.

They provide safety and support for limbs and body. They allow movement whilst providing touch contact all over the skin area. Use ballpools as an adventure, pulling and pushing, lifting and falling. They offer a chance to turn the journey into a shared experience.

Ballpools can be made to any size - 2, 3 or 4 sided. When ordering, please state the external dimensions. Ballpools are built around a wooden frame, and are cushioned with high quality, latex-free foam.

Contact Rompa® for advice on measuring or a price quotation for your tailor-made ballpool.

Net Washing Bag

Net bags for washing the balls are available.

PVC - please specify colour when ordering.

R414927 72.5cmH x 145cm walls **£699.95**

Customer Review

"Fantastic Item for where space is an issue. We ordered this product back in 2006 for our daughter ... and it's still going strong! Really durable, tough vinyl ... and not a rip or tear in it 9 years on! I cannot praise highly enough how sturdy the walls are once fixed ... many a time 'perched' on by us when supervising daughter ... and no dents from our weight!! It's a fantastic design that can fit into any corner, utilising your existing walls for the rear 2 sides ... It was easy to fix with the wooden brackets attached, and has stayed put all these years with no problems at all! The inner floor mat is also tough ... made from heavy duty vinyl, which velcros on to the sides to fix. All in all, this ball pool scores highly with me 11/10 ... definitely a quality item that is well made and lasts many years, as mine has proven!"

SENSORY INTEGRATION AND MOVEMENT

Vestibular and proprioceptive senses are often overlooked beyond the “traditional 5 senses”, although they form an essential part of our day to day lives.

Proprioceptive senses process information from our muscles, joints and other body parts to provide us with an unconscious awareness of the position of our body parts in relation to each other, other people and objects.

The vestibular sense puts balance into our lives. It provides information about movement, gravity and changing head positions. It tells us whether we’re moving or we’re still, as well as the direction and speed of our movement. We can even tell if we are verticle or horizontal - even with our eyes closed.

Combining the development of both proprioceptive and vestibular senses, the practice of sensory integration can assist in developing the ability to process this information.

TheraGym®

Rompa® is proud to be the exclusive European provider of therapeutic products from TheraGym®, a leading developer of the highest quality therapy solutions. TheraGym® products are high-quality and affordable - they are considerably less expensive than alternatives available elsewhere, without compromising on function or quality.

Sleep Tight™ Weighted Blanket

Helps clients to become calm and comfortable to encourage restful sleep. Suitable for clients weighing over 9kg (20 lbs) who have difficulty calming down to get to sleep. With a curved neck cut-out to help prevent the blanket from bunching around the face. Designed by an Occupational Therapist with over 25 years of experience. Triple-stitched for robustness and so the filling is safely contained. The hygienic filling is BPA-free, phthalate-free, and lead-free. As a general guideline, blanket weight should be from 15-25% of client body weight, although we recommend that you seek professional advice as to the suitability of these products for your particular client. Colours may vary.

Machine washable.

Allison H, Verified Buyer

Weighted Sensory Cushion

Curious and calming. The tactile and visual objects enclosed invite exploration whilst the weight of the cushion may offer a sense of security. Large enough to place across the lap or on a table for a shared activity. Large size and objects to suit the visually impaired and those with limited fine motor skills. Objects selected are appropriate for all ages. With double-stitched seams and thick PVC fabric for extra safety. The cushion is quite rigid and so is not especially suitable for the frail.

Customer Review

"At school, I am now able to carry out tasks that I would otherwise not have dared to do, and I can complete them successfully! The vest makes me feel less stressed when doing schoolwork."

Chris, Verified Buyer

Deep Pressure Vest

Made of breathable, latex-free perforated neoprene that's designed to provide deep pressure to the body and to help the user maintain a comfortable body temperature. Features 2 side and 2 shoulder closures. Available in six sizes, each at an affordable price so you can choose the next size up as your child grows. Length is from the top of shoulder to bottom of vest; width is the circumference, measurement around the waist.

Ball Blanket

The weight and movement of the hollow polyethylene balls inside the blanket create pressure for a soothing effect. The balls can be removed whilst the micro-suede blanket cover is machine washed. With strong touch-fasteners. Colours may vary.

R421371	178L x 140cmW	£629.95
---------	---------------	----------------

Weighted Vest

Made from soft, breathable, non-flammable material, these vests slip over the head with ease and close at the shoulders and sides with Velcro® for easy adjustment and a snug fit. Weight packs are inserted into the eight concealed pockets of the vest. Each pocket has Velcro® to keep the weight packs in place. The length of the vest can be adjusted by folding up the lower part and securing using the Velcro® strip on the inside. Machine washable (remove the weights beforehand). Size measured top to bottom of the vest by circumference, measurement around the waist.

Customer Review

"Great product. We were recommended to get a pressure vest by our OT but I found it extremely difficult to find one small enough for my daughter. This one fits perfectly and was a good price. We've already seen a lot of benefit from it in increasing stability and use it every day. It is easy to clean and washes/dries quickly."

N G., Verified Buyer

Sequined Weighted Lap Pad

Our new and improved weighted pad has been designed to give you the security and comfort of a weighted lap pad but designed with the added extra fidget element when you can draw, write and create with the two colour sequins.

Size: 46x37x1.5	
R423570	£25.95

R421771 Large | For people 10 years and older | Weighs 4 oz*

£28.95

An excellent wearable fidgeting tool providing calming and relaxing sensory input with gentle pressure.

HALEY'S JOY®

A clever system created originally just for Haley and now available just from Rompa®

Haley was a little girl who experienced challenges centring herself and focusing. Her family searched for ways to help her development and found Floortime therapy. The first challenge her parents encountered was gaining Haley's interest and discovered that Haley's first experience on a vestibular swing proved to be exactly what she needed, and it became her most beneficial tool.

Haley's grandfather, an engineer by trade, designed and built her a portable vestibular swing, one which could be moved to any room, and used to engage Haley in therapy and developmental activities. For her family, the swing provided a practical solution. For Haley, the swing provided pure joy.

Ceiling Support Loading

Note: Please ensure ascertain from the appropriate authorities that the fixing point is suitable and will hold up to 450kg load at up to 45° angle in any direction.

All hanging equipment requires a minimum ceiling height of 2.5m (8ft) and should be positioned a clear distance of 1.8m (6ft) from any adjacent walls and other obstacles. All swings suspended from a single point require a Safety Rotational Device (Page 125).

Haley's Joy; Mary Kay Eastman, PT, MS, Therapy Coordinator,
Athens-Meigs Educational Service Center. Athens, Ohio

"Our On the Go Swings have become the cornerstone of two sensory-motor rooms that our therapy team established in 2 of the school districts we serve. The swings are very easy to set up and perfect for the variety of students we serve with both vestibular and core strengthening needs. The ease of set-up and take down allows us to not only transport the swings but to reconfigure the room as we add equipment and make changes to meet the needs of our students. Both of our swings have the centre rotational device allowing us to use a variety of swings that require either a single point attachment or 2 point attachment for linear movement. The safety and versatility of these swings have made them the perfect choice for our students."

Haley's Joy® Sensory Wrap

Provides deep sensory pressure. The interior is made of a comfortable microfibre fabric. The exterior is a durable woven nylon, which can be easily spot cleaned. Suspended with easy-to-clean vinyl covered chains. To be suspended from 2 points of the Haley's Joy® Frames nearest to the Frame legs. Not intended to be suspended from a rotational single suspension point. Can be used with the 22993 Haley's Joy Carrying Bag for Sensory Wrap. Size: 102L x 51cmH

Haley's Joy® Balance Buddy Bolster Swing

Designed to help improve balance, core strength and reactions to maintain body alignment. The foam padded frame is covered with an easily cleaned moisture/wear-resistant vinyl. Suspended by 127cm vinyl-covered height-adjustable chains. Disconnect the Balance Buddy Bolster from the chains and use it as a therapy roll on the floor. Suspend from the 2 points nearest to the Frame legs, not the central point of the Haley's Joy® Frames. Compatible with 23001 Balance Buddy Carrying Bag. Size: 91cmL x 33cm diameter

Haley's Joy® Reagan's Ride

A soft seat swing that provides surrounding pressure for enhanced stimulation. The interior is made of a comfortable microfibre fabric that can be easily spot cleaned. The exterior is made from high strength fabric. The removable pillow (included) is covered in a zippered microfibre fabric case. The swing has a 20cm total range of adjustment up/down, which is independent front to back, allowing the swing to have some backward tilt (if desired). Suspended with easy to clean vinyl covered chains. To be used on the linear suspension points of Haley's Joy® Frames or from a rotational single point. Can be used with the 22994 Carrying Bag for Reagan's Ride.

