## About Rompa®

Rompa® was the original company to bring the concept of Snoezelen® Multi-Sensory Environments to the UK and is the owner of the Snoezelen® trademark. For over 30 years we have helped to improve the lives of people around the world and have built a brand that you can trust.

Our experience is unrivalled - we have designed and installed hundreds of Snoezelen® environments throughout the UK and around the world. We also have a successful mail order and e-commerce arm to the business which has been providing high quality sensory products for many years.

Our vast experience, network of advisors and excellent customer service separate us from other sensory companies. The products and environments we provide can be life changing and we are passionate about making sure that they reach the people that need them.

## Great British Manufacturing

Rompa® is an extremely proud British manufacturer.

A large amount of our product offering is made on site at our Chesterfield premises by our wood, sewing, cutting, assembly, electronics and finishing departments. By producing our own products we ensure that we can guarantee consistent quality and durability.

We know that the materials used have been carefully sourced, and that the items we are supplying to our customers have been produced to the highest standards.

*Improving  
lives for over  
30 years!*

# Meet The Team

## Our Team

Our team of over 60 people includes Researchers, an Occupational Therapist, Product Developers, Purchasers, Craftsmen, Sales Advisors, Designers and Installers. These skilled professionals ensure we remain at the forefront of an evolving sensory marketplace.

## Rompa® National Sales Advisors

Our experienced team of Sales Advisors are available to meet you and discuss your needs in more detail. They are there to listen to your needs and make suggestions to help you to achieve your goal rather than to sell you products. Our advisors have vast amounts of experience and are backed by a support team who bring even more expertise.

## The Rompa® Design Team

Our design team have many years of experience in the creation of bespoke environments from small to large scale projects. A member of our creative design team will manage the design of your project from beginning to completion. Working with your ideas and feedback from our advisor the designer will create an environment that is just right for your needs.

Lots of companies will attach a charge to their design service, Rompa® don't. We want you to choose our design, not because you have paid for it, **but because it's the best.**

## Installations Admin Team

The Installations Admin Team will support you to manage your project from plan to reality. They are the team behind the scenes that will answer your every question and help you to complete your project.

## Our Installation Team

Rompa® has a team of qualified installation engineers. Each installation engineer holds the relevant qualifications to enable them to work without issue on site.

These include:

- ECS/CSCS
- 17th Edition Qualified Electricians
- PASMA
- PAT Testing
- Working at Height
- Manual Handling
- First Aid

Rompa® is also CHAS accredited which means that we work to all relevant health and safety guidelines, both during installations, in the work that we do and the procedures that we follow in our manufacturing facility.

The expertise of the Rompa® Installation Engineers and our management of the entire project (not relying on sub-contractors) means that we can always be confident that we are leaving our customers with a high quality result.

## What We Do?

Our history is in the design and installation of bespoke Snoezelen® Multi-Sensory Environments and Soft Play Environments.

However our capabilities do not end there. Over the years we have developed a wide range of services as research and therapies have become more popular.

Our range of installation services include:

- Snoezelen® Multi-Sensory Environments
- Soft Play
- Environments for Older Adults
- Sensory Integration
- Sensory Gardens
- Calm Rooms / 4R
- Reminiscence Rooms
- Hydrotherapy / Sensory Bathrooms

And many more... Contact us to find out how we can help.

### Our Showroom

Is based at our HQ in Chesterfield, Derbyshire. Our showroom displays our best selling items and gives you a sense of the effects of a Snoezelen® Multi-Sensory Environment, a Soft Play environment and a Reminiscence area.

*Find out  
how we can  
help – call us  
today!*

## How We Work

Designing and installing a Snoezelen® Multi-Sensory Environment doesn't have to be difficult.

Using our 30 years of experience, Rompa® will manage the project for you to ensure that your experience is stress free!

### Contact Us

Call us with your requirements or brief and we will arrange help and a visit if required.

### We'll Meet to Discuss

An experienced Sales Advisor will visit you at an agreed date and time to take measurements of the room and find out more about your needs.

### We'll Design For You

Based on the meeting with our sales advisor we will create a bespoke design taking into account all of your needs.

### We Quote

We will create an itemised quotation for your project so you can understand where your investment is being placed and make amendments if required.

### We Listen

When you are happy with your design and quotation (changes can be made if needed) we agree on the project and you place an order with us.

### We Perform a Site Survey

Our trained installation team will visit the room/area we will be installing into and perform a site survey taking accurate measurements of the area so we can manufacture to the correct specification.

