

1. Product Name

Chatsworth Furniture (Deluxe Fabrics)

2. Product Code

22553-22586

3. Colour/Texture

Textured Fabric – Biscotti, Hessian, Petrol

Faux Leather Fabric – Ocean Blue, Ginger Snap, Grape, Citrus Green, Walnut, Scrubs

4. Brief Description

This ever-popular range is now better than ever

- Ergonomically designed
- With a higher cushion for additional back support
- Solid foam without a rigid wooden frame
- Multi-sensory, with eye-catching and tactile fabric options
- Contemporary and aesthetically pleasing for a multitude of environments, including homes and waiting areas
- Softer, slimmer and more curvaceous styling
- Supportive without compromising on comfort

5. Contents

1 x piece of furniture

6. Snoezelen® Stimulations

- Touch
- Sight

7. Best Use

Use on a flat, stable surface.

8. Compatible ROMPA® Products

These items of furniture are modular and can be used on their own or together with other pieces from this range.

9. Starting Up

- Unpack and place in an appropriate place.

10. Detailed Description

This ever-popular range is now better than ever

- Ergonomically designed
- With a higher cushion for additional back support
- Solid foam without a rigid wooden frame
- Multi-sensory, with eye-catching and tactile fabric options
- Contemporary and aesthetically pleasing for a multitude of environments, including homes and waiting areas

- Supportive without compromising on comfort

Available in a huge choice of colours. Choose from our standard PVC or 2-tone options - Faux Leather combined with Textured Fabric.

11. Safety

- Avoid sharp or pointed objects which could puncture the product. Take care with zips on clothing etc. Remove shoes.

Please read all the Safety information below before each use

ALWAYS SUPERVISE THE USE OF THIS PRODUCT

Remove all packaging and either store this in a safe place out of reach of clients or dispose of this responsibly. Plastic bags and wrapping can be hazardous to children and vulnerable people.

Chatsworth furniture contains a foam filling. Do not attempt to access the interior part of this product. Never allow children or vulnerable people to access the interior part of this product.

Should any seams or the zip become damaged, contact ROMPA® immediately to arrange repair or replacement.

Keep away from sources of heat and fire.

12. Technical Specification

Chair Size:	75Wx80Wx75cmH
Chair Size High Back:	135Wx90Dx108cmH
2 Seat Settee:	135Wx80Dx75cmH
2 Seat Settee High Back:	122Wx90Dx108cmH
3 Seat Settee:	190Wx80Dx75cmH
3 Seat Settee High Back:	177Wx90Dx108cmH
Chatsworth L/H and R/H Settee:	122Wx80Dx75cmH
Chatsworth L/H and R/H Settee:	177Wx90Dx108cmH
Corner Unit:	90Wx90Dx75cmH
Corner Unit High Back:	100Wx90Dx108cmH
Foot Stool:	40Lx40Wx42cmH
Large Foot Stool:	50Lx50Wx42cmH

13. Installation

Not applicable

14. Care and Maintenance

- Organise a regular cleaning schedule.
- Treat this furniture with care e.g. do not eat whilst on the furniture to avoid spillages.
- Look after your furniture to maintain its appearance and condition.

FABRIC MAINTENANCE

If you look after your soft cushioning it should give you many years of service.

But please observe the following:-

1. Fabric may wear, tear or “rub off” if subjected to sharp objects or continual rubbing by hard objects. Avoid shoes, buckles or sharp/hard objects.
2. From time to time lift/move furniture to clean all surfaces and the floor underneath.

Faux Leather – Ocean Blue, Ginger Snap, Grape, Citrus Green, Walnut, Scrubs

General Cleaning:

Visible and loose dirt can be picked up with a vacuum cleaner – do not use a brush type vacuum. To get rid of any dust or marks on the surface, the Faux Leather MUST be wiped DAILY with a moist soft cotton cloth. Use a soapy microfiber or cotton cloth and gently rub stains in circular movements. For more stubborn marks a dilute bleach solution can be used – 5% bleach to 95% water to give 10,000ppm of available chlorine. Chlor-Clean, Haz Tabs and Tristel Fuse for Surfaces are suitable for use on this fabric. Continued use and stronger solutions may damage the surface and cause the vinyl to crack.

Stain Removal:

Blot excess liquid as quickly as possible with a clean microfiber or 100% cotton white absorbent cloth or sponge. If necessary, use clean warm water. Clean the entire area where the spot occurred on the cushion, arm etc. Water may dissolve dirt particles and making cleaning easier. Spills that are still moist are the easiest to remove. Leave to air dry naturally. Do not use a hair dryer etc. to speed up the drying.

Coffee, tea etc. spills:

Use an absorbent white cloth or piece of paper. DO NOT RUB. Allow the stain to be absorbed and removed from the material surface. Then rub gently with white microfiber cloth or tissue paper in circular movements to remove any remaining dampness and residue.