Haley's Joy® Interlocking Foam Padding Squares

Tested for heavy usage, this lightweight and durable foam padding will add cushion and comfort underneath the On the Go Swing's blue mat. This EVA foam is closed cell, so it's completely waterproof, non-toxic, lead-free, and easily wiped clean with mild soap and water or a damp cloth. One side of the padding has a herringbone texture, to provide grip. Comes with edges.

All suspended equipment must be used in conjunction with a Safety Rotational Device (Page 106)

Swing Frame

For indoor use, the Swing Frame is designed to accommodate any one of the Swing Seats at a time. Green. Easy to assemble, fixings included. Sturdy and reliable.

R423598 250L x 250W x 230cmH VAT Relief **£349.00**

All suspended equipment must be used in conjunction with a Safety Rotational Device (Page 107)

Sensory Integration is a therapy that should be carried out by suitably trained and qualified people. These swings are intended for controlled movements - they are not toys.

Suspension System

Total versatility!

Eliminate the need for costly architects, engineers and builders

The answer for therapists who cannot install a suitable ceiling support eye bolt or who may move premises.

- Made from thick structural steel tubing 12.7cm x 7.6cm
- Solid, stable and free-standing
- Will support almost any piece of suspended equipment
- Stays in place even with rigorous activity
- Will not slip or slide
- Spacious standard system includes 3 forged eye bolts spaced 90cm apart on the top beam
- Uprights and bases are heavily padded for added protection
- Easy to assemble and take apart for transportation
- Perfect for rooms where the ceiling is not strong enough to support SI equipment
- Working load approximately 600kg (1,340lbs)
- Weighs approximately 317.5kg (700lbs)

Size: 3 metres (10ft) high, 3.6 metres (12ft) long and 2.4 metres (8ft) deep at the base.

Mats and swings to be purchased separately. Colours may vary.

Please note: this product requires assembly by at least two people and appropriate lifting equipment.

NEW LOWER PRICE!

Beano Swing

A robust, waterproof polyester bag filled with polystyrene beans. Swing on the Beano by gripping the swing between your thighs, resting on the bean bag seat. Working load 90kg (200 lbs). Colours may vary. Includes a built-in plastic reinforced tear-shaped loop at the top of the rope to be hung from your suspension system. The length of this rope makes this swing unsuitable for use with the Suspension System 17687. This product has a zip for manufacturing purposes only. Size: seat 90cm circumference, 50cmL; rope approximately 140cmL.

R414113 VAT Relief **£139.95**

Tube Swing

Multi-directional swing that is colourful and appealing. Sit on it or lie across it on your tummy. Fun and functional. The heavy-duty and zipped polyamide cover is both inviting and practical as this covers the air valve of the inner tube and makes the swing easier to hold onto. Includes reinforced suspension bands. Requires inflation.

BENEFITS

- Colourful and appealing
- Fun and functional
- Cover provides comfort and prevents access to air valve
- Ideal for the many children who do not like the sensation of rubber

R421893 Child | Max weight supported: 80kg | 50cm internal diameter; 85cm external diameter **£339.95**

R421894 Maxi | Max weight supported: 100kg | 83cm internal diameter; 135cm external diameter **£379.95**

Suspension Swing

Suitable for individuals with movement difficulties. The swing can also be set in motion using the hands on the ground. Games such as picking up bean bags, throwing at targets while swinging are also possible. Can be used in all body positions such as lying face down, on the back or sitting up. Even nervous users will soon gain confidence when using this swing. Height adjustable. Cover: brushed canvas (100% cotton).

R419234 Child | Suitable for a child 3 years+ | Max load: 100kg | 98 x 75cm |

Ropes 105cm long **£319.95**

R422687 Adult | Suitable for an adult approx 150-200cm tall | Max load: 200kg |

153 x 79.5cm **£369.95**

Floating Cloth

A unique Sensory Integration resource for providing tactile, vestibular and proprioceptive input. Encourages motor planning and co-ordination. Can also help build muscle-tone. For balance and therapy or for relaxation. Can be used outdoors (and then stored indoors). With four covered mounting springs for dynamic movement. For suspension from four points or two (for use as an enclosure). Includes cloth, springs with mounts and 8 safety snaps. Washable polyamide with acrylic straps. Intended for use by an adult or a child. Maximum load: 200kg.

R422480 250 x 250cm **£1649.00**

All suspended equipment must be used in conjunction with a Safety Rotational Device (Page 107)

TheraGym® Tear Drop Swing

Provides a gentle swinging cocoon sensation. Features include a machine-washable nylon mesh swing and a Vertical Bouncer Kit (21567) to attach the swing to a secure point of suspension. With a high opening to increase the enclosed effect, please consider access into this swing e.g. Soft Play Steps. Working load: 90kg (200 lbs)

R421555 162.5cmL x 61cmW
VAT Relief **£357.95**

TheraGym® Time-In Swing

Offers several options for vestibular input. Its soft, supple and washable nylon mesh fabric construction is perfect for gentle swinging and relaxation. The stabilizing bottom board acts as a solid flat floor for sitting or kneeling and can be easily removed to create a more snug sensation. Comes with an extra-strong safety snap. Weight capacity: 90kg (200 lbs).

R421574 162.5cmL x 61cmW
VAT Relief **£549.95**

TheraGym® Seesaw Glider & Swing

Three swings in one! This multipurpose vinyl-covered swing can be used in a variety of ways: as a traditional glider; as a seesaw; or on an incline, providing significant versatility in the therapy space. With three points of attachment for multiple functions, simply adjust the height of the rungs by knotting the rope. Comes complete with 6 safety snaps and a 182cm long rope. Working load: 180kg (400 lbs).

R421550 122cmL x 43cmW VAT Relief **£659.95**

TheraGym® Chillax Swing

Versatile swing in 2 sizes! A multi-use swing for proprioceptive and vestibular input, active play, or peaceful relaxation. The swing can be hung by using the two included rails for a hammock effect or without the rails for an increased deep pressure calming feel. The small swing is constructed with four layers of heavy-duty Lycra for extended durability and steady swinging motions. Comes with two (2) precisely milled wooden dowels, and two Safety Snaps. Both have a weight capacity of 90kg (200 lb).

R421572 Small | 146cmL x 82.5cmW VAT Relief **£729.95**
R421604 Large | 292cmL x 165 W VAT Relief **£899.95**

TheraGym® Square Platform Swing

Provides many multi-sensory opportunities with extra stabilizing features: a hanging disk to keep the swing moving uniformly and a carpeted platform to keep clients in place. With one suspension point to allow the child to go in different planes of movement which increases the vestibular input and challenge. This hardy swing has a solid Baltic Birch wood base with a smooth edge for safety, and a soft removable carpet pad. Safety snap included. Weight capacity: 360kg (800 lbs)

R421549 72 x 72cm VAT Relief **£549.95**

Sensory Integration is a therapy that should be carried out by suitably trained and qualified people. These swings are intended for controlled movements - they are not toys.

Rompa® is proud to be the exclusive European provider of therapeutic products from TheraGym®, a leading developer of the highest quality therapy solutions.

NEW LOWER PRICE!

TheraGym® Therapy Net Deluxe Swing

Provides linear and rotational movements to enhance core development and motor control. Whilst some children seek the comfortable and soft enclosure of a fabric swing like the TheraGym® Tear Drop Swing, others prefer the more open and visible space provided by a net swing. Our Therapy Net Deluxe Swing helps a child feel secure whilst their vestibular system is stimulated. This also provides a safe haven for activities such as reading and studying. A heavy-duty nylon cord unit is suspended from welded steel rings. Includes one safety snap. Vinyl-covered birch board (58cm diameter) is optional. Working load: 225kg (500 lbs).

