unit out of the box
2 people recommended**

GETTING STARTED

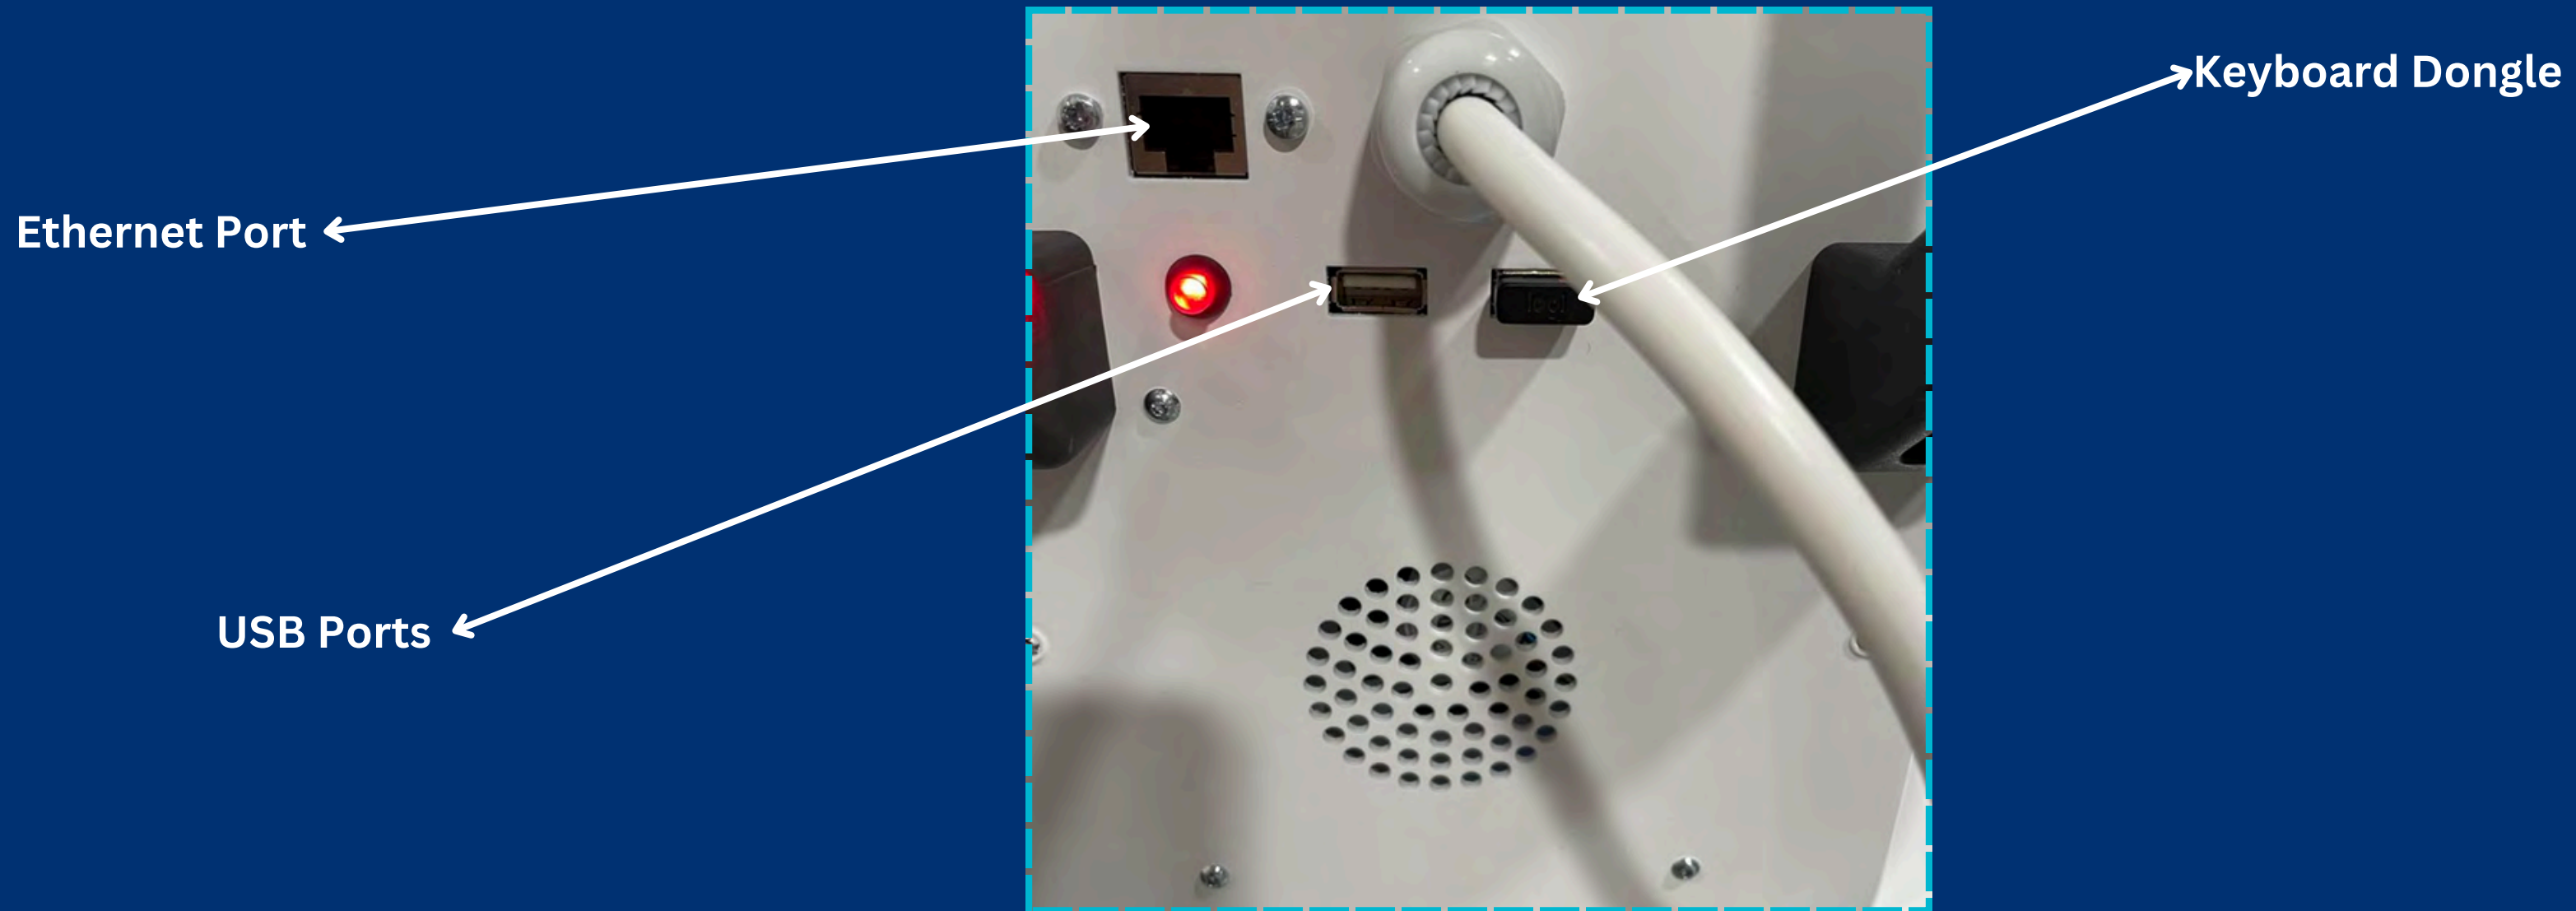

The keyboard

Please open the keyboard box and insert the batteries and remove the little black dongle which you will find in the box. The black dongle needs inserting into the USB port on the back of the unit.

