## **Liquid Wheels and Liquid Mood Wheels**

Our supplier has confirmed that the above products adhere to the following specifications:

- All materials are classified non-toxic
- Liquids contained within liquid wheels are food grade coloured with a non-toxic dye
- The water based dyes may cause skin irritation if not washed off
- Liquid wheels are made of glass which may cut if broken
- Small parts may present a risk of choking if swallowed

These products are not toys – they are intended to be placed in a projector wheel rotator by a responsible adult and their use should always be supervised