R421585 122cmH VAT Relief **£109.95**

R420029

£189.95

Billowing Cushion by Rompa®

A foam base with air cushion creates an exciting Billowing Cushion. Lying or sitting on the cushion provides vestibular stimulation which can be controlled by the user or another person. Also provides proprioceptive and deep touch pressure input. Rolling on and off the cushion is posturally-demanding, strengthening the core and trunk, whilst working on antigravity flexion and righting reactions. Moving around the cushion facilitates gross motor patterns and joint compression. Useful in Snoezelen® and Sensory Integration environments, it is a safe depth and is great for crashing on. Please state colour choice when ordering. Vinyl.

Floor Mats

Don't forget that our mats are ideal for Sensory Integration rooms too!

Floor Mats can be made with handles by special order. Should you need to regularly remove floor mats (to allow wheelchair access for example), Rompa® can make easy-to-move floor mats to suit your requirements.

We can also manufacture mats using foam of different densities. Should you require firmer mats with less 'give', we can make mats with a choice of higher density foams.

Please contact us for further information.

"My son loves this and so do we, he is much more calm after using the roller board!"

Liza M., Verified Buyer, Stirland

Customer Review

"Great quality."

Ann-Marie B., Verified Buyer, Bristol

Floor Surfer

An inviting roller board for play and therapy. Developed in partnership with physiotherapists to ensure safe use by any child irrespective of motor skills. With non-smudging and screened wheels to minimise the risk of running over fingers. Lightly tapered at the front to allow increased freedom of movement for the child's arms. The raised front part supports the coccyx when the child is sitting and the sternum when he/she is lying down. The narrowed sides at the centre act as handles. Maximum load: 100kg. Weight: 2.9kg.

R422647 56L x 37W x 14cmH

£94.95

Wooden Trybike

The Trybike is more than just a balance bike. With its unique 4-in-1 concept it can grow alongside your child. For children aged as early as 15 months old the Trybike is an ideal support to learn how to walk. It can then grow and help your child balance and then ride.

The Trybike is made from durable weatherproof marine birch plywood. The seat cover and chin guard come in dark brown and are detachable so you can change colours.

1. Low Tricycle – The low tricycle offers young children lots of support to begin walking and riding. Ages 12 months – 2.5 years.
2. Low Bicycle – With a few simple steps, you can easily convert the low tricycle into a low bicycle. This is perfect for when your little one wants to move on to learning how to balance. Ages 2 – 4 years.
3. High Bicycle – Simply turn over the frame and adjust the seat to which ever height you like to create the highest wooden balance bike available. Ages 3.5 – 6 years.
4. High Tricycle – Perfect for children who want a bit of extra support. Ages 3.5 – 6 years.

£29.95

Hip Hop Jumping Mat

Children can safely let off steam by jumping on the mat, then rest and relax on it afterwards. Fun and encourages movement and balance skills. Great as part of a sensory circuit, or for a Soft Play environment. The suspension system is completely integrated inside (no exposed springs nor hard frame) whilst a non-slip base provides stability. The sides are made of easy-to-clean synthetic leather (polychloride, polyester and cotton mix). The top has a dark grey woven fabric (acrylic, polychloride and polyester mix) which can be steam-cleaned or cleaned with an upholstery cleaner.

£94.95

Balance Board

The most complete and functional balance board! Allows users to swing safely from side-to-side thanks to the non-slip hexagons on the soft rubber base, preventing damage to the ground. The balance board provides a smooth and easy to control movement, developing motor function and improving balance. With lateral pivots on the base, children can move their weight and use the handles to make turns and lateral movements, exercising muscles, mechanical balance and proprioceptive stimulation.

Available in light green, fuchsia and dark blue - selected at random. Weight: 1.8 kg. Maximum load: 60 kg.

R424052 60.8L x 30.4W x 16.0H mm **£34.95**

TACTILE

The sense of touch keeps us in contact with our surroundings. Our tactile ability is vital to our survival, it is one of our modes of communication and is fundamental to our learning.

You can find the following exciting and innovative products in the Tactile section:

- Wall Panels
- Table Top Resources
- Activity Boards
- Tactile Games
- Vibration and Massage Products
- Fidgets
- Cushions and Blankets
- Saver Packs

Scan the QR to view our tactile range

Tactile Panel have many uses including:

- Exploration of the textures for enjoyment, not as part of a goal-orientated activity so there is no pressure to achieve
- Tracing lines and visual tracking
- Stimulating conversation and an awareness of preferences e.g. the different sounds can encourage discussion about musical likes and dislikes, the different fabrics can facilitate an understanding of clothing needs
- Musical or imaginative play - touch the corresponding texture or instrument as it is mentioned in a story ...
- For orientation - as tactile signposting along corridors for those with visual impairments

Abstract Tactile Panel by Rompa®

Aesthetically charming as well as highly tactile. A large variety of fluid shapes, raised and recessed areas as well as contrasting textures make this contemporary looking panel as pleasing to the touch as to the eye. Textures have been carefully chosen to offer a range of temperatures, softness/hardness, smoothness/coarseness and include fabric, tile, carpet, synthetic turf and safety mirror. To be wall mounted. Wooden frame. Colours and features may vary. Available in a standard or midi size to suit room specifications.

R420940	Standard	115L x 115H x 10.5D cm	17kg	VAT Relief	£575.00
R422839	Midi	57.5L x 115H x 3.5cmD		VAT Relief	£434.95

Fibre Optic Abstract Tactile Panel

Tactile, visual and thoroughly attractive. Lots to touch and feel with the added benefit of lights. Stimulating, engaging, motivating and interactive – wirelessly control the colour of the lights using one of Rompa®'s Wire Free controllers (to be purchased separately). To be wall-mounted. Mains-powered (contains a Rompa® Light Source). Colours and features may vary slightly. Available in a standard or midi size to suit room specifications.

R414350 114 x 71 x 8 cm VAT Relief **£579.95**

Customer Review

"I bought this item relying on my previous experience of the quality and function of Rompa products. I bought two similar boards some years ago and they have proved very sturdy, holding attention and interest at intervals over many years as my grandson has developed even though as a teenager his mental level is that of a very young child."

Jean J., Verified Buyer

Activity Wall Panel Set

Set of wall activity panels to engage children in cross-curricular learning. Panels are styled as a brown horse with wire beads and moving gears, a yellow giraffe with fruit puzzle blocks to mix and complete, and a black and white zebra with colourful shapes to identify and match.

Wooden Frame

Cloud-shaped rectangle frame to hold three of the Tactile Squares on a wall. (See page 150).

The Tactile Squares are interchangeable and give the option to be used on a table, lap, or wall-mounted.

Our Tactile Squares are wonderful for sensory exploration as well as for encouraging interaction and motor skills. These squares are equally tactile and visual, as well as offering shared and individual activities with a memory and nostalgia focus.

Designed by an Occupational Therapist, they are meaningful, with each one having its own age-appropriate theme. They provide an opportunity for discussion, reminiscence and for carers to learn more about their residents/family members.

Tactile Squares are to be purchased separately.

R420833 Standard Frame 120 x 48cm **£159.95**

R420834 Cloud Frame 120 x 48cm **£199.00**

Wooden Latches Board

What's behind the door? The Latches Board has so many surprises to explore. Find 6 orange fish, a purple pony and so much more! Undo a latch and swing open the door to see who's hiding inside. The Latches Board is a beautiful wooden toy for developmental play. Problem solving and fine motor skills come into play as kids work out how to open all the different latches. Find colours, name the animals and count the creatures behind each door.

Wooden toys for kids introduce your little one to wonderful sensory elements with their unique smell and texture. The Latches Board sensory toy features bright colours and hands-on features to support your child's development.