### We Manufacture

Based on the site survey our manufacturing team will produce the items and equipment for your project. The lead time for this is typically 6 weeks. Need it quicker? Contact us to find out if we can produce it sooner.

### We Install

Once made we will agree a time and date of installation – our highly skilled installation team will visit and install your brand new environment.

### We Train

Where possible we will train you immediately after installation. We want to leave you with an environment that you know how to use and maintain.

### We Maintain

Maintenance packages are available and can be tailored to your needs. We will discuss these options with you.

Call or email us to start your project now!

## Frequently Asked Questions

### Q: How much is an installation project likely to cost me?

A: We can work with any budget and have created small Snoezelen® sensory corners as well as large scale bespoke environments. As a guide we advise our customers that an installation project should start at around £5,000 - this is to ensure that you are getting the best value for your money.

### Q: How involved do I need to be?

A: You can be as involved as you want to be! We have been installing these environments for 30 years. We have the expertise in place to manage the project and to make your installation run smoothly.

### Q: I'm not an electrician and have no technical knowledge, I don't understand what you need from me?

A: Don't worry – our experienced installation team can talk to someone within your business directly so you don't need to do anything apart from give us their details.

### Q: I don't understand the benefits of the products and I need to provide evidence?

A: Our highly knowledgeable product team includes a qualified Occupational Therapist who can provide you with reasoning as to why the products have been selected.

### Q: I'm fundraising, can you help?

A: Getting the funds together to bring your installation project to life can be a challenge. Follow this link to find a list of organisations that may be able to help and some other tips: [www.rompa.com/fund-raising](http://www.rompa.com/fund-raising)

### Q: Is there a cost for this service?

A: Our design service is completely FREE of charge! We want you to choose Rompa® because it is the best option for you - not because you have paid for our service.

Over 30  
years of  
experience!

## Snoezelen® Multi-Sensory Environments

Snoezelen® Multi-Sensory Environments are, by nature, relaxing spaces that help reduce agitation and anxiety. However they can also engage and delight the user, stimulate reactions and encourage communication.

The Snoezelen® Multi-Sensory Environment has many benefits and can be used in a variety of ways to provide a range of benefits including...

### Relaxation

Snoezelen® Multi-Sensory products and environments can be used to calm and reduce agitation through the use of gentle light, soothing sound, relaxing smell and touch.

### Stimulation

Snoezelen® Multi-Sensory Environments and products can be used to stimulate users by providing exciting visuals, high tempo music and sounds, invigorating smells and textures to explore.

### Who can they help?

People of all ages and abilities can get benefits from Snoezelen® Multi-Sensory Environments and products.

### Where would I find a Snoezelen® Environment?

Due to their versatility you will find Snoezelen® Environments in a wide range of settings; some will be surprising.

### Therapy

We have been providing Occupational Therapists and health professionals with a Snoezelen® Multi-Sensory tool-kit to provide therapy for over 30 years. From portable resources to bespoke multi-sensory environments we have solutions that can help.

### Development

Snoezelen® can be used as a learning and developmental tool. It can be used for colour matching, understanding of cause and effect, and creating themed environments for teaching.

**FREE**

consultation  
service!

## Soft Play Environments

A Soft Play environment is specifically designed for children and adults with special needs to have fun, explore their physical boundaries and to release energy in a safe environment.

Rompa's design team have 30 years of experience in designing Soft Play environments that are appropriately challenging and fun for the intended users.

### Rompa® Soft Play environments have many benefits including:

- Individually designed and custom made options for person centred care.
- Made from fire-retardant materials and phthalate and latex free vinyl.
- Made in Great Britain at our on-site manufacturing department to the highest standards.
- Easy to maintain – service contracts available.
- Built to last for years of use.
- Can be combined with Rompa® Snoezelen® Multi-Sensory and Sensory Integration products to create a multi-purpose space.
- Built to be sturdy- larger products such as a cabin, steps or wedge include a wooden frame for stability.
- Over 30 years of design, manufacturing and installation experience.
- A choice of densities of the foam filling to meet individual needs.

### Personalising your Soft Play environment:

- Generous range of colours and fabrics available including ultra-violet reactive and printed options.
- Can be themed to match the user's preference from underwater worlds to autumnal landscapes.
- Include lights, safety mirrors, textures and sounds for multi-sensory appeal.

