

1. Product Name

Giant Colourful 'Marble' Run

2. Product Code

20948

3. Colour

As shown

4. Brief Description

Beautiful to look at - and to listen to. Encourages reaching, motor skills and tracking.

5. Contents

- 1 x base tray
- 1 x central pole
- 5 x balls
- Leaves
- Glue

6. Snoezelen® Stimulations

- Sight
- Sound

7. Best Use

Use on a flat, stable surface.

8. Compatible ROMPA® Products

Not applicable

9. Starting Up

- Secure the central pole to the tray.
- Glue the leaves in position, starting with the smallest leaves at the top.

10. Detailed Description

Beautiful to look at - and to listen to. Encourages reaching, motor skills and tracking. Wonderful for understanding of cause and effect. Made from white maple and birch ply. Includes wooden balls. Minimal assembly required (supplied flat pack).

11. Safety

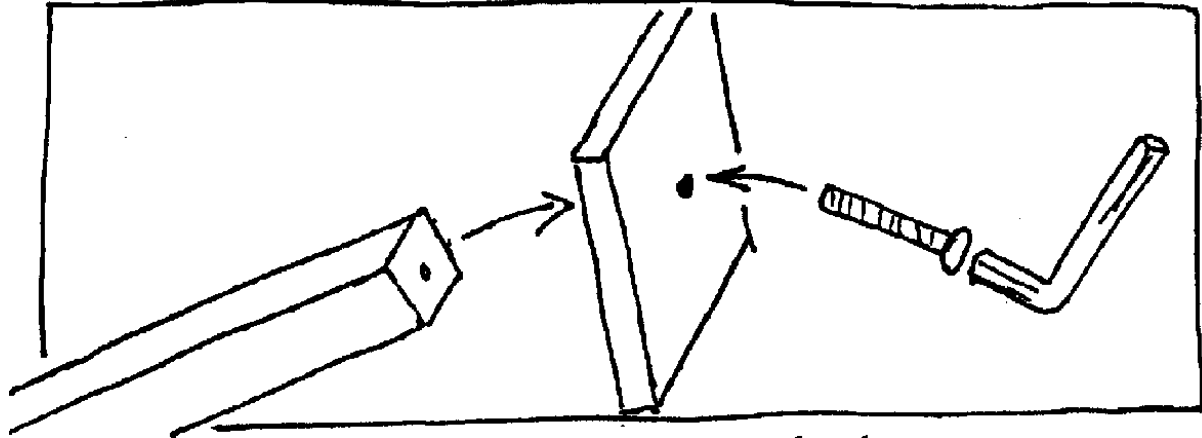

- Always supervise the use of this product.
- Use on a flat, stable floor.