Ink, ballpoint pen, Denim:

These are almost impossible to remove once set. Rub the stain by means of gentle circular movements with a microfiber cloth or tissue dampened with alcohol and water (1:1). After this, rub the surface with gentle circular movement with tissue paper to dry it. Continued use of alcohol-based solutions may damage the surface and cause cracking.

Butter, oil, grease stains:

Wipe excess butter, oil or grease off the surface with a clean microfibre cloth or 100% cotton white dry cloth. Use a soapy cotton cloth and gently rub the stain with circular movements. Use a clean damp cloth to wipe the area and dry the surface.

Chewing gum:

Place ice cubes in a plastic bag and apply on to the chewing gum. Wait several minutes then lift the ice bag and remove the chewing gum.

DO NOT USE CHEMICALS, SADDLE SOAP, CLEANING SOLVENTS, FURNITURE POLISH, OILS, VARNISH, ABRASIVE CLEANERS OR AMMONIA IN WATER AS THESE WILL DAMAGE THE FABRIC.

It is crucial that any staining is treated immediately. Delays in cleaning will give stains time to react with the plasticizer in the faux leather, making it more and more difficult to remove.

Please note: These are recommended or suggested methods of cleaning. The manufacturer is not responsible for damage incurred while cleaning. Always try the cleaning method in a hidden area first to check the results. Remember, if you are unsure seek further advice.

Textured Fabric - Petrol

Oil based stains such as butter, margarine, cream, coffee, milk, oil based paint, salad dressing, cooking oil etc.

- Use a clean, colourfast absorbent cloth to apply a spot remover for oily stains. Use a dull knife or spatula to lift the stain off the material.
- Dab the stain a few times, do not rub! Work from the outside edge of the stain inward so that you are careful not to spread the stain further as you try to remove it.
- Sprinkle an absorbent detergent (non-greasy) onto the spill and allow it to sit for a couple of minutes to absorb the excess grease.
- Remove the detergent with the oily substance with a new part of the cloth.
- Use a soft brush like a toothbrush and work from the outside edge of the stain inward, so the stain is not spread further as you try to remove it.
- Use warm water in order to get the soap and oil out of the fabric. Dab with an absorbent cloth.
- Repeat until there's no residue of the detergent left in the fabric.
- When dry, gently brush up the fabric, first against the pile and then with the pile for a fresh look.

Water based stains such as wine, soft drinks, alcoholic drinks, tea, coffee, milk, faeces, vomit etc.

- Use a clean absorbent cloth. Blot up as much as liquid as possible while it is still fresh.
- Rinse out remaining liquid with lukewarm water to remove the soap and dirt.
- Dab the remaining moisture in order to get it dry or use a water hand vacuum cleaner to obtain dry fabric even faster.
- When dry, gently brush up the fabric, first against the pile and then with the pile for a fresh look.

Other kinds of stains such as fruit and berry stains, foundation pen ink, ballpoint, emulsion paint, blood etc.

- Follow the instructions under water-based stains, but make sure you use cold water instead of warm. When the fabric is dry, brush gently, first against and then with the pile.
- Using chlorine or alcohol-based cleaning fluids is against what our supplier advocates. If you do wish to use these against our recommendation we suggest that this solution is 10% dilution or less and be aware that using this type of cleaning fluid may discolour or damage the fabric surface.

- Our supplier has stated that they have tested the fabric with a steam cleaning method and that no water permeated through into the other side. We do, however, advise against this cleaning activity for the simple reason that when creating furniture, seams and stitching are necessary which create tiny holes where it is possible for liquid to get through into the inner foam. Should a lot of steam/water be accidentally used, there is potential for the inner foam to get saturated and be detrimental to your furniture.

It is crucial that any staining is treated immediately.

Please note: These are recommended or suggested methods of cleaning. The manufacturer is not responsible for damage incurred while cleaning. Always try the cleaning method in a hidden area first to check the results. Remember, if you are unsure seek further advice.

Textured Fabric – Biscotti and Hessian

- Vacuum or wipe clean routinely with a microfibre cloth lightly dampened with cold water only.
- Soak up spillages as soon as possible with an absorbent dry cloth to prevent staining.
- Steam-cleaning is not recommended: steam cleaning may disinfect the fabric but the application of heat may fix staining substances and may result in permanent marks.
- Do not tumble dry
- Do not dry clean
- Remove body fluids and extreme soiling immediately (within 15 minutes) with cold water then apply approved infection control protocol: Haz Tabs, Chlor Clean or Shield Plus etc.
- As the concentration of bleach can vary greatly among proprietary brands, we recommend these be avoided. Remove product residues and then dry with a clean absorbent cloth.
- Do not immerse fully in water.
- Do not apply solvents, alcohol or any other chemical cleaners.

It is crucial that any staining is treated immediately.

Please note: These are recommended or suggested methods of cleaning. The manufacturer is not responsible for damage incurred while cleaning. Always try the cleaning method in a hidden area first to check the results. Remember, if you are unsure seek further advice.

15. Troubleshooting

Not applicable