GETTING STARTED

Ports

Located on the back of the unit are the below ports

GETTING STARTED

Switching on

The unit is provided with an RCD Plug, insert this into the mains.

Hold down the orange RESET button for a few seconds

A blue light will appear on the back of the SENSE Mini indicating the unit is powered. The projector and PC will power up automatically please be patient.

GETTING STARTED

Switching off

Press and hold the Red standby button on the black remote, wait for the unit to power down before unplugging.
Alternatively there is a shutdown option under settings in the main menu.

THE REMOTE

The machine is operated by the remote and there are a few features accessible from the remote:

- Hold down the button with the 3 lines to enable read aloud mode, this will read aloud any text within activities such as the questions or storyboard.

- Adjust the difficulty or reaction times of certain activities by pressing up on the remote, this will increase the speed of the ball games, splat, particles etc. It will also cut the jigsaw activity up into more pieces.

THE CREATION SUITE

Provided with your SENse Mini you have access to the Creation Suite which you should have now received an activation for following the process at the start of this guide. To access the Creation Suite visit: www.touchthefuture.co.uk

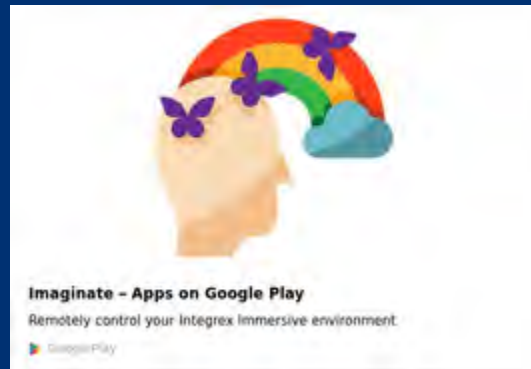

Enter your email address and the password you created at sign up stage.

See the Creation Suite Guide for details on how to create your own custom playlists, import your own media and create your own engaging activities.

THE IMAGINATE APP

Included with Imagine Suite is access to the Imagine Suite App.

- Download the Imagine Integrex Limited App from the Play store or App Store

- The app will ask you to link your machine to the app.
- Login to the creation Suite
- Press on the admin tab
- Press the i button next to the machine you want to link to the app
- A pop up box will appear and a link in the right top corner which says view link code
- This will bring up a QR code for you to scan with the app on your phone or tablet
- The machine will now be linked and you can instantly play activities or profiles from your device

Activating your account

To take full advantage of the Imagine Suite we advise activating your account to allow access to the Creative Suite. The Creative Suite allows you to create your own personal playlists, import your own media and create your own interactive activities

The screenshot shows a mobile interface for account activation. At the top, it says 'Welcome' on the left and '12:02' on the right. Below this is a navigation bar with three options: 'Connect to Wifi', 'Activate Account', and 'Begin Journey'. The 'Activate Account' option is highlighted. The main content area is titled 'Creative Suite' and contains three paragraphs of text describing the suite's features. At the bottom, there is a call to action: 'Use your black remote to select activate now', with two buttons: 'Activate Now' and 'Remind Me Later'.

Welcome 12:02

Connect to Wifi | Activate Account | Begin Journey

Creative Suite

When you activate Imagine, you open up a world of creative possibilities. You get unlimited access to an impressive suite of multimedia tools, perfect for crafting interactive and engaging content.

Imagine's creative suite is truly a game-changer. It offers a vast range of multimedia resources and customization options, allowing you to design activities that perfectly match your users' needs and preferences. Whether your goal is to educate, entertain, or inform, Imagine provides everything you need to capture your audience's attention.

With a rich library of images, sounds, and videos at your disposal, you can create visually stunning and immersive experiences. Plus, Imagine lets you easily integrate your own media content, making it easy to add a personal touch. This high level of customization ensures that your activities resonate with your users, helping to build a stronger connection and keep them engaged.

Imagine App

The Imagine app adds another layer of convenience and versatility. With this app, you can quickly switch between activities, adapting to the evolving needs and preferences of your users. The Imagine app empowers you to deliver a dynamic and tailored experience with ease.

In essence, Imagine offers limitless possibilities for creativity and innovation. Elevate your content creation process, unleash your imagination, and deliver unforgettable experiences with Imagine today.

GETTING STARTED

Enter your details

Once you have selected to activate your account it will ask you to enter your email address, you can use the black remote to navigate the keys or used the supplied keyboard.

