# Product Description

For jumping, bouncing, exercising and fun, this Trampoline comes complete with a hand hold rail which can be removed when not required.

Useful for alerting activities as part of sensory circuits in schools at the start of the day - helps awoken some children and helps others to use some energy to help them better focus on learning later in the classroom.

## User Benefits

This product promotes physical activity for the user, encouraging movement and exercise in a fun and engaging way. Whether it's through interactive games, sensory exploration, or other activities, users are motivated to stay active and improve their physical health. The design supports various forms of movement, helping users develop coordination, strength, and flexibility.

Additionally, the product features a removable hand hold rail, providing extra support and stability when needed. This rail can be easily attached or detached, allowing users to customize their experience based on their comfort and mobility needs. The hand hold rail is especially beneficial for users who require additional assistance during physical activities, ensuring safety and confidence while they engage with the product
