8. Compatible ROMPA® Products

ROMPA® offer a variety of wall and floor cushioning for sensory and play areas and these come in a large range of colours. We can offer bespoke products, manufactured to your specifications for play spaces designed to encourage movement and exploration.

We also have a range of practical, rehabilitation, healthcare and sensory resources for people who have a range of needs. Please look at www.rompa.com for our full range.

9. Starting Up

Position the Stepping stones where required, ensuring that there is surrounding safety cushioning/matting to reduce risk of potential injury.

10. Detailed Description

Wonderful for clambering and climbing, ascending and descending, balancing and jumping. Exploration and boisterous movement in total safety. Fun, safe and enjoyable. Create delightful imaginary adventures – scale mountains and negotiate rocky shorelines!

11. Safety

ROMPA® soft cushioning is made from high quality durable PVC (Vinyl), Polytran, PU Nylon or Soft and Silky with a high grade of fire retardant soft foam. ROMPA® soft cushioning meets all European Standards for fire retardancy for the combined use of vinyl/PU Nylon/Soft and Silky and foam. If you look after your cushioning it will give you many years of service.

Please read all the following safety information before each use

ALWAYS SUPERVISE THE USE OF THIS PRODUCT

- Remove all packaging and either store this in a safe place out of reach of clients or dispose of this responsibly. Plastic bags and wrapping can be hazardous to children and vulnerable people.
- This product contains a foam filling. Do not attempt to access the interior part of this product. Never allow children or vulnerable people to access the interior part of this product.

Please observe the following for all materials:

- Use indoors, in dry environments.
- Vinyl will crack, tear and rub off if subjected to sharp objects or continual rubbing by hard objects. Remove shoes, and avoid buckles, zips or sharp/hard/pointed objects coming into contact with the surface.
- Check seams regularly to ensure that these are not worn or split and the interior filling cannot be accessed.
- From time to time, if possible, lift floor cushion or move furniture to clean all surfaces and the floor underneath.
- Furniture and cushioning is intended to provide comfort and relaxation. Avoid eating and drinking whilst using these products.
-
- Do not place near sources of heat or fire that may damage the surface (radiators, fires, underfloor heating, hot central heating pipes etc.)
- Direct contact with bright sunlight may affect material over time.
- Do not saturate the material with lots of water.
- Some of our products contain zips for manufacturing purposes only. Do not attempt to open these or to access the interior part of these products. Never allow children or vulnerable people to access the interior part of this product.

12. Technical Specification

Size: 145 x 72.5 x 84cm max height.

Material: This product contains wood.

13. Installation

Position this product ensuring that it has sufficient safety matting/cushioning around it to reduce risk of injury. Ensure that it is located away from walkways, doors and other similar hazards and ensure that it is away from walls and corners.

14. Care and Maintenance

- Organise a regular cleaning schedule.
- Wipe off accidental marks/liquids at the time they occur or are noticed.

PVC (Vinyl)

- Use a soft brush remove all loose dust/dirt
- Clean with a mild detergent (such as Lux soap flakes in luke-warm solution) applied to a sponge or damp cloth.
- This may be sanitised using a weak solution of Milton fluid.
- Do not use excessive amounts of water and always ensure the PVC is dry after cleaning.
- Do not use an abrasive cleaning pad.
- Do not use boiling/very hot water, washing up liquid / aggressive detergent or solvent based cleaner as this will cause the coating to discolour and go hard.
- Steam cleaning is not advised.

15. Troubleshooting

Not applicable.