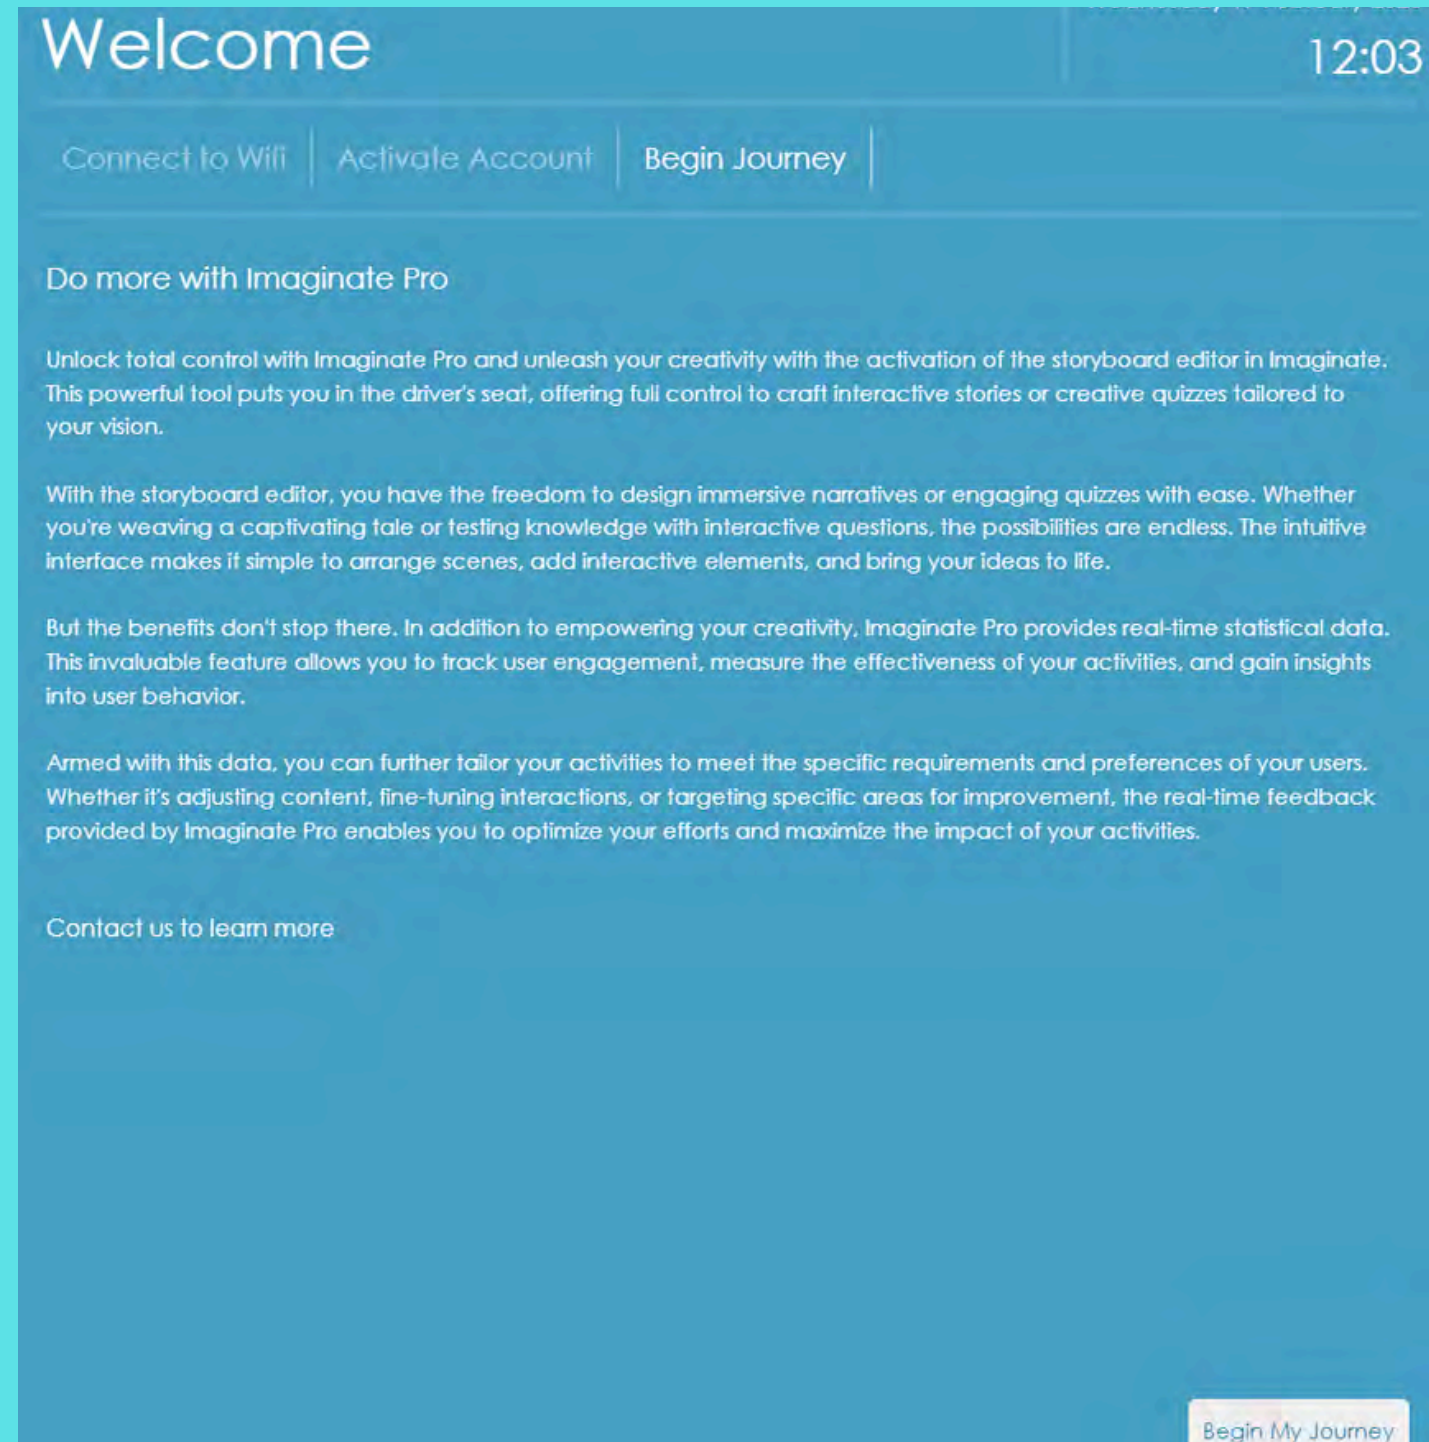

Check you emails to verify the email address supplied, be sure to check your junk and spam folders. Once you have verified your email address your account for the Creation Suite has been created. Click the Link in the email to access the suite.

GETTING STARTED

All set!

Your Imagine Suite is now ready to use, select begin my Journey with the black remote and this will take you to the main menu where you can begin to explore the included interactive activities.

The screenshot shows a welcome screen for Imagine Pro. At the top, it says "Welcome" on the left and "12:03" on the right. Below this is a navigation bar with three options: "Connect to Wifi", "Activate Account", and "Begin Journey". The main content area is titled "Do more with Imagine Pro" and contains three paragraphs of text. The first paragraph explains that Imagine Pro unlocks total control and allows users to craft interactive stories or quizzes. The second paragraph describes the storyboard editor, which allows users to design immersive narratives or quizzes. The third paragraph discusses real-time statistical data provided by Imagine Pro, which can be used to track user engagement and optimize activities. At the bottom right of the screen, there is a button labeled "Begin My Journey".

Welcome 12:03

Connect to Wifi | Activate Account | Begin Journey

Do more with Imagine Pro

Unlock total control with Imagine Pro and unleash your creativity with the activation of the storyboard editor in Imagine. This powerful tool puts you in the driver's seat, offering full control to craft interactive stories or creative quizzes tailored to your vision.

With the storyboard editor, you have the freedom to design immersive narratives or engaging quizzes with ease. Whether you're weaving a captivating tale or testing knowledge with interactive questions, the possibilities are endless. The intuitive interface makes it simple to arrange scenes, add interactive elements, and bring your ideas to life.

But the benefits don't stop there. In addition to empowering your creativity, Imagine Pro provides real-time statistical data. This invaluable feature allows you to track user engagement, measure the effectiveness of your activities, and gain insights into user behavior.

Armed with this data, you can further tailor your activities to meet the specific requirements and preferences of your users. Whether it's adjusting content, fine-tuning interactions, or targeting specific areas for improvement, the real-time feedback provided by Imagine Pro enables you to optimize your efforts and maximize the impact of your activities.

Begin My Journey

START UP AFTER REGISTRATION

When you start the SENse Mini up after you have registered the software will automatically start to play the supplied interactive activities until you press the home button on the black remote, this will then take you to the Main Menu of the Imagine Suite.