Features:

- Figure out how 6 fun latches work
- Discover colours, numbers, animals and more
- Open the doors and windows for fun surprises
- Helps build fine and gross motor skills

Trendsetters Putty

Let imagination run wild with this Trendsetters Thinking Putty! Explore Egyptian scarab beetles through messy play - this putty can be used for tactile, creative play. This blend of slime and playdough can be shaped, torn and even bounced. Non-toxic, won't dry out, and won't leave a sticky or slippery residue on fingers.

R424419 Super Scarab Putty **£10.95**

Magnetic Putty

Strange attractor is the name of a mathematical equation that is commonly part of chaos theory. This equation creates a fractal—a never-ending, non-repeating pattern within a dynamic system. Basically, a strange attractor has a mind of its own and creates beautiful patterns in design, art, and nature. Strange Attractor Thinking Putty has a mind of its own as well. A deep, mysterious black with subtle green sparkles, it comes alive when charged with the included magnet.

R424422 **£12.95**

Tropical Scentsory Putty

This SCENTSory Putty™ goes way beyond scent to invoke a total sensory experience like no other. Elevate tactile creative play with scent for immersion, imagine soaking up some rays in the sun, being on a tropical island or being in paradise! Indulge your senses with the velvety soft touch, the dynamic look, and the wonderful scent, and discover just how amazing SCENTSory putty can make you feel. Non-toxic, won't dry out, and won't leave a sticky or slippery residue on fingers. Available in: Dreamaway,

Splashcooler or Sunsational.

R424332	UV Pack of 4	£98.95

Hopscotch Liquid Floor Tiles

Pack of 10 sensory liquid floor tiles with individual numbers

A wonderful visual and tactile experience that really will encourage you to move around and explore the surfaces and teach children the numbers 1-10.

Screen printed with brightly coloured numbers, ideal for a variety of games and learning numbers.

These are Ideal for use in sensory rooms or environments as each tile is filled with bright liquid gel, creating ever-changing shapes that encourage visual stimulation as well as movement and touch. These liquid tiles with numbers will withstand jumping on and strenuous use by children and adults as well as the weight of wheelchairs.

These Sensory Gel Tiles can also be used on a tabletop of any flat surface – the non-slip soft cushioned backs grip onto smoother surfaces for stability. Simply apply a little pressure to create a dramatic visual effect.

Size of each tile: 40 x 40cm

R424491	£285.95
---------	----------------

Textured Floor Tiles - Pack of 6

Set of 6 varying textured, foam backed tiles that easily couple together making a large colourful mat. Each tiles is a different textured and a different colour making them idea for development. Light weight, interlocking and textured backing to help keep them in place.

R424494	£36.95
---------	---------------

Tactodiscs

Explore with fingers or toes to match the textures of the large discs to their corresponding smaller versions hidden in the bag. Alternatively match by colour. Easy to clean and use. Rubber tops. Includes 5 large and 5 small discs, drawstring storage bag and blindfold. Great in sensory circuits in schools at the start of the day to help children focus their concentration ready for learning. Useful as stepping stones for balance and coordination activities ('organising' activities) in these sensory circuits. Size: large discs 26.5cm diameter x 3.5cmH, small discs 11cm diameter x 1cmH, bag 29 x 24cm.

R418296 Set I **£83.95**
 R419989 Set II **£83.95**

Sensory Circles – Set of 10

5 textured pairs (1 large and 1 small circle per pair) of soft silicone discs. Match them by sight (colour) or touch (using hands or feet - each has its own texture). Excellent for sensory circuits and games, developing language and comparative skills, balance, movement and imaginative play. Dishwasher-safe and non-slip. Includes drawstring bag for the smaller circles.

R422821 8cm and 35cm diameter **£42.95**

Customer Review

"We loved these. The children used the circles to create small shell designs, simply and quickly. They were very easy to wash off with warm soapy water at the end of the creative activity and dried overnight, ready to use the following morning with out lightbox. The bag provided for the smaller circles was a nice touch. Appealed to children, especially walking on them with bare feet! Totally non-slip which we loved! Promoted language used to describe them. Also good as a feely bag game."

Product Tester

Sensory Mat

Stimulate hands and feet with the surprise pockets that make up this foam rubber padded mat. 6 square pockets can be opened and closed with a velcro fastening to hide away various small materials or items for users to feel them in the mat. Try putting stones or sticks in different pockets and see how different they feel! Mat dimensions: 60 x 120 cm.

AUDITORY

One of the main senses we have is hearing. Sounds are an essential part of the Snoezelen® concept. Sounds can create context to an environment and the range of products we provide to our customers focus on:

- Pitch
- Tone
- Rhythm
- Volume
- Sequencing

This creates a combination for an appropriate auditory experience and environment for our users. In this section, we have used our years of experience to provide a wide range of products that will bring pleasure to our users.

Pluggies

Earplugs can be useful for children with ADHD, ADD and ASD as some individuals can find it difficult to concentrate on school work. With special filters, Pluggies muffle sound whilst allowing the child to retain some hearing, reducing any sense of isolation. Made of a soft material that fits comfortably in the ear. For children approximately 4 to 12 years.

R421873

£16.95

Pluggies for Adults

Developed for music lovers, these reusable noise plugs retain the music quality, only the volume is lower. Helps prevent hearing loss and ringing in the ears. Conversations remain audible, so there is no feeling of isolation. Silicone-free so non-irritant.

R423009

£16.95

NEW LOWER PRICE!

Vibes Earplugs

Vibes are reusable earplugs designed for sound quality. Traditional foam earplugs are only decreasing the volume of high frequency (treble) sounds, but not low frequency (bass) sounds, which is what causes the sound that you hear to be distorted when you wear them. On the other hand, Vibes lower the volume of all sounds equally, from bass to treble, which allows you to hear sound clearly, just at a quieter volume.

£27.95

AROMA

The olfactory (smell) system is a very powerful and emotive sense. Aromas can trigger memories, encourage feelings and even change our mood. It enables us to identify objects, foods which greatly affects our perception of tastes.

When used as part of a Snoezelen® Multi-sensory Equipment, aroma can add an extra level of sensory relaxation or stimulation. Rompa provides a range of aroma sensory equipment and accessories, such as essential oils, room sprays and toys.

10 Reasons to choose Rompa®'s Aromatherapy kit

1. Choice - This comprehensive kit includes 12 different aromas, from Grapefruit and Bergamot, to Tea Tree and Lavender
2. Longevity - As you only need to use a couple of drops each time, this kit typically lasts 2 to 3 years, if not longer. Oils are bottled just before they are despatched to us
3. Natural - The oils are essential oils - high quality, natural oils - not synthetic, water-based alternatives
4. Ethical - The oils are ethically sourced from all over the world - our supplier has established strong relationships with producers for many years, often through travelling to sites to maintain these links
5. Tested - These oils are tested for quality and a MSDS is available on our website
6. Multi-purpose - Useful for stimulating memories, encouraging appetite, massage, bathing, freshening rooms and masking less pleasant odours... these oils can be used in many different ways. Using an oil in a fan-operated diffuser is both simple and safe.
7. Sensory - Despite having the quickest and most direct route to the brain of all the senses, our sense of smell is often over-looked as many of us use our sense of sight as our primary sense. In order for Multi-Sensory Environments to be truly multi-sensory, aroma should be considered with all the other senses, including the vestibular and proprioceptive senses.
8. Comforting - Our sense of smell is not only very sensitive and powerful, it is connected to mood, emotions and feelings. Aromas can transport us to our childhood and stimulate memories of loved ones and happy times. Aromas can also be used to distract during treatment and to help maintain connections with individuals when incorporated into a massage
9. Alternative - Akin to the values of Snoezelen®, aromatherapy can be used effectively as an alternative to medication. For example, essential oils such as Lavender and Vetiver can be used to help encourage sleep - safe avenues to explore before resorting to sedatives
10. On trend - Aromatherapy is coming back into vogue, notable in the USA, but also in the UK. Some perfume houses are consciously choosing to use more essential oils in their perfumes to avoid the use of preservatives.

Customers Love...