*Call us to  
find out  
more!*

## Sensory Integration

A form of Occupational Therapy utilising sensory experiences from movement, touch, light and sound to strengthen the user's ability to deal with everyday life.

Sensory Integration is effective in addressing challenges associated with autism, dyspraxia and behavioural difficulties in children and adults.

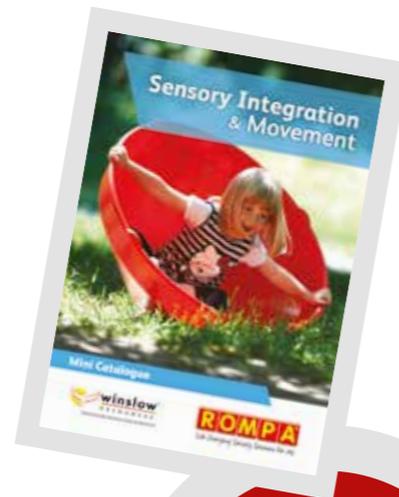

Rompa's Sensory Integration range includes:

- Weighted Vests / Blankets
- Compression / Deep Pressure
- Slides / Scooters & Ramps
- Swings
- Spinning Products
- Bouncing Products
- Balance Boards

And many more...  
Contact us to find out more.

ROMPA® is proud to be the exclusive European provider of therapeutic products from TheraGym®, a leading developer of the highest quality therapy solutions.

## Snoezelen® and Older Adults

Snoezelen® Multi-Sensory Environments and products bring huge benefits to older adults and people with Dementia.

After spending time in a Snoezelen® Sensory Room, residents in the later stages of Dementia show positive changes in mood and behaviour, and also an increase in attention to their surroundings. Staff feel that these improvements help with their relationship with the residents and their daily work.

Dr Lesley Collier  
Snoezelen® Multi-Sensory  
for people with Dementia.

Lesley has a long standing relationship with Rompa® and Winslow®. She has advised us in many areas of the effective use of Snoezelen® Multi-Sensory Interventions for people with Dementia and cognitive impairments.

“ The right level of sensory stimulation helps to relieve stress and boredom; to engage in activity also involves an act of communication that enhances the feeling of comfort and well-being. ”

Dr Lesley Collier, Senior Lecturer at the University of Southampton.

More great products in our older adults catalogue: [www.rompa.com/older-adults](http://www.rompa.com/older-adults)

## Rompa® Reminiscence Rooms

Reminiscing is an enjoyable pastime and useful therapy for older adults and people with Dementia. Reminiscence rooms can provide a flexible space in which to encourage social interaction and offer many other meaningful activities.

Our team can help you to create an environment which feels like it is from another era which can also be transformed into a fully functional sensory room!

We understand that as space can be at a premium in care homes and day centres, you may not always be able to have a Snoezelen® Multi-Sensory Environment and a reminiscence room. We have addressed this problem by combining traditional furniture with Snoezelen® multi-sensory products.

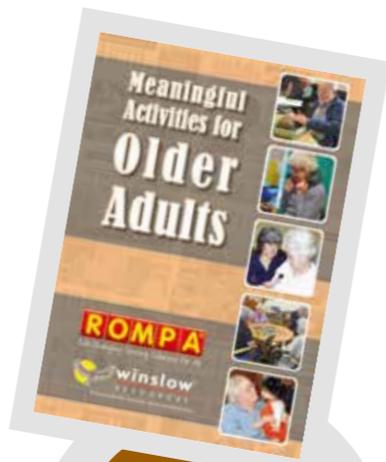

Surrounding people with items that they are both familiar and comfortable with can help to reduce agitation. We have designed and manufactured a completely unique range of furniture which conceals Snoezelen® Multi-Sensory equipment inside.

This gives you the option of providing sensory stimulation when appropriate, providing you with a truly multi-purpose space.

### Meaningful Activities for Older Adults

Our new catalogue is packed full of activities, resources and Snoezelen® sensory solutions for adults of all ages and abilities.

Based around the activities of daily living (ADLs) the catalogue has solutions to help adults as well as age appropriate resources to provide enjoyment. It is perfect for Activity Co-ordinators, relatives and the adults themselves.

more!**

## 4R & De-escalation Rooms

In response to requests from our valued customers, Rompa® has developed the Rest, Recovery & Re-Orientation Rooms, or '4R'.