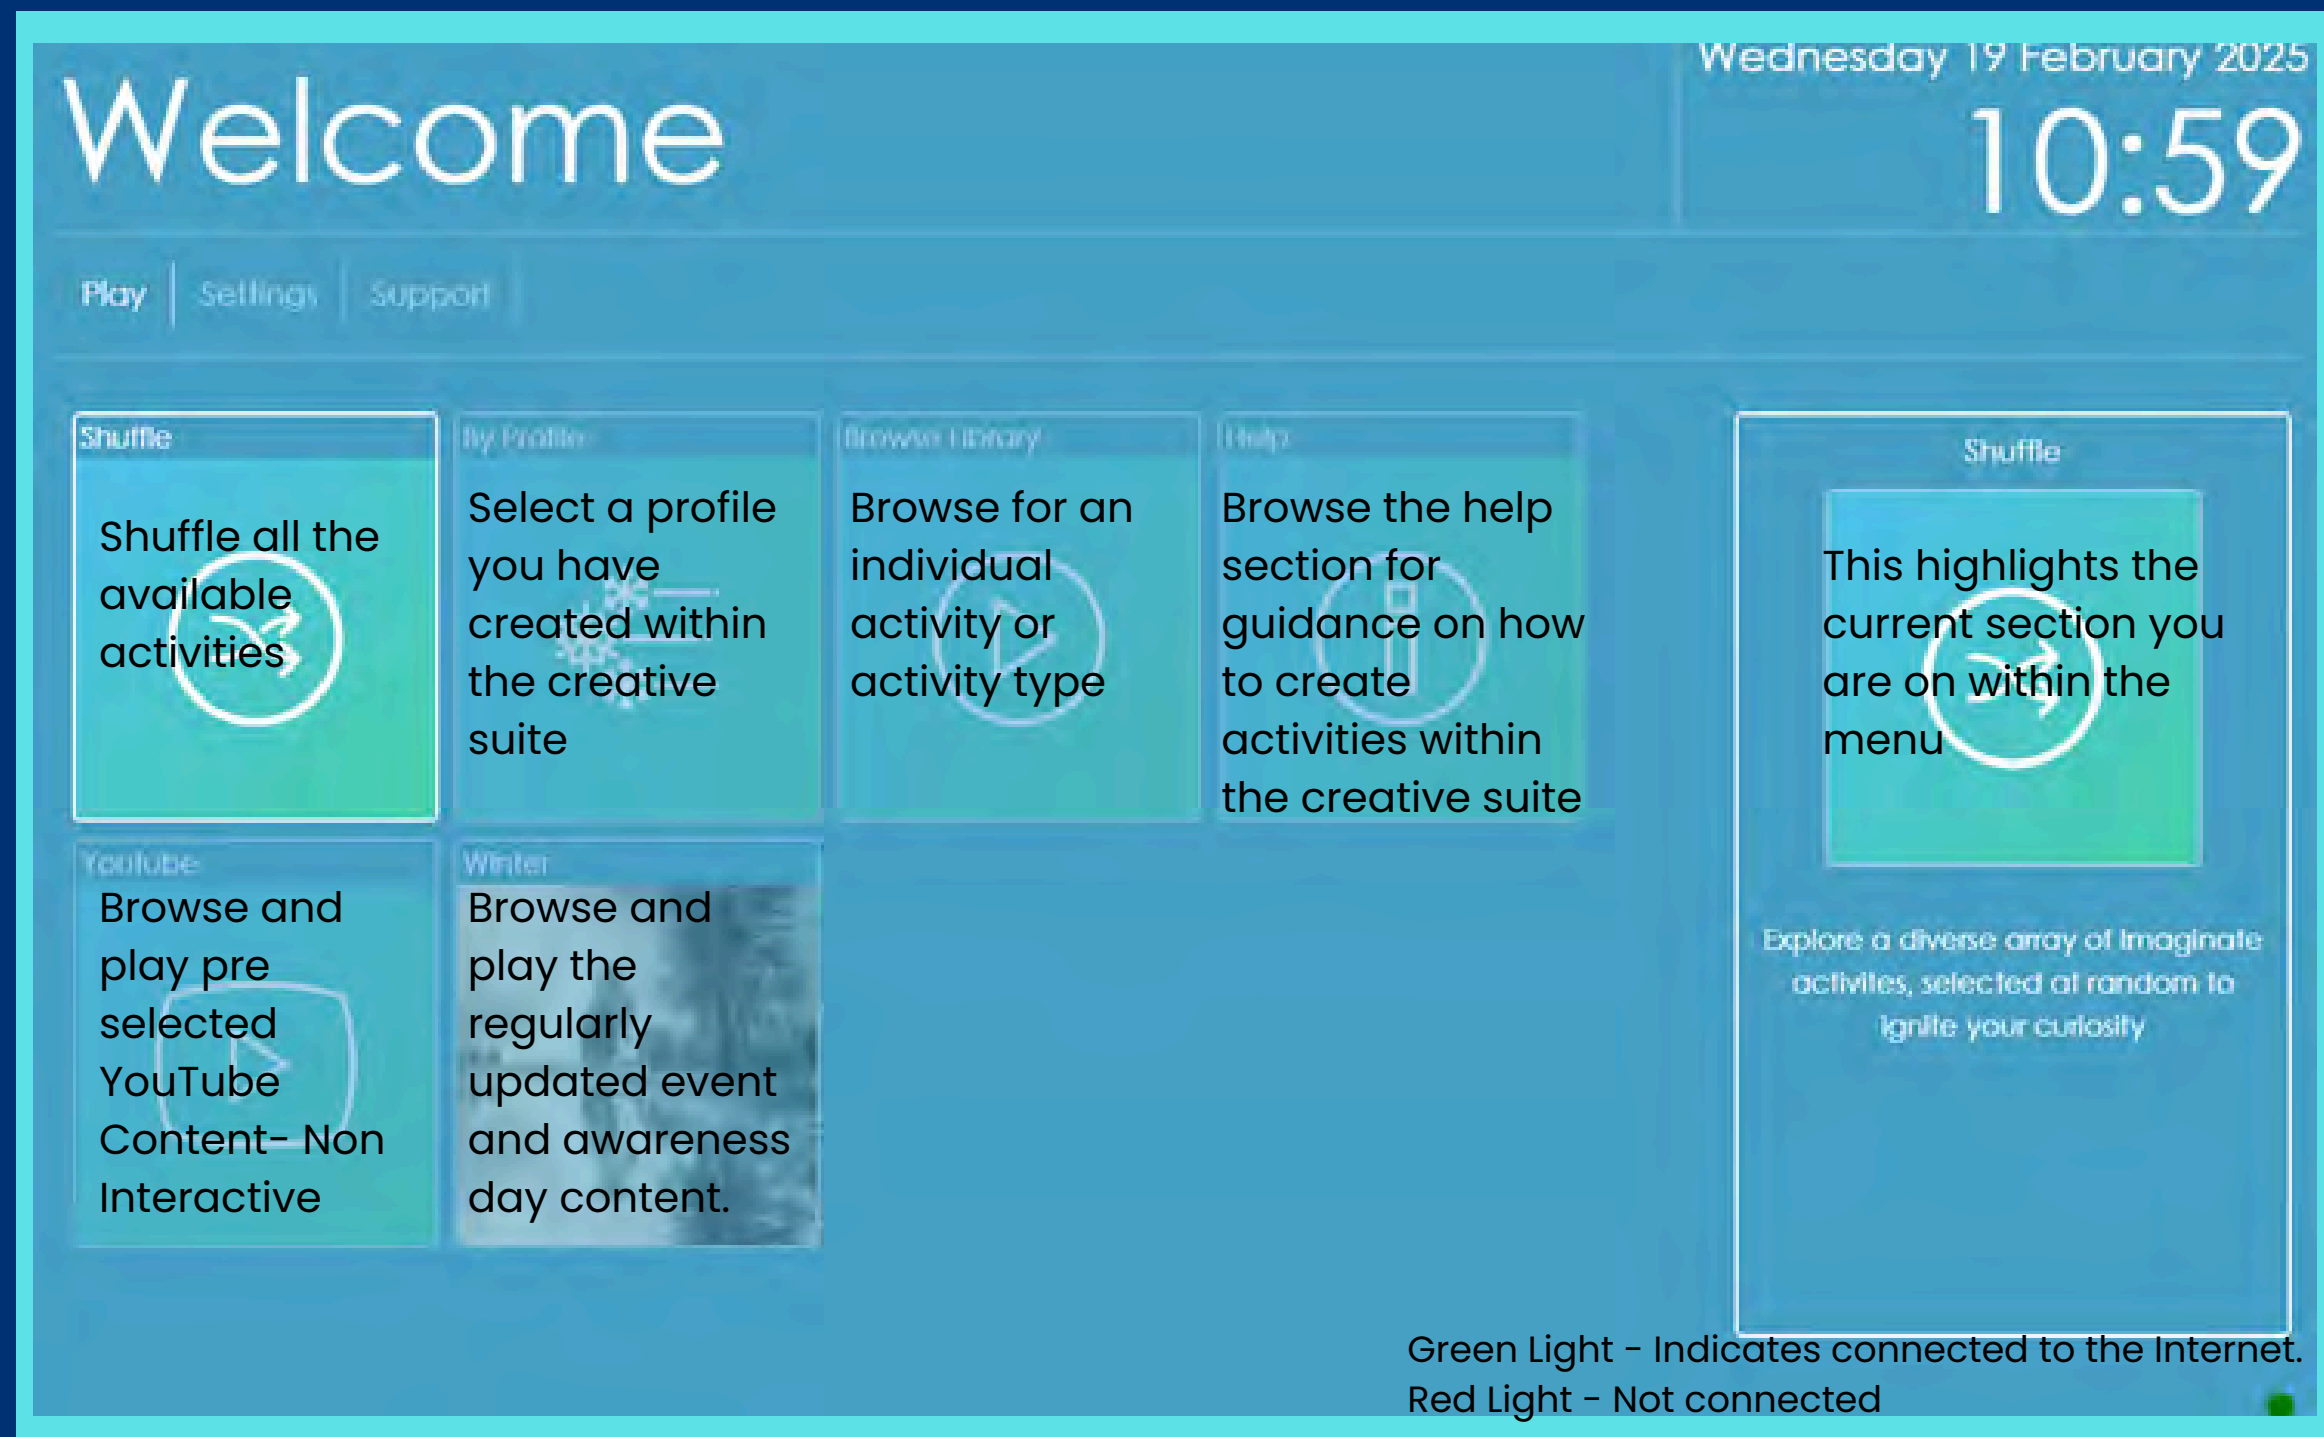

THE MAIN MENU

This is the Main Menu of the Imagine Suite, there are 2 sub menus running across the top
Play - Which is the current menu being displayed

