14032 Aromatherapy Kit by ROMPA®  
52084 Smell Box

## **9. Starting Up**

- Unpack
- Put a couple of drops of essential oil onto the stone
- Plug in

## **10. Detailed Description**

Traditionally crafted in glazed ceramic, the Aroma Stone is the clean, safe and effective way of vapourising essential oils without the use of a naked flame. Put drops onto the stone and simply plug in. Will not overheat and can be easily cleaned with a damp cloth. Allows you to blend your own choice of essential oils!

## **11. Safety**

- Always supervise the use of this product.
- Use on a flat, stable surface.
- Use and keep the product (and the cable) out of reach. The product will become very warm with use.

## **12. Technical Specification**

Size: 10cm diameter, 4cmH; cable approx. 165cmL  
Power: 220 – 240V ~ 50Hz 7W  
Double-isolated  
3 Amp fuse in the UK plug

### **13. Installation**

1. Unpack and place on a suitably safe and stable surface.
2. Put a couple of drops of essential oil onto the stone. A small amount of water may be added if desired (i.e. 5-10ml / 1-2 teaspoons at most). If using water, take care not to overfill. Do not add water whilst the stone is plugged in.
3. Plug in. The green light on the front of the stone will light up. The stone will take a few minutes to heat up. The Stone is warmer at the centre than at the rim. If desired, you could put heavier aromas near the centre and lighter oils near the rim.
4. Unplug after use. Wipe the top of the stone clean and pack the stone away.

### **14. Care and Maintenance**

- Use only a couple of drops of oil.
- Handle with care – the stone is ceramic and should not be dropped or struck.
- Wipe the stone clean with a soft damp cloth. For more persistent marks, use a non-abrasive bathroom cream cleaning product.
- Once this product is eventually exhausted, please dispose of it appropriately.

### **15. Troubleshooting**

*Not applicable*
