## 11. Safety

### Always supervise the use of this product.

This product is not a toy. Any activity involving motion, height, or rotation may cause serious injury. This product is intended for use under the supervision of trained professionals.

- Do not exceed the 90kg (200lbs) weight capacity.
- This equipment is intended for professional clinical use only under supervised conditions by a trained specialist. Use without proper supervision or knowledge is potentially dangerous and should not be undertaken or permitted. Before using these products, make sure you know your limitations and that of your equipment.
- Client safety is dependent on the appropriate choice of activity to match, yet challenge physical ability.
- The layout of the activity area, proper installation and maintenance of equipment is critical – use this product appropriately and safely.
- Do not use or store outside.
- Take time to familiarize yourself with the use and maintenance of this equipment before using and file these instructions in an accessible location. These instructions must be read and be familiar to anyone who is using this equipment.
- All parts of the product should be thoroughly checked at least on a monthly basis and before use.
- Check all points where movement occurs for wear of any kind. All wear points should be checked regularly and recorded on the maintenance checklist enclosed to monitor their condition. Worn parts should be replaced or repaired immediately.
- Clients should wear a safety helmet as necessary.
- Floor mats of an appropriate thickness should be positioned properly underneath and around all equipment. Wall matting/cushioning should also be considered if appropriate.
- Risk assess before use. Inspect equipment for wear and tear before use and discontinue use if any doubt.

## 12. Technical Specification

Size: each 53L x 61.5W x 73cmH  
Weight capacity: 90kg (200lbs)  
Materials: Baltic birch

### 13. Installation

- Please check equipment immediately for any damage that may have resulted during shipping. If any damage has occurred, please contact ROMPA® immediately.
1. Place on a flat, stable and appropriate floor. Do not use against harsh or abrasive surfaces that could scratch the product and cause it to splinter.
  2. If using with any attachments, please refer to the separate instructions for those products. Make sure all points of attachment to the accessory is secure before use.

### 14. Care and Maintenance

1. Wipe down with a soft cloth dampened with a very mild soap solution and allow to air-dry naturally. Do not use large amounts of liquid and do not immerse any part of this product in water. If this product were exposed to wet conditions or left outside, the moisture would cause the wood to swell and break apart.
2. Use and store indoors in a dry environment.

### 15. Troubleshooting

*Not applicable*