Settings- See Page 14

Support- See Page 15

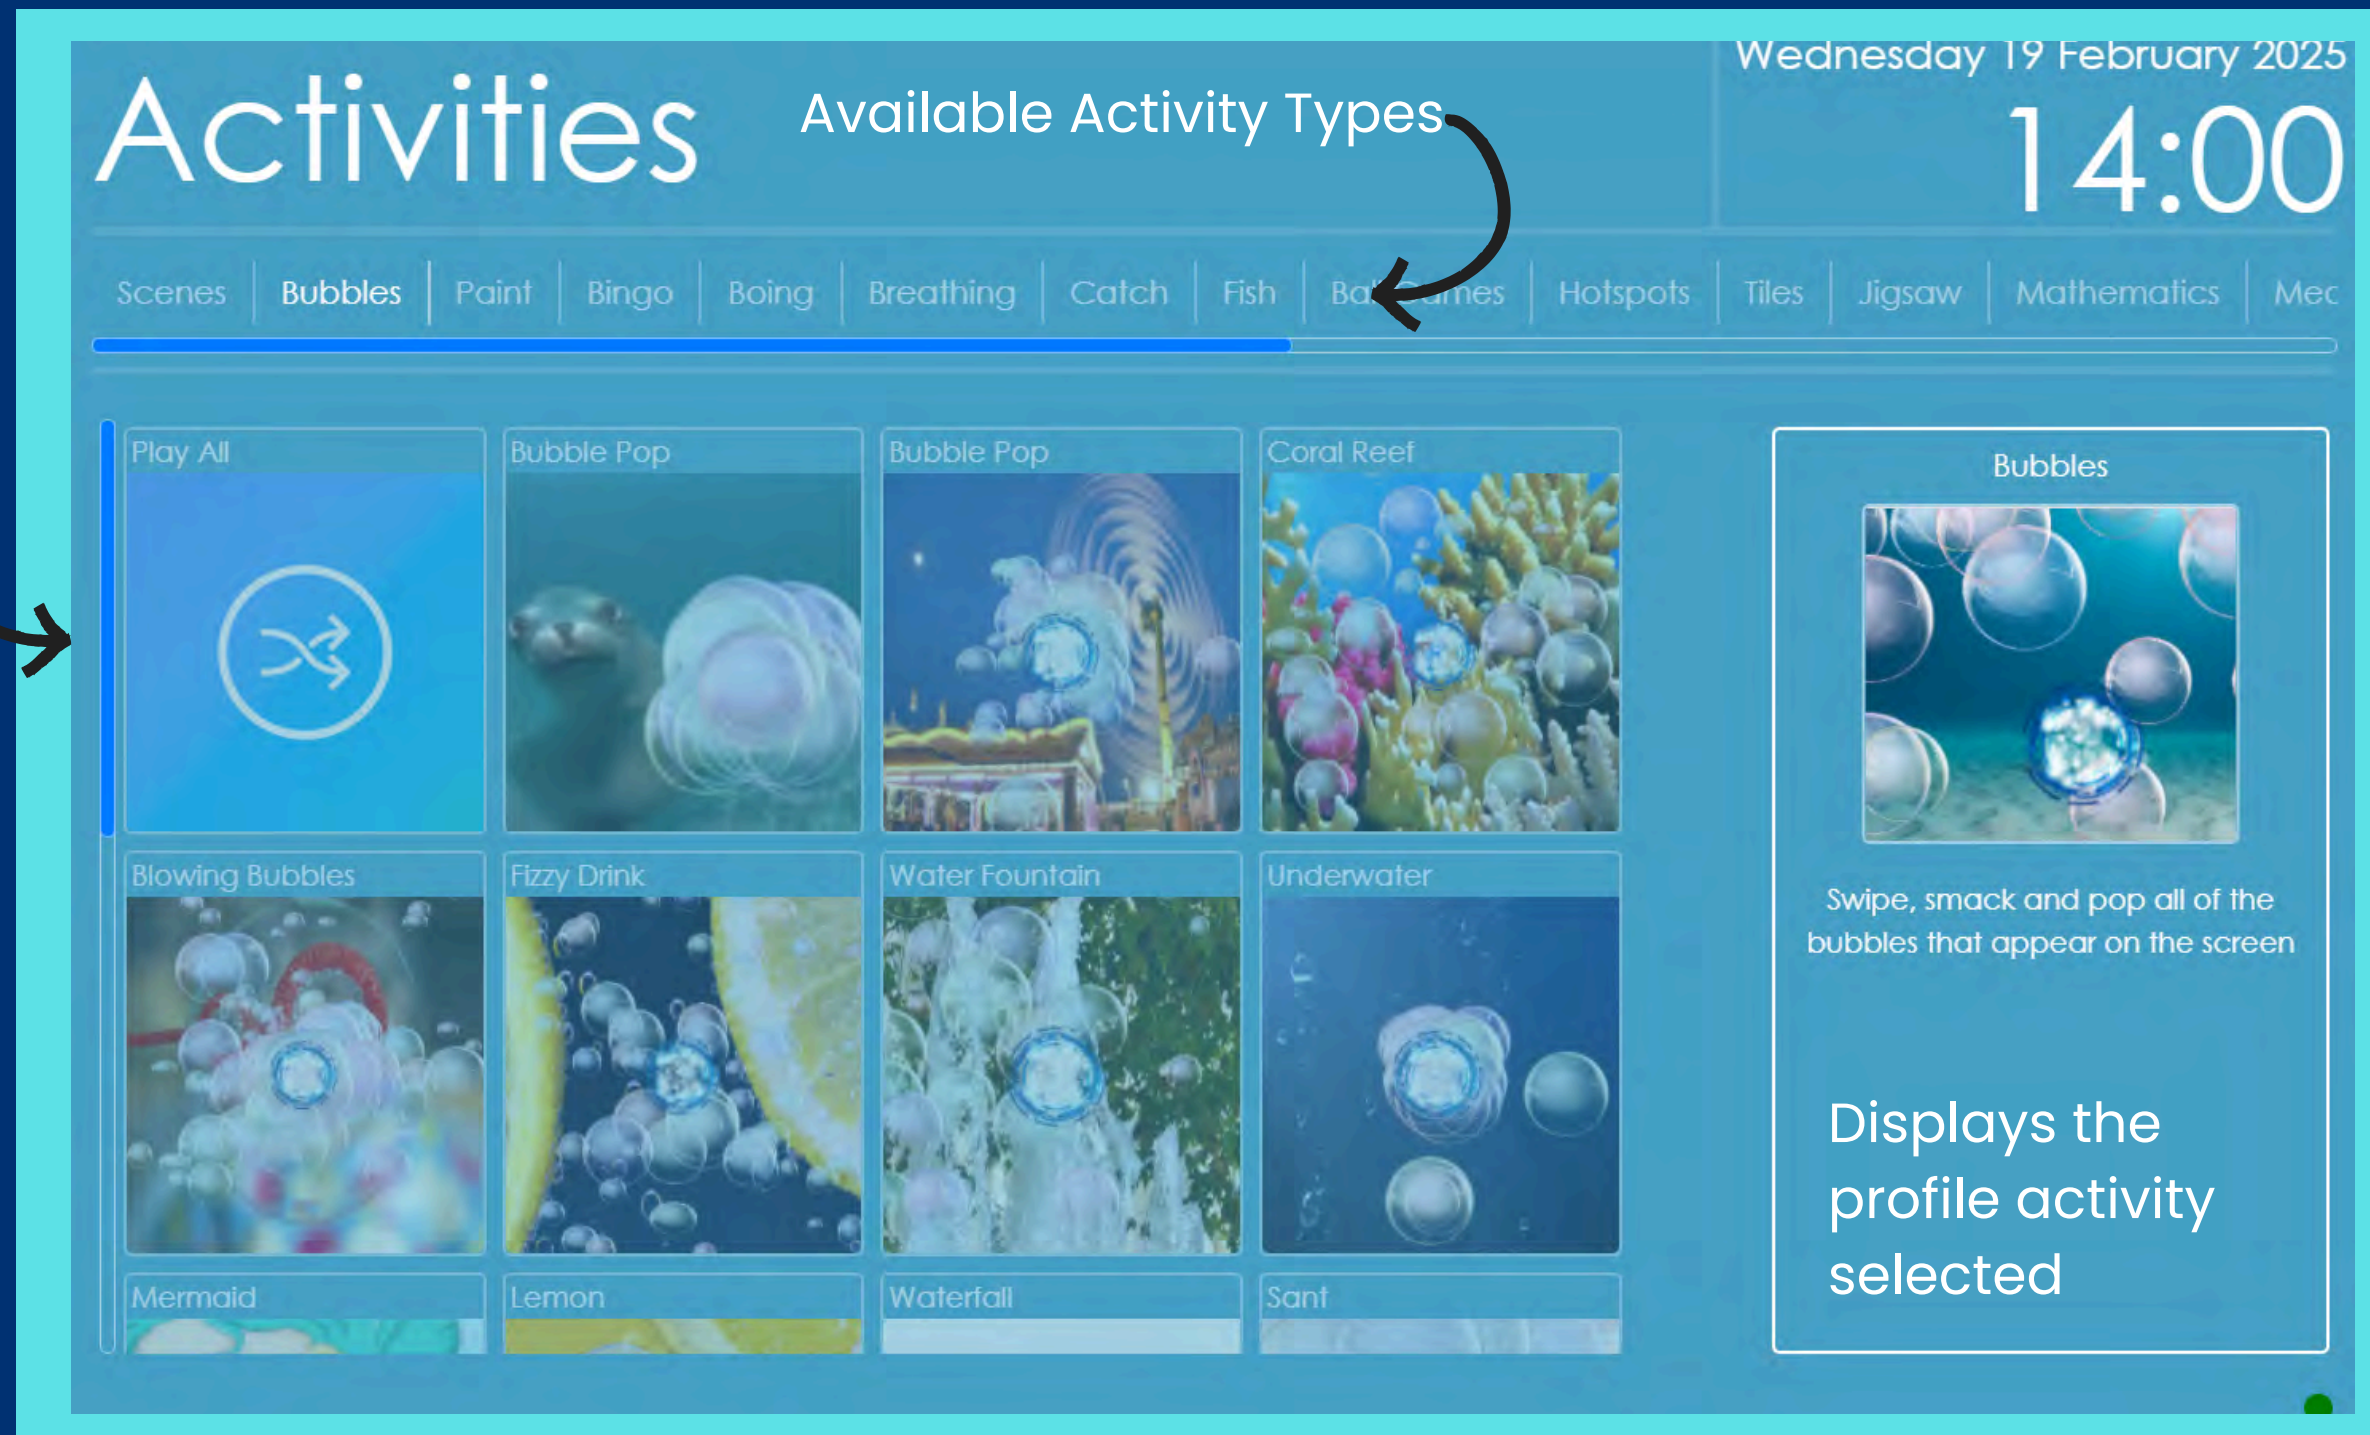

BY PROFILE

Once you select the By Profile option you will be provided with all the available profiles associated to your account. Profiles are created within the creative Suite, navigate to the profile you want to play from the top slider bar and then either press play all or navigate to an individual activity within that profile.

The screenshot shows a user interface titled "Profiles" with the date "Wednesday 19 February 2025" and time "13:54". A top navigation bar contains several tabs: "Preview", "Demonstration", "Education Examples", "Winter", "Educational", "Test Profile", "Emma", "Demo Room", "Training", and "Nuffy Nursery". A blue slider bar is positioned below these tabs, with an arrow pointing to the "Test Profile" tab. Below the navigation bar is a grid of profile cards. The first card is titled "Play Preview Profile" and features a graphic of a head with a rainbow and butterflies. Other cards include "Butterfly", "Letter A", "Basketball", "Leaves", "Spaceship", "Seashells", "Balls", "Balloon Pop", "London", "Fish", and "Coral Reef". To the right of the grid is a "Preview" section with a large version of the "Play Preview Profile" graphic and the text: "Discover the range of Imagineate activities featured in the Preview Profile" and "Displays the profile currently selected." An arrow labeled "Play the Profile" points to the "Play Preview Profile" card.