12. Technical Specification

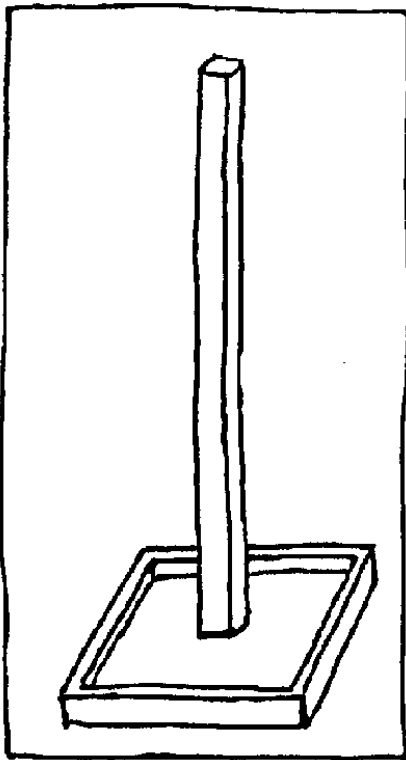

Size: 150cmH (150 x 45 x 7cm when packed)
Balls 4.6cm diameter
Weight: 9kg

13. Installation

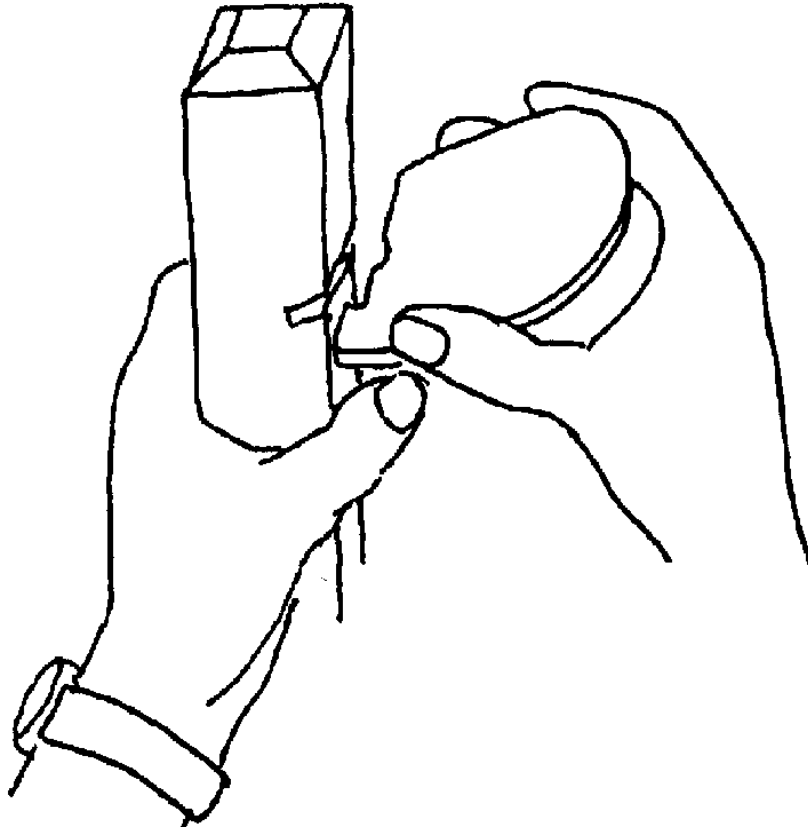

1. Secure the central pole to the base tray. Make sure the screw is flush with the tray.

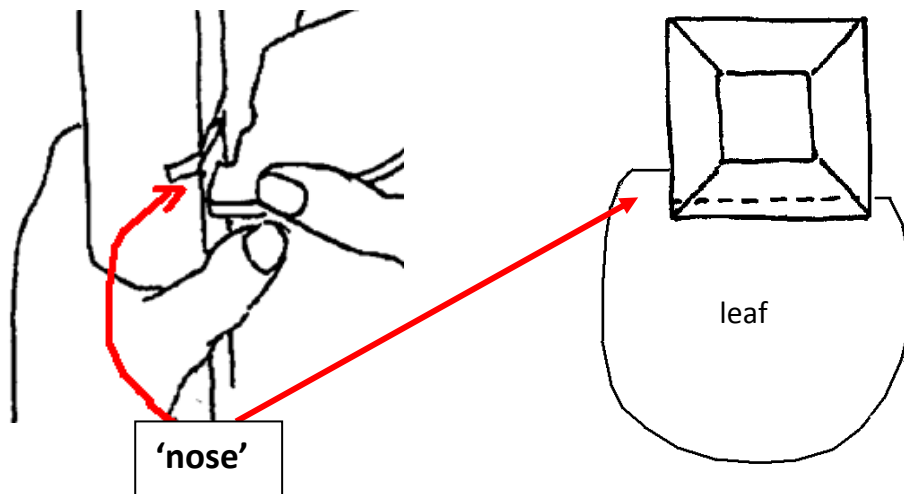

2. Right the tree so the base tray is on the floor.

3. Take leaf 1, a small yellow leaf – the numbers are on the underside of the leaves. Locate the top slot. Gently feed the leaf into the slot. If the leaf will not entirely slot in position, gently wiggle the leaf in place. Remove the leaf. Cut approximately 5mm off the top of the glue. Glue the leaf in place, pushing it gently but fully into the slot. Keep a damp cloth to hand so you can wipe up any surplus glue.

Make sure the 'nose' of the leaf is at the outside of the bar.

Should the leaf still not fit:

Check you are inserting the correct leaf (check the number underneath).

If you have the correct leaf, but the fit is too tight, gently smooth the part to be inserted into the bar using sand paper. Sand away only a tiny amount at once so the leaf does not fit too loosely.

Before inserting more than one or two leaves, view the Marble Run from above to check the leaves are being placed correctly – see the above image on the right hand side.

Feed each of the rest of the leaves into the slots on the pole in the same way – fitting a leaf, removing it, then gluing it in place. Make sure the position of the leaves is as the

photograph at the start of these instructions – smaller leaves are at the top and the larger leaves are at the bottom.

Fit a couple of leaves in place at a time, allowing 3 – 5 minutes for the glue to set. Otherwise, you risk knocking out of place the leaves you've already placed.

Once all the leaves are in position, allow the glue to fully set for at least 20 minutes before allowing anyone to play with the Giant Colourful Marble Run.

Any excess glue may fall into the leaf slots. Should there still be too much glue, remove any excess with a damp cloth. Please note, for a couple of minutes after application, the glue is still dissolvable, but after that it will be virtually insoluble. Take care with the glue. Wear protective clothing as required.

14. Care and Maintenance

1. Handle the product with care.
2. Wipe periodically with a clean, soft and slightly dampened cloth.

15. Troubleshooting

Not applicable