Designed for demanding environments such as schools with BESD (EBD) students, offenders' institutes and prisons, these custom-made and fully-installed facilities offer a safe environment for those with challenging behaviours and aggressive tendencies. Carefully developed in conjunction with Tony Ryall, an expert in this field, the value of these rooms is becoming increasingly apparent.

In a 4R, clients have the opportunity to calm down, rest, recuperate and recover in a secure, robust, damage-resistant environment for a carefully monitored minimal time. Most importantly, these environments encourage 're-orientation', such as the re-introduction of the person back into their usual environment.

Whilst risk can never be eliminated, these environments aim to significantly reduce risk, the number of potential injuries, exclusions, holding and numbers of staff required.

“ Schools can adopt a policy which allows disruptive pupils to be placed in an area away from other pupils for a limited period, in what are often referred to as seclusion or isolation rooms. ”

*Behaviour and Discipline in Schools -  
Advice for headteachers and school staff.*

*Department for Education - January 2016*

Find out  
more on:  
[www.rompa.com/4R](http://www.rompa.com/4R)

## Hydrotherapy Environments

Water offers a change from the normal environment. It provides pleasure and can have enormous therapeutic value, assisting in relaxation, improving circulation and restoring mobility.

Combine Snoezelen® with water in the bathroom, spa pool or Jacuzzi and add another dimension to sensory stimulation. Create atmosphere using fibre optics, aromatherapy and music. Dim the lights and take sensory experiences to a different dimension.

Rompa® can provide your Water Snoezelen® environment - from a modest bathroom to larger pools. Please contact us for further information.

### Here are some guidelines:

- When introducing equipment designed for either battery or mains use into a Water Snoezelen® environment, obtain professional advice on equipment suitability and installation.
- Under no circumstances should people in the water handle electrical equipment, including items such as speakers and lighting.

## Garden Environments

Rompa® working with Timotay

Established in 1985, Timotay Playscapes have built a reputation for designing and building beautiful sensory gardens and bespoke outdoor natural play environments. Timotay create nature-based, fun places for all to enjoy and pride themselves in providing a one-stop complete solution.

### Design

Our professional Design Consultants will come to you, to assess your site and listen to your ideas and aspirations. Our experienced team will prepare your detailed design and quotation, all tailored to your setting and budget. Our Sensory Gardens have a core ethos of Nature Based Learning and inclusively address issues including sensory, cognitive, visual and auditory impairment.

### Installation

We provide comprehensive project management at all phases of the installation, using our dedicated teams of skilled and qualified craftsman to complete your sensory garden. Timotay offer the complete experience from consultation, through design and installation to after care.

#### Timotay outdoor environments:

- Suitable tactile surfacing
- Sensory zones
- Transition areas
- Soothing & tranquil retreats
- Orientation signage
- Natural & man-made shade
- Fixed & non-fixed play elements
- Role play elements
- Predictable pattern elements
- Horticultural expertise

#### Helping with:

- Physical Therapy
- Social interaction
- Real world environments
- Sensory Integration
- Speech & language
- Motor skills

project!*

## Customer Service

Whatever you need, call 01246 211 777 or email [sales@rompa.com](mailto:sales@rompa.com) to contact a friendly customer service advisor who will help you.

## Additional Training

We understand that the people using your new environment could change over time, or that some of your team may not be available when the initial training session takes place. We do offer refresher courses and other training packages - speak to the sales advisor or call one of our customer services representatives to find out more.

## Service Agreement

Service agreements for your installed environments are available. They are based on each individual environment to ensure best value for money. A quote for a service agreement will be sent out with your main quotation for the environment.

## Warranty Information

We take pride in the manufacture of our products and believe we are the market leaders in regards to quality, price, durability and longevity. It is for these reasons that we are proud to offer a 2 year warranty on all Rompa® manufactured products.

Our experienced installers work to the highest possible standards; using our years of expertise and knowledge of the products, we can equip your room to the desired finish. Therefore installation works undertaken by Rompa® are covered by a 2 year warranty.