BROWSE LIBRARY

Once you select the Browse Library option you will see all the activity types listed along the top, this is a slider bar and will move when you press right on the remote. From in here you can select an individual activity to play or all content within that activity type. If you select an individual activity to play it will continue to do this until you press home on the remote.

Play all of that activity type

HELP

Within the help section are videos or PDFs to help guide you through certain topics, the Imagine App, The Creation Suite and the Activity Wizard.

The screenshot shows the 'Help' section of the Imagine App. At the top left, the word 'Help' is displayed in a large font, followed by 'Available Help Topics'. To the right, the date 'Wednesday 19 February 2025' and the time '14:03' are shown. Below this is a navigation bar with three items: 'Imagine App', 'Creative Suite', and 'Instant Activity Wizard'. A black arrow points from the 'Instant Activity Wizard' item to the 'Room Effects' topic card below. The 'Room Effects' card features a rainbow color gradient and a target icon. Below the navigation bar are three topic cards: 'Profiles' (showing a hand holding a smartphone), 'Activities' (showing various activity icons), and 'Room Effects' (showing a rainbow color gradient). To the right of these cards is a larger card for the 'Imagine App', which includes an image of a hand holding a smartphone and a descriptive paragraph. Below the topic cards, there is a text block explaining that users can choose a relevant topic to receive a short video or PDF guide.