Cuddle Ball

By simply squeezing and cuddling the ball, children will experience a deep and calming pressure, that will help them deal with all of the anxiety and stress they are going through. There are gaps in the ball to allow hands and arms to be placed inside providing extra comfort and warmth. The cuddle ball is often seen by slightly older children, to be an acceptable alternative to more traditional soft toys, such as a teddy bear. Internal bells tinkle to the slightest movement, providing auditory stimulation. Colours may vary. Suitable for 3 to 14 years.

R424028 25cm **£40.95**

Cuddle Buddy

Every Cuddle Buddy Pillow has an opening on each side allowing you to easily fit hands inside. Hands can be perfectly warmed by just putting your hands inside the plushie. Perfectly heated hands just from body heat! By putting hands inside, children will feel safe, secure, and cozy. It also makes it easier to keep the pillow in the right position while using it as a (traveling) pillow in the car, plane, or train. Children love to hide their special treasures inside these plushies.

R416942 **£74.95**

Sorting Set

An inviting set to encourage sorting by colour, shape or size. Gives the user a sense of purpose (completing a helpful task of tidying away) whilst encouraging motor skills and reasoning. Contents may vary, but set typically includes:

- Multi-section round tray (32.5cm diameter)
- Set of 90 assorted large buttons (4.1 to 5cm)
- Set of 10 wooden cotton reels (3.5cm diameter)
- Set of 100 colourful wooden cubes (2 x 2 x 2cm)

Also useful for stacking and balance games; counting and simple maths activities; arts and crafts; threading and lacing (shoe laces/string to be purchased separately)

R422707 **£39.95**

Squeezy Balls - Set of 6

Offers little resistance when squeezed and quickly regains its original shape. Contains latex. Assorted colours.

R417423 7.5cm diameter **£79.95**

Buggie

Curious creature with huge eyes and an abundance of rubbery 'hair'. Colours may vary. Size: 26cmL

R420500 **£6.95**

Gripmaster - Set of 3

Conforms to the shape of your hand and provides greater comfort by dispersing pressure across the entire palm. With removable soft rubber base. Develops isolated finger strength, flexibility and co-ordination as it builds hand and forearm strength. Each finger can be challenged with its own individually spring-loaded button. Finger pressure is carefully calibrated providing the therapist with a quantitative tool for evaluation. Three strengths: Blue - Easy, Red - Medium, Black - Strong. Latex-free.

R415860 9L x 7H cm **£57.95**

Thera-Band™

Tones muscles, increases agility and improves co-ordination with unlimited possibilities. Approved by therapists and may be useful in rehabilitation after certain injuries. Made from natural rubber latex, phthalate-, PVC- and lead-free. The different colours represent different resistance, all the same size though can be cut and so individually adjusted to suit. Dimensions: 550L cm (in total), 15W cm.

R415364 Yellow Mini **£20.95**

R415365 Red Medium **£20.95**

R415366 Green Strong **£20.95**

R415367 Blue Extra Strong **£20.95**

Stretchy Sensory Band - Pack 4

Stretch, pull and twist these sensory bangles for tactile exploration & stimulation. Rubbery, stretchy tentacles which can aid focus. Vibrant colours (may vary) in a 4 pack. Diameter 13 cm when not stretched.

R424519 4 pack **£7.95**

Rehab Peanuts - Set of 3

Flexible exercise tools to improve hand strength and dexterity. Set includes one soft, one medium and one strong peanut to offer a variety of resistances. Made of latex-free polyurethane. Weight: 40g.

R418427 17.5L cm **£16.95**

Eggercizers - Set of 3

A tactile hand exercise device offering consistent resistance while returning to its original shape. The egg shape matches the natural contours of the hand promoting effective hand, finger and arm massage. Improves hand dexterity and flexibility, and reduces stress. Feels like putty but leaves no messy residue on hands or clothes. The solid shape has nothing inside to leak out. The Eggercizer comes in sets of 3 each a different colour and resistance strength.

R415003 6.5L cm VAT Relief **£18.95**

Putty - Set of 4

Includes a soft (yellow), light (red), medium (green) and firm (blue) tub of putty, each containing 50g (2oz). Non-toxic, latex-free and brilliant for therapy.

R421386 **£17.95**

Our Winslow Resources section can be found on pages 196 - 218

Aggression Bat

Ideal way of releasing tension amongst those who struggle to express their frustration verbally. These foam bats offer the chance to physically release pent up anger in a harmless way. Cotton cover. Weight: 520g. Each. Sold individually, not as a pair.

R418992 56L x 15 cm diameter

£69.95

Folding Multi-Purpose Mirror

Made of special shatterproof acrylic, this foldable mirror encourages independence, self-care and self-awareness. Folds away discretely after use. Designed to help individuals examine the soles of their own feet, such as those with diabetes, but useful for a variety of needs, including speech and language therapy. Perfect for holidays, home use and peripatetic therapists. Size: folds to just 26.5 x 18.5 x 2cm.

Teach & Learn Wooden Clock

Wooden learn and play clock game. The box includes a clock face with moving hands and a chalk panel, as well as chalk and a set of time cards. There are a number of educational games that can be played, instructions for which are included in the set. It's a great way to help aid learning skills on how to tell and write down the time, as well as general numeracy skills.

R423556

£9.49

NEW!

Mini Clock

Big Time Mini Clock is a geared clock for teaching about telling the time and lapsed time. The clock is colour-coded, is easy to read, and helps students understand telling time to the minute and hour. The hands are geared and keep the correct relationship between hour and minute as children turn the hands on the clock face. This single clock is ideal for individual, hands-on learning in the classroom or at home.

R423560

£2.95

LEISURE

Leisure activities offer a chance to have a break from a routine or to provide freedom from actions which we are compelled to perform.

Especially in early years children and people with various mental health or physical disabilities the choice to do what they want is often very limited, therefore making leisure time an essential part of their lives.

NEW!

Feelings & Emotional Puzzle Cards

Help build social emotional learning (SEL) skills with these colourful Feelings & Emotions Puzzle Cards. Each 2-piece puzzle shows a full colour photo of a real child making a facial expression on a piece, with a colourful corresponding emoji on the other piece. The puzzles are keyed differently, which means there's only one correct solution. This allows the person to self-correct and learn independently. Includes 24 puzzles in a reusable storage box with carry handle.

R455841

£18.95

Category Snap

Category snap is a variation on traditional snap, in that no two cards are the same. The idea is to match cards from the same family; a saw and drill match as they are both tools. However, there is no wrong way to play and players can use their imagination to make their own association games. This product was inspired to support cognitive stimulation therapy which prompts people with dementia and Alzheimer's to think creatively. Features: 3 x association games, 36 x cards in a pack, for 2-4 players & made from durable materials.

R424084

8 x 12 cm

£23.95

Animal Snap

The traditional game of snap requires each player to place a card on the pile. When two consecutive cards of the same animal are placed down, whoever yells 'Snap' first gets the pile. The player with the most cards at the end of the game is the winner! Designed for people with early to mid-stage dementia, these cards feature easily recognisable animals in bold contrasting colours. Features: 3 x association games, 48 x cards in a pack, 2-4 players & vibrant colours support vision impairment.

WELCOME TO WINSLOW RESOURCES®

Winslow Resources® offers a wide range of therapeutic and educational materials for social and health care professionals, care-givers, parents and families.

The range includes a variety of activities such as books, games, software and photo cards, as well as specialist therapeutic interventions, full programmes and assessment tools for adults and children.

Please visit www.winslowresources.com or scan the QR code to access HUNDREDS of other products. Here you will find videos, testimonials and product images.

It Takes Two To Talk®

This updated 5th edition guidebook is valuable for parents, SLT's and others who work with, or care for, young children with language delays. It shows via beautiful colour illustrations how to help children communicate and learn language throughout the day, at meal, bath and play times. Interventions are suitable for children still at the very earliest stages of communication as well as those who have begun to talk in short sentences. Includes easy-to-use checklists, practical guidelines for choosing communication goals and explains how to build a solid foundation for literacy. Supported by current research. This product does not incur VAT.