*Speak to a  
sales advisor  
for more  
info!*

## Success Stories

### Advent House, Wakefield | Adult Care Facility

“ My Manager phoned Rompa® and arranged a meeting where we could look and try the equipment and experience what our service users would use. We were greeted by friendly knowledgeable staff who showed off their equipment. What a truly fantastic experience it was. We were introduced to Sensory Magic™. The company showed off and championed this equipment - and why not, it is truly a magical piece of kit. I can remember coming out of the experience “buzzing” and daring to ask if we could afford this unique, quality piece of kit. ”

“ The feedback we have received is of admiration of the room and its equipment, not solely from the people who use it but from the support workers, families of service users, commissioners, people who come to do training at the service, the people who regulate us the C.Q.C etc. However, the feedback doesn't just equate as people telling us what they think of it - they keep coming back! ”

*Richard Burton, Registered Manager, Advent House*

### Alan Shearer Centre, Newcastle | Complex Needs

The Alan Shearer Specialist Residential home is specifically designed and staffed to serve the complex needs of people with disabilities and challenging behaviours. Using a person-centred approach, they provide a safe and nurturing setting where disabled residents have free and full use of all the leisure, therapeutic and learning facilities.

“ Really impressed with the Lilac Room. Excellent use of the space available and the equipment and sensory items are fantastic. Nicole enjoyed the comfort of the new Lilac Room. Andrew loved the music, Edward loved it all. Dan says it's brilliant – especially the water bed! ”

*Amanda Head, Manager, Alan Shearer Centre*

## Specialist **Advisors**

Rompa® works closely with a fantastic team of specialists, occupational therapists, universities, parents and caregivers to ensure that any Snoezelen® equipment we provide meets the highest standards required for the needs of the users.

This group of specialists and institutions work independently from Rompa® but have a fantastic amount of knowledge and experience in the field of Snoezelen® equipment and its use. Many run training courses or are more than willing to talk of their own experiences of Snoezelen® and discuss how it could help you.

**Dr. Lesley Collier**  
Senior Lecturer at  
the University of  
Southampton

Lesley's research portfolio includes sensory processing in people with cognitive impairment and the use of multi-sensory stimulation to improve occupational performance.

**Annie Doubleday / Emma Jerman**  
OTs and Owners of senSI

Annie and Emma both studied BSc Occupational Therapy (hons) degree at the University of East Anglia and are Directors of senSI Limited, based in Norwich. They advise us on products and environments that involve Sensory Integration Therapy.

**Pam Swanick / Sharon Urben**  
Positive Play Programme

Derbyshire's Positive Play Programme is designed to help raise the self-esteem of children and young people through structured play in a 'Special Place', incorporating the use of Snoezelen® resources, helping them to access the curriculum and achieve their potential.

**Jo Throp**  
Neurological  
OT and Partner  
of Krysalis  
Consultancy

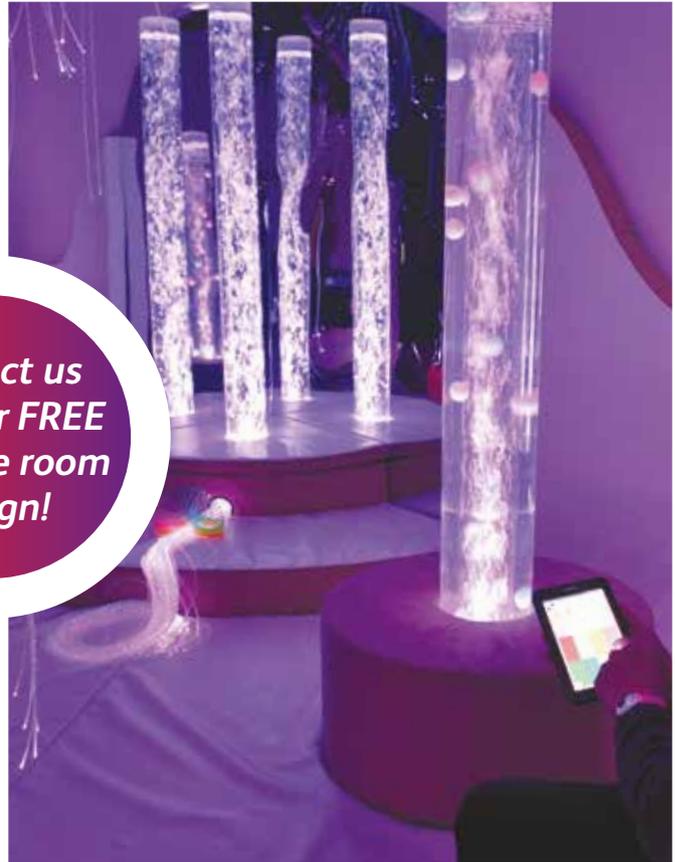

Jo has an in-depth knowledge of a variety of treatment approaches that can be used to maximise the independence of individuals with physical, cognitive, sensory and behavioural problems.