Wednesday 19 February 2025 14:03

Imagine App | Creative Suite | Instant Activity Wizard

Profiles Activities Room Effects

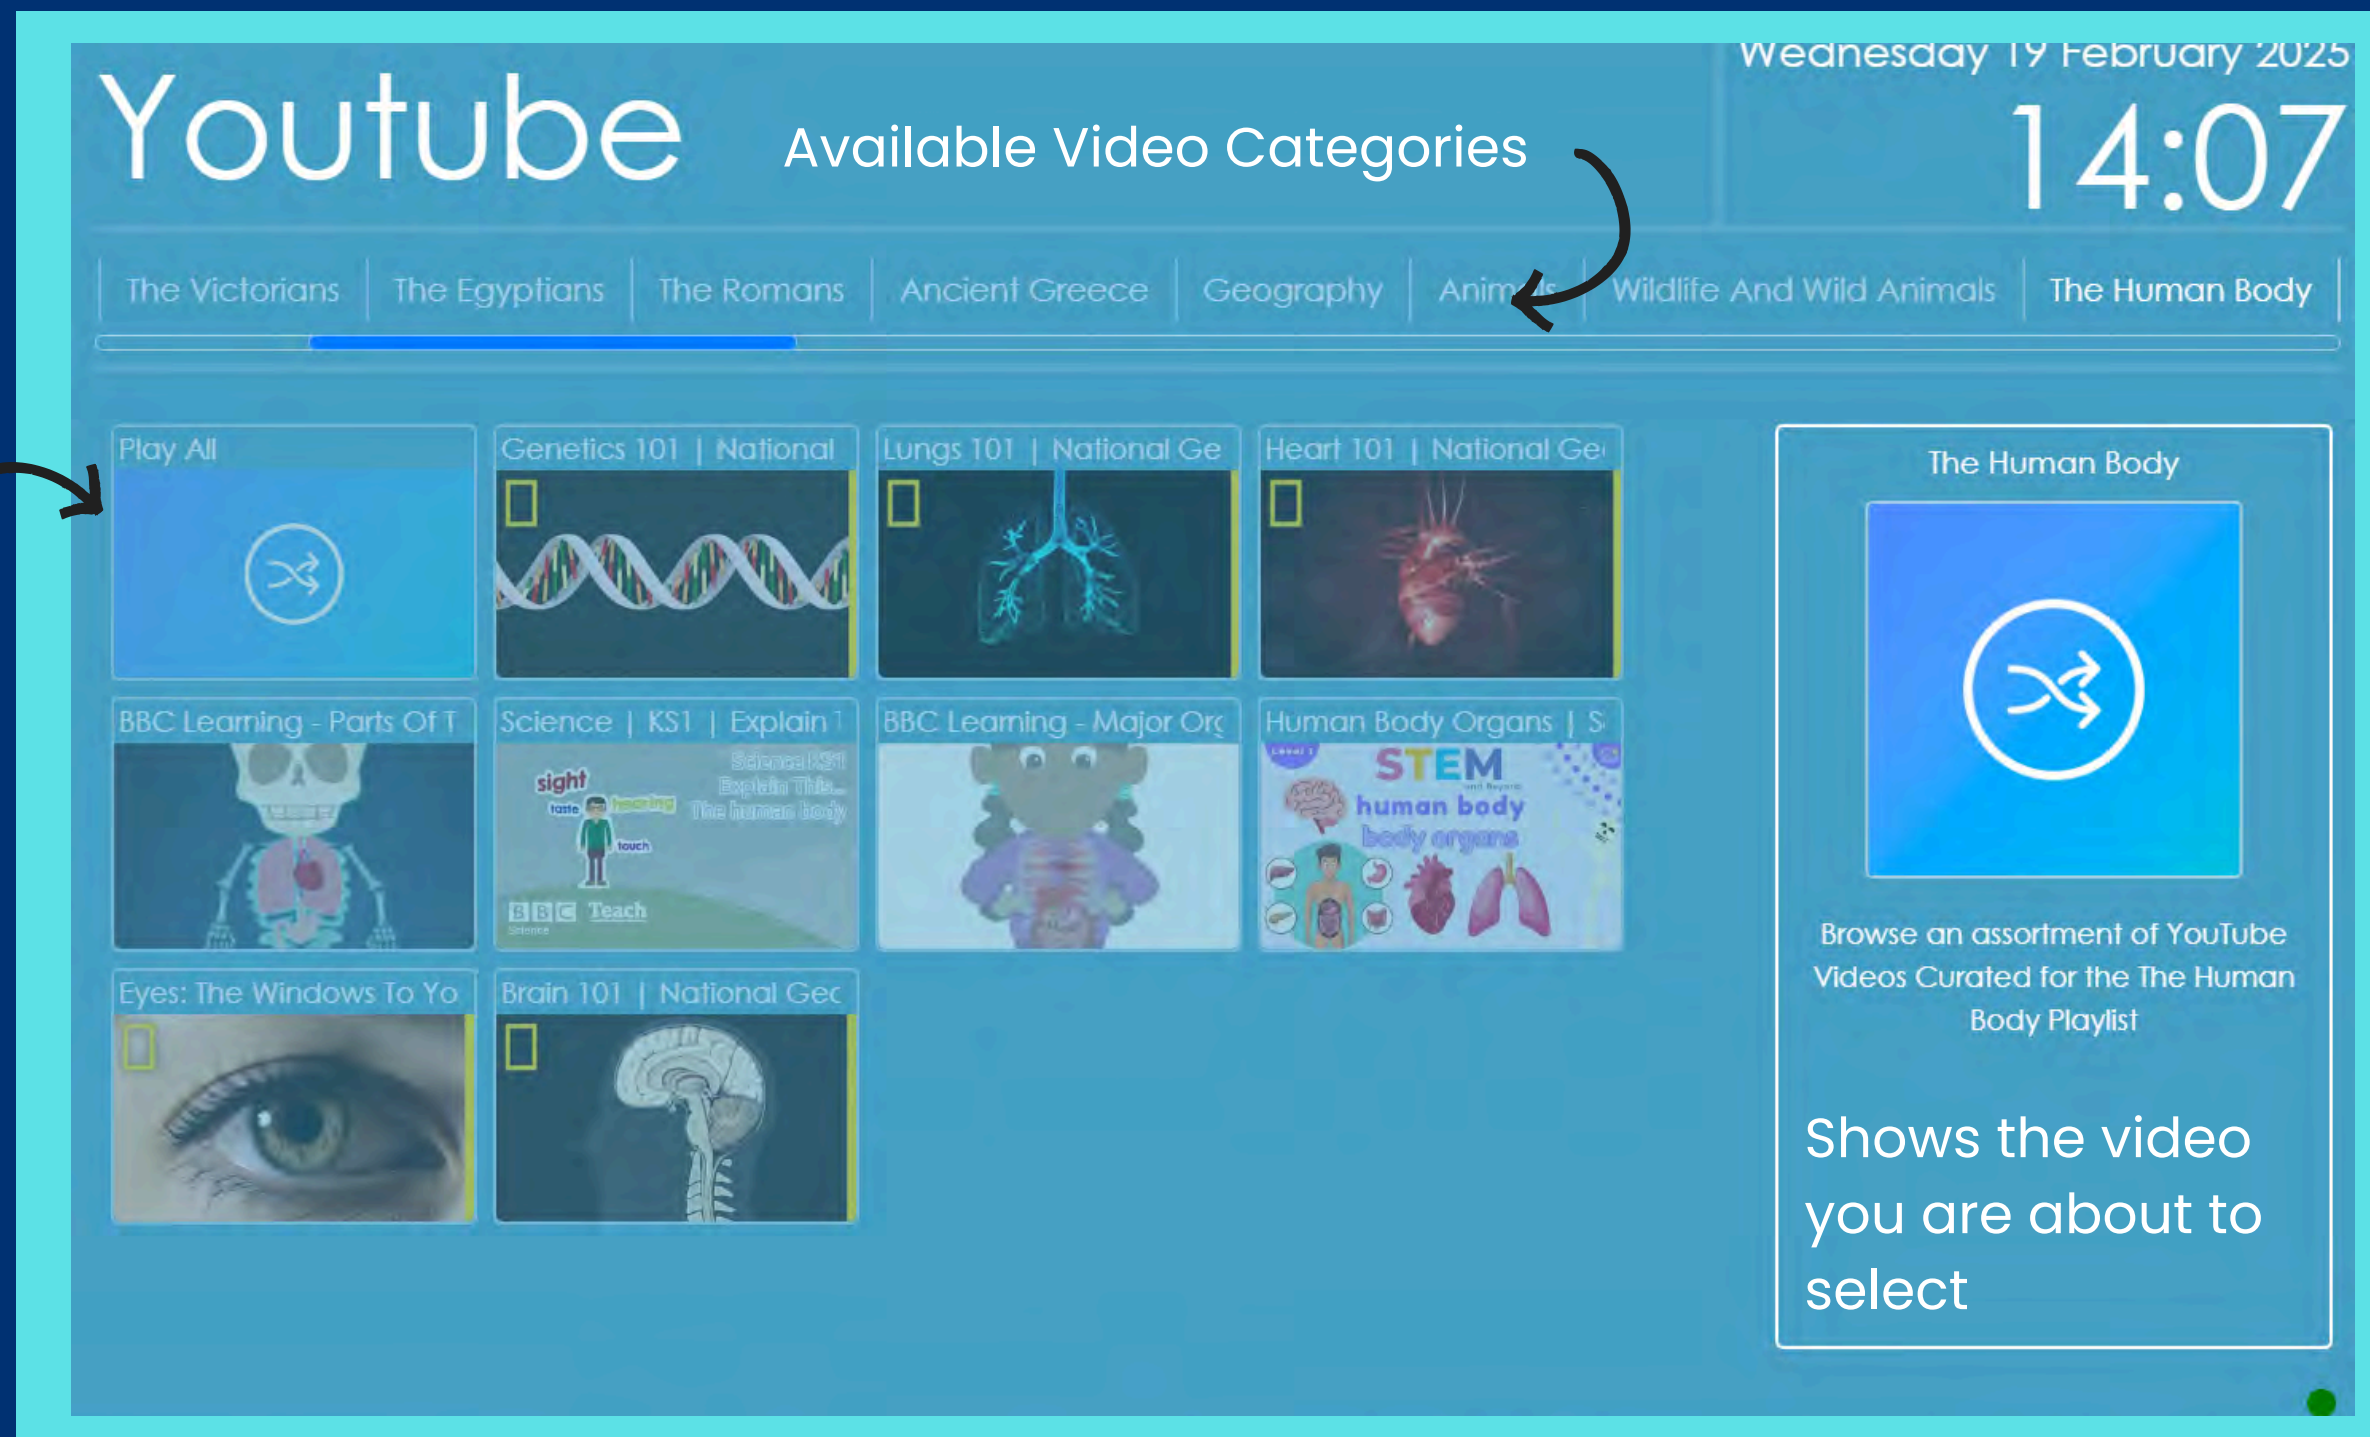

Imagine App

Easily navigate activities and profiles, engaging users and customizing experiences with a user-friendly interface. Use your tablet or mobile for instant control in any learning environment, enhancing smooth transitions and interactions

Chose the relevant topic and a short video or PDF will appear to guide you through the selected topic.

YOUTUBE

Provided you are connected to the internet you will have access to pre selected YouTube videos, these are all non interactive and have been vetted to make sure they are appropriate. There are various categories to choose from educational, relaxation and fun.

Play all videos of this category

EVENT TAB

Provided your machine is connected to the internet you will receive regularly updated content around current awareness days and events such as valentines day, Christmas, Spring, Summer, Wimbledon for example. Once in the event tab you may see more than one event running.

The screenshot shows a user interface titled 'Profiles' with a subtitle 'Available Events or Awareness content'. The date and time are 'Wednesday 19 February 2025' and '14:13'. A navigation bar includes tabs for 'Educational', 'Test Profile', 'Emma', 'Demo Room', 'Training', 'Nuffy Nursery', 'Children's Dental Health Month', and 'LGBT+ History Month'. The 'Children's Dental Health Month' tab is selected and highlighted with a blue bar. Below the navigation bar, there are three event cards: 'Play Children's Dental He', 'Children's Dental Health Month', and 'Dental Health Month Word Search'. The 'Word Search' card displays a grid of letters and the instruction 'Find the words: MOUTHWASH'. To the right, a larger card titled 'Children's Dental Health Month' features a photo of a child being examined by a dentist and the text: 'Discover the range of Imagine activities featured in the Children's Dental Health Month Profile' and 'Shows the activity you are about to select'. A red arrow points from the text 'Play all Content in that event' to the 'Children's Dental Health Month' card. Another red arrow points from the text 'Shows the activity you are about to select' to the same card.

Play all Content
in that event

ACTIVITY WIZARD

The Imagine Suite allows for simple instant activity creation for those who do not wish to use the full Creation Suite.

- Source a USB memory stick
- Create a folder on the memory stick via your desktop or laptop PC and name the folder i.e School Trip to the Zoo
- Copy the photos you wish to use into the folder
- Insert the USB stick into the SENSE Tile
- A new icon will appear called Activity Wizard
- Select this option
- The system will create simple interactive activities with your personal pictures in the background
- when finished remove the USB stick and the images will be removed from the machine.
