

## 20511

The supplier to ROMPA (and manufacturer) of the **Acrylic Splash Mirror** has supplied a signed statement declaring that the product is manufactured in unbreakable 'METACRILATO' plastic. The mirrors do not contain glass in order to make these very safe for children's centres. They do not contain toxic materials.

All the mirrors are subjected to a rigorous quality control, both in the analysis of the raw material and in the production, handling and packaging process.
