ABOUT THE PRODUCT

Product Description

Aesthetically charming as well as highly tactile. A large variety of fluid shapes, raised and recessed areas as well as contrasting textures make this contemporary looking panel as pleasing to the touch as to the eye.

Ideal for smaller spaces and budgets, without compromising on texture, aesthetics or purpose. To be wall-mounted. Colours and features may vary.

User Benefits

- Stimulates sight: the panel's dynamic shapes and textures visually engage users, while its various surfaces create different sounds when touched, enhancing auditory and visual sensory input. This makes the Abstract Tactile Panel ideal for multi-sensory exploration and stimulating cognitive and sensory development.
- Stimulates Touch: The panel's varied textures invite users to explore through touch, promoting tactile stimulation and sensory integration.

Product Compatibility

The Midi Abstract Panel is part of a comprehensive panels range, designed to be used alongside other sensory panels for a cohesive and engaging sensory experience. It can be combined with complementary panels to create a fully immersive sensory wall or interactive environment, catering to various sensory needs and preferences.

TECHNICAL SPECIFICATION

03.

Included Parts

1x Midi Abstract Panel

Technical Specification

Weight: 17.5kg
Dimensions: 115H x 57.5WCM

SAFETY AND CARE

Product Safety and Care Instructions

Safety:

Always supervise users while engaging with the Abstract Tactile Panel to ensure safe and appropriate use.

Care and Maintenance:

To maintain the panel's appearance and longevity, wipe clean using a soft, clean cloth slightly dampened with a mild cleaning product. Avoid using harsh chemicals or excessive moisture to protect the different textures and surfaces. Regular cleaning will keep the panel in optimal condition for ongoing sensory exploration.

ASSEMBLY & INSTALLATION GUIDE

05.

Product Assembly Guide/Installation

IMPORTANT: Wall-mount this product or mount onto our Panel Porter before use, taking the following points into account:

- Purchase and use appropriate fixings (mirror plates are usually the best option for most walls; FIG A.)
- Fixings will depend on the construction of your wall
- The wall must be of solid enough construction to hold the panel

FIG A. Mirror plates