W456445 **£46.95**

It Takes Two to Talk® Parent Workbook

This easy-to-use interactive parent workbook is a member-only resource. It is designed for Hanen SLTs to combine Hanen strategies and Hanen's adult teaching structure into 1-1 parent intervention sessions, helping them to create personalised interventions for their child. The workbook provides SLTs with trackable materials such as checklists, progress reports to give to the parents they are working with. It is a companion to the It Takes Two To Talk guidebook and intended for parents of children with intentional communication (i.e., Communicators, First Word Users and Combiners). To purchase this resource, simply provide us with your name. Hanen will then authorise us to release your workbook after confirming membership. This product does not incur VAT.

W457290 **£11.95**

TalkAbility™

A hugely valuable resource for parents and professionals supporting verbal children on the Autism spectrum. This book contains a wealth of practical strategies that can be built into daily conversations and activities. By applying these strategies, parents and professionals help children learn to:

- take appropriate turns in a conversation
- wait for others to take theirs
- tune into what people say without words in a conversation
- understand how others feel
- respond appropriately
- learn how to play with other children and make friends

This product does not incur VAT.
W453495 **£46.95**

More than Words®

Children with Autism can find it difficult to interact meaningfully with others and the world around them. This programme is for parents of children under five who are on the spectrum. It helps them reach their potential by empowering their key supportive adults with knowledge and strategies to improve social communication, play and imitation skills. Everyday activities are opportunities to learn, communicate and develop skills! Evidence-based and incorporates current best practice. Requires dedication from parents, but is easy to understand and implement. This product does not incur VAT.

W451748 **£46.95**

Take Out the Toys - Book

Book 2 focuses on "functional play" ability (early play involving conventional or expected actions using toys). These skills provide a foundation for the formulation of later skills so it is important to optimise these as early as possible. Play for children who have Autism or other developmental challenges may not be as advanced as other children their age, but if these specific research-based techniques are used during everyday play activity, much can be done to build skill levels. This product does not incur VAT.

W455712 **£14.95**

Plan for People Play - Book

Book 1 focuses on learning how to create the best possible play situations, encourage participation, communication and develop social interaction skills in a purposeful supportive way - all based on current research on what helps children learn best. "People Games" rely on engagement with others instead of focusing on toys and whilst playing, children learn the key social skills that create the foundations for building successful relationships with others. This product does not incur VAT.

W455711 **£14.95**

Put Pretending into your Child's Play

Book 3 focuses on expanding pretend play skills during fun, everyday activities. Children with additional needs often find it difficult to pretend, a stage of development that lays the foundation for key social and learning skills. This resource provides a context of how pretend play fosters language, social and emotional skills using research-based strategies. Identify each stage of pretend play, encourage imitation of new play actions, identify when to move to the next developmental stage and encourage use of new skills with a variety of toys, in different situations. This product does not incur VAT.

W455713 **£14.95**

Now available! Book Hanen Centre® workshops easily in the UK!

Winslow Resources® met Course Beetle at NAPLIC a couple of years ago... and a gem of an idea formed. What if it was easier for UK SLTs and professionals to be Hanen Centre® trained? We introduced the idea to The Hanen Centre® and Course Beetle and the rest is history!

Course Beetle now act as UK hosts for a range of Hanen Centre® Workshops. Contact them on **01743 211346** or visit www.coursebeetle.co.uk to find out more. Training includes:

Learning Language and Loving It™

- An intensive 3-day workshop that develops the social, language and literacy skills of young children
- For SLTs and early childhood educational professionals who train and educate other professionals
- Certification means you can offer the evidence-based LLT programme to early childhood educators and pre-school teachers.

It Takes Two to Talk®

- A 3-day workshop providing a simple but powerful framework for coaching parents to play a primary role in their child's intervention – a framework that can be applied to a variety of clinical contexts including individual therapy and group training

For qualified SLTs

- Completion certifies you to lead the ITTT programme for parents of children with language delays aged 5 and under

More than Words®

- A 3-day workshop for qualified SLTs offering a goal-based approach to family-centred early language intervention
- Certification enables you to offer the MTW programme to parents of young children who have social communication impairments including children with suspected or diagnosed ASD.

ABC and Beyond™

Based on current research regarding promoting emergent literacy in early childhood classrooms. Prepare pre-school children to learn to read and write successfully, presenting key techniques on building language and literacy learning into daily conversations and activities. Addresses various prerequisites of literacy, including vocabulary, story comprehension, decontextualized (abstract) language, print knowledge and phonological awareness. 120+ colour photographs, charts and real-life practical examples. This product does not incur VAT.

W455326 **£38.95**

Learning Language and Loving It™

An easy to use early-years programme that really works! Child-centred, this approach combines language acquisition, language facilitation and supporting conversational turn-taking from the earliest communication development stages. It aims to maximise language learning within daily routines and play, facilitate social interaction, address emerging literacy skills and support the development of strategies for children with additional needs or language delays. This product does not incur VAT.

W451641 Guidebook **£45.95**

W453499 Pack of 10 Books **£411.95**

Let Language Lead the Way to Literacy - Workbook

Details how to create early childhood environments cultivate the basic foundations of literacy. Preparing children for literacy involves immersing them in an environment where reading and writing are a natural and meaningful part of everyday life. Clear, comprehensive and practical. This product does not incur VAT.

W452736 **£15.95**

Encouraging Language Development in Early Childhood Settings - Workbook

A step-by-step approach to promoting language development in child care, preschool and other early childhood settings. Learn practical, interactive strategies to help all children (including those whose language is delayed or at risk) to interact and communicate effectively in everyday interactions. This product does not incur VAT.

W452734 **£15.95**

ColorCards®: Expressive Verbs & Familiar Verbs

Familiar Verbs - Images of frequently used and easily recognised verbs. Associated objects are in the pictures to give an idea of place and encourage expressive language. Actions shown include empty (bucket), pour (drink), spill (soup) etc.

Expressive Verbs - Images show verbs of varying frequency and syntactical complexity with the context of personal actions. Used for developing an understanding and use of gestural semantics, promote augmentative communication and consider social and cultural appropriateness and diversity. Includes: Fingers (tap, crossed fingers, thumbs up); Hand (shake hands, clap, stop); Body (hug, cuddle, shrug); Legs (tiptoe, stamp) etc.

W452817	Familiar Verbs	£36.95
W452818	Expressive Verbs	£34.95

British Picture Vocabulary Scale - (BPVS-3) - 3rd Edition

BPVS-3 is the leading assessment tool to assess the receptive vocabulary of children as young as 3, and up to 16 years old. It has a simple, appealing format with vivid full colour illustrations and black outlines to support those who may be colour blind. It identifies delays in vocabulary development, even before children are in full time education, informing intervention strategies to help extend vocabulary. It is suitable for non-readers and those with learning difficulties, Autism or CP etc. as no reading is required - responses can be given by pointing or gesture.

- Time efficient, can be used as a benchmarking and progress-checking assessment from pre-school to secondary school
- 1-1 session format - the facilitator says a word and the pupil responds by selecting a picture from four options that best illustrate the word's meaning
- Carry-case
- Admin time: 10-15 mins
- For 3-16yrs
- For teachers, SENCOs and SLTs

W454598 Full Assessment Pack **£299.95**

W454599 Additional Record Forms Pack **£23.95**

Word Finding Vocabulary Test - Revised Edition

Assessment to ascertain the extent to which pictures of objects (arranged in order of difficulty), can be named correctly. Most objects included have no alternative name, so the responses of children with difficulties can be quickly measured. 50 line-drawn pictures, manual and photocopiable scoring forms. For 3-8yrs.

W452412 **£51.95**

Action Picture Test (2nd Edition)

New edition! Used since 1967 by SLTs, SENCOs, teachers and other health and educational professionals to assess the speech and language development of children between 3 and 8 ½ years.

It covers words used to convey information (i.e. nouns, verbs, prepositions); present, past and future tenses; irregular forms of plural and past tenses; simple and complex sentence construction and passive voice. The test provides an Information and Grammar score that can be benchmarked against a UK school population. It has been fully updated, with revision of scoring guidelines, image modernisation and via an extensive nation-wide programme - re-standardised against a modern school population.

