

Solidworks Operator

Temporary Vacancy

Rompa has an opportunity for a highly skills Solidworks Operator to join our design team on a short term temporary basis.

This position is ideal for someone who enjoys new experiences and variety in their life! We do need someone who can hit the ground running and work independently.

Primarily, this role is to update and refresh the 3D CAD drawings for our manufactured products, using Solidworks.

The role will also have specific responsibility for:

- Creating detailed drawings, including fixings and joints, utilising existing file libraries or developing bespoke product designs.
- Creating assembly instructions alongside 2D technical drawings for our manufactured products.
- Producing fabrication drawings, bill of materials and cutting lists.
- Documenting all drawings and develop Solidworks templates.
- Assisting in the development of new product designs.

We believe the ideal candidate should possess the following skills and attributes:

- At least 2-3 years' experience working with Solidworks (essential).
- The ability to convert verbal and written information into 3D CAD models and 2D drawings which will then be used during production; accuracy and attention to detail are essential.
- Good communication, numeracy and IT skills are essential.
- Excellent time management skills and ability to work to tight deadlines.
- Be able to problem solve and help find solutions.

Initially, this is a short term temporary role, however for the right candidate, there is potential for the temporary role to be extended.

Rompa is an innovative business consistently producing the very best in new, state of the art products and sensory solutions. Home of the Snoezelen®, Winslow and Older Adults brands, we operate throughout the UK and offer a full installation and mail order service to a varied customer base.

We also have over 50 international partners in our portfolio making us a truly global company.

Our multi-sensory rooms offer wonderful therapeutic care for children and adults with differing levels of abilities. Our rooms nurture the body and are designed to promote sensory modulation and facilitate the learning and practice of stress management. Our specialist rooms are being used in hospitals, health centres, developmental disability units and many other settings all over the country to help improve people's quality of life.

Should you be interested in the above role, please apply to Lisa Wright (lisaw@rompa.com) with a covering letter, CV and current salary details.