Contents: 10 picture cards depicting a variety of everyday scenarios, instruction booklet providing guidance on administration, scoring guides, scoring form.

W456817 **£80.95**

Bus Story Test - Revised Edition

The age-level of consecutive speech used in retelling a story can be assessed from the information content, sentence length and grammatical usage. This tool includes a coloured picture story book, photocopiable scoring forms and manual, but requires use of audio recording equipment. Norm referred at monthly intervals to enable therapists to produce comparative results. For 3-8yrs.

W451216 **£46.95**

Renfrew Language Scales Set

Purchase all three of the assessment tools in the Renfrew Language Scales series - the Action Picture Test, Bus Story Test and Word Finding Vocabulary Test. The price represents a saving against individual purchases.

W457202 **£149.95**

The New Reynell Developmental Language Scales (NRDLS) - 4th Edition

The most widely used assessment/diagnostic tool for identifying speech and language delays and impairments in very young children. It has been standardised on 1,200+ UK children. Content is in-line with the latest research and practice.

Essential information is provided about production and understanding of spoken language. It assesses communication skills on entry to nursery, identifying children who need immediate referral and support. Two scales are used:

- Scale 1: Language production: explores understanding of vocabulary items and grammatical features
- Scale 2: Comprehension: assesses the production of the same features of language

- Simple to administer with an easy to use, easel format
- Uses play-based activities and various stimulus material, featuring a Monkey, Teddy and Rabbit with full-colour illustrations
- An overview of language ability guides intervention and evaluates the effectiveness of interventions
- A multilingual toolkit, gives advice and guidance on adapting and use with ESOL pupils
- Admin time: 35-60 mins
- For 2-7yrs

For SLTs only. To purchase these resources, please ring our sales team who will request the name of the end user. There will be a short delay in processing whilst we check the SLT database to ensure that the person cited is qualified, or you can e-mail sales@winslowresources.com with proof of qualification.

The Source® for Aphasia Therapy - Book

Valuable therapeutic interventions for adults with aphasia. Three sections cover Receptive Language (imitating gestures to understanding complex paragraphs), Reading Comprehension (improving in a continuum from letter matching to paragraph comprehension) and Expressive Language (tasks range from automatic utterances to conversational speech). Each has 41 functional activities arranged in hierarchy of difficulty with goals, clinician task instructions, grading strategies and adjusting for person-centred care. This product does not incur VAT.

W454076

£59.95

The Source® for Apraxia Therapy

Help clients with acquired apraxia of speech, dysarthria, dysfluency and pronunciation difficulties regain their communication skills. Choose monosyllabic or paragraph length material from 3 Sections: Phonemic Groups - bilabials, labio-dentals, lingua-dentals, lingua-alveolars, glottals, lingua-velars, lingua-palatals, blends, vowels. Articulation/Fluency/Phrasing - multi-syllabic words, conversational sentences, paragraphs, similar word pairs, etc. Paralinguistic Drill - vary pitch, emphasise target words, convey emotions. Format: clinician reading/client imitating, client reading/client looking at word, clinician modeling/client imitating.

- Section 1 groups phonemes by mode of articulation and visibility. Clients work through production of monosyllabic words and simple sentences.
- Section 2 targets articulation, fluency and phrasing through rhyming, word pairs, compound words and conversational sentences.
- Section 3 provides paralinguistic drills, including varying pitch levels, word emphasis and emotions.

This product does not incur VAT.

W452109

Dyslexia Kit in a Bag

Dyslexia affects 20% of the population and due to it being often mistaken as a condition affecting a person's academic ability, is sometimes left undiagnosed resulting in difficulties. Those individuals, both diagnosed and undiagnosed, find it hard to keep up with others, struggle with self-esteem and confidence and may find it hard to talk about their difficulties. This kit in a bag supports children and young people who have dyslexia diagnosed or undiagnosed in the classroom. Within this set there are resources to:

- help young people talk about their difficulties and what helps
- to support self organisation
- to help raise self esteem and confidence
- to help a child let you know if they are worried or upset
- help give the child a voice and tell you what they may need

York Assessment of Reading for Comprehension (YARC)

This diagnostic assessment tool was developed by reading experts at the University of York. It provides an in-depth analysis of reading and comprehension skills, identifies specific problems with word recognition, reading fluency or reading comprehension and informs on the most appropriate interventions to support individuals. It is split into 3 parts, Early Years, Primary and Secondary (4-16yrs).

- Can be used to assess and monitor on-going pupil progression
- Assesses EAL pupils and those requiring extra time in exams
- Informs educational planning and benchmarks against the national average
- Ideal tool to evidence the impact of Premium Pupil Spend
- Provides standard age scores, age equivalent scores and percentile ranks for comprehension, rate and fluency
- Admin time: 20-30 mins.
- For SENCOs, Teachers and Literacy Co-ordinators

W456453	Primary and Early Years Assessment Tool	£379.95
W456821	10 YARC Record Form-Primary	£39.95
W456803	Secondary Years Assessment Tool	£339.95

Communication Assessment Profile (CASP) - 3rd Edition

This is the only UK standardised tool to assess the communication abilities of adults with severe to mild learning disabilities. It can also be used with children and young people with ASD and those with neurological disabilities as an outcome measure, to ascertain if communication skills have improved over time or as a research tool. It is comprehensive, using photos of functional and adult-orientated objects and was designed as a three part multi-disciplinary assessment:

- The environment questionnaire ascertains the opportunities available for daily communication (complete with carer/keyworker)
- A photographic manual has subsections on hearing/auditory skills, understanding and using communication (complete with SLT)
- A record of strengths, percentile rank chart, communication environment rating scale all outline priorities for change (agreed by individual, SLT & carer/keyworker)

The National Institute for Adult Continuing Education (UK) recommends CASP as an appropriate assessment for adults with LD. Although not designed for people with Dementia, numerous SLTs report sections 3 and 7 are very useful for assessing vocabulary and communicative function and a small number of individuals participating in clinical trials had age-associated cognitive impairment. Revised 2017.

W451230	CASP	£248.95
W456350	30 CASP Record Forms (10 of each part 1,2 & 3)	£86.95

£51.95

Frenchay Eye-Com™ Boards

This low-tech, practical and effective tools aid those with communication difficulties but who have enough cognitive ability, controlled eye movements and basic spelling skills to indicate meaning, answers and intent. A conversation partner sits opposite and understands what is to be conveyed by following eye movements. Widely used on stroke wards, brain injury units etc and aids assessment of cognitive functioning. Both resources have a window so the sender and receiver can maintain direct eye contact and provides a "home" position for the sender to look to indicate he/she is either ready to begin or end a sentence which is very important during the communication process.

Eye-Com™ Board: A clear acrylic board with a sturdy wooden base. Personalise by attaching images, illustrations, drawings, photos or letters/numbers etc directly onto the board. The non-speaking person indicates what they wish to say by looking towards specific pictures, photographs, words or letters mounted on the board.

W451437

Eye-Com Board | 38 x 49cm

ADHD Classroom & Home Kit

Designed in conjunction with teachers and learning support assistants to support children with ADHD, these practical resources focus on Behaviour, Impulsiveness, Concentration, Noise Levels, Rewards and Instruction.

Some children will:

- Not 'hear' when spoken to and not respond to instruction
- Be disorganised and find things distract them from a set task
- Forget to finish a task or activity and leave it without cleaning up or tidying
- Interrupt conversations and talk without thinking
- Demand attention but do not consider what you are doing or if you can be interrupted
- Often say what they think, which may be embarrassing or seemingly rude.
- Find sleep can difficult and find concentration tiring
- Physically run, jump, leap and may put themselves into dangerous situations.

These are just a few of the traits associated to ADHD. In the classroom it can be very time consuming and difficult to deal with their impulsive behaviour and seeming lack of self control.

Autism Resource Kit

This kit is especially useful for those on the autism spectrum, those with social communication difficulties and those with English as a second language. Help children to communicate more effectively, to make better decisions and to aid understand of what is happening next, routines & sequences. Over 90% of children are visual learners and up to 97% for those with social communication difficulties and yet we tend to use our voices far too much, this kit is ideal for visual learners. Includes: 100+ visual symbols either on communication fans displayed on safety lanyards / on clear and easy to understand communication tiles.

W457322 **£79.95**

NEW LOWER PRICE!

Talk With Teddies

Children on the spectrum find transition and change hard, or find it difficult to understand unspoken social rules. The Talk with Teddies kit helps children understand concepts in a visual and kinetic way, communicating their feelings, emotions and understanding social rules and acceptable behaviour. It is easier to think when you have something to hold as it offers a level of security and reality to a situation and each teddy is made from a fabric that allows visual symbols to be displayed on the bears. Using a variety of Widgit symbols supplied or by using your own, the bears can take away anxiety and fear and allow children to hold onto them and use them as fiddle toys. Includes: 4 x bears, 12 x printed symbol cards (45mm x 45mm), 6 mini dry wipe boards (45mm x 45mm), dry wipe pen, ideas & information booklet all stored in a robust draw string bag.

W457319 **£32.95**

Making The Right Choices Kit

Younger individuals and people on the spectrum struggle to make sense of the world around them especially when they are upset, embarrassed, feel confused, are worried or anxious or when someone has made them angry or cross. This set provides a wide range of practical resources to support emotional understanding and empathy with individuals or group work. Use to support children/ young people to make the right choice – allow them to use the resources to tell you how they are feeling, if they have enjoyed an activity or if they are confused about instructions.

W457324 **£59.95**

Social Skills Bingo

Social Skills Bingo was designed to improve social skills by asking individuals to consider a situation or action and decide what response would be the most appropriate from the choices provided. Once the person has agreed the response to the situation they cover over the situation with the response and go onto the next one. The boards are designed to instigate discussion and debate and help to make their own choices. Includes: 4 x A4 scenario, action or situations boards, 48 x response tiles (45mm x 45mm), 12 x mini dry wipe boards (45mm x 45mm), 1 x dry wipe pen, 1 x instructions leaflet all kept in a storage wallet.

It's Not All About Talking

Communication involves far more than just using our voices. With the majority of people being visual and kinaesthetic learners, using our voices isn't always the best way to be 'heard'. This book explores ways to identify an individual learning styles and how to adapt communication to suit those styles. Communicating in a way that can relate to and comprehend is essential for understanding, which has positive consequences on learning and behaviour.

For 3-10yrs.

The full therapeutic story book collection! each focuses on a specific need, targeting different fears and worries. They are full of supportive strategies for parents, carers and other professionals to help children heal.

W457114 **£81.95**

The Little Book of Big Sadness

The Little Book of Big Sadness is a sensitive and friendly resource for a primary teacher to use in the classroom context with pupils of all ages and abilities. This A5 book contains material and activities to explore the many layers of sadness and loss as a natural part of life and offers ways of helping. Through stories, drama activities, and art, with teacher's notes explaining the theory behind it, this book provides the confidence to address this delicate, yet universal experience in 52pp.

W457334 **£9.95**

Winston the Worried Whale

In this imaginatively illustrated picture book, loveable character Winston takes children on a journey through his worries, in turn helping them to think about how they can ease their own. The additional digital resources offer numerous opportunities to stimulate valuable discussion on worries. Children will feel an instant connection to Winston's friendly nature, especially when he shares his secret with them... that even though blue whales are the largest animal ever to have lived on earth, even though Winston is bigger than all the other sea creatures and they all think he is brave and not scared of anything – Winston does feel worried about a few things!

W457330 **£9.95**

The Little Book of Big Anger

This is a fun, friendly resource for use in the classroom with pupils of all ages and abilities. It is a rare day in the classroom when no one loses their temper, and this includes teachers of course. This A5 book provides material and activities that explore this emotion, and provides tactics to deal with it, healthily, together. Through 48pp of stories, drama activities, and art, with teacher's notes explaining the theory behind it, the whole class can learn to recognise, (in themselves and others), understand, and talk about this universal, but often uncomfortable emotion.

Anger Management (Primary)

This anger management programme draws on research about the development of emotional and social intelligence which indicates that a well-balanced and emotionally mature individual will be capable of greater academic achievement since they are not psychologically involved with inner tensions and emotional turmoil. To achieve emotional maturity this programme teaches:

- Self-awareness
- Self-management
- Impulse control
- Active listening
- Empathy
- Ability to understand non-verbal cues
- Stress management
- Conflict resolution
- Mediation
- Optimistic outlook
- Acceptance of other people

Let's Make More Smiles!

All children exhibit challenging behaviour from time to time, but when the behaviour becomes dangerous or harmful we need to intervene and decide how and when we should do this. This book has been written to support those working or living with children who display challenging behaviour. This explores behaviour and provides ideas and suggestions to support positive behaviour through the following topics and more:

- Why children behave in the way they do
- Whether the children understand our instructions
- Whether the children fully understand the reasons behind rules
- How children can begin to take ownership of their own behaviour
- How children can begin to take ownership of their own behaviour

W457317

£19.95

Anger Management (Secondary)

Anger management involves steadily increasing the level of maturity a young person has with regard to both managing their emotions and being skilful enough to negotiate and collaborate with others in order to get to a win-win situation where both parties feel satisfied enough with the outcome. This manual offers a structured programme to achieve this. Being able to choose an assertive behaviour option allows young people to find reasonable ways to deal with difficult people and difficult situations. It also means they are more likely to be calmer and more open to reason than stressed and tense. And it will enable them to form deeper, more satisfying friendships because they are able to be more honest with themselves and other people.

MULTI-SENSORY KITS

Our Mission

As we age, the world can be a very fragmented and confusing place. Our mission at Older Adults is to create Meaningful Activities and resources that help support individuals to make more sense of the world, help their families and assist carers. Our Snoezelen® Multi-Sensory Environments are specially designed to meet each users needs and provide a unique sensory experience.

The NEW 7th Edition of the Older Adults catalogue is coming soon...

www.olderadults.co.uk

Visit Older Adults for reminiscence resources and equipment to help improve quality of life for older adults and provide support to carers.

snoezelen®

Here are the many benefits of a Rompa® Snoezelen® Sensory Room:

Relaxation

Snoezelen® Multi-Sensory products and environments can be used to calm and reduce agitation through the use of gentle light, soothing sound, relaxing smells and textures.

Development

Snoezelen® can be used as a learning and developmental tool, it can be used for colour matching, understanding of cause and effect, and creating themed environments to teach in.

Stimulation

Snoezelen® Multi-Sensory products and environments can be used to stimulate users by providing exciting visuals, music and sounds, invigorating smells and textures to explore.

Therapy

We have been providing therapists and health professionals with a Snoezelen® Multi-Sensory toolkit for over 35 years. From portable resources to custom multi-sensory environments, we have solutions that can help.

Visit www.snoezelen.info or Page 6 for more information and history of Snoezelen®

Our collaborative relationships

Domestically

Our products and Snoezelen® rooms are for all ages and abilities! We supply to individuals, families, schools, hospitals, hospices, charities, airports, hotels, cruise liners, football clubs and many more.

We not only distribute and install in the UK, Rompa® is international too.

Here are just some of our customers:

- Gatwick Airport
- Meadowhall
- Parenting Additional Needs
- Notts County Football Club
- Help For Heroes
- Chesterfield Football Club
- Brunel University of London
- Kids in Sync
- NewLife
- senSI
- College of Occupational Therapists

Internationally

Rompa® is at the heart of a global network of providers of multi-sensory environments.

As well as serving our valued UK customers, we have partners and distributors in over 40 countries across the world. Through our international customers we have access to new ideas, developing therapies and a wide breadth of experience.

Large enough to count but small enough to care

As a responsible supplier and UK manufacturer we have continuously updated our ethical and environmental policies across the business. As just one example, we continue to review and report packaging and waste!

Showroom & Reminiscence Room

Rompa®, Goyt Side Road, Chesterfield, Derbyshire, S40 2PH

Visit Older Adults for reminiscence resources and equipment to help improve quality of life for older adults and provide support to carers.
